Using the USB charger

To connect the charger and charge the battery

1 Connect the USB cable plug to the AC adapter USB socket, as shown in the above illustration. The USB cable is supplied with your phone.

2 Connect the USB cable connector to your phone. Press a key to view the charging status on the screen. It takes approximately 2.5 hours to fully charge the battery.

To remove the charger

1 Charge your battery until the battery icon indicates a full charge.

2 Tilt the USB charger connector upwards to remove it.

Note:

1 The USB cable for the new USB charger shown in the illustration (Part. B in the new-type charger illustration) on page 7 **is only intended for charging your phone. Do not use it for transferring data**.

2 The USB cable for the USB charger shown in the illustration (Part. B in the new-type charger illustration) is only intended for connection to the AC adapter (Part. A in the new-type charger illustration) to charge your phone. **It must not be used for connection to a PC. It can only be used for charging your phone. Never use it for charging accessories.**

3 Sony Ericsson strongly recommends that **you use only Sony Ericsson branded original batteries, the part of power supply device in accordance with YD/T 1591-2006 specifications of Communications Industry Standards of P. R. China (Part A in the new-type charger illustration) and the USB cable supplied with your phone to charge the phone.** The use of third-party products may decrease the performance of your phone and/or pose a risk to your health or safety.

4 Sony Ericsson recommends that **you never mix the use the new USB charger and the old non-USB charger. The phone with new-type charger in box cannot be charged with the old-type charger, and vice versa.** The use of both the chargers may decrease the performance of your phone and/or pose a risk to your health or safety.

You can use the phone during charging. You can charge the battery for more or less than 2.5 hours. Interrupted charging will not damage the battery.

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. If you use other batteries you may not be able to charge your phone.

File manager
You can use the file manager to handle files saved in the phone memory or on a memory card.

❗ You may have to purchase a memory card separately.
Memory card

Your phone supports Memory Stick Micro™ (M2™) or MicroSD™ memory card adding more storage space to your phone. It can also be used as a portable memory card with other compatible devices.

To insert a memory card

• Open the battery cover and insert the memory card with the golden contacts facing up.

To remove a memory card

• Open the battery cover and press the edge of the memory card to release and remove it.

To view memory card options

1 From standby select Menu > Organizer > File manager > the On memory card tab.
2 Select Options.

Handling files

You can move and copy files between your phone, a computer and a memory card. Files are saved on the memory card first and then in the phone memory. Unrecognized files are saved in the Other folder.

You can create subfolders to move or copy files to. You can select more than one or all the files in a folder at the same time for all folders except Games and Applications.

If the memory is full, delete some content to create space.

File manager tabs

The file manager is divided into three tabs, and icons indicate where the files are saved.

• All files – all content in the phone memory and on a memory card
• In phone – all content in the phone memory
• On memory card – all content on a memory card

To view information about files

1 From standby select Menu > Organizer > File manager.
2 Find a file and select Options > Information.

To move a file in the file manager

1 From standby select Menu > Organizer > File manager.
2 Find a file and select Options > Manage file > Move.
3 Select an option.

To select more than one file in a folder

1 From standby select Menu > Organizer > File manager.
2 Scroll to a folder and select Open.
3 Select Options > Mark > Mark several.
4 For each file you want to mark, scroll to the file and select Mark.

To delete a file from the file manager

1 From standby select Menu > Organizer > File manager.
2 Find the file and press ⓒ.

Phone language

You can select a language to use in your phone.

To change the phone language

1 From standby select Menu > Settings > the General tab > Language > Phone language.
2 Select an option.

Entering text

You can use multitap text input or T9™ Text Input 🔟 to enter text. The T9 Text Input method uses a built-in dictionary.

To change text input method

• When you enter text, press and hold down (✱a/A→).

To shift between capitals and lower-case letters

• When you enter text, press (✱a/A→).

To enter numbers

• When you enter text, press and hold down (0 +) – (9).

To enter full stops and commas

• When you enter text, press (1).

