Rosewill®

## Quick Installation Guide
5 port Giga Switch RC-409X

Thank you for purchasing the RC-409X, a 5-port 10/100/1000 Gigabit desktop switch which is suited for SOHO and enterprise users seeking pain-free, plug-and-play Ethernet connectivity. The RC-409X delivers rich features, high performance, and extreme reliability in a cost-effective, space-saving design. The plastic housing provides a light-weight and user-friendly touch compared to metal casing, and the sleek and compact design of the RC-409X saves space while serving thermal needs. This is a perfect solution for high-speed connectivity. Please follow the three steps below in order to connect the RC-409X to your network.

Rear Panel

LAN Ports   DC Connector

Front Panel   Activity LED

Gigabit Switch   Link/ Activity   1000Mbps

Power LED   Connection LED

Step	Label	Description
1	LAN Ports (1 – 5)	Use an Ethernet cable to connect each port to a computer on your Local Area Network (LAN).
2	DC Connector	Use the power cable and connect the adapter to the power socket on the wall, and the DC inlet into the DC connector.
3	Connection LED	This LED will light up once an Ethernet cable is connected to one of the LAN ports
4	Activity LED	This LED will light up once an Ethernet cable is connected to one of the LAN and the network is generating traffic.
5	Power LED	This LED will light up once the power cable is connected to the DC connector.

Thank you for purchasing a quality Rosewill Product.
