## Getting started

*Assembly, SIM card, battery, turning on, call, help, Flight mode, i-mode™ activity menu, PC Suite, camera.*

More information and downloads are available at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

## Assembly

### *To use your phone*

- 1 Insert the SIM card and the battery.
- 2 Charge the battery.
- 3 Turn on your phone.

### **SIM card**

When you register as a subscriber with a network operator, you get a SIM (Subscriber Identity Module) card. The SIM card contains a computer chip that keeps track of items such as your phone number, the services included in your subscription, and names and numbers in your contacts.

 *Save contact information on your SIM card before removing it from another phone. Contacts may have been saved in the phone memory.*

### **PIN**

You may need a PIN (Personal Identity Number) for your SIM card to start your phone and activate services. When you enter your PIN, each digit appears as \*, unless it starts with the same digits as an emergency number, for example 112. This allows for emergency calls without entering a PIN. Press  to correct mistakes.

 *If you enter the wrong PIN three times in a row, PIN blocked appears. To unblock it, you need to enter your PUK (Personal Unblocking Key) ➤ 73 SIM card lock.*

### **Battery**

Some functions use more battery power than others and may cause a need for more frequent re-charging. If talk time or standby time becomes noticeably shorter, you may have to replace the battery. Only use approved batteries from Sony Ericsson ➤ 84 Battery.

## SIM card and battery

### To insert SIM card and battery

- 1 Slide the catches to the left and lift the battery cover side as shown in the picture. Remove the battery cover by tilting it until the hinges on the battery cover release.
- 2 Slide the SIM card into its holder with the contacts facing down.
- 3 Insert the battery with the label side up and the connectors facing each other.
- 4 Fit the hinges on the battery cover to the phone and close the battery cover. Slide the catches to the right.

### To charge the battery

- 1 Connect the charger plug to the phone with the symbol facing upwards.
- 2 It may take up to 30 minutes before the battery icon appears.
- 3 Wait approximately 2.5 hours or until the battery icon indicates that the battery is fully charged. Press a key to activate the screen.
- 4 Remove the charger by tilting the plug upwards.

## Turning on your phone

Make sure the phone is charged and a SIM card inserted before turning the phone on. After turning on, use the setup wizard to prepare the phone for use.

## To turn on the phone

- 1 Press and hold down ①. The first startup may take a few minutes.
- 2 Select to use the phone in:
  - Normal – full functionality or
  - Flight mode – limited functionality with network, FM radio and Bluetooth™ transceivers off.

➤ 7 Flight mode menu.
- 3 Enter your SIM card PIN, if requested.
- 4 At first startup, select the language for your phone menus.
- 5 ▶ Yes for the setup wizard to help you.
- 6 Follow instructions to complete setup.

*Predefined settings may already exist in your phone.*

## Standby

After you have turned the phone on and entered your PIN, the name of the network operator will appear on the screen. This is called standby mode.

## Make a call

The phone must be in normal mode (not flight mode).

### To make a call

- 1 Enter a phone number (with international prefix and area code if applicable).
- 2 ▶ Call to make a call.
- 3 ▶ More for options during the call.
- 4 ▶ End call to end the call.

## Help in your phone

Help and information is available in your phone at any time.

### To view tips and tricks

- ▶ Settings ▶ the General tab
- ▶ Setup wizard ▶ Tips and tricks.

### To view information about functions

Scroll to a function ▶ More ▶ Info, if available.

### To view the phone demonstration

- ▶ Entertainment ▶ Demo tour.

## Flight mode menu

If you turn on the phone and Flight mode menu is activated, select from Normal with full functionality or Flight mode with limited functionality. Flight mode means that Network, Bluetooth transceivers and FM Radio are turned off to prevent disturbance to sensitive equipment. You can, for example, play music or write a text message to send later but not make calls.

 Follow onboard regulations, flight crew instructions for use of electronic devices.

### To view Flight mode menu options

► Settings and scroll to the General tab ► Flight mode and select an option.

## i-mode™ activity menu

You can open the i-mode™ activity menu almost anywhere in the phone to view and handle new events, and to access i-mode, applications running in the background and shortcuts.

### To open and close the i-mode™ activity menu

Press .

