Introduction

The Raypak Y-200 series modem module provides the ultimate method to communicate with the Y-200 controller and auxiliary equipment.

IMPORTANT SAFETY INSTRUCTIONS

IMPORTANT NOTICE: These instructions are intended for use by qualified personnel who are specifically trained and experienced in the installation of this type of equipment and related system components. Installation and service personnel may be required by some states to be licensed. If your state requires certification, be sure your contractor bears the appropriate license. Only qualified persons shall attempt to repair this equipment. Repair must be according to these instructions.

WARNING: Improper installation, adjustment, alteration, service or maintenance may damage the equipment, create a hazard resulting in asphyxiation, explosion, fire, electric shock, personal injury or property damage, and will void the warranty.

CAUTION: THIS APPLIANCE HAS PROVISIONS TO BE CONNECTED TO MORE THAN ONE (1) SUPPLY SOURCE. TO REDUCE THE RISK OF ELECTRIC SHOCK, DISCONNECT ALL SUCH CONNECTIONS BEFORE SERVICING.

CAUTION: RISK OF ELECTRIC SHOCK. MORE THAN ONE (1) DISCONNECT SWITCH MAY BE REQUIRED TO DE-ENERGIZE THE EQUIPMENT BEFORE SERVICING.

Installation and Set-up

Note: A PCMCIA card might be necessary on some laptop computers for proper operation.

Modem Board Installation

1. Remove power from the Y-200 control.
2. Install the plug-in modem module (P/N 601741) on to connectors "J22" and "J23" as shown on the PCB. (See Fig. #.)
3. Plug an active phone line into "PJ1" on the modem board. (See Fig. #.)
4. Record the phone line number: _____.
5. Restore power to the Y-200 control.

Computer Preparations and Dialing

1. From the  menu, choose *Programs, Accessories, Communications, HyperTerminal*. (Make sure the **Caps Lock** is turned off when using *HyperTerminal*.)
2. In the Connection Description window, select a name and icon for the connection and select OK. (See example in Fig. 1.)

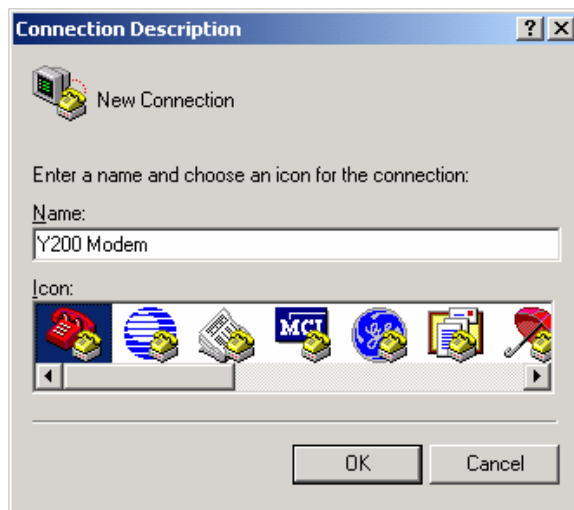

Fig. 1

3. In the Connect To window, enter the area code and phone number (no spaces, hyphens, etc.) then select OK. (See Fig. 2.)

Fig. 2

If you have call waiting on your phone line, enter *70 before the number. This will temporarily turn off call waiting for the time your modem is connected.

4. In the Connect window, modify the number and the dialing propriety if necessary.
5. In the Connect window, click on the dial button to dial the number.
6. As soon as the computer makes a connection, **"Enter Password:"** appears on the screen. (If it does not prompt you for a password try typing the "U" key or disconnect and try again till it does.)
7. Type **"Y200"** and <Enter>. (This password can be changed on the Y-200 display window #29.)
8. The first Y-200 display window (#1) of the Y-200 will be placed on the screen.
9. You can now operate or setup the Y-200 remotely, with the exception of **screen # 30** which **is programmed at the Y-200 control only**. If you attempt to reprogram screen #30 remotely the Y-200 will kick you off line.

Dialing into the Y-200 Programming Keys and Operation

1. The "U" key takes you up through the screen displays and in the program mode changes the character above the cursor scrolling up.
2. The "D" key takes you down through the screen displays and in the program mode changes the character above the cursor scrolling down.
3. The "P" key puts you into the program mode.
4. The "M" key takes you out of the program mode.
5. The "<" key moves the cursor to the left.
6. The ">" key moves the cursor to the right.
7. Now you can program or set up the Y-200 remotely.
8. To get into the password-protected windows above #19 you must go to window #19 then type "P" then "M" then use the "U" and "D" keys to scroll through screens #20 through #33.

