

WELCOME TO THE WORLD OF SANYO

Thank you for purchasing a Sanyo Multimedia Remote Control. You made an excellent choice for Performance, Reliability, Value, and Styling.

Model RMT-U340

6-Function

Multimedia Remote Control

Owner's Manual

Need assistance? Visit our web site at www.sanyoctv.com.

BEFORE YOU BEGIN

Installing The Batteries

- Step 1.** Release the battery cover by pressing the tab. Then tilt the cover upward.
- Step 2.** Install two "AAA" batteries as shown. Be sure to match the +/- signs on the batteries with the +/- marks inside the case.

Note: **Do Not** mix new and used batteries or mix different types of batteries together.

Press tab and tilt battery cover up.

IMPORTANT NOTE: SPENT OR DISCHARGED BATTERIES MUST BE RECYCLED OR DISPOSED OF PROPERLY IN COMPLIANCE WITH ALL APPLICABLE LAWS. FOR DETAILED INFORMATION, CONTACT YOUR LOCAL COUNTY SOLID WASTE AUTHORITY.

PROGRAMMING THE REMOTE CONTROL

- Step 1.** Find your TV, VCR, DVD, Cable Box, and Satellite Receiver brand codes in the charts on pages 3 ~ 7.
- Step 2.** Press and hold the TV, VCR, CABLE, DVD, SAT (Satellite), or AUX (Auxiliary) mode key while entering a three-digit code number. Then release the mode key.

If the code was accepted, the **Activity Lamp** will flash 5 times after the **Mode** key is released. If you entered an invalid code, the **Activity Lamp** will *not* flash. Check the code number and repeat Step 2.

The **VCR**, **TV**, **Cable Box**, **DVD**, and **Satellite** modes will accept only each mode's specific code type.

The **AUX** mode will accept all code types, but only one code at a time.

Perform Steps 1 and 2 for each piece of equipment you have. After entering each code number check the unit's operation by pressing the **Power** and/or **Channel** keys. If these keys operate your equipment, you have probably entered the correct code number for that device. If not, follow Steps 1 and 2 and enter another code, if available.

After you have programmed the remote control and confirmed its operation, enter your codes in the spaces provided below for easy reference.

VCR CODE	<input type="text"/>	SATELLITE CODE	<input type="text"/>
TV CODE	<input type="text"/>	DVD CODE	<input type="text"/>
CABLE BOX CODE	<input type="text"/>	AUX CODE	<input type="text"/>

OPERATING TIPS AND TROUBLESHOOTING HINTS

- To operate each device (**VCR**, **TV**, **Cable Box**, **DVD Player**, or **Satellite Receiver**), you must first program the remote control; then press the proper mode key (**VCR**, **TV**, **CABLE**, **DVD**, **SAT**, or **AUX**) to select an operating mode. The **VCR**, **TV**, and **DVD** modes are preprogrammed with Sanyo codes.
- Some manufacturers use many different codes. If your brand of equipment has more than one code listed, try programming your remote with the different available codes until you locate the correct one for your device.
- There may be **VCRs**, **TVs**, **DVDs**, **Cable Converter Boxes**, and **Satellite Receivers** that this remote control cannot operate. Some models may operate only partially.
- Codes will remain in memory for five minutes as you replace batteries.
- Remove batteries from the remote control if it will not be used for a month or more. Weak batteries may leak and damage the remote control.
- This remote control uses an invisible (infrared) beam of light to operate the equipment. Objects between the equipment and the remote control can block the beam of light. Therefore, the remote control must be pointed directly at the equipment you want to operate.
- This remote control *cannot* add keys or features to your equipment. Your equipment's manufacturer must have originally provided them.
- When switching from the **VCR** or **DVD** mode to the **TV** mode, the **VCR/DVD** specific control keys will continue to operate the last device (mode) selected. For example, when switching from **DVD** to **TV** mode, the **VCR/DVD** control keys will continue to function as **DVD** keys.
- Replace the batteries if the remote control fails to operate any of your equipment. Be sure to install batteries correctly.
- Many of the remote control keys are multi-functional. Refer to the chart on the inside of the carton for a brief description of the keys and their functions. Refer to your original operating manuals for specific feature operation.