### i-mode™ activity menu tabs

- **i-mode** – access to Internet, for example, via i-Menu or your bookmarks. When you select a bookmark and the browser opens, other programs are closed or minimized.
- **New events** – when you have missed a call or received a new message, the New events tab appears. Press  to dismiss an event. New events can also be set to appear as pop-up text instead, ► Settings ► the General tab ► New events ► Pop-up.
- **Running apps** – applications that are running in the background. Select an application to return to it or press  to end it.
- **My shortcuts** – add, delete and change the order of shortcuts. When you select a shortcut and the application opens, other programs are closed or minimized.

## PC Suite software

Enhance the experience of your phone by installing the PC Suite software on your computer. This allows you to, for example, synchronize your phone calendar with a computer calendar.

### To install the PC Suite software

- 1 Turn on your computer and insert the CD that came with your phone into the CD drive of your computer. The CD starts automatically and the installation window opens.
- 2 **Computer:** Select a language and click **OK**.
- 3 **Computer:** Click **Install** in the PC Suite section and follow the instructions on the screen. When the installation is complete, the PC Suite icon appears on the desktop of your computer.

For the latest version of PC Suite, visit [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

## Take pictures or record video clips

### *To take a picture or record video*

- 1 From standby, press and hold down  to activate the camera.
- 2 Use the navigation key to switch between camera and video recorder.
- 3 **Camera:** Press  to take a picture.

**Video:** Press  to start recording. To stop recording, press  again.

Your pictures and video clips are automatically saved in File manager  
▶ Camera album.

- 4 To take another picture or record another video clip, press  to return to the viewfinder.  
To stop using the camera or video recorder, press and hold down .

## Play music and videos

### *To play music and videos*

- 1 ▶ Music player or ▶ Entertainment  
▶ Video player. A player browser opens.
- 2 Browse for music and video clips.
- 3 ▶ Open highlight a title ▶ Play.

## Games and applications in standby

You can set games and applications to appear in standby.

### *To set games and applications to standby*

- 1 ▶ Games & apps and select an application or a game.

## Phone language

Select the language to use in the phone menus or when writing text.

### To change the phone language

► Settings ► the General tab  
► Language ► Phone language.  
Select a language.

In standby, you can also press:

- 8888 for automatic language.
- 0000 for English.
- 0008 for Chinese.

*Most SIM cards automatically set the menu language to the country/region where you bought your SIM card. If not, the predefined language is English.*

### To select writing language

- 1 ► Settings ► the General tab  
► Language ► Writing language.
- 2 Scroll to the language to use and mark it. ► Save to exit the menu.

## Entering letters

Enter letters in one of the following ways (text input methods), for example, when writing messages:

- Multitap text input
- T9™ Text Input

To enter text, you have to be in a function where text input is possible, for example, ► Messaging  
► Write new ► Text message.

### To change the text input method

Before or when entering letters, press and hold down to change the method.

### To change the writing language

Before or when entering letters, press and hold down and select another writing language.

## Options list

► More for options when writing a message.

### To enter letters using multitap input

- Press - repeatedly until the desired character appears.
- Press to shift between capital and lower-case letters.
- Press and hold down - to enter numbers.
- Press to delete letters or numbers.
- Press for the most common punctuation marks.
- Press to add a space.

*Multitap input only applies when latin characters are selected as input language.*

## T9™ Text Input

The T9™ Text Input method uses a built-in dictionary to recognize the most commonly used word for each sequence of key presses. This way, you press each key only once, even if the letter you want is not the first letter on the key.

### *To enter letters using T9™ Text Input*

- 1 For example, to write the word “Jane”, press **5**, **2**, **6**, **3**.
- 2 If the word shown is the one you want, press **#↵** to accept and add a space. To accept a word without adding a space, press **⏩**. If the word shown is not the one you want, press **⏪** or **⏩** repeatedly to view alternative words. Accept a word and add a space by pressing **#↵**.
- 3 Continue writing the message. To enter a punctuation mark, press **1** and then **⏪** or **⏩** repeatedly, press **#↵** to accept and add a space.

### *To add words to the T9™ Text Input dictionary*

- 1 When entering letters ► **More**  
► **Spell word**.
- 2 Edit the word by using multitap input. Use **⏪** and **⏩** to move the cursor between the letters. To delete a character, press **C**. To delete the entire word, press and hold down **C**.

When you have edited the word ► **Insert**. The word is added to the T9™ Text Input dictionary. Next time you enter this word using T9™ Text Input, it appears in alternative words.

### **Next word prediction**

When writing a message, you can use T9™ Text Input to predict the next word, if previously used in a sentence.