To enter text using T9™ Text Input

1 From standby select, for example, Menu > Messaging > Write new > Text message.
2 If 🔟 is not displayed, press and hold down (✱a/A→) to change to T9 Text Input.
3 Press each key only once, even if the letter you want is not the first letter on the key. For example, to write the word "Jane", press (5), (2), (6), (3). Write the whole word before looking at the suggestions.

4 Use $\square$ or $\square$ to view suggestions.

5 Press $(\#-3)$ to accept a suggestion.

To enter text using multitap

1 From standby select, for example, Menu > Messaging > Write new > Text message.

2 If $\square$ is displayed, press and hold down $(*\overline{aa})$ to change to multitap text input.

3 Press (2) – (9) repeatedly until the desired letter appears.

4 When a word is written, press $(\#-3)$ to add a space.

! Multitap input only applies when Latin characters are selected as writing language.

To add words to the built-in dictionary

1 When you enter text using T9 Text Input, select Options > Spell word.

2 Write the word using multitap input and select Insert.

Chinese input

This mobile phone has different input methods for entering Chinese characters:
• Stroke input
• Pinyin input
You can use these methods, for example, to enter Chinese names and Chinese short messages.

Switching between Chinese input methods

In the Chinese editing mode, you can select and switch quickly to another input method by pressing and holding $(*\overline{aa})$.

General instructions

Regardless of which input method you choose, your phone has a function to speed up the entry of Chinese characters. Whenever you enter a stroke or a Pinyin letter, a candidate row of the most frequently used characters containing that stroke or relating to that letter appears at the bottom of the screen.

If the character you want is not displayed in the candidate row, press $\square$ to present another candidate row. Continue pressing $\square$ until the character you want is displayed. Alternatively, you can enter the next stroke or Pinyin letter and a new set of characters will immediately be displayed in the candidate row. To go back to the previous row, press $\square$. To select a character in the candidate row, press the navigation key or press and hold the key corresponding to the number above the character you want to enter.

Stroke input

A Chinese character is built up of strokes. There are more than 30 basic strokes, which are grouped into 5 stroke categories. Each category is represented on the keypad by one of the keys ① - ⑤. The Wild Card key ⑥, is used when you are not sure of which stroke to use.

Stroke categories

The 5 stroke categories are defined in the table below:

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
①	一	一	Over	王 十 在 七 天
		✓	Lift	海 红 牡 状 习
②	丨	丨	Down	中 业 上 门 丑
		↓	Down-Hook	小 水 打 子 承
		ノ	Short Slope Down	直 真 质 草
③	ノ	ノ	Long Left Slope	八 九 丹 风 片
		╱	Over Slope	香 千 匕 后 丢
		′	Short left Slope	而 页 面 学 殷

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
④	╲	╲	Dot	六 学 雷 心 性
		╲	Right Slope	人 火 又 送 林
		㇄	Down-Curved-Over	四 西 酉 酸
⑤	㇕	㇖	Down-Over	山 巨 屯 母 凶
		∠	Left Slope-Over	么 去 公 约 能
		㇛	Left Slope-Dot	女 要 好 巡 巢
		㇂	Down-Lift	衣 以 饭 收 长
		╲	Right Slope-Hook	我 或 民 成 伐
		㇆	Down-Over-Hook	心 必 思 忘
		㇗	Down-Over-Curved-Hook	电 也 毛 兄 孔
		㇅	Down-Over-Left Slope	专 传 转
		㇄	Down-Over-Down-Hook	马 与 张 号 费
		㇉	Down-Over-Down	鼎 鼐
		㇇	Over-Hook	写 字 皮 通 免

Number Key	Stroke Category	Basic Stroke	Stroke Name	Character
		㇆	Over-Down	口 已 户 书 骨
		㇆	Over-Down-Hook	力 习 也 同 永
		㇀	Over-Left Slope	又 之 登 多 社
		㇇	Over-Down-Over-Left Slope	及 极 廷 建
		㇌	Over-Left Slope-Curved-Hook	阿 队 陈 那 部
		㇉	Over-Down-Over-Hook	乃 透 鼐 隽 杨
		㇈	Over-Down-Over-Down	凸

