## EN/E

It is important to read this instruction prior to using your new product for the first time. Es importante leer este manual antes de usar por vez primera su equipo

## Important information

#### Precations

 This compact disc player uses a laser to read the music on the disc. The laser mechanism corresponds to the cartridge and stylus of a record player. Although this product incorporates a laser pick-up lens, it is completely safe when operated according to directions. • Discs rotate at high speed inside the player. Do not use damaged, warped, or cracked discs. • Do not touch the pick-up lens which is located inside the disc

compartment. To keep dust from collecting on the pick-up lens, do not leave the compartment door open for an extended period of time. If the lens becomes dirty, clean it with a soft brush, or use an air blower brush designed for camera lenses

FCC information This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device generates and uses radio frequency (RF) energy, and if not installed and used properly, this equipment may cause interference to radio and television reception. If this equipment does cause interference to radio or television reception (which you can determine by turning the equipment off and on), try to correct the interference by one or more of the following measures: Reorient the receiving antenna (that is, the antenna for the radio or television that is "receiving" the interference). · Move the unit away from the equipment that is receiving interference. Plug the unit into a different
