

OPERATING MANUAL

Bluetooth Enabled Car Kit

CE

FCC: QVN-HFK2M14

E13 10R-02 1899

Version 3.5

OVERVIEW

This unit uses Bluetooth technology that allows wireless communication among devices such as cellular phones. This is designed to be a totally wireless hands-free Car Kit. This will enable the user to communicate freely while driving, without holding the phone. This unit will work on all Bluetooth cellular phones provided that they respect the Bluetooth protocol.

Figure 1

- | | |
|----------------------------|---|
| 1 – Multi-function Button | - Answer/Hang-up/Pairing/Voice Recognition) / Indicator lights / Timer (See page 3). |
| 2 – Cigarette Lighter Plug | - Specially designed to fit into the cigarette lighter jack with a swivel mount up to 120°. |
| 3 – Speaker | - Allows the user to hear the voice of the other party. |
| 4 – Volume Control | - This rotary control will adjust the audio volume of the speaker. |

A. OPERATIONS

Before use, the Car Kit must be paired with the phone. This car kit requires either of two pairing modes (Handsfree or Headset mode) which you will select depending on your cellular phone. Pairing is done only once. After being paired, the phone and the Car Kit becomes connected. You can answer or make a call using the car kit instead of your phone. (For the instructions, please refer to **Car Kit Operations for Popular Cell Phones** on page 6).

B. INSTALLING THE MICROPHONE

1. Put two (2) "AAA" Alkaline batteries in the wireless microphone. The negative polarity of the batteries must be in the spring side.
Note: Microphone battery life is more than 500 calls (if 3 calls/day, battery life = more than 5 months).
2. It is highly recommended that you attach your microphone to the sun visor(See figure 3). Please make sure that it does not hide the microphone otherwise your voice will be attenuated.
3. Turn "ON" the microphone by using the power switch.

- **Wireless Microphone Illustration**

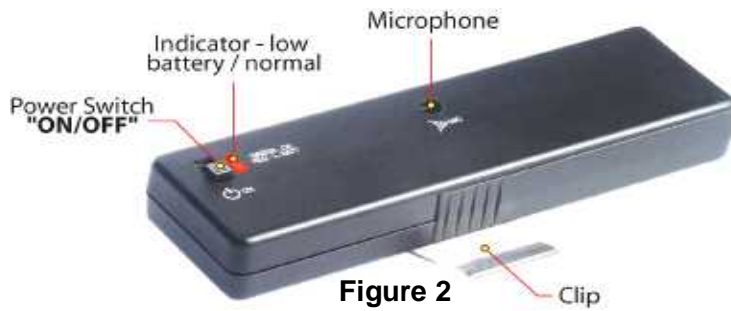

Figure 2

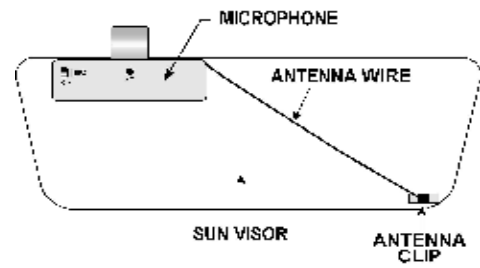

Figure 3

REMARKS:

- § If microphone is not “ON” during a communication, the sound on the speaker will be attenuated.
- § In standby mode, the microphone will still have a small consumption (less than 1.8 microwatts).
- § On some versions, the indicator light will only turn ON for 2 seconds after the microphone is switched ON. If the light is red, this indicates low battery.
- § The microphone is activated by the Hands-Free Car Kit base and can remain in “ON” position even if not used. But in order to extend battery life, it is recommended to switch “OFF” your microphone when you won’t use it for a long time.

C. FUNCTION CONTROLS

Adjust the Function Controls as recommended:

1. **Tone Control**
 “H” for High Tone
 “L” for Low Tone.
2. **ASP Control**
 ON = Echo and Feedback Canceller
 OFF = Echo Reducer only
3. **Adjustable Microphone Gain (MIC) Control**
 “H” for high gain; “L” for low gain.
 “L” is necessary in noisy background.

Control Switches

Figure 4.

The Microphone gain must be adjusted to match with your cell phone model. If the gain is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.

Recommended Function Controls Setting (Working on all models):		
MIC	=	L
ASP	=	ON
TONE	=	H

Note:
 On high background environment, If you experience audio level fluctuation, turn ASP “ OFF ”.

