## The TruFlat™ Tube Difference

**TruFlat™ tube design reduces peripheral screen reflections by over 60%.**

TruFlat models reduce the reflected image field by greater than 60% compared with standard tubes, while allowing a totally visible screen, even when viewed off-axis. This means placing the television in your home just became easier. Viewers sitting off-angle now see less reflection, less glare, and all viewers have a wider viewing angle allowing the entire screen to be seen.

Using specialized phosphors and improved circuitry, detail clarity with any TruFlat model, particularly with DVD images, adds on-screen realism. Combined with RCA's new Cross-Bridge Unified Chassis designs, modern cabinets, and the latest sound enhancement systems, TruFlat technology will amaze.

**The TruFlat™ design offers a wider effective viewing area from any angle.**

### TruFlat™ Engineering Performance

RCA engineers developed an extensive quality control and evaluation program for the new TruFlat models. Using RCA worldwide research and development personnel, a new comprehensive test program was developed for each TruFlat model. As further support for the quality, a limited one year parts and labor warranty\* is provided with all TruFlat models, 20" and larger.

\*Please see RCA dealer or visit [www.rca.com](http://www.rca.com) for complete details.

## Sound

- **Front-Fired Speaker System**  
Front-fired frequency drivers provide excellent imaging while localizing voices at the screen.
- **MTS Broadcast Stereo Reception**  
Receive and record stereo sound from MTS (Multichannel Television Sound) stereo TV broadcasts, where available.
- **Second Audio Program (SAP)**  
Decodes the second audio program available on some broadcasts.
- **Separate Bass/Treble Control**  
Customize audio sound output to specific room environment or personal preference via on-screen menu adjustment.
- **Dolby Digital<sup>2</sup> Compatible/DTS<sup>2</sup> Compatible**

## Remote

- **Universal Remote CRK76TW1**  
Provides complete TV/DVD operation plus control of the primary functions of many brands of remote-controllable VCRs and cable boxes, and RCA®-DIRECTV™ Systems.

## Convenience

- **GUIDE Plus+ GOLD<sup>1</sup> Interactive Program Guide**  
Find out What's On! The GUIDE Plus+ GOLD<sup>1</sup> Program Guide is a FREE, built-in service that provides instant listings of all your TV shows at the touch of a button. View listings up to seven days in advance and enjoy the capability of One-Touch Recording to your VCR. And, you can check out up-to-date national and world news stories from MSNBC in the News Guide. Comprehensive coverage includes business, sports, and entertainment news.
- **Trilingual On-Screen Display**  
Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).
- **On-Screen Menu System**  
On-screen displays make it easy to adjust most picture, sound, and convenience features from the remote control.
- **Dark Glass**
- **Wake-Up Timer/Sleep Timer/Off**
- **Caption Vision  Closed Caption Capability<sup>4</sup>**  
Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).
- **Advanced Auto Channel Search**  
Then system automatically scans for and locks active channels into channel memory.
- **Programmable Timer System**  
Convenient scheduling system can be used in a variety of ways:
  - **Sleep Timer**  
Automatically turns off the TV after a preset time period—for those times when you drift off to sleep in front of the television.
  - **Alarm Timer**  
Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.

## DVD Capabilities

- **On-Screen Displays Available in English, French, or Spanish**
- **Compatible with Music CDs**  
Totally compatible with your current CD collection and offers similar playback features.
- **D/A Conversion**  
High-quality digital signal processor eliminates digital artifacts providing smooth gradations and transitions of video images.
- **Frame-by-Frame Advance**  
View each forward frame individually forward and reverse.
- **Intelliseek<sup>®</sup> Scan Modes**  
Exceptionally clear pictures in fast, slow, forward and reverse motion playback. 3, 6, 15, 30, 60X speeds allow for immediate scanning to any point in the disc. 1/2, 1/6, 1/12X slow motion forward and reverse speeds allow for fine-tuning scanning.
- **Multi-Language/Subtitle Capability<sup>5</sup>**  
DVD discs can support up to eight different audio languages, 32 different subtitle tracks and closed captioning.
- **CD-R/MP3 Playback Compatibility**  
Incorporates the newest electronic software to allow wider compatibility with CD-R and MP3 audio playback. With many MP3 discs encoded with more than two hundred songs, this RCA engineered system provides quick access combined with low-noise decoding.
- **Low Noise Pre-Amplifier**  
100% of all incoming and outgoing audio and video must travel through pre-amplifiers. A poor design can cut performance significantly, even if high-quality camcorders and DVD equipment are connected. Stressing compatibility and performance, RCA engineering design assures both audio and video noise is minimized. With distortion reduced, pre-recorded movies sound richer, clearer and more distinctive. Visually all movies, including home movies copied from high-quality camcorder tapes, playback with added performance and quality.
- **Specialized MP3 Audio Data Screens and Menu Guides**  
MP3 technology is a significant upgrade in DVD players, allowing audio playback of personalized and custom strings of music. New on-screen data screens can provide the specific title and singer playing, and allow fast and easy changing to other songs and data.

## Connections

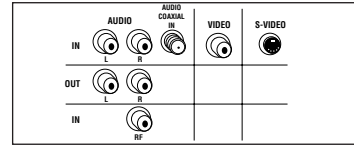

- Front and Rear Audio/Video Inputs**  
 Allows quick, easy access for direct audio and video connections for additional VCR, video game or video source.
- Coaxial Audio Output**  
 Allows compatibility with surround sound systems and amplification systems providing optimum performance and low noise.
- Headphone Jack**  
 Listen privately with optional earphone or headphones.
- Fixed Audio Outputs**  
 Connect TV to an external AV receiver or power amplifier to create a true home theater setup.

- S-Video Input**  
 Direct Y/C input connects TV to compatible S-Video source (e.g. DVD player, RCA®-DIRECTV™ System, S-VHS, VCR/Hi8 VCR/ Camcorder, or Internet set-top device) for improved clarity.
- G-LINK<sup>1</sup> Connector**  
 The G-LINK<sup>1</sup> connector allows the GUIDE Plus+ GOLD<sup>2</sup> Program Guide work with your VCR (enabling one-touch record) and/or cable box (ability to tune directly to a station when the program guide is on your TV screen).