### *To turn next word prediction on/off*

When entering letters ► **More**  
► **Writing options** ► **Next word pred.**

### *To use next word prediction*

When entering letters, press **#↵** to accept or continue.

## Chinese input

This mobile phone has different input methods for entering Chinese characters:

- Stroke input
- Pinyin input

You can use these methods, for example, to enter Chinese names and Chinese short messages.

### Switching between Chinese input methods

In the Chinese editing mode, you can select and switch quickly to another input method by pressing and holding .

### General instructions

Regardless of which input method you choose, your phone has a function to speed up the entry of Chinese characters. Whenever you enter a stroke or a Pinyin letter, a candidate row of the most frequently used characters containing that stroke or relating to that letter appears at the bottom of the screen.

If the character you want is not displayed in the candidate row, press  to present another candidate row. Continue pressing  until the character you want is displayed. Alternatively, you can enter the next stroke or Pinyin letter, and a new set of characters will immediately be displayed in the candidate row. To go back to the previous row, press . To select a character in the candidate row, press the navigation key.

### Stroke input

A Chinese character is built up of strokes. There are more than 30 basic strokes, which are grouped into five stroke categories. Each category is represented on the keypad by one of the keys  - . The Wild Card key , is used when you are not sure of which stroke to use

- ▶ 21 For example, to enter “信息” and
- ▶ 22 Example of using the wild card key.

## Stroke categories

The five stroke categories are defined in the table below:

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
①	一	一	Over	王 十 在 七 天
		丿	Lift	海 次 找 牡 刁
②	丨	丨	Down	中 上 業 門 且
		丿	Down-Hook	小 水 打 子 承
③	丿	丿	Short Slope Down	直 真 盾 草
		丿	Long Left Slope	八 旭 丹 風 所
		丿	Over Slope	香 毛 丘 匕 安
④	丶	丶	Short left Slope	而 頁 面 貿 殷
		丶	Dot	六 州 心 性 電
		丶	Right Slope	人 火 又 之 木
		㇇	Down-Curved-Over	西 四 酉 酷 酒

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
⑤	㇇	㇇	Down-Over	山 屯 母 互 剝
		㇇	Left Slope-Over	台 去 公 約 能
		㇇	Left Slope-Dot	女 好 巡 巢 災
		㇇	Down-Lift	衣 以 食 收 瓦
		㇇	Right Slope-Hook	我 或 民 成 找
		㇇	Down-Over-Hook	心 必 思 忘
		㇇	Down-Over-Curved-Hook	已 也 毛 孔 見
		㇇	Down-Over-Down-Hook	張 號 費 夷 鄂
		㇇	Down-Over-Down	鼎 亞
		㇇	Over-Hook	寫 字 皮 通 魚
		㇇	Over-Down	口 已 戶 書 骨

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
		丿	Over-Down-Hook	月 万 同 永 沒
		㇇	Over-Left Slope	又 之 發 多 社
		㇇	Over-Down-Over-Left Slope	及 极 廷 建
		㇇	Over-Left Slope-Curved-Hook	阿 隊 陳 那 部
		㇇	Over-Down-Over-Hook	乃 奶 盈 鼎
		㇇	Over-Down-Over-Down	凸
		㇇	Curved-Hook	家 狗 豹 逐 迳
		㇇	Over-Down-Curved-Hook	飛 九 風 氣 迅

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
		㇇	Over-Down-Over	投 船 凹
Ⓟ	? (Wild card key)			

## Components

The basic building units of Chinese characters are components that are made up of strokes. After entering the first two strokes of the desired character, the component and character candidates that started with that stroke are displayed in the candidate row.

Using components is a fast method for entering complex characters.

*The smaller candidates surrounded by dotted frames are components, and the bigger candidates without dotted frames are characters.*

**For example, to enter “信息”**

- 1 Enter “丿”, “丨” and “㇇”.
- 2 Move the cursor to “信”, press Ⓟ. Move the cursor to “息”, press Ⓟ again to select “息”.

## Example of using the wild card key

The wild card key (6), is used to supplement unclear strokes in entering characters. If you want to enter “互”, but you only know that “一” is the first and the last stroke of the character and that the total number of strokes is four, enter (1), (6), (6), (1). The character is displayed in the candidate row.

## Pinyin input

Press the keys containing the required Pinyin letters, and the phone will make various proposals on the screen, according to the pronunciation rules of Mandarin.