		㇄	Over-Down-Curved-Hook	乙 九 瓦 飞 风
		㇀	Over-Down-Over	投 沿 船 凹
		㇀	Over-Down-Lift	话 计 认 讯
6	? (Wild card key)			

Components

The basic building units of Chinese characters are components that are made up of strokes. After entering the first two strokes of the desired character, the component and character candidates that started with that stroke are displayed in the candidate row.

Using components is a fast method for entering complex characters.

-☀- *The smaller candidates surrounded by dotted frames are components, and the bigger candidates without dotted frames are characters.*

For example, to enter "信息"

1 Enter "丿", "丨" and "丶".
2 Move the cursor to "信", press ⊙. Move the cursor to "息", press ⊙ again to select "息".

Example of using the wild card key

The wild card key 6, is used to supplement unclear strokes in entering characters. If you want to enter "互", but you only know that "一" is the first and the last stroke of the character and that the total number of strokes is four, enter 1, 6, 6, 1. The character is displayed in the candidate row.

Pinyin input

Press the keys containing the required Pinyin letters, and the phone will make various proposals on the screen, according to the pronunciation rules of Mandarin.

Below is the key mapping of Pinyin letters on the keypad.

Number Key	Pinyin Letter
2	a b c
3	d e f
4	g h i
5	j k l
6	m n o
7	p q r s
8	t u ü
9	w x y z

On the keypad, the letter ü is replaced by v.

For example, to enter " 信息 "

1 Press 9, 4, 6.

2 When "xin" is highlighted, press ⬅ or ➡ and select " 信 ", then press ⦿. (If you want to enter any of the other suggested Pinyin combinations, scroll up or down to the desired combination, then press ⦿).

3 Press ⦿ again to select " 息 ", when " 息 " is highlighted.

Fuzzy Pinyin

Fuzzy Pinyin is an option for the Pinyin input method, which contains additional spelling alternatives. When in Pinyin input mode, press More > Writing options > Fuzzy Pinyin > On.

Input punctuation, symbols and smilies

Under any Chinese input mode, press ✳, to see the table of punctuation marks, symbols and smilies. Use the navigation key to make a selection. Press #⇄ to enter a space into the text.

Calling

Making and receiving calls

You need to turn on your phone and be within range of a network.

To make a call

1 From standby enter a phone number (with international country/region code and area code, if applicable).
2 Press 📞.

💡 *You can call numbers from your contacts and call list. See Contacts on page 23, and Call list on page 27. You can also use your voice to make calls. See Voice control on page 28.*

To make international calls

1 From standby press ⓪+ until a "+" sign appears.
2 Enter the country/region code, area code (without the first zero) and phone number.
3 Press 📞.

To re-dial a number

• When Retry? appears select Yes.

⚠️ *Do not hold your phone to your ear when waiting. When the call connects, your phone gives a loud signal.*

To answer a call

• Press 📞.

To reject a call

• Press 📞.

To change the ear speaker volume during a call

• Press the volume key up or down.

To mute the microphone during a call

3 Select New contact to create a new contact or select an existing contact to add the number to.

To clear the call list

1 From standby press 📞.
2 Scroll to the All tab and select Options > Delete all.

Speed dial

Speed dialling lets you select nine contacts that you can dial quickly. The contacts can be saved in positions 1-9.

To add contacts to speed dial numbers

1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Speed dial.
3 Scroll to a position number and select Add.
4 Select a contact.

To speed dial

• From standby enter the position number and press 📞.

Voicemail

If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call.

To enter your voicemail number

1 From standby select Menu > Messaging > Settings > Voicemail number.
2 Enter the number and select OK.

To call your voicemail service

• From standby press and hold down ①.

