

# DVCAVI— Digital Innovation in

Since its launch in 1996, DVCAM<sup>™</sup> technology has brought many notable benefits to video professionals. The outstanding picture quality, superb multigeneration recording and extended recording time for up to three hours are some of key advantages of working with DVCAM products. Additionally, the DVCAM format offers excellent playback capability with the consumer DV format.

Based on the DVCAM format, the Sony DSR Series of recorders and camcorders offers many advantages: high performance editing capability, compact shooting packages, system versatility, excellent digital interfacing and a professional standard of reliability.

## Video Production

Now many new models have been added to the DSR Series to broaden its range of applications such as field acquisition/editing, simple editing, PC-based editing, dubbing and transmission.

Select from the Sony DSR Series and you will have chosen innovative equipment that will bring both new solutions to your production demands and performance benefits to your system.

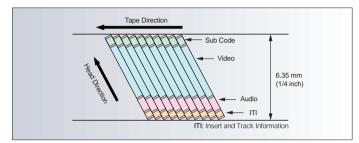

## The DVCAM Format

#### **Excellent Picture Quality via** Digital Component Recording

The DVCAM format uses 8-bit digital component recording with a 5:1 compression ratio same as the DV format and a sampling rate of 4:1:1 to provide excellent picture quality and superb multigeneration performance.

The DVCAM format is based on an intra-frame compression scheme which is ideal for editing applications. Based on DCT (Discrete Cosine Transform) techniques, each frame consists of 10 tracks. Each track has video, audio, ITI (Insert and Track Information) and sub code areas. ITI, which is a reference

signal used for precise tracking, together with time code on the sub code area assure highly accurate editing performance. This technology provides much greater operational flexibility and facilitates complex multi-layering effects.

#### **High Quality Digital Audio**

The DVCAM format also has superior digital audio performance. with a wide dynamic range and an excellent signal-to-noise ratio that is comparable to CD quality audio. There are two selectable audio channel modes: a two-channel mode with 48 kHz/16-bit recording or a four-channel mode with 32 kHz/12-bit recording.

#### Playback Compatibility with the DV Format

The DVCAM format is a professional version of the consumer DV format, maintaining playback compatibility. All DVCAM equipment is capable of playing back DV recorded\* tapes without any adaptor. A wider track pitch of 15 µm (compared with 10 µm for consumer DV) gives the DVCAM format higher reliability for professional editing.

\* SP mode only

## Unique Technologies and

#### High-speed Data Transfer DSR-85

The advanced drum mechanism and SDTI(QSDI™) interface enable degradation-free data transfer and dubbing at four times normal speed between the DSR-85 VTR and the Sony ES-7 EditStation™ system, or between two DSR-85 VTRs. This brings a remarkable reduction in the time-consuming uploading and dubbing process, without loss of picture and sound quality.

#### Versatile Digital Interfaces

•SDTI(QSDI)\* DSR-85 DSR-80 DSR-60 DSR-70

The SDTI(QSDI) is a digital interface which handles compressed video as well as the sub code data and digital audio signals of the DVCAM format. It allows virtually degradation-free transfer of both video and audio signals between DSR Series VTRs that have an SDTI(QSDI) I/O, and between these VTRs and the ES-7 EditStation system in a non-linear editing configuration. The SDTI(QSDI) interface ensures that high quality pictures and sound are maintained during these operations.

\* SDTI (Serial Data Transport Interface) is defined in SMPTE 305M SDTI(QSDI) is the DV signal interface which conforms to the SDTI standard. The DSR-60 and DSR-70 VTRs require optional boards for SDTI(QSDI) operation.

•SD|\* DSR-85 DSR-80 DSR-60 DSR-70

SDI (Serial Digital Interface) is the broadcast standard digital interface. With just a single digital connection, high quality pictures and sound can be transferred between DSR Series VTRs with an SDI I/O, and SDI-equipped devices such as D-1, Digital BETACAM™ and Betacam SX™ VTRs.

\* The DSR-85/80/60/70 require optional boards for SDI operation. These optional boards support digital component video signals

#### •i.LINK™\* (DV In/Out)

DSR-200A DSR-PD100 DSR-PD1 DSR-30 DSR-20 DRV-1000 DSR-70\*\* DSR-V10

i.LINK is a digital interface based on the IEEE1394 standard. It offers digital dubbing of video, audio and data, with virtually no deterioration of image and sound quality and with the simplicity of a single wire connection between equipment.

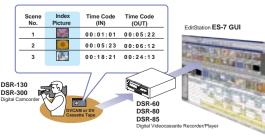

- \* i.LINK stands for IEEE1394-1995 standards and their revisions. **i** is the logo for products that implement i.LINK.
- \*\* The DSR-70 requires an optional board for i.LINK (DV In/Out) operation.

#### ClipLink™ Operation

DSR-130 DSR-300 DSR-85 DSR-80 DSR-60 DSR-70

ClipLink is a unique Sony system which conveys shooting data into the digital production process. During acquisition with the DSR-130 or DSR-300 Camcorder, the time code data of the in-point and out-point of each shot is recorded in the Cassette Memory of the DVCAM tape. At the same time, a still frame of each in-point, called the 'Index Picture', is recorded on the DVCAM tape to provide visual information associated with the time code. When a cassette is loaded into the DSR-85, DSR-80, DSR-60 or DSR-70 VTR interfaced with the Sony EditStation system, all of its shot log information is loaded into an EditStation system and

appears on the display. This visual information enables users to quickly select the shots DSR-130 they need to upload to the hard disk of an EditStation.

#### **Excellent Performance from Professional DVCAM Tapes**

To gain maximum performance from high density digital recording, advanced Metal Evaporated tape technology has

been developed for the DVCAM format. The use of Sony's pure cobalt advanced evaporated coating gives both high output and high C/N (Carrier-to-Noise) ratio, resulting in

superb quality pictures and a low error rate. DLC (Diamond Like Carbon) protective laver provides the enhanced protection of the tape surface which is essential to avoid the possibility of damage during long editing sessions. Finally, DVCAM tape provides a low frequency of dropouts and superior thermal stability. Cassettes are available with or without an IC Cassette Memory. This 16 kbit Cassette Memory stores ClipLink Log Data and Index Pictures which can enhance editing efficiency.