Below is the key mapping of Pinyin letters on the keypad.

Number Key	Pinyin Letter
2	abc
3	def
4	ghi
5	jkl
6	mno
7	pqrs
8	tuü
9	wxyz

On the keypad, the letter ü is replaced by v.

For example, to enter “ 信息 ”

- 1 Press (9), (4), (6).
- 2 When “xin” is highlighted, press (left arrow) or (right arrow) and select “ 信 ”, then press (right arrow). (If you want to enter any of the other suggested Pinyin combinations, scroll up or down to the desired combination, then press (right arrow)).
- 3 Press (right arrow) again to select “ 息 ”, when “ 息 ” is highlighted.

## Input punctuation, symbols and smilies

Under any Chinese input mode, press (X/a/Am), to see the table of punctuation marks, symbols and smilies. Use the navigation key to make a selection. Press (#->?) to enter a space into the text.

## File manager

Use the file manager to handle items such as pictures, videos, music, themes, Web pages, games and applications saved in the phone memory or on a memory card. (Games and applications can be saved in the phone memory only.)

## Memory Stick Micro™ (M2™)

Your phone supports the Memory Stick Micro™ (M2™) memory card adding more storage space to your phone to store files containing pictures or music, for example.

### To insert and remove a memory card

- 1 Remove the battery cover.
- 2 Insert the memory card as shown (with the contacts facing down).
- 3 Press the edge to release and remove the card.

You can also move and copy files between a computer and the memory card. When the memory card is inserted, files are automatically saved to it if you don't select to save the files to phone memory.

Create subfolders to move or copy files to. Unrecognized files are saved in the **Other** folder. When handling files, you can select several or all files in a folder at the same time for all items except **Games** and **Applications**.

### Memory status

If all available memory is full, you cannot save any files until content is removed. Check the memory status for your phone and memory card by highlighting a folder ► **More** ► **Memory status**.

### File manager menu tabs

The file manager is divided into three tabs, and icons indicate where the files are saved.

- **All files** – all content in the phone memory and on the memory card.
- **On Memory Stick** – all content on the memory card.
- **In phone** – all content in the phone memory.

## File information

# Calling

*Calls, contacts, call list, speed dial, voice control, call options, groups, business cards.*

## Making and receiving calls

Before you can make or receive any calls, you must turn on your phone and be within range of a network.

➤ **5 Turning on your phone.**

### Networks

When you turn on the phone, it automatically selects your home network if this is within range. If it is not within range, you may use another network, provided your network operator has an agreement that allows you to do so. This is called roaming.

Select the network to use, or you can add a network to your preferred networks. You can also change the order in which networks are selected during an automatic search.

### To view available network options

- ▶ **Settings** and use ⏪ or ⏩ to scroll to the **Connectivity** tab
- ▶ **Mobile networks.**

### To make a call

- 1 Enter a phone number (with international country/region code and area code, if applicable).
- 2 ▶ **Call** to make a voice call or ▶ **More** to view options.
- 3 ▶ **End call** to end the call.

💡 *You can call numbers from your contacts and call list ➤ 27 Contacts, and ➤ 30 Call list. You can also use your voice to make calls ➤ 31 Voice control.*

### To make international calls

- 1 Press and hold down **(+)** until a + sign appears.
- 2 Enter the country/region code, area code (without the first zero) and phone number. ▶ **Call** to make a voice call.

### To re-dial a number

If a call connection fails and **Retry?** appears ▶ **Yes.**

💡 *Do not hold the phone to your ear when waiting. When the call connects, the phone gives a loud signal.*

### To answer or reject a call

- ▶ **Answer** or ▶ **Busy.**

### **To turn off the microphone**

- 1 Press and hold down **(C)**.
- 2 To resume the conversation press and hold down **(C)** again.

### **To turn the loudspeaker on or off during a voice call**

► More ► Turn on speaker or Turn off speaker.

 Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing.

### **To change the ear speaker volume**

Press **(▲)** to increase or **(▼)** to decrease the ear speaker volume during a call.

### **Missed calls**

When the i-mode™ activity menu is set to default, missed calls appear in the **New events** tab in standby. If **Pop-up** is set to default **Missed calls** appears in standby

► 7 i-mode™ activity menu.

