Quick Guide To Using SVR-1650/1640/950

RECORDING FUNCTION

SAMSUNG DVR provides several different recording methods. You can easily select and set any recording method that is most suitable for your environment or needs.

1. Motion Sensor Recording

SAMSUNG DVR can detect any motion on its screen and initiate recording automatically.

Key Button

Select MENU ▶ Event Setup ▶ Event

• Event Time: always select

2. Manual & Event Recording

SAMSUNG DVR can be set to use Manual Recording Method(recording preset number of frames per second) and Event Recording Method(recording triggered by an event on the screen) simultaneously.

Step 1: Set Manual & Event Recording mode

Key Button

Select MENU ▶ Record Setup ▶ Record

• Recording mode: select Manual & Event
• Program: select Program (A~T)

Step 2: Select Record Program

Key Button

Select MENU ▶ Record Setup ▶ Record Program

• Set recording of Manual & Event (N, E) /
  Recording Mode(Q)

* You can select the Manual & Event Recording Mode suitable for your environment
  and use one of the 20 basic programs. (Default mode: program K)

3. Scheduled & Event Recording

SAMSUNG DVR can be set to perform recording functions according to a preset date/time schedule using its Scheduled Recording Mode.

Step 1: Select Scheduled & Event Recording

Key Button

Select MENU ▶ Record Setup ▶ Record

• Recording Mode: select Scheduled & Event
• Scheduled Recording: select **>>**

Step 2: Set Schedule Recording

Key Button

• Index: 1~50 different programs can be set
• Day: designate recording date
• Program: select a recording program (A~T)
• Time: designate recording time
• Set: select **APPLY** or **DELETE**

*You can use the [+] [-] buttons or your mouse wheel to set this:
 the graphic on your screen only shows Record setting status.
4. Copy (Back-up)

HDD content can be stored in other storage medium including DVD+RW, CD-RW and USB memory stick.
Press COPY Button

COPY Select

USB memory stick

DVD+RW/CD-RW

1. Press COPY button after inserting a storage device
2. Go to COPY menu
3. Select Normal or Quick menu
   (Before COPY, Use DVD+RW/CD-RW after executing the DVR Format menu)

Caution : Using authentic and new media products is recommended. If DVD+RW or CD-RW is over a long period of time, errors may occur.

* Recommended media
• DVD+RW   : Mitsubishi, TDK, imation
                (1~4X recommended)
• CD-RW   : Mitsubishi, TDK, imation
                (4~12X recommended)
• USB memory stick : SanDisk, Transcend
                (512MB recommended)