Voice control

By creating voice commands you can:

• Voice dial – call someone by saying their name
• Activate voice dialling by saying a "magic word"
• Answer and reject calls when you use a handsfree

To record a voice command using voice dialling

1 From standby select Menu > Settings > the General tab > Voice control > Voice dialling > Activate.
2 Select Yes > New voice command and select a contact. If the contact has more than one number, select the number to add the voice command to.
3 Record a voice command such as "John mobile".

4 Follow the instructions that appear. Wait for the tone and say the command to record. The voice command is played back to you.

5 If the recording sounds OK, select Yes. If not, select No and repeat steps 3 and 4.

📍 *Voice commands are saved in the phone memory only. They cannot be used in another phone.*

To re-record a voice command

1 From standby select Menu > Settings > the General tab > Voice control > Voice dialling > Edit names.

2 Scroll to a command and select Options > Replace voice.

3 Wait for the tone and say the command.

Voice dialling

You can hear your recorded contact name when you receive a call from that contact.

To voice dial

1 From standby press and hold down a volume key.

2 Wait for the tone and say a recorded name, for example "John mobile". The name is played back to you and the call is connected.

The magic word

You can record and use a voice command as a magic word to activate voice dialling without pressing any keys. Your handsfree must be connected to your phone when using the magic word.

📍 *You should choose a long, unusual word or phrase that can easily be distinguished from ordinary background speech. Bluetooth handsfree does not support this feature.*

To activate and record the magic word

1 From standby select Menu > Settings > the General tab > Voice control > Magic word > Activate.

2 Follow the instructions that appear and select Cont. Wait for the tone and say the magic word.

3 Select Yes to accept or No for a new recording.

4 Follow the instructions that appear and select Cont.

5 Select where your magic word is to be activated.

To make a call using the magic word

Diverting calls

You can divert calls, for example, to an answering service.

! When Restrict calls is used, some divert call options are not available. See Restricted dialling on page 33.

Divert call options

Standard options are:

• Divert always – divert all your calls
• When busy – if a call is ongoing
• Not reachable – if your phone is turned off or unreachable
• No reply – if a call is not answered in a specified time

To divert calls

1 From standby select Menu > Settings > the Calls tab > Divert calls.
2 Select a call type and a divert option.
3 Select Activate.
4 Enter the number to divert calls to and select OK.

ⓐ More than one call

You can handle more than one call at a time. For example, you can put an ongoing call on hold, while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls.

Call waiting

When call waiting is used, you hear a beep if you receive a second call.

To activate call waiting

• From standby select Menu > Settings > the Calls tab > Manage calls > Call waiting > Activate.

To make a second call

1 During the call, select Options > Hold. This puts the ongoing call on hold.
2 Enter the number to call and select Options > Add call.

To answer a second call

• During the call, press 📞 . This puts the ongoing call on hold.

To reject a second call

• During the call, press 🔚 and continue with the ongoing call.

To end an ongoing call and answer a second call

• During the call, select Replace active call.

Handling two voice calls

2 To resume the conference call, select Options > Join calls.

My numbers

You can view, add and edit your own phone numbers.

To check your phone numbers
1 From standby select Menu > Contacts.
2 Scroll to New contact and select Options > Special numbers > My numbers.
3 Select an option.

Accept calls

You can choose to receive calls from certain phone numbers only.

To add numbers to the accepted callers list
1 From standby select Menu > Settings > the Calls tab > Manage calls > Accept calls > Only from list.
2 Scroll to New and select Add.
3 Scroll to a contact or select Groups.

·ᶿ· See *Groups* on page 27.

To accept all calls
• From standby select Menu > Settings > the Calls tab > Manage calls > Accept calls > All callers.

Restricted dialling

You can restrict outgoing and incoming calls. A password from your service provider is required.

If you divert incoming calls, you cannot use some restrict calls options.