D. SETTING THE VOLUME

There are two volume controls. One is on the main unit. See (4) on figure 1. The other is the volume key of your cell phone. Use the volume control of the Car Kit and the volume keys of your cell phone. *Note: If the volume set is too high, it can cause feedback (whistling sound), echo or background noise during calls on some cell phones.*

E. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, the phone ring tone will be heard on the Car Kit. Just press the multi-function button (1) on the main unit to answer the call. Pressing the button again will hang-up and terminate the call. (Please refer to Car Kit Operations for Popular Cell Phones section on page 4 for additional information).

F. MAKING A CALL

(Refer to Car Kit Operations For Popular Cell Phones section on page 4).

Important Remarks:

- On some versions of Nokia's software, the Car Kit will not connect automatically to the cell phone. You will need to press the multi-function button once to connect it to the cell phone.
- If disconnection problem will be encountered on some Nokia cell phones, kindly turn off the keypad tone of your cell phone.

CAR KIT OPERATIONS FOR POPULAR CELL PHONES

Note 1: If your phone is not included in the following list of this manual, kindly refer to the manual of your phone.

Note 2: Softwares and menus could be modified by the cell phone's manufacturers without prior notice. If the manual does not match with your cell phone operations, kindly refer to the manual of your cell phone.

Note 3: **Multi-pairing is now possible.**

The Car Kit turns on automatically when the engine is turned on. The ON state is designated by the Bluetooth indicator LED flashing "Blue".

Note 1: Handsfree Pairing Mode

- ➔ From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for Handsfree Pairing.

Note 2: Headset Pairing Mode

- ➔ From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue.
- ➔ Press the multi-function button again for a short time to access Headset Pairing Mode.

USING WITH SONY ERICSSON T39m

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press Menu Key. Scroll to *Extras* and press **YES**. Select *Operation mode*, **YES**. On, **YES**.
2. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Extras	Blue tooth	Operation mode
T39m	5	6	4

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. **Press the multi-function button once again for a short time, to access headset pairing mode.**
4. Press Menu Key. Scroll to *Extras*, **YES**. Select *Bluetooth*, **YES**. Select *Paired devices*, **YES**. Add device, **YES**. Choose *Phone initiates*, **YES**. Choose *Headset*, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for step 4):

Press *Menu* then follow the sequence of numbers below:

	Extras	Blue tooth	Paired devices	Add device	Phone initiates	Headset
T39m	5	6	2	Yes	1	2

5. Enter "0000" as the passkey. If the pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If pairing is unsuccessful, the steps above may be repeated.
6. Continue pressing **NO** to exit from Menu.

The unit is now ready to link calls from the phone directly to the Car Kit.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Press the multi-function button once to answer the call. *Note: Pressing the button again will hang-up and terminate the call.*
2. If you wish to answer the call on the cellular phone, just press **YES** and audio will be heard on the phone. If you press once on the multi-function button, audio will be transferred to the Car Kit.
3. Pressing the multi-function button once again will terminate the call.

d. MAKING A CALL with the Car Kit on

Normal dialing

1. Enter the contact number and press **YES**. Audio can be heard on the Car Kit. Simultaneously, a question "**Retrieve call in phone?**" will be displayed. Ignoring or pressing *No*, will retain the call to the Car Kit. Pressing *Yes* will transfer the audio to the cell phone.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step f and g for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button once again to terminate the call.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. ACTIVATING THE VOICE DIALING

Use your phone when recording for voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

1. Press *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
2. *Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
3. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T39m	4	9	1	1	1

g. RECORDING FOR VOICE DIALING

1. Press *Menu Key*. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice Commands*, **YES**. Select *Contacts*, **YES**. *Add voice*, **YES**.
2. Find a contact name and follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
3. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T39m	4	9	2	4

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T68/T68i

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go to *Menu* by pressing the joystick. Scroll to *Connect*, **YES**. Select *Bluetooth*, **YES**. Select *Options*, **YES**. *Operation mode*, **YES**. *On*, **YES**.
2. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connect	Blue tooth	Options	Operation mode
T68	8	3	-	2
T68i	8	4 (or 3 for T68i R7)	4	1

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. **For T68 and T68i older versions, R6 and below, press the multi-function button once again for a short time, to access headset pairing mode.**
4. Go to Menu by pressing the joystick. Scroll to *Connect*, **YES**. Select *Bluetooth*, **YES**.
5. Select *Paired devices*, **YES**. Add device, **YES**. Choose *Phone initiates*, **YES**. Choose *Headset/Handsfree*, **YES**. The phone will then search the device to be added. After the device is found, press **YES**.