BIENVENUE DANS L'UNIVERS DE SANYO

Nous vous remercions d'avoir acheté un télécouleur Sanyo. Vous avez fait un choix excellent du point de vue du fonctionnement du style, de la fiabilité et du rapport qualité/prix.

BEFORE YOU BEGIN

Installation del plies

Step 1. Release the battery cover by pressing the tab. Then tilt the cover upward.

Step 2. Install two "AAA" batteries as shown. Les signes + et - des piles doivent correspondre à ceux de l'intérieur de la télécommande.

Press tab and tilt battery cover up.

Remarque : N'utilisez pas en même temps des piles usagées et des piles neuves ni des piles de types différents.

PROGRAMMATION DE LA TÉLÉCOMMANDE

Étapes 1. Look in the codes chart for your TV, VCR, DVD, Cable Box, and Satellite Receiver brand codes.

Étapes 2. Press and hold the TV, VCR, CABLE, DVD, SAT (Satellite), or AUX (Auxiliary) mode key while entering a three-digit code number. Then release the mode key.

If the code was accepted, the Activity Lamp will flash 5 times after the Mode key is released. If you entered an invalid code, the Activity Lamp will not flash. Check the code number and repeat Step 2.

Les modes VCR, TV, CABLE, DVD, et SAT accepteront seulement des codes de type.

The AUX mode will accept all code types, but only one code at a time.

Passez par les étapes 1 et 2 pour chaque appareil que vous avez. Après avoir composé le numéro de code, vérifiez le fonctionnement de l'appareil en appuyant sur les touches POWER et-ou CHANNEL. Si ces touches font fonctionner votre équipement, vous avez probablement composé le bon numéro de code pour cet appareil. Sinon, reprenez à l'étape 2 et entrez un autre code s'il y en a de disponible.

Après avoir programmé la télécommande et vérifié son fonctionnement, inscrivez vos codes dans les boîtes données ci-dessous afin de pouvoir y faire facilement référence.

TV Code :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Code magnétoscope :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Code boîte de télé par câble :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Code de lecteur de vidéodisque :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Code récepteur de satellite :	<input type="text"/>	<input type="text"/>	<input type="text"/>
Code auxiliaire :	<input type="text"/>	<input type="text"/>	<input type="text"/>

NOM DU DISPOSITIF ICI

OPERATING TIPS AND TROUBLESHOOTING HINTS

- To operate each device (VCR, TV, Cable Box, DVD Player, or Satellite Receiver), you must first program the remote control; then press the proper mode key (VCR, TV, CABLE, DVD, SAT, or AUX) to select an operating mode. The VCR, TV, and DVD modes are preprogrammed with Sanyo codes.
- Some manufacturers use many different codes. If your brand of equipment has more than one code listed, try programming your remote with the different available codes until you locate the correct one for your device.
- There may be VCRs, TVs, DVDs, Cable Converter Boxes, and Satellite Receivers that this remote control cannot operate. Some models may operate only partially.
- Codes will remain in memory for five minutes as you replace batteries.
- Remove batteries from the remote control if it will not be used for a month or more. Weak batteries may leak and damage the remote control.
- This remote control uses an invisible (infrared) beam of light to operate the equipment. Objects between the equipment and the remote control can block the beam of light. Therefore, the remote control must be pointed directly at the equipment you want to operate.
- This remote control cannot add keys or features to your equipment. Your equipment's manufacturer must have originally provided them.
- When switching from the VCR or DVD mode to the TV mode, the VCR/DVD specific control keys will continue to operate the last device (mode) selected. For example, when switching from DVD to TV mode, the VCR/DVD control keys will continue to function as DVD keys.

- Replace the batteries if the remote control fails to operate any of your equipment. Be sure to install batteries correctly.
- Many of the remote control keys are multi-functional. Refer to the chart on the inside of the carton for a brief description of the keys and their functions. Refer to your original operating manuals for specific feature operation.