Restrict calls options
Standard options are:

- All outgoing – all outgoing calls
- Outgoing intl – all outgoing international calls
- Outgoing intl roam. – all outgoing international calls except to your home country/region
- All incoming – all incoming calls
- Inc. when roaming – all incoming calls when you are abroad

To restrict calls
1. From standby select Menu > Settings > the Calls tab > Manage calls > Restrict calls.
2. Select an option.
3. Select Activate.
4. Enter your password and select OK.

Fixed dialling

Fixed dialling allows calls to be made only to certain numbers saved on the SIM card. The fixed numbers are protected by your PIN2.

Partial numbers can be saved. For example, saving 0123456 allows calls to be made to all numbers starting with 0123456.

When fixed dialling is used, you cannot view or manage any phone numbers saved on the SIM card but you can still call the international emergency number, 112.

To use fixed dialling
1. From standby select Menu > Contacts.
2. Scroll to New contact and select Options > Special numbers > Fixed dialling > Activate.
3. Enter your PIN2 and select OK.
4. Select OK again to confirm.

To save a fixed number

1 From standby select Menu > Contacts.
2 Scroll to New contact and select
  Options > Special numbers > Fixed
  dialling > Fixed numbers > New
  number.
3 Enter the information and select Save.

Call time and cost

During a call, the duration of the call is
shown. You can check the duration of
your last call, outgoing calls and the
total time of your calls.

To check the call time

• From standby select Menu > Settings
  > the Calls tab > Time & cost > Call
  timers.

Messaging

Receiving and saving messages
You are notified when you receive a
message. Messages are automatically
saved in the phone memory. When the
phone memory is full, you can delete

Transferring music from a computer

With *Sony Ericsson Media Manager*, included on the CD with your phone, you can transfer music from CDs, your computer or that you have purchased to the phone memory or a memory card.

-●́- *Sony Ericsson Media Manager software is also available for download at www.sonyericsson.com/cn.*

Before you use Media Manager
You need one of these operating systems to use *Media Manager* on your computer:

• Windows Vista™ (32 bit and 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic)
• Windows XP (Pro or Home)

To install Media Manager

1 Turn on your computer and insert the CD. The CD starts automatically and the installation window opens.
2 Select a language and click *OK*.
3 Click *Install Sony Ericsson Media Manager* and follow the instructions.

To use Media Manager

1 Connect the phone to a computer with the USB cable that came with the phone.
2 **Computer:** *Start/Programs/Sony Ericsson/Media Manager.*
3 **Phone:** Select *Mass storage* > *Menu* > *Settings* > the *Connectivity* tab > *USB* > *USB mode* > *Mass storage*. The phone will shut down in this mode but will restart again when it is disconnected from the USB cable.

! *Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory.*

4 For safe disconnection of the USB cable in mass storage mode, right-click the removable disk icon in *Windows Explorer* and select *Eject*. See *Using the USB cable* on page 60.

For details on transferring music, refer to *Media Manager Help*. Click ⍰ in the top right corner of the *Media Manager* window.

Browsing files

Music and video files are saved and categorized.

• Artists – list tracks you have transferred using Media Manager.
• Albums – list music tracks by album in your phone and on a memory card.
• Tracks – list all music tracks in your phone and on a memory card.
• Audio books – list audio books you have transferred from your computer.
• Podcasts – list all podcasts you have transferred from your computer.
• Playlists – create own lists of tracks.
• Video – list all video clips in your phone or on a memory card.

Playlists

Locks

SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on,

you have to enter a PIN (Personal Identity Number).

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator.

To unblock the SIM card

1 When PIN blocked appears, enter your PUK and select OK.
2 Enter a new four- to eight-digit PIN and select OK.
3 Re-enter the new PIN and select OK.

To edit the PIN

1 From standby select Menu > Settings > the General tab > Security > Locks > SIM protection > Change PIN.
2 Enter your PIN and select OK.
3 Enter a new four- to eight-digit PIN and select OK.
4 Re-enter the new PIN and select OK.

! If Codes do not match appears, you entered the new PIN incorrectly.
If Wrong PIN appears, followed by Old PIN:, you entered your old PIN incorrectly.