#### Up to Three-hour Recording Capability

DVCAM video cassette tapes are available in two sizes: standard and mini.

Recording time of up to 184 minutes is provided with a standard size cassette and up to 40 minutes with a mini size cassette. These long recording times are achieved in very compact cassettes

with a tape width of only 1/4 inch (6.35 mm).

## Advantages

#### Remote Control Interfaces for **High Performance Editing**

•RS-422A DSR-85 DSR-80 DSR-60 DSR-70

An RS-422A remote control interface is used for professional editing. It allows for these VTRs to interface not only with the EditStation system but also with Sony VTRs and editing controllers that have the same interface. RS-422A is also used to transfer ClipLink Log Data from the DVCAM Cassette Memory to the EditStation system.

•LANC | DSR-200A | DSR-PD100 | DSR-PD1 | DSR-30 | DSR-20 | DRV-1000 | DSR-V10

A LANC interface makes it easy to perform simple edits using other LANC-based devices including consumer DV products that have high editing accuracy (±5 frames).

#### Full Compatibility with Analog Equipment Analog Interfaces

DSR-85 DSR-80 DSR-60 DSR-30 DSR-20 DSR-70 DSR-V10

The DSR Series is compatible with current analog video equipment. With analog interfaces for both video and audio, the DSR Series VTRs interface with conventional analog equipment such as Betacam SP®, S-VHS and Hi-8 VTRs, facilitating a smooth and gradual migration to a future digital system. Composite, component\* and S-Video connections are provided for video. Four channel or two channel (selectable) inputs and outputs are provided for audio.

\* The DSR-30, DSR-20 and DSR-V10 are not equipped with a component interface. The DSR-70 requires an optional board for analog component.

#### •Dual Interface Mechanism DSR-1

The DSR-1 Dockable Recorder has both Pro 76-pin Digital and Pro 50-pin connectors. These connections allow direct

connection with several alternative Sony digital and analog cameras: DXC-D30, DXC-D30WS, DXC-637, DXC-537, DXC-537A, DXC-327A and DXC-327B. This feature allows the DSR-1 to be configured with a variety of different cameras to suit particular applications.

Pro 76-pin Digital

Pro 50-pin

#### Dual-size Cassette Mechanism

DSR-130 DSR-300 DSR-1 DSR-85 DSR-80 DSR-60 DSR-30

The above VTRs and camcorders all have a dual-size cassette mechanism which accepts both standard and mini size cassettes without any adaptor.

In the case of the DSR-1, this is a technological first for professional camcorders.

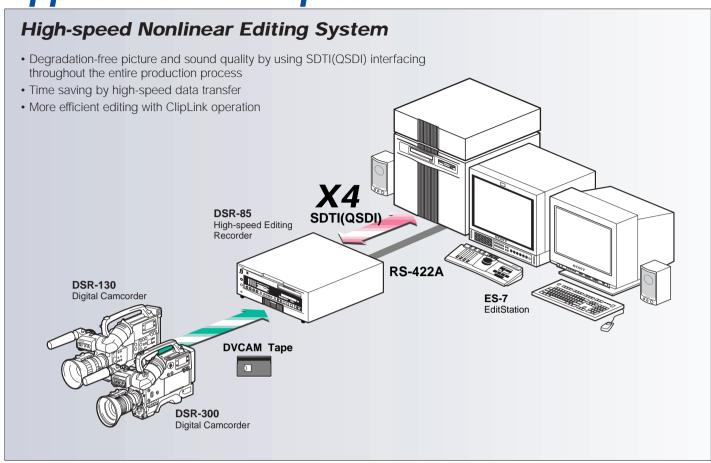

<sup>\*</sup> The DSR-200A Camcorder accepts a standard size cassette only. The DSR-PD100 Camcorder, the DSR-PD1 Camcorder, the DSR-V10 DVCAM Video Walkman® Recorder and the DRV-1000 DVCAM Drive accept a mini size