Dialing out from the Y-200 Computer Preparation

1. Activate the HyperTerminal on your computer
2. Type "AT" then <Enter>.
3. You should see the "OK" on your computer screen.
4. Type "ATS0=1" <Enter>.
5. You should see another "OK" on your computer screen. (Computer answers on one ring).
6. The computer is now set up to receive calls from the Y-200 when there is an alarm condition.
7. The same thing can be accomplished by clicking on the "Call" and then on the "Wait for a call" button in the Hyper Terminal window.

Dialing out from the Y-200 (Alarm Notification) Programming and Operation

1. To program in the phone number the Y-200 should notify in case of an alarm condition:
 - a. Go to screen #30 (ON THE Y-200 CONTROL ONLY).

- b. Go into the program mode and enter the phone number by using the keypad up or down and left or right arrows.
 - c. If you program in too many numbers and you want to erase the extra numbers, insert a "#" sign after the last number you want to keep. To verify, exit the program mode and screen #30 and then go back to screen #30. The # sign indicates the end of phone number.
 - d. Up to 16 numbers can be stored.
2. To program in the Alarm Call ID:
 - a. Go to screen #31.
 - b. Enter the ID code of the Y-200 location.
 - c. If you program in too many characters and you want to erase the extra characters, put the "#" sign after the last number you want to keep. To verify, exit the program mode and screen #31 and then go back to screen #31. The # sign indicates the end of the ID code.
 - d. Up to 16 numbers or letters can be stored.
3. To program the Alarm Call Retry:
 - a. Go to screen #32.
 - b. Program in the number of times you want the Y-200 to try and call out when there is a fault condition (00 to 20).
 - c. Modem activity is also displayed
4. To program the Alarm Call Event:
 - a. Go to screen #33.
 - b. Program in the alarm conditions you wish to be enabled. The cursor appears under the first "A" when in the program mode.
 - c. Screen will change to an alarm condition and at the end it will show whether it is in the Enable or Disable condition.

LIMITED WARRANTY
Y-200 Modem Module
for Y-200 Series Electronic Boiler Sequencer
& Outdoor Reset Control System

SCOPE OF WARRANTY

Raypak, Inc. ("Raypak") warrants to the original owner the Control System to be free from defects in materials and workmanship under normal use and service for the applicable warranty period. In accordance with the terms of this Limited Warranty, RAYPAK will furnish a replacement or repair, at our option, any defective part which fails in normal use and service during the applicable warranty period. The replacement or repair will be warranted for only the unexpired portion of the original Warranty Period.

APPLICABLE WARRANTY PERIOD

The effective date of warranty coverage is the date of original installation, of the Control System, by a qualified electrician or by a RAYPAK authorized service technician. The Applicable Warranty Period is one (1) year from the effective date.

WARRANTY EXCLUSIONS

This Limited Warranty does not apply:

1. If the control system is not properly installed by a qualified technician in accordance with manufacture's installation instructions, applicable codes, ordinances and good trade practices;
2. To damage or malfunctions resulting from failure to properly install, operate or maintain the system in accordance with the manufacture's instructions;
3. If the rating plate(s) or serial number(s) are altered, defaced or removed;
4. If the System is modified in any way or used with any non-factory authorized accessories or components;
5. To damage or failure from abuse, accident, act of nature, fire, flood, freezing or the like;
6. To accessories, rubber or plastic parts, light bulbs or glass parts;
7. If the System is moved from its original installation site; or if the original owner no longer owns the site or the System.

LABOR AND SHIPPING COSTS

This Limited Warranty does not cover labor costs for service, removal or reinstallation of any part nor shipping charges to or from RAYPAK'S designated repair center or to or from the installation site. All such costs are your responsibility.

HOW TO MAKE A WARRANTY CLAIM

To make a warranty claim, promptly ship (postage prepaid) or carry the defective part to a designated RAYPAK Service Dealer or Service Station in the United States, supplying proof of purchase and date of installation and the model and serial numbers. If you cannot locate a dealer, contact RAYPAK'S Service Department at the address/telephone listed below. Raypak reserves the right at all times to inspect the claimed defect and verify warranty coverage at its factory.

EXCLUSIVE WARRANTY - LIMITATION OF LIABILITY

This is the only warranty given by RAYPAK. No one is authorized to make any other warranties on Raypak's behalf. **ANY IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL NOT EXTEND BEYOND THE APPLICABLE WARRANTY PERIOD SPECIFIED ABOVE. RAYPAK'S SOLE LIABILITY WITH RESPECT TO ANY DEFECT SHALL BE AS SET FORTH IN THIS LIMITED WARRANTY. ANY CLAIMS FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING DAMAGE FROM WATER LEAKAGE) ARE EXCLUDED.** Some states do not allow limitations on how long an implied warranty lasts, or for the exclusion of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

We suggest you immediately complete the information below and retain this Limited Warranty Certificate in case warranty service is needed.