### **To check missed calls from standby**

- If i-mode activity menu is set to default, press **(☰)** and use **(◀)** or **(▶)** to scroll to the **New events** tab. Scroll **(▲)** or **(▼)** to select a number and ► **Call** to call.
- If **Pop-up** is set to default, ► **Calls** and use **(◀)** or **(▶)** to scroll to the **Missed** tab. Scroll **(▲)** or **(▼)** to select a number and ► **Call** to call.

## **Emergency calls**

Your phone supports international emergency numbers, for example, 112, 911. These numbers can normally be used to make emergency calls in any country/region, with or without a SIM card inserted.

 In some countries/regions, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

### **To make an emergency call**

Enter 112 (the international emergency number) ► **Call**.

### **To view your local emergency numbers**

### Transferring music

Disc2Phone computer software and USB drivers are included on the CD that comes with the phone. Use Disc2Phone to transfer music from CDs or your computer to the memory card in your phone.

### Before you start

The following are minimum operating system requirements for using Disc2Phone on your computer:

- Windows 2000 SP4 or
- XP Home, or XP Professional SP1.

### To install Disc2Phone

- 1 Turn on your computer and insert the CD that came with your phone or visit [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to download the Disc2Phone application. The CD starts automatically and the installation window opens.
- 2 Select a language and click **OK**.
- 3 Click **Install Disc2Phone** and follow the instructions.

### To use Disc2Phone

- 1 Connect the phone to a computer with the USB cable that came with your phone and select **File transfer**. The phone turns off and prepares to transfer files.

For more information

► *66 Transferring files using the USB cable.*

- 2 **Computer:** Start/Programs/Disc2Phone.
- 3 For details on transferring music, please refer to Disc2Phone Help. Click  in the top right corner of the Disc2Phone window.

 *Do not remove the USB cable from the phone or computer during transfer, as this may corrupt the memory card. You cannot view the transferred files in your phone until you have removed the USB cable from the phone.*

- 4 You can obtain CD information (artist, track, and so forth.) via Disc2Phone if you are connected to the Internet and extracting music from a CD.

 *For safe disconnection of the USB cable in file transfer mode, right-click the removable disk icon in Windows<sup>®</sup> Explorer and select **Eject**.*

More information about moving files to your memory card is available at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

### ***To transfer files with the USB cable provided***

➡ **66** *Transferring files using the USB cable.*

### **Browsing files**

Browse music files and video clips:

- **Artists** – lists music files you have transferred using Disc2Phone.
- **Tracks** – lists all music files (not ringtones) in your phone and on the memory card.
- **Playlists** – create or play your own lists of music files.

### **Playlists**

To organize the media files saved in the file manager, you can create playlists. Files in a playlist can be sorted by artist or title. You can add a file to more than one playlist.

When you delete a playlist or a file from the playlist, the actual music or video file is not deleted from the memory, just the playlist reference to it. You can still add the file to another playlist.

### ***To create a playlist***

- 1 ▶ **Music player** ▶ **Playlists**
  - ▶ **New playlist** ▶ **Add**. Enter a name
  - ▶ **OK**.
- 2 Select from the files that are available in the file manager. You can add several files at a time and you can also add folders. All files in the selected folders will be added to the playlist.

- 2 Select a bookmark ► **More**.
- 3 Select an option, such as sending a bookmark as a text message.

## Downloading

Download files, for example, pictures, themes, games and ringtones from Web pages.

### *To download from a Web page*

When browsing, select a file to download and follow the instructions that appear.

## Internet profiles

You can select another Internet profile if you have more than one.

*If you select another profile it may affect your iMail access or access to your operator's portal.*

### *To select an Internet profile for the Internet browser*

- Settings and use  or  to scroll to the **Connectivity** tab
- **Internet settings** ► **Internet profiles** and select a profile.

## Passwords and cache

No passwords are saved and the cache is cleared between your browser sessions.

## Internet security and certificates

Your phone supports secure browsing. Certain Internet services, such as banking, require certificates in your phone. Your phone may already contain certificates when you buy it or you can download new certificates.

### *To check certificates in your phone*

- Settings ► the **General** tab
- **Security** ► **Certificates**.

## Synchronizing

Synchronize phone contacts, appointments, tasks and notes via Bluetooth™ wireless technology, Internet services or the USB cable included with the phone.

### Synchronization with a computer

Install synchronization software for your computer found in the Sony Ericsson PC Suite on the CD, included with the phone. The software includes help information. You can also visit [www.sonyericsson.com/support](http://www.sonyericsson.com/support) to download the software or the document *Getting Started Synchronization with a computer*.