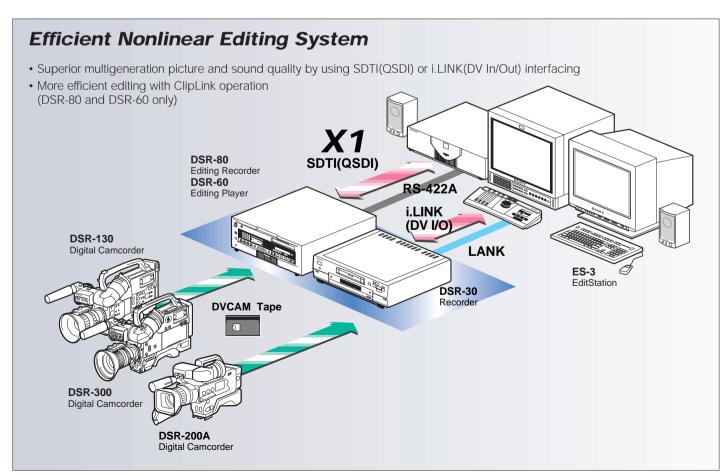

# The Total Line-upfor Highly Efficient Digital Production

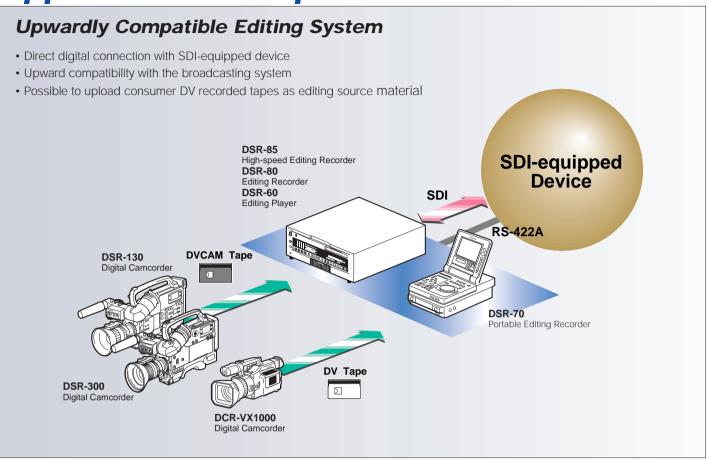

From Acquisition through Editing to Transmission—
The Entire Digital Chain

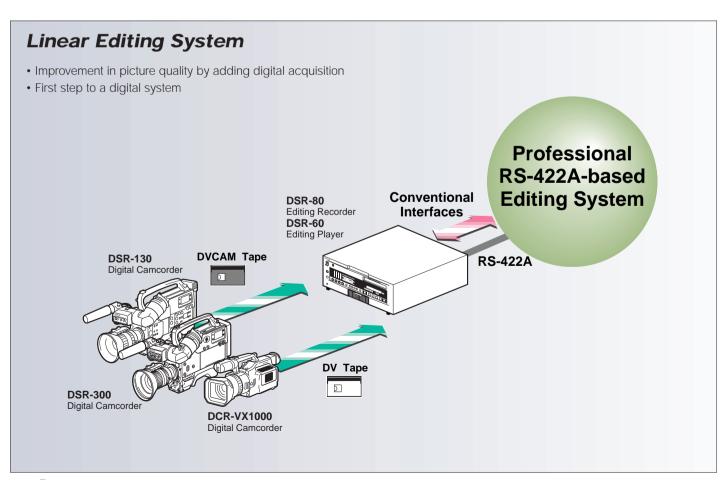

## **Application Examples**

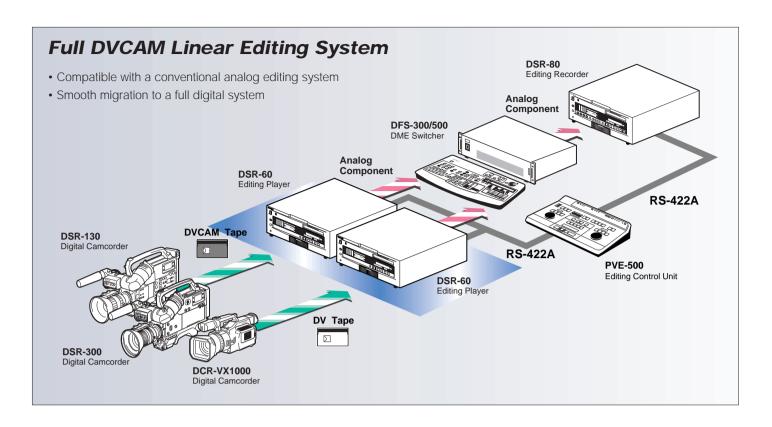

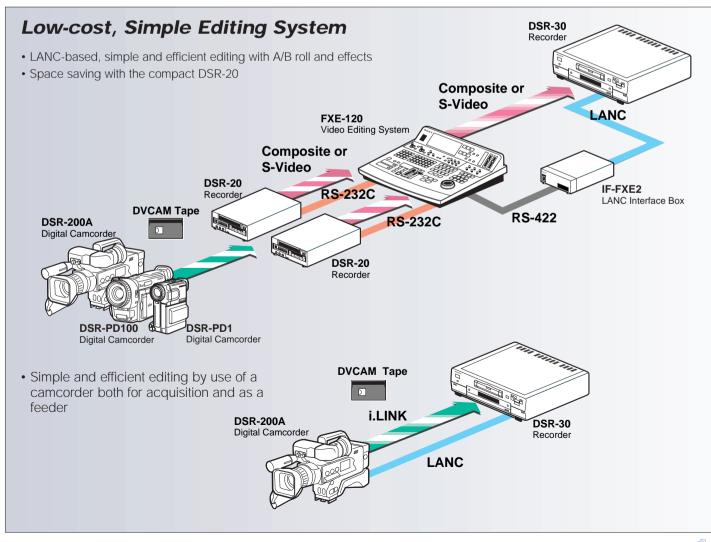

## **Application Examples**

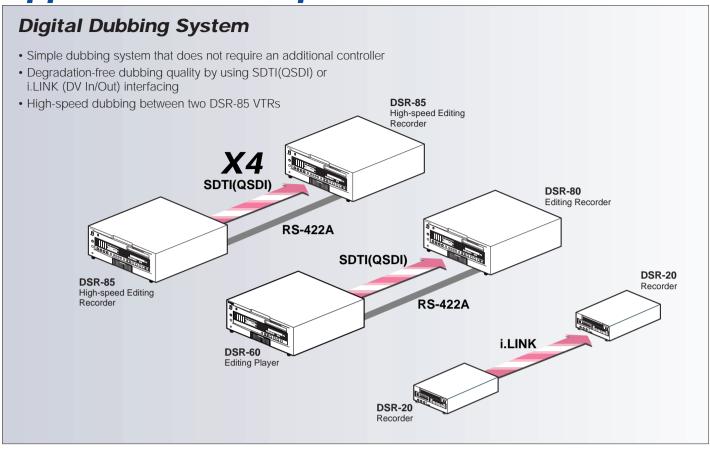

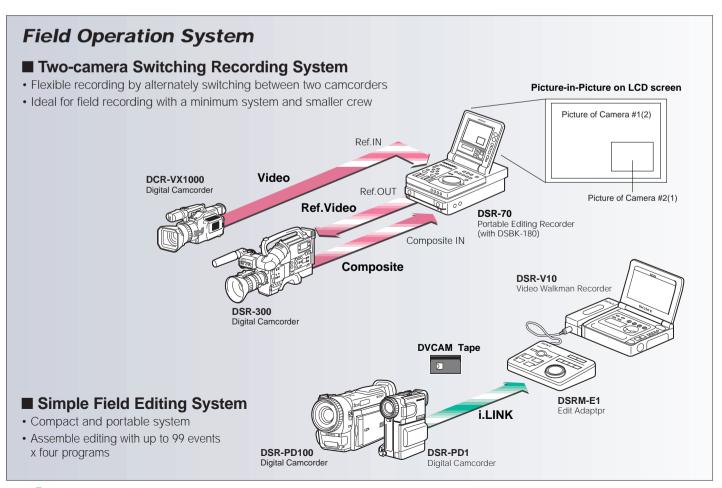

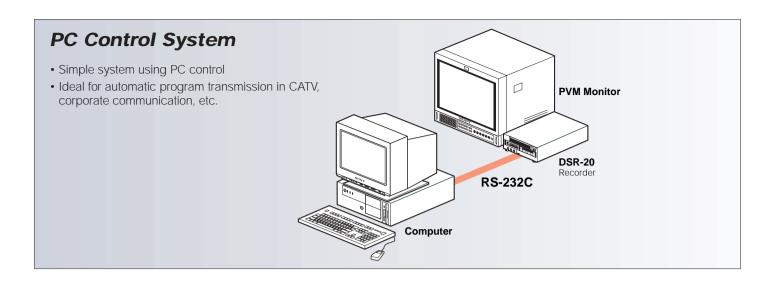

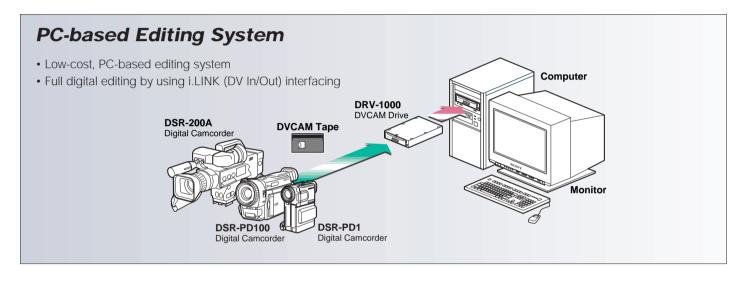

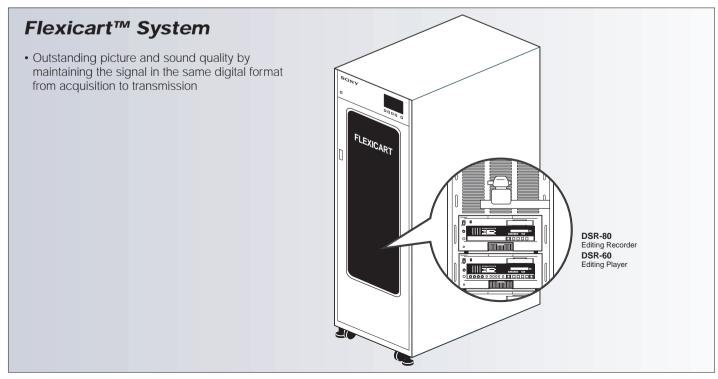

## **Application Examples**

### **Acquisition**

## **DSR-130**

**Two-piece Camcorder** 

- Combination of the DXC-D30 Digital Video Camera and the DSR-1 Dockable Recorder, equivalent to one-piece camcorder
- Compact and lightweight: 7.3 kg (16 lb 2 oz) including a viewfinder, microphone, lens, battery, tape and carrying handle
- DSP (Digital Signal Processing)
- Three 2/3-inch Power HAD™ CCDs for low smear level, high sensitivity and high S/N ratio
- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- ClipLink operation
- TruEye<sup>™</sup> process for faithful color reproduction

- DynaLatitude<sup>™</sup> feature
- Skin Detail with skin tone detection
- Black halo-free, Clean Detail
- · Camera Setup File system
- SetupNavi<sup>™</sup> function for Camera Setup File storage
- SetupLog™ function for automatic recording of camera setting data
- Total Level Control System (TLCS) for automatically extended range of light control
- EZ Focus and EZ mode for quick camera setup
- Auto Tracing White Balance (ATW) function
- Adjustable Black Stretch and Compress
- Dual Zebra viewfinder indication of over exposure
- Time code superimposed during playback
- Edit Search function
- Freeze Mix function

- Perfect camcorder operation by docking with the DXC-D30 Digital Video Camera
- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- Dual-size cassette mechanism: both standard cassettes and mini cassettes accepted
- · ClipLink operation

- Dual interface mechanism: Pro 76-pin Digital and Pro 50-pin interfaces for direct connection with both Sony digital and analog cameras
- Full color picture playback capability without any playback adaptor
- Record review function
- Frame accurate back space editing
- · Built-in SMPTE time code generator/reader
- Time base stabilizer
- Full VTR function control (Fast Forward/Rewind/Play/Stop/ Fiect)
- Comprehensive 8-digit LCD

