## DESCRIPTION

The i700B is the industries most trusted dental steam cleaner. The i700B has been designed from the ground up to deliver superior quality steam, and provide the best possible user experience.

The i700B offers a quick, efficient way of cleaning away left over wax, plaster waste and other debris, and for polishing the final product.

Reliable™ understands that the quality of a steam cleaner is only as good (no matter how nice it looks) as what is inside it. This is why we use the best components available; 12-gauge wiring throughout, a ceramic (not plastic) terminal block, Ranco pressure control and an all stainless steel steam tank to eliminate the chance of rust.