### Remote synchronization via Internet

  - **Remote initiation** – select to always accept, never accept or always ask when starting synchronization from a service.
  - **Remote security** – insert a server ID and a server password.
- 4 ▶ Save to save your new account.

### To start remote synchronization

- ▶ Organizer ▶ Synchronization and select an account ▶ Start.

## Bluetooth™ wireless technology

The Bluetooth™ function makes wireless connection to other Bluetooth devices possible. You can:

- Connect to handsfree devices.
- Connect to stereo headsets.
- Connect to several devices at the same time.
- Connect to computers and access the Internet.
- Synchronize information with computers.
- Use remote control computer applications.
- Use media viewer accessories.
- exchange items.

 *We recommend a range within 10 metres, with no solid objects in between, for Bluetooth communication.*

### Before you start

- Turn on the Bluetooth function to communicate with other devices.

- Add Bluetooth devices to communicate with to your phone.

 *Please check if local laws or regulations restrict the use of Bluetooth wireless technology. If Bluetooth wireless technology is not allowed, you must ensure that the Bluetooth function is turned off. The maximum allowed Bluetooth radio output power in the phone is automatically adjusted according to possible local restrictions. This means range may vary.*

### To turn the Bluetooth function on

- ▶ Settings ▶ the Connectivity tab
- ▶ Bluetooth ▶ Turn on.

### Adding devices to your phone

Enter a passcode to set up a secure link between your phone and the device. Enter the same passcode on the device when prompted. A device with no user interface, such as a handsfree, will have a predefined passcode. Consult the device User guide for more information.

 *Make sure that the device you want to add has the Bluetooth function activated and is visible.*

### ***To add a device to your phone***

- 1 ► Settings ► the Connectivity tab

## File transfer

If your computer supports Bluetooth wireless technology, you can install the Sony Ericsson PC Suite to synchronize, transfer files, use the phone as modem and more via Bluetooth communication. Install the Sony Ericsson PC Suite from the CD that came with the phone or download it at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). The PC Suite also includes help.

## Transferring files using the USB cable

Connect your phone to a computer, via the USB cable, to use your phone in one of the following: **File transfer** or **Phone mode**.

### File transfer

Drag and drop files between your memory card and computer in Microsoft Windows Explorer.

Use Sony Disc2Phone (music transfer) or Adobe™ Photoshop™ Album Starter Edition (picture transfer/storage). These applications are found on the CD that comes with the phone or at [www.sonyericsson.com/support](http://www.sonyericsson.com/support),

and can only be used with file transfer mode.

 Only use the USB cable that comes with the phone, and connect the USB cable directly to your computer. Do not remove the USB cable from the phone or computer during file transfer as this may corrupt the memory card.

### To use file transfer mode

- 1 Connect the USB cable to the phone and the computer.

- 2 **Phone:** Select **File transfer** or **▶ Settings ▶ the Connectivity tab ▶ USB ▶ USB connection ▶ File transfer**. The phone shuts down.

- 3 Wait until your memory card appears as an external disk in Windows Explorer. You can use:
- Windows Explorer to drag and drop files between your memory card and computer.
  - Sony Disc2Phone to transfer music to your memory card.
  - Adobe™ Photoshop™ Album Starter Edition to transfer and organize pictures on your computer.

### ***To disconnect the USB cable safely***

- 1 When using file transfer mode, right-click the removable disk icon in Windows Explorer and select Eject.
- 2 Remove the USB cable from your phone.

### **Phone mode**

Synchronize contacts and calendar, transfer files, use the phone as modem and more from your computer. Applications supported in phone mode include: Synchronization, File manager and Mobile Networking Wizard. For other applications, use the file transfer mode.

You need to install and use Sony Ericsson PC Suite, included on the CD that came with the phone or found at [www.sonyericsson.com/support](http://www.sonyericsson.com/support).

*Your computer needs to have one of the following operating systems to be able to use this feature: Windows 2000 with SP3/SP4, Windows XP (Pro and Home) with SP1/SP2. USB drivers are installed automatically with the PC Suite software.*

### ***To use phone mode***

- 1 **Computer:** Install the Sony Ericsson PC Suite from the CD that came with your phone.
- 2 **Computer:** Start PC Suite from Start/Programs/Sony Ericsson/PC Suite.
- 3 Connect the USB cable to the phone and the computer.
- 4 **Phone:** Select **Phone mode** or
  - ▶ Settings ▶ the Connectivity tab
  - ▶ USB ▶ USB connection
  - ▶ Phone mode.
- 5 **Computer:** Wait while Windows installs the required drivers.
- 6 **Computer:** When PC Suite has found your phone you are notified. All applications that you can use with your connected phone are found in the Sony Ericsson PC Suite.