## **DSR-300**

#### **One-piece Camcorder**

- Highly mobile one-piece design
- Compact and lightweight: 5.7 kg (12 lb 9 oz) including viewfinder, microphone, lens, battery and tape
- Compact crew package with the LC-300SFT Soft Carrying Case
- DynaFit<sup>™</sup> shoulder pad for comfortable molding to any shoulder
- DSP (Digital Signal Processing)
- Three 1/2-inch Power HAD™ CCDs for low smear level, high sensitivity and high S/N ratio
- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- ClipLink operation\*1
- RM-VJ1 Remote Control Unit with a professional microphone and a hand-held LCD screen for a one-person operation
- TruEye<sup>™</sup> process for faithful color reproduction

- DynaLatitude<sup>™</sup> feature
- Skin Detail with skin tone detection
- SetupLog<sup>™</sup> function for automatic recording of camera setting data
- Total Level Control System (TLCS) for automatically extended range of light control
- EZ Focus and EZ mode for quick camera setup
- Auto Tracing White Balance (ATW) function
- Adjustable Black Stretch and Compress
- Dual Zebra viewfinder indication of over exposure
- Video light connection for Anton Bauer® Ultra Light 2
- Menu control by Jog Dial operation
- Time code superimposed during playback
- Edit Search function
- Freeze Mix function
- 26-pin VTR interface connection
- Compact and lightweight BP-L40 Lithium-ion Battery
- CA-WR855 Camera Adapter for the WRR-855A Wireless Receiver
- \*1 The optional DSBK-301 Index Picture Board is required.

## DSR-200A

One-piece Camcorder

- Compact and lightweight: 4.7 kg (10 lb 8 oz) including tape and battery holder with three battery packs
- DSP (Digital Signal Processing)
- Three 1/3-inch CCDs for accuracy of color reproduction
- · Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette\*1
- Long operating time; up to 450 minutes with three NP-F950 Battery Packs (fully charged)
- Optical SteadyShot® function for stable picture shooting without sacrificing picture quality

- Time/date data superimposition on output pictures
- Easy-to-use viewfinder, with high horizontal resolution
- Photo mode and frame interpolation for recording a clear frame picture for seven seconds
- Audio dubbing capability (32 kHz/12-bit only)
- Time code capability
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- 16:9 aspect ratio capability
- LANC interface for simple editing with a LANC-based recorder or editing system
- RMT-806 Remote Controller (supplied) for control of basic functions
- \*1 The DSR-200A accepts only standard DVCAM and DV cassettes.

