I3c WEARING THE EARPHONES

Sound Isolating Earphones

These sound-isolating earphones with VoicePort inline microphone connect to both your cell phone and portable media player. The inline control switch allows you to easily transition from listening to music to answering phone calls. WideBand MicroDrivers deliver an extended frequency soundstage that you can now enjoy at low listening levels, even in noisy environments.

Printed in U.S.A.

CHOOSING AN EARPHONE SLEEVE

Your earphones come with a selection of sleeves. Make sure the sleeve you use is easy to insert into your ear, fits comfortably, and is easy to remove from your ear.

27EN3210 (Rev. 2)

Flex Sleeves

In small, medium, and large sizes. Made from translucent PVC.

\bigcirc

Soft Flex Sleeves

In small, medium, and large sizes. Made from pliable rubber. Foam Sleeves

When using the foam sleeves, compress the sleeve between your fingers before inserting it into the ear canal. Hold the earphone in place for about ten seconds while the foam expands and creates a tight seal.

Triple-Flange Sleeves (Optional Accessory)

If desired, the sleeve nozzle may be shortened. Use sharp scissors to carefully trim the nozzle to the desired length.

INLINE SWITCH CONTROL

INSERTING THE EARPHONES

If the earphone seems to be lacking in low frequency response (bass), check the tightness of the seal between the earphone and your ear, or try one of the other sleeve options.

Warning: Do not push the earphone sleeve beyond the ear canal opening. Make sure that the sleeve completely covers the earphone nozzle. If any part of the nozzle is exposed, the sleeve is not properly installed.

CLEANING THE EARPHONE NOZZLE

If the nozzle of your earphone is blocked, clean the nozzle using the supplied wax removal loop.

When cleaning, do not force any object through the earphone nozzle! This will damage the earphone sound filter.

_____ INSERTING TI

Wear the earphones as illustrated below.

G	Use a slow twisting motion to remove the earphones. Never pull on the earphone cord.
G	0

- Warning: If a sleeve becomes lodged in your ear, seek skilled medical assistance to remove the sleeve. Damage to the ear may be caused by non-professionals attempting to remove the sleeve.
- Prior to inserting the earphone, always recheck the sleeve to make sure it is firmly attached to the nozzle.
- Turn up the volume control only far enough to hear properly.
- Ringing in the ears may indicate that the volume level is too high. Try lowering the volume.
- If you connect these earphones to an airplane's sound system, listen at low levels so that loud messages from the pilot do not cause discomfort.
- Have your ears checked by an audiologist on a regular basis. If you experience wax buildup, discontinue use until an audiologist has examined your ears.
- Stop using the earphones if they are causing great discomfort or infection.

FURNISHED ACCESSORIES

REPLACEMENT PARTS

Bag of 20 foam sleeves PA750	
Bag of 500 foam sleeves	
Bag of 10 clear flex sleeves (small)	PA756S

MAINTENANCE

6

 \bigcirc

- Careful maintenance ensures a tight seal between the sleeve and nozzle, improving sound quality and product safety.
- Keep the earphones and sleeves as clean and dry as possible.
- Do not expose earphones to extreme temperatures.
- Wipe the earphones and sleeves with mild antiseptic to avoid infections. Do not use alcohol-based disinfectants.

CERTIFICATION

Eligible to bear CE marking.

Conforms to European EMC Directive 89/336/EEC.

Meets applicable tests and performance criteria in European Standard EN 55103 (1996) Parts 1 and 2, for residential (E1) and light industrial (E2) environments.