## SIM card lock

The SIM card lock protects your subscription, but not the phone itself, from unauthorized use. If you change SIM cards, your phone still works with the new SIM card.

Most SIM cards are locked at the time of purchase. If the SIM card lock is on, you have to enter a PIN (Personal Identity Number) every time you turn on your phone.

If you enter your PIN incorrectly three times in a row, the SIM card is blocked. This is indicated by the message **PIN blocked**. To unblock it, you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator. You can edit your PIN and select a new four- to eight-digit PIN.

*If the message Codes do not match appears when you edit your PIN, you entered the new PIN incorrectly. If the message Wrong PIN appears, followed by Old PIN:, you entered your old PIN incorrectly.*

### *To unblock your SIM card*

- When **PIN blocked** appears, enter your PUK ▶ OK.
- Enter a new four- to eight-digit PIN ▶ OK.
- Re-enter the new PIN to confirm ▶ OK.

### *To edit your PIN*

▶ Security ▶ Locks ▶ SIM protection  
▶ Change PIN.
- Enter your PIN ▶ OK.
- Enter a new four- to eight-digit PIN ▶ OK.
- Re-enter the new PIN to confirm ▶ OK.

### ***To turn the SIM card lock on or off***

- 1 ► Settings ► the General tab  
► Security ► Locks ► SIM protection  
► Protection and select On or Off.
- 2 Enter your PIN ► OK.

## **Phone lock**

Protect your phone against unauthorized use if it is stolen and the SIM card is replaced. You can change the phone lock code (0000) to any four- to eight-digit personal code.

### **Automatic phone lock**

If the phone lock is set to automatic, you do not need to enter your phone lock code until a different SIM card is inserted in the phone.

*It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

### **To set the phone lock**

- 1 ► Settings ► the General tab  
► Security ► Locks ► Phone protection ► Protection and select an alternative.
- 2 Enter the phone lock code ► OK.

### **To unlock the phone**

If the phone lock is on, enter your code ► OK.

### **To edit your phone lock code**

- Settings ► the General tab
- Security ► Locks
- Phone protection ► Change code.

## **Keypad lock**

Lock the keypad to avoid dialling a number by accident.

*Calls to the international emergency number 112 can still be made, even when the keypad is locked.*

### **Automatic keylock**

Use automatic keylock in standby to lock the keypad soon after the last key was pressed.

### **To set the automatic keylock**

- Settings ► the General tab
- Security ► Automatic keylock.

### *To lock the keypad manually*

From standby, you can press 

► **Lock keys** to lock the keypad manually. You can still answer an incoming call and the keypad locks again after the call. The keypad remains locked until you unlock it manually.

### *To unlock the keypad manually*

From standby, press  ► **Unlock**.

## Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone.

These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed below or you have any doubt as to its proper function make sure you have the product checked by a certified service partner before charging or using it. Failure to do so might entail a risk of product malfunction or even a potential hazard to your health.

## Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- Always treat your product with care and keep it in a clean and dust-free place.
- Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose your product to extremely high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).
- Do not expose your product to open flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.

questions.AE@support.sonyericsson.com  
 questions.GB@support.sonyericsson.com  
 questions.US@support.sonyericsson.com  
 questions.VE@support.sonyericsson.com

- Do not use your product near medical equipment without requesting permission from your treating physician or authorized medical staff.
- Do not use your product when in, or around aircraft, or areas showing the sign "turn off two-way radio".
- Do not use your product in an area where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.

## CHILDREN

KEEP OUT OF CHILDRENS REACH. DO NOT ALLOW CHILDREN TO PLAY WITH YOUR MOBILE PHONE OR ITS ACCESSORIES. THEY COULD HURT THEMSELVES OR OTHERS, OR COULD ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BECOME DETACHED AND CREATE A CHOKING HAZARD.

## Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug does not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

## Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous. Talk and standby times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when the mobile phone is being used.

Turn off your mobile phone before removing the battery. Do not put the battery into your mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. Doing this could short-circuit and damage the battery. Use the battery for the intended purpose only.

