Pedometers

Track the progress of your walking, running or fitness program! Analyze your performance in several ways with accuracy, reliability and ease of use.

RECREATIONAL AND
GENERAL USE

M309

DAILY & TOTAL STEP COUNTER

NEW

Counts up to 10,000,000 steps! This rugged step counter accurately keeps track of your daily and accumulated totals.

Easiest to use pedometer ever! Simple one button operation accurately counts the number of steps you have taken today, this week or this month...up to ten million steps!

- Automatically counts the number of walking steps or running strides you have taken
- Displays your daily step count total
- Automatically accumulates your total step count up to 10 million steps
- Five (5) step movement sensor filters out irregular results
- Automatically powers ON/OFF to conserve battery
- Extra large display; flip down design so results look up at you
- Daily & accumulated step count totals are displayed
- Long life CR-2032 lithium battery; one year warranty

M319-3D

MOTION SENSOR ACCELEROMETER

NEW

Purple and Blue

Wear it anywhere — in your pocket, purse or backpack. Solid state dual axis motion capturing technology accurately reports results.

100% Solid State — No moving parts — 7 Day Memory Recall

These advanced step counters rely on inertial sensors and sophisticated software to detect steps. The sensors have 2-axis detection of acceleration. The use of inertial sensors permits more accurate detection of steps and fewer false positives.

- Accurately counts steps taken up to 100,000.
- Measures distance traveled.
- 7 day memory recall of results.
- Shows multiple results together.
- Automatically times time spent walking, running or hiking.
- Calculates calorie expenditure.
- Large digits make results easy to read.
- CR-2032 lithium battery; one year warranty.

M329

MODE-SCANNING Pedometer

NEW

Perfect for walking, running or hiking — scans each function so you can see your progress while keeping your hands free.

Accurately and reliably records and displays your walking and running results so you can track your progress in several ways.

- Counts the number of walking steps or running strides you have taken.
- Closed cover/lid for privacy.
- Measures distance traveled in miles or kilometers.
- Automatically scans and displays several functions for hands free operation.
- Five (5) step movement sensor filters out irregular results.
- Automatically powers ON/OFF to conserve battery.
- Extra large display; Flip down design so results look up to you.
- Step Counter; Distance; Calorie Consumption Calculator; Auto Mode Scanning; Activity Timer; Time of Day.
- Long life CR-2032 lithium battery; one year warranty.

Tips for getting the most accurate results from your pedometer:

- 1) Everyone has a different stride or gait (manner of walking). Position the pedometer on your pants or belt near the crease line in your pants. Walk or run 50 to 100 steps, then look at the step counter. If the number is high or low, try positioning the pedometer closer to your side.

RECREATIONAL AND
GENERAL USE

Pedometers

Track the progress of your walking, running or fitness program! Analyze your performance in several ways with accuracy, reliability and ease of use.

M319

DUAL DISPLAY — MEMORY PEDOMETER

Actual Size

NEW

Track your progress in several ways — with 7 day memory recall — displays 2 functions at once.

Simultaneously displays Step Counter with other important results. Track your results Daily or Accumulated over time.

- Accurately counts steps taken up to 100,000.
- Measures distance traveled.
- 7 day memory recall of results.
- Shows multiple results together.
- Automatically times time spent walking, running or hiking.
- Calculates calorie expenditure.
- Large digits make results easy to read.

Translucent Carrying and Storage Case can accommodate 12 step counters or pedometers to comprise a class pack. It's easy to check and make sure all are returned.

**GROUP
COLORS**

Orange Yellow Green Red Blue Purple

Select Robic M319 Six Color Prepack #77509 or specify individual colors as needed.

A fold-over front case design for privacy and protection. A heavy duty clip attaches securely to clothing.

Cr-2032 lithium battery; one year limited warranty.

Thoughtful design features such as Sensitivity setting option adjusts to your personal stride, extra large digits for easy reading and an easy access battery compartment are included in the Robic M319 pedometer.

- 2) Keep the pedometer as level, parallel to the ground, as possible. Do not angle or dangle the pedometer.
- 3) When calculating Stride Length, take as many steps as possible to increase accuracy.
- 4) Where the pedometer has a cover, always keep it closed except when you stop to view the display.
- 5) Never expose your pedometer to dust, rain, humidity, severe shock or submerge it in water.