- Compact and lightweight: 1 kg (2.2 lbs) including tape and battery
- DSP (Digital Signal Processing)
- 1/4-inch CCD with the capability to switch to scan in two ways: Interlace Scan and Progressive Scan
- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- 40 minutes recording time with a mini cassette\*1
- Super SteadyShot® function for stable picture shooting without sacrificing picture quality
- Extreme close-up shots with 48x digital and 12x optical zoom
- Color 3.5-inch LCD monitor
- InfoLITHIUM™ system; Lithium-ion battery power system which shows the amount of power remaining in the battery, to within one minute accuracy

- Two way of still image recording: Tape photo mode by using a tape and Memory photo mode by using a removable memory media (Memory Stick™)
- Switchable 4:3 and 16:9 recording modes
- · Manual control and full range auto modes
- Audio dubbing capability (32 kHz/12-bit only)
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- RMT-811 Wireless Remote Commander (supplied)
- Wide angle conversion lens (supplied)
- XLR adaptor for connecting external professional microphones
- \*1 The DSR-PD100 accepts only mini DVCAM and DV cassettes.

- Compact and handy: 520 g (1.2 lb)
- 1/3-inch CCD
- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- 40 minutes recording time with a mini cassette\*1
- Super SteadyShot® function for stable picture shooting without sacrificing picture quality
- Extreme close-up shots with 20x digital and 10x optical zoom
- 2 1/2-inch Swivelscreen<sup>™</sup> color LCD advanced viewfinder

- InfoLITHIUM<sup>™</sup> system; Lithium-ion battery power system which shows the amount of power remaining in the battery, to within one minute accuracy
- Photo mode for high quality still images
- A/V digital fade-to-black/silence function
- Audio dubbing capability (32 kHz/12-bit only)
- Time code capability
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- \*1 The DSR-PD1 accepts only mini DVCAM and DV cassettes.

### **Video Production**

## DSR-85

#### **High-speed Editing Recorder**

- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- High-speed data transfer and full tape dubbing via SDTI(QSDI) interface
- · ClipLink operation
- Versatile digital interfaces: SDTI(QSDI), SDI\*1 and AES/EBU digital audio
- Extensive analog interfaces: composite, component and S-Video
- Frame accurate editing capability
- RS-422A remote control interface

- Built-in SMPTE time code generator/reader
- · Time base corrector
- High-speed picture search over a range of 32 times normal speed, in both forward and reverse
- Digital slow function over a range of 0 to 0.25 times normal speed, in both forward and reverse
- Jog audio over a range of 1/30 to 1 times normal speed, in both forward and reverse
- Newly developed digital laminated head for high quality and reliability
- SIRCS (Sony Integrated Remote Control System) interface for DSRM-10 Remote Control Unit
- \*1 The optional DSBK-120 SDI Input/Output Board is required.

- · Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- ClipLink operation
- Full tape dubbing with ClipLink Log Data
- Versatile digital interfaces: SDTI(QSDI), SDI\*1 and AES/EBU digital audio
- Extensive analog interfaces: composite, component\*2, RGB\*2 and S-Video
- · Frame accurate editing capability
- RS-422A remote control interface

- Built-in SMPTE time code generator/reader
- Time base corrector
- High-speed picture search over a range of 32 times normal speed, in both forward and reverse
- Digital slow function over a range of 0 to 0.39 times normal speed, in both forward and reverse
- Jog audio over a range of 1/30 to 1 times normal speed, in both forward and reverse
- · Closed caption function
- SIRCS (Sony Integrated Remote Control System) interface for DSRM-10 Remote Control Unit
- \*1 The optional DSBK-120 SDI Input/Output Board is required.
- \*2 Selectable by a switch on the rear panel

### Video Production

- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- ClipLink operation
- Versatile digital interfaces: SDTI(QSDI)\*1 and SDI\*2
- Extensive analog interfaces: composite, component\*3, RGB\*3 and S-Video
- Frame accurate editing capability
- RS-422A remote control interface
- Built-in SMPTE time code reader
- Time base corrector

- High-speed picture search over a range of 32 times normal speed, in both forward and reverse
- Digital slow function over a range of 0 to 0.33 times normal speed, in both forward and reverse
- Jog audio over a range of 1/30 to 1 times normal speed, in both forward and reverse
- Auto repeat/power-on playback function
- Closed caption function
- SIRCS (Sony Integrated Remote Control System) interface for DSRM-10 Remote Control Unit
- \*1 The optional DSBK-110 QSDI Output Board is required.
- \*2 The optional DSBK-100 SDI Output Board is required.
- \*3 Selectable by a switch on the rear panel

- Superb picture quality of the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- · Auto repeat function
- One-program playback function to automatically rewind to the beginning of a tape and enter Standby mode
- Power-on playback/recording capability

- · External timer recording
- Duplication mode with original time code
- Function lock to avoid accidental operation
- Built-in control tray with a Jog/Shuttle dial with a range of 1/5 to 15 times normal speed, in both forward and reverse
- Index/Photo/Date search functions (when using a cassette with IC Cassette Memory)
- · Clear frame picture
- RMT-DS30 Wireless Remote Controller (supplied) for control of basic functions
- · Headphone/microphone connections

- Superb picture quality for the DVCAM format
- Playback capability of consumer DV recorded tapes (SP mode only)
- Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- Auto repeat function
- · Power-on playback/recording capability
- External Sync\*<sup>1</sup> In connector for synchronized playback

- RS-232C and Control S interfaces for remote control operation
- Duplication mode with original time code
- Compact and lightweight (half-rack width)
- AC/DC operation
- Index/Photo/Date search functions (when using a cassette with IC Cassette Memory)
- RMT-DS20 Wireless Remote Controller (supplied) for control of basic functions
- \*1 The DSR-20 locks to H-sync or V-sync.