## Personal medical devices

Mobile phones may affect the operation of pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, use it at the ear on the opposite side of the body to the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place,

immediately turn off your mobile phone. Contact your cardiologist for more information.

For other medical devices, please consult your physician and the manufacturer of the device.

## Driving

Please check if local laws and regulations restrict the use of mobile phones while driving or require drivers to use handsfree solutions. We recommend that you use only Sony Ericsson handsfree solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna has been installed.

Always pay full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

## Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. You should therefore never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

## Antenna

This phone contains a built-in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

## Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when it is in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and standby times.

## Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements.

Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while it is operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network. Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

For phones sold in the U.S. before a phone model is available for sale to the public, it must be tested and certified by the Federal Communications Commission (FCC) that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC for each model. For body-worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson accessory intended for this phone and worn on the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information about this mobile phone model is included with the material accompanying this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, at [www.sonyericsson.com/health](http://www.sonyericsson.com/health).

## Accessible Solutions/Special Needs

For phones sold in the US, you can use your TTY terminal with your Sony Ericsson mobile phone (with the necessary accessory). For information on Accessible Solutions for individuals with special needs call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or visit the Sony Ericsson Special Needs Center at [www.sonyericsson-snc.com](http://www.sonyericsson-snc.com).

## Disposal of old electrical and electronic equipment

This symbol indicates that all electrical and electronic equipment included shall not be treated as household waste. Instead it shall be left at the appropriate collection point for recycling of

electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

## Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

## Memory card

Your phone is equipped with a memory card reader. Check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the memory card or contact customer support.

### WARNING:

If the memory card requires an adapter for insertion into the phone or another device, do not insert the memory card directly without the required adapter.

Precautions on memory card use:

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.

- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

## Protection of personal information

To safeguard your privacy and prevent information being accessible to a third party, you should erase all personal data before selling or disposing of the product. To delete personal data, perform a master reset and remove the memory card. **DELETION OF MATERIAL FROM THE PHONE MEMORY DOES NOT ENSURE THAT SAID INFORMATION CANNOT BE RECOVERED BY A SUBSEQUENT USER. SONY ERICSSON DOES NOT WARRANT AGAINST A SUBSEQUENT USER OF THE DEVICE ACCESSING YOUR INFORMATION AND DOES NOT ASSUME ANY RESPONSIBILITY FOR SUBSEQUENT DISCLOSURE OF SAID INFORMATION EVEN IF A MASTER RESET HAS BEEN PERFORMED.** If you are concerned about such potential disclosure retain your device or secure its permanent destruction.

## Accessories

Sony Ericsson recommends use of Sony Ericsson original accessories for safe and efficient use of its products. Use of third-party accessories may decrease performance or pose a risk to your health or safety.

### LOUDNESS WARNING:

Please adjust the audio volume cautiously when using third-party audio accessories to avoid volume levels that may be harmful to your hearing. Sony Ericsson does not test use of third-party audio accessories with this mobile phone. Sony Ericsson recommends using only Sony Ericsson original audio accessories.

## End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, ("Device") contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies ("Sony Ericsson") and its third party suppliers and licensors ("Software").

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable license to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this license, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this license shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

## Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit [www.sonyericsson.com](http://www.sonyericsson.com) to get further information.

## OUR WARRANTY

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants the mobile phone to be free from defects in design, material and workmanship at the time of its original purchase by a consumer, and for a subsequent period of one (1) year. All original accessory delivered with the mobile phone will be warranted within six (6) months from the date of purchase.

## WHAT WE WILL DO

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region\* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

## CONDITIONS

- 1 The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorised dealer, specifying the date of purchase and serial number\*\*, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.

- 2 If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.
- 3 This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in the appearance of the camera image may occur between phones. This is not uncommon in digital cameras and does not mean that the camera is defective in any way.

- 4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

- 5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.
- 6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.
- 7 Tampering with any of the seals on the Product will void the warranty.
- 8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales / purchase contract.

## \*EUROPEAN UNION (EU)

If you have purchased your Product in an EU country/region you can have your Product serviced, under the conditions set out above, within the warranty period in any EU country/region where an identical Product is sold by an authorised Sony Ericsson distributor. To find out if your Product is sold in the EU country/region you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country/region of original purchase, for example due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other EU countries/regions. It may not be possible to repair SIM-locked Products.

\*\* In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.

## FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