QUICK ACCESS (for steps 4 and 5):

Press *Menu* then follow the sequence of numbers below:

	Connect	Blue tooth	Paired devices	Add device	Phone initiates	Headset/ Handsfree
T68	8	3	2	Yes	1	2
T68i	8	4 (or 3 for T68i R7)	2	Yes	1	2

6. Enter "0000" as the passkey. If pairing is successful, the alternating red/blue lights will stop. Press **YES** to confirm the name of the device. If pairing is unsuccessful, the steps above may be repeated.
7. Continue pressing **NO** to exit from menu.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon, will appear during the standby mode indicating that the Car Kit is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Just press the multi-function button once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer the call on the cellular phone, just press **YES** and the call will be heard on the phone. Pressing the multi-function button will transfer the call to the Car Kit.
3. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Car Kit on

Normal dialing

1. Enter the contact number and press **YES**. Audio will be heard on the Car Kit. Simultaneously, a question "**Retrieve call in phone?**" will be displayed. Ignoring or pressing *No*, will retain the audio to the Car Kit. Pressing *Yes*, will transfer the audio to the cell phone.
2. Press the multi-function button to terminate the call.

Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.

2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

✦ **Redialing**

For T68i R6 and R7, press twice quickly the multi-function button. Call is automatically transferred to the Car Kit.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. **REJECTING A CALL**

For T68i R6 and R7, press the multi-function button twice to reject the incoming call.

g. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

✦ **Using T68 Sony Ericsson**

1. Go to Menu by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**.
2. *Voice settings*, **YES**. *Voice dialing*, **YES**. Select *On*, **YES**.
3. Continue pressing **NO** to exit

✦ **Using T68i Sony Ericsson**

1. Go to Menu by pressing the joystick. Scroll to *Settings*, **YES**. *Voice control*, **YES**. *Voice dialing*, **YES**.
2. Select *On*, **YES**.
3. Continue pressing **NO** to exit

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice settings	Voice dialing	On
T68	5	8	1	1	1
T68i	5	6	-	1	1

h. **RECORDING FOR VOICE DIALING**

✦ **Using T68 Sony Ericsson**

1. Go to *Menu* by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES**. *Voice Commands*, **YES**. Select a contact, **YES**. *Add voice*, **YES**.
2. Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
3. Continue pressing **NO** to exit.

✦ **Using T68i Sony Ericsson**

1. Go to *Menu* by pressing the joystick. Scroll to *Settings* and press **YES**. Choose *Voice control*, **YES** then go to *Voice dialing*, **YES**. *Edit name*, **YES**. *Add voice*, **YES**.
2. Select a contact, **YES**.

3. Follow the instructions in the display. An icon will appear next to a contact name which has a voice command.
4. Continue pressing **NO** to exit.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Settings	Voice control	Voice commands	Contacts
T68	5	8	2	4
	Settings	Voice control	Voice dialing	Edit names
T68i	5	6	1	2

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH SONY ERICSSON P800 / P900

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Flip to open mode. On the phone's *Applications* window, scroll to **Control Panel** and tap it using the "stylus". On the lower portion, tap **Connections** index. Tap **Bluetooth**. Tap **Settings** index. On the **Operation mode**, tap **On**.
2. Tap  to exit and return to the Applications window.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. **Press the multi-function button once again for a short time, to access headset pairing mode.**
4. Flip to open mode. On the phone's *Applications* window, scroll to **Control Panel** and tap it. On the lower portion, tap **Connections** index. Tap **Bluetooth**. Tap **Devices** index. **Bluetooth devices** is displayed as sub-title. Tap **Add**. The phone is now searching for pairable devices.
5. Devices found are then displayed. Tap the device you want to pair with your phone. **Bonding in progress** will be displayed on screen and simultaneously, the phone will ask for the pass key.
6. On the lower left corner of the screen, tap . Enter "0000" as the passkey then tap **Done**. Also tap **Done** under the sub-title, "Secure Connection." If pairing is successful, the alternating red/blue lights will stop.
7. Tap  to exit and return to the *Applications* window. If the pairing is unsuccessful, the steps above may be repeated.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon will appear during the standby mode indicating that the Car Kit is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Press the multi-function button once to answer the call. Pressing the button again will hang-up and terminate the call.

2. If you wish to answer the call on the cellular phone, just press **ok** key and audio will be heard on the phone. Pressing the multi-function button will transfer the audio to the Car Kit.
3. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Car Kit on

✦ Normal dialing

1. Enter the contact number and press **OK**. Sound is automatically transferred to the Car Kit.
2. Press the multi-function button to hang-up and terminate the call.