- Superb picture quality for the DVCAM format
- Designed to fit directly into a standard PC 5.25-inch disk drive bay
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- · Analog video and audio outputs
- DC power operation

## Field Operation

## **DSR-70 Portable Editing Recorder**

Superb picture quality for the DVCAM format

 Playback capability of consumer DV recorded tapes (SP mode only)

• Long recording time; up to 184 minutes with a standard cassette and 40 minutes with a mini cassette

- Compact, all-in-one package including a 6.4-inch VGA LCD monitor, a full cut-editing controller with a Jog/Shuttle dial and an audio speaker
- VTR-to-VTR editing as a double deck editor by docking two DSR-70 units or the DSR-70 and the DNW-A25 Betacam SX portable editing recorder
- Two-way power supply system for operation on either AC or DC power
- Two-camera switching recording\*1
- Sequential recording in the double deck configuration
- Parallel-run recording to make two docked DSR-70 units record simultaneously
- · ClipLink operation: cue up to Mark In/Cue address, change of Mark In/Out points, change of OK/NG status and creation of new Mark In/Out points
- Audio MIX/SWAP recording
- Versatile digital interfaces: SDTI(QSDI)\*2, SDI\*3 and i.LINK (DV In/Out)\*4

- and S-Video
- Frame accurate editing capability
- · RS-422A remote control interface
- Built-in SMPTE time code generator/reader
- · Process control for stabilizing video signals
- High-speed picture search over a range of 32 times normal speed, in both forward and reverse
- Digital slow function over a range of 0 to 0.5 times normal speed, in both forward and reverse
- Jog audio over a range of 1/30 to 1 times normal speed, in both forward and reverse
- Full tape dubbing with ClipLink Log Data
- 16:9/4:3 switchable
- \*1 The optional DSBK-180 Dual Video Input Board is required.
- \*2 The optional DSBK-150 SDTI(QSDI) Input/Output Board is required.
- \*3 The optional DSBK-160 SDI Input/Output Board is required.
- \*4 The optional DSBK-140 i.LINK/DV Input/Output Board is required.
- \*5 The optional DSBK-170 Analog Component Input/Output Board is required.

Note: Optional interface boards (DSBK-140/150/160/170) cannot be used in combination with each other. However, these boards can be used together with the optional DSBK-180.

· Superb picture quality for the DVCAM format

 Playback capability of consumer DV recorded tapes (SP mode only)

- 40 minutes recording time with a mini cassette\*1
- Compact and lightweight: 970 g (2 lb 3 oz) without battery and tape
- Built-in 5.5-inch LCD monitor
- InfoLITHIUM™ system; Lithium-ion battery power system which shows the amount of power remaining in the battery, to within one minute accuracy
- i.LINK (DV In/Out) interface based on the IEEE1394 standard
- LANC interface for simple editing with a LANC-based recorder or editing system
- Auto repeat function
- · Duplication mode with original time code
- Assemble editing with up to 99 events x four programs by using the optional DSRM-E1 Edit Adaptor
- Hands-free shooting capability with the optional CVX-V1 or CVX-V3 Mini Camera
- \*1 The DSR-V10 accepts only mini DVCAM and DV cassettes.

## **Transmission**

## Flexicart Multi-cassette System

- Designed to be modular and reconfigurable with optional VTRs and cassette bin units to meet differing applications
- Multiple inputs and outputs
- Fully automated, simultaneous record, playback and time delay
- Standard traffic and automation interface
- PC-driven, user-friendly Windows environment

Applicable VTR		Cassette	Config (VTR/Bin	Standard Cassette	
VTRs	Mount Kit	Bin Unit	VTRs	Bin Units (4U high)	Capacity
			1	7	147

## Specifications DSR-130/DSR-300/DSR-200A/DSR-PD100/DSR-PD1 Camcorders

Ouronal	DSR-130 Two-piece Camcorder	DSR-300 One-piece Camcorder	
General Power requirements	DC 12 V /	0.5 to 17 V)	
Power requirements  Power consumption	24.8 W (with VF)	22.1 W (with VF), 20 W (without VF)	
Operating temperature		32 °F to 104 °F)	
Storage temperature		(-4 °F to 140 °F)	
Tape speed		3 mm/s	
Recording/Playback time		84N Mini size: 40 min. with PDVM-40ME/40N	
Fast forward/Rewind time	Standard size: approx. 12 min. with PDV-1	84ME/184N Mini size: approx. 3 min. with PDVM-40ME/40N	
Continuous recording time	Approx. 60 min. with NP-1B Battery	Approx. 80 min. with BP-L40 Approx. 180 min. with BP-L60A	
Mass	7.3 kg (16 lb 1 oz)	Approx. 290 min. with BP-L90A 5.7 kg (12 lb 9 oz)	
Dimensions (WxHxD)	(including VF, microphone, lens, battery, tape and carrying handle)  121 x 206 x 344 mm (4 7/8 x 8 1/8 x 13 5/8 inches)	(including VF, microphone, lens, battery and tape) 121 x 192 x 270 mm (4 7/8 x 7 5/8 x 10 3/4 inches) (without projections)	
Comoro Continu		242 x 247 x 534 mm (9 5/8 x 9 3/4 x 21 1/8 inches) (with projections)	
Camera Section mage device	3-chip 2/3-inch, Interline Transfer CCD	3-chip 1/2-inch, Interline Transfer CCD	
Optics		dex prism system	
Effective picture elements		x 494 (V)	
Total picture elements		x 508 (V)	
Sensing area	6.6 mm x 8.8 mm (equivalent to a 2/3-inch pickup tube)	6.4 mm x 4.8 mm (equivalent to a 1/2-inch pickup tube)	
Built-in filters	1: 3200 K 2: 5600 K+1/8ND	1: 3200 K/3000 K (Switchable) 2: 5600 K+1/8ND	
Julie III III III II	3: 5600 K 4: 5600 K+1/64ND	3: 5600 K 4: 5600 K+1/64ND	
ens mount	Sony 2/3-inch Bayonet mount	Sony 1/2-inch Bayonet mount	
ignal system		lor system	
Scanning system		25 lines, 60 fields/s	
Horizontal frequency		84 kHz	
ertical frequency		94 Hz	
Sync system		vith the VBS or BS signal	
Horizontal resolution	850 TV lines	800 TV lines	
/ertical resolution		S), 450 TV lines (with EVS)	
Minimum illumination		) 0.8 lx with F1.8, Hyper Gain (30 dB+DPR)	
Sensitivity		9.9% reflectance) (typical)	
Sain selection		B, 18dB+DPR, 24 dB, 24 dB+DPR, Hyper Gain (30 dB+DPR)	
Shutter speed selection	OFF, 1/100, 1/250, 1/500, 1/1000, 1/2000 sec.		
N/A.1	(0.10 //	(0.10.().1.1.	
S/N ratio	63 dB (typical)	62 dB (typical)	
Registration Geometric distortion		es, without lens) surable level	
/TR Section	Below mean	Sulable level	
/ideo performance*2			
Bandwidth	Luminance: 30 Hz to 5.0 MHz ±1.0 dB, 5.75 MHz +0/-3.0 dB (tyr	pical measurement), Chrominance: 30 Hz to 1.5 MHz +1.0/-5.0 dB	
S/N ratio		an 55 dB	
K-factor (K2T, KPB)	Less th	an 2.0 %	
Y/C delay	Less than	n 30 nsec.	
Audio performance*2			
Frequency response		z +0.5/-1.0 dB, 4CH mode (32 kHz/12-bit): 20 Hz to 14.5 kHz +0.5/-1.0 dB	
Dynamic range Distortion (THD)		an 80 dB an 0.08 %	
nput/Output Connectors	Less ins	111 0.08 %	
Signal inputs	Genlock Video In: BNC, 1.0 Vp-p, 75 Ω	Genlock Video In: BNC, 1.0 Vp-p, 75 Ω