To use the SIM card lock

1 From standby select Menu > Settings > the General tab > Security > Locks > SIM protection > Protection.
2 Select an option.
3 Enter your PIN and select OK.

Phone lock

You can stop unauthorized use of your phone. Change the phone lock code (0000) to any four- to eight-digit personal code.

⚠ *It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

To use the phone lock

1 From standby select Menu > Settings > the General tab > Security > Locks > Phone protection > Protection.
2 Select an option.
3 Enter the phone lock code and select OK.

To change the phone lock code

1 From standby select Menu > Settings > the General tab > Security > Locks > Phone protection > Change code.
2 Enter the old code and select OK.
3 Enter the new code and select OK.
4 Repeat the code and select OK.

Keypad lock

You can set this lock to avoid accidental dialling. Incoming calls can be answered without unlocking the keypad.

⚠ *Calls to the international emergency number 112 can still be made.*

To use the automatic keylock

1 From standby select Menu > Settings > the General tab > Security > Automatic keylock.
2 Select an option.

To lock the keypad manually

• From standby press (✱a/A→) and select Lock.

To unlock the keypad manually

• From standby press (✱a/A→) and select Unlock.

IMEI number

Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone is stolen.

To view your IMEI number

• From standby press (✱a/A→), (#–⅌), (0 +), (6), (#–⅌).

Troubleshooting

Important information

Sony Ericsson Consumer Web site

On *www.sonyericsson.com/cn* there is a support section where help and tips are only a few clicks away. Here you find the latest computer software updates and tips on how to use your product more efficiently.

Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone.

These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed bellow or you have any doubt of the proper function make sure to have the product checked by certified service partner before charging or using it. Failure to do so might lead to risk for product malfunction or even a potential hazard to your health.

Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- Always treat your product with care and keep it in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose your product to extreme high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).

- Do not expose your product to open flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not attempt to disassemble or modify your product. Only Sony Ericsson authorised personnel should perform service.
- Do not use your product near medical equipment or in hospitals without requesting permission from your treating physician or authorized medical staff.
- Do not use your product when in, or around aircraft, or areas showing the sign "turn off two-way radio".
- Do not use your product in an area where a potentially explosive atmosphere exists, for example, at a petrol station, oil depot or chemical plant.
- Do not place your product or install wireless equipment in the area above an air bag in your car.
- Caution: Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.

CHILDREN

KEEP OUT OF CHILDREN'S REACH. DO NOT ALLOW CHILDREN TO PLAY WITH YOUR MOBILE PHONE OR ITS ACCESSORIES. THEY COULD HURT THEMSELVES OR OTHERS, OR COULD ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BE DETACHED AND CREATE A CHOKING HAZARD.

Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug will not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous.

Talk and standby times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when the mobile phone is being used. Under normal conditions, the stand-by time for this battery is up to 400 hours.

Turn off your mobile phone before removing the battery. Do not put the battery into your mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. Doing this could short-circuit and damage the battery. Use the battery for the intended purpose only.

Personal medical devices

Mobile phones may affect the operation of cardiac pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, use it at the ear opposite side of the body to the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place, immediately turn off your mobile phone. Contact your cardiologist for more information.

For other medical devices, please consult your physician and the manufacturer of the device.

Driving

Please check if local laws and regulations restrict the use of mobile phones while driving or require drivers to use handsfree solutions. We recommend that you use only Sony Ericsson handsfree solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna supports the installation.

Always give full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. You should therefore never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

Antenna

This phone contains a built in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and standby times.

Radio frequency (RF) exposure and (SAR)

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements.

Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network.

Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC for each model. For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson body worn accessory intended for this phone. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information for this mobile phone model is included with the material that comes with this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, on: *www.sonyericsson.com/cn.*

Disposal of old electrical & electronic equipment

This symbol indicates that all electrical and electronic equipment included shall not be treated as household waste. Instead it shall be left at the appropriate collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local city office or your household waste disposal service.

Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

Declaration of substances

When this product is operated under the conditions in the product manual, the environmental protection period (EPUP) is 20 years.

(Note: The environmental protection period (EPUP) of battery is 5 years.   ).

Memory card

Your product comes complete with a removable memory card. It is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use.

The memory card is formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

WARNING:

If your device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.

- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

To safeguard your privacy and prevent information being accessible to a third party, you should erase all personal data before selling or disposing of the product. To delete personal data, perform a master reset and remove the memory card.

DELETION OF MATERIAL FROM THE PHONE MEMORY DOES NOT ENSURE THAT SAID INFORMATION CANNOT BE RECOVERED BY A SUBSEQUENT USER. SONY ERICSSON DOES NOT WARRANT AGAINST A SUBSEQUENT USER OF THE DEVICE ACCESSING YOUR INFORMATION AND DOES NOT ASSUME ANY RESPONSIBILITY FOR SUBSEQUENT DISCLOSURE OF SAID INFORMATION EVEN IF A MASTER RESET HAS BEEN PERFORMED. If you are concerned about such potential disclosure retain your device or secure its permanent destruction.

Accessories

Sony Ericsson recommends use of Sony Ericsson original accessories for safe and efficient use of its products. Use of third-party accessories may decrease performance or pose a risk to your health or safety.

LOUDNESS WARNING:

Please adjust the audio volume cautiously when using third-party audio accessories to avoid volume levels that may be harmful to your hearing. Sony Ericsson does not test use of third-party audio accessories with this mobile phone. Sony Ericsson recommends using only Sony Ericsson original audio accessories.

End User Licence Agreement

This wireless device, including without limitation any media delivered with the device, ("Device") contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies ("Sony Ericsson") and its third party suppliers and licensors ("Software").

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable license to use the Software solely in conjunction with the Device on which it is installed. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this license, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this license shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product"). Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit *www.sonyericsson.com/cn* to get further information.

What we will do

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorised distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions

1 The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorised dealer, specifying the date of purchase and serial number**, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.

2 If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for thirty (30) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

3 This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out - this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in the appearance of the camera image may occur between phones. This is not uncommon in digital cameras and does not mean that the camera is defective in any way.

4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

7 Tampering with any of the seals on the Product will void the warranty.

8   THERE ARE NO EXPRESS WARRANTIES,
    WHETHER WRITTEN OR ORAL, OTHER THAN
    THIS PRINTED LIMITED WARRANTY. ALL
    IMPLIED WARRANTIES, INCLUDING WITHOUT
    LIMITATION THE IMPLIED WARRANTIES OF
    MERCHANTABILITY OR FITNESS FOR A
    PARTICULAR PURPOSE, ARE LIMITED TO THE
    DURATION OF THIS LIMITED WARRANTY. IN NO
    EVENT SHALL SONY ERICSSON OR ITS
    LICENSORS BE LIABLE FOR INCIDENTAL OR
    CONSEQUENTIAL DAMAGES OF ANY NATURE
    WHATSOEVER, INCLUDING BUT NOT LIMITED
    TO LOST PROFITS OR COMMERCIAL LOSS; TO
    THE FULL EXTENT THOSE DAMAGES CAN BE
    DISCLAIMED BY LAW.

Some countries/regions/states do not allow the
exclusion or limitation of incidental or consequential
damages, or limitation of the duration of implied
warranties, so the preceding limitations or
exclusions may not apply to you.

The warranty provided does not affect the
consumer's statutory rights under applicable
legislation in force, nor the consumer's rights
against the dealer arising from their sales /
purchase contract.

* In some countries/regions additional information
is requested. If so, this is clearly shown on the valid
proof of purchase.

FCC Statement

This device complies with Part 15
of the FCC rules. Operation is subject
to the following two conditions:

(1) This device may not cause
harmful interference, and

(2) This device must accept any interference
received, including interference that may cause
undesired operation.