## **Specifications**

## **DSR-70** Portable Editing Recorder

General		
Power requirements	DC 12 V	
Power consumption	46 W (without options)	
Operating temperature	0 °C to 40 °C (32 °F to 104 °F)	
Storage temperature	-20 °C to 60 °C (-4 °F to 140 °F)	
Mass	5.8 kg (12 lb 12 oz)	
Dimensions (WxHxD)	211 x 149 x 443 mm (8 3/8 x 5 7/8 x 17 1/2 inches)	
Tape speed	28.193 mm/s	
Recording/Playback time	Standard size: More than 184 min. with PDV-184ME/184N Minis size: More than 40 min. with PDVM-40ME/40N	
Fast forward/Rewind time	Standard size: Less than 3 min. with PDV-184ME/184N Mini size: Less than 1 min. with PDVM-40ME/40N	
Search speed	x32, forward and reverse	
Video Signal Inputs		
Analog		
Ref. Video	BNC x2, loop-through connection, Composite, 1.0 Vp-p, 75 Ω, sync negative	
Video	BNC x2, loop-through connection, Composite, 1.0 Vp-p, 75 $\Omega$ , sync negative	
Component	BNC x3, Y: 1.0 Vp-p, 75 $\Omega$ , sync negative R-Y: 0.7 Vp-p, 75 $\Omega$ (75%) B-Y: 0.7 Vp-p, 75 $\Omega$ (75%)  * Using optional DSBK-170 Analog Component Input/Output Board	
S-Video	DIN 4-pin x1, Y: 1.0 Vp-p, 75 Ω, sync negative C: 0.286 Vp-p, 75 Ω (at burst level)	
Digital		
SDI	BNC x1, Conforms to Serial Digital Interface (270 Mbps), SMPTE 259M * Using optional DSBK-160 SDI Input/Output Board	
SDTI(QSDI)	BNC x1, Conforms to SDTI (270 Mbps), SMPTE 305M * Using optional DSBK-150 SDTI(QSDI) Input/Output Board	
i.LINK (DV In/Out)	6-pin x1, IEEE1394-based * Using optional DSBK-140 i.LINK/DV Input/Output Board	
Audio Signal Inputs		
Analog		
Audio (CH-1, 2)	XLR 3-pin female x2	

Video Signal Outputs	
Analog	
Ref.Video	BNC x1, 0.286 Vp-p, 75 $\Omega$ , sync negative

Audio Signal Outputs	
Analog	
Audio (CH-1, 2 or CH-3, 4)	XLR 3-pin male x2
Time Code	
Time code In	BNC x1
Time code Out	BNC x1
LCD	
LCD display	x1, 6.4-inch VGA, 640 (H) x 480 (V)
Speaker	
Built-in speaker	Monaural
Remote	
RS-422A	9-pin multi connector x1
Others	
	DC In: XLR 4-pin x1, DC 12 V Audio monitor (R/L): RCA phono jack x1 Headphones: JM-60 stereo phone jack x1
Supplied Accessories	
	Carrying Belt (x1) Connector Cap (x1 / per interface) Operation Manual (x1)

### **DSR-V10** DVCAM Video Walkman Recorder

General		
Power requirements	DC: 7.2 V (Battery operation)	
	DC: 8.4 V (AC adaptor operation)	
Power consumption	11.5 W (with LCD panel ON)	
Operating temperature	0 °C to 40 °C (32 °F to 104 °F)	
Storage temperature	-20 °C to 60 °C (-4 °F to 140 °F)	
Mass	970 g (2 lb 3 oz) (without tape and battery)	
Dimensions (WxHxD)	148 x 62 x 135 mm (5 13/16 x 2 7/16 x 5 5/16 inches)	
Tape speed	28.193 mm/s	
LCD screen	5.5-inch	
Video		
Video signal	EIA standard, NTSC color	
Video input/output	Composite: RCA pin x1, 1.0 Vp-p, 75 Ω, unbalanced,	
	sync negative	
	S-Video: Mini DIN 4-pin x1, Y: 1.0 Vp-p, 75 Ω, sync negative C: 0.286 Vp-p, 75 Ω (subcarrier)	
	0. 0.200 VP P, 70 22 (Subcarrier)	

Audio		
Audio signals	Recording: 48 kHz/16-bit, 32 kHz/12-bit Playback: 48 kHz/16-bit, 32 kHz/12-bit,	
	32 kHz/16-bit, 44.1 kHz/16-bit	
Audio input/output	Phono jack (Stereo (L/R) x1, RCA x2), -7.5 dBs (0 dBu=0.775 Vrms)	
	-7.5 dBS (U dBu=0.775 VIIIIS)	
Others		
	i.LINK (DV In/Out): 4-pin, IEEE1394-based	
	LANC: Stereo mini-mini jack	
	Headphone: Stereo mini jack, 8 Ω	
	Camera/Editor connector: 20-pin	
Supplied Accessories		
	AC-V700 AC Adaptor/Charger (x1) DK-415 DK Cable (x1) Carrying Belt (x1) Operation Manual (x1)	

DSRM-E1 (Edit Adaptor for DSR-V10)		
General		
Power requirements	DC: 7.2 V (supplied from the DSR-V10) DC: 8.4 V (AC adaptor operation)	
Power consumption	Approx. 1.8 W	
Operating temperature	0 °C to 40 °C (32 °F to 104 °F)	
Storage temperature	-20 °C to 60 °C (-4 °F to 140 °F)	
Mass	Main unit: 160 g (5.6 oz) Controller: 340 g (12 oz)	

Dimensions (WxHxD)	Main unit: 69 x 61 x 134 mm (2 3/4 x 2 1/2 x 5 3/8 inches) Controller: 184 x 42 x 128 mm (7 1/4 x 1 11/16 x 5 1/8 inches)	
Connectors		
Multi connector: 20-pin Control unit: Mini DIN 8-pin LANC: Stereo mini-mini jack		
Monitor Output		
Video output	RCA pin x1, Composite, 1.0 Vp-p, 75 $\Omega$ , unbalanced, sync negative	
Audio output	Phono jack (Stereo (L1, R1) x1), 0.327 V, impedance 470 $\Omega$ or less	

CVX-V1/CVX-V3 (Color Video Camera for DSR-V10)		
General		
Power requirements	DC: 7.2 V (Battery operation) DC: 8.4 V (AC adaptor operation)	
Power consumption	1.8 W	
Operating temperature	0 °C to 40 °C (32 °F to 104 °F)	
Storage temperature	-20 °C to 60 °C (-4 °F to 140 °F)	
Mass	Camera head: CVX-V1: 25 g (0.85 oz) CVX-V3: 75 g (2.6 oz) CCU: CVX-V1/CVX-V3: 135 g (4.8 oz) (without battery)	
Dimensions (WxHxD)	Camera head: CVX-V1: 22 x 18 x 60 mm (1 4/16 x 23/32 x 2 3/8 inches) CVX-V3: 36 x 40 x 70 mm (1 7/16 x 1 5/8 x 2 7/8 inches) CCU: CVX-V1/CVX-V3: 35 x 110 x 60 mm (1 7/16 x 4 3/8 x 2 3/8 inches)	

Camera	
Image device	1/4-inch Interline Transfer CCD
Picture elements	Total: 410 k Effective: 380 k
Lens	CVX-V1: F1.8 CVX-V3: F2.8 to 4
Focal length	CVX-V1: f=3.9 mm (35 mm conversion: 38 mm) CVX-V3: f=3.5 to 10.5 mm (35 mm conversion: 35 to 105 mm)
Minimum illumination	CVX-V1: 2 Ix CVX-V3: 5 Ix
Gain selection	CVX-V1: Auto/Hold CVX-V3: Auto
White balance	CVX-V1: Auto/Hold CVX-V3: Auto
Shutter speed	CVX-V1: Auto, 1/60, 1/100. 1/250, 1/500, 1/2000, 1/10000
Other Connectors (on C	CU)
	External mic In: Stereo mini-mini jack Multi connector: 20-pin Battery connector
Supplied Accessories	·
	Video Walkman Attachment Unit (x1) Operation Manual (x1)

## **DRV-1000** DVCAM Drive

General		
Power requirements	5 V: 5 A (Max.) / 700 mA (Stop) 12 V: 0.8 A (Max.) / 130 mA (loading/unloading)	
Power consumption	5 V: 25 VA (Max.) 12 V: 9.6 VA (Max.)	
Operating temperature	5 °C to 40 °C (41 °F to 104 °F)	
Storage temperature	-20 °C to 60 °C (-4 °F to 140 °F)	
Tape speed	28.193 mm/s	
Mass	Approx. 1.4 kg (3 lb 1 oz)	
Dimensions (WxHxD)	Approx. 149 x 43 x 225 mm (5 7/8 x 1 3/4 x 8 7/8 inches)	
Video		
Video signal	EIA standard, NTSC color	
Video output	Composite: RCA pin x1, 1.0 Vp-p, 75 $\Omega$ , unbalanced, sync negative S-Video: Mini DIN 4-pin x1, Y: 1.0 Vp-p, 75 $\Omega$ , sync negative C: 0.286 Vp-p, 75 $\Omega$ (subcarrier)	

Audio	
Audio signals	48 kHz/16-bit, 32 kHz/12-bit, 32 kHz/16-bit, 44.1 kHz/16-bit (depending on input signals)
Audio output	Phono jacks (L/R) x1, 0.327 V, 47 k $\Omega$ load or more, 2.2 k $\Omega$ impedance
Others	
	i.LINK (DV In/Out): 4-pin, IEEE1394-based LANC: Stereo mini-mini jack Eject: Monaural mini jack, TTL input, low active (more than 100 ms) DC In: PC standard, 5 V/12 V/GND
Supplied Accessories	;
	DV Cable (4-pin - 4-pin, 50 cm) (x1) AV Cable (x1) S-Video Cable (x1) Mounting Screw (x4) Operation Manual (x1)

## Flexicart Multi-cassete System

General		
Power requirements	AC 100/120/220/230/240 V, 50/60 Hz	
Power consumption	600 VA (without VTRs)	
Operating temperature	5 °C to 35 °C (41 °F to 95 °F)	
Mass	250 kg (551 lb 2.5 oz) (without VTRs, cassette bin units and cassettes)	
Dimensions (WxHxD)	600 x 1980 x 1090 mm (23 5/8 x 78 x 43 inches)	
Connections		
Remote control interface	REMOTE-1: RS-422A D-sub 9-pin REMOTE-2: RS-232C D-sub 25-pin	
Parallel interface	D-sub 50-pin	
Reference video In	BNC, Black burst or Composite video	
Time code In	BNC	
Supplied Accessories		
	Power Cable (x1) Operation Manual (x1) Maintenance Manual (x1) Installation Manual (x1)