✦ Voice dialing

Refer to step f and g for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing. Sound is automatically transferred to the Car Kit.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. ACTIVATING THE VOICE DIALING

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on:

1. On the Applications window (flip open mode), tap *Phone*.
2. Tap *Edit* then tap *Preferences*. A list of features will appear.
3. Tap *Voice Control* then tap the box aligned to *Voice dialing* to check and activate the voice dialing feature. Tap the box aligned to *Play caller name* so that the name will be played back to you.
4. Tap **Done** on the on screen button when finished.
5. On the Preferences mode, tap **Done** again.
6. Tap  to exit and return to the Applications mode.

g. RECORDING FOR VOICE DIALING

The voice dialing feature is only applicable to contacts saved to phone memory.

1. On the Applications window (flip open mode), tap *Contacts*.
2. Tap the contact where you want to add a voice dialing feature. Tap **Edit**. Scroll to **Edit Contact**. Tap  on the on-screen buttons.
3. Tap **Record**. *Speak after tone* will be displayed on the screen.
4. Record your voice. To check if your recording is of good quality, tap **Play**. If not, tap **Record** again. Press **Done** when finished.
5. Tap  to make another record and repeat the steps above. To return to the Applications window, tap  button.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T610

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go to Menu by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**. *Turn On*, **SELECT**.
2. Continue pressing  to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Go to Menu by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**.
4. Scroll to *My devices*, **SELECT**. *New device*, **ADD**. The phone is now searching for pairable devices to be added. Select the device you want to pair with your cell phone. Press **SELECT**.
5. Enter "0000" as the passkey then press **OK**. If the pairing is successful, the alternating red/blue lights will stop.
6. Continue pressing  to exit.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon will appear during the standby mode indicating that the Car Kit is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. Pressing the multi-function button transfers the call on the Car Kit.
3. To terminate the call, press the multi-function button again.

d. MAKING A CALL with the Car Kit on

Normal dialing

1. Enter the contact number and press **CALL** button. Audio is automatically transferred to the Car Kit.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

Redialing

Press quickly the multi-function button twice to redial the last number.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. **REJECTING A CALL**

Press the multi-function button twice to reject the incoming call.

g. **ACTIVATING THE VOICE DIALING**

Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

1. Go to Menu by pressing the joystick. Scroll to *Settings*, **SELECT**. *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing  to exit.

h. **RECORDING FOR VOICE DIALING**

1. Go to *Menu* by pressing the joystick. Scroll to *Settings* and press **SELECT**. Choose *Voice control*, **SELECT** then go to *Voice dialing*, **SELECT**. *Edit names*, **SELECT**. *New voice*, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that are displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON T628

a. **ACTIVATING THE BLUE TOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go to Menu by pressing the joystick. Scroll to *Connectivity*, **SELECT**. Select *Bluetooth*, **SELECT**. *Turn On*, **SELECT**.
2. Continue pressing  to exit.

b. **SETTING TO LOW POWER MODE**

1. Press Menu Key. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Scroll to *Handsfree*, **SELECT**. Choose *Car handsfree*, **SELECT**.
3. Choose *Power Save*, **SELECT**.
4. Continue pressing  to exit.

c. **PAIRING TO THE CELLULAR PHONE**

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.

4. Scroll to *My devices*, **SELECT**. *New device*, **ADD**. The phone is now searching for pairable devices to be added. Select the device you want to pair with your cell phone. Press **SELECT**.

5. Enter "0000" as the passkey then press **OK**. If the pairing is successful, the alternating red/blue lights will stop.
6. Continue pressing  to exit from Menu.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon, will appear during the standby mode indicating that the Car Kit is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and audio will be heard on the phone. Pressing the multi-function button will transfer the call on the Car Kit.
3. To terminate the call, press the multi-function button again.

e. MAKING A CALL with the Car Kit on

 **Normal dialing**

1. Enter the contact number and press **CALL** button. Audio is automatically transferred to the Car Kit.
2. Press the multi-function button to hang-up and terminate the call.

 **Voice dialing**

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. ACTIVATING THE VOICE DIALING

Use your phone when recording for voice dialing. Before voice dialing, you must first turn on the name dialing function and record your voice. To turn voice dialing on and record number types:

1. Go to Menu by pressing the joystick. Scroll to *Settings*, **SELECT**. *Voice control*, **SELECT**. *Voice dialing*, **SELECT**.
2. Choose *On*, **SELECT**.
3. Continue pressing  to exit.

h. RECORDING FOR VOICE DIALING

1. Go to Menu by pressing the joystick. Scroll to *Settings* and press **SELECT**. Choose *Voice control*, **SELECT** then go to *Voice dialing*, **SELECT**. *Edit names*, **SELECT**. *New voice*, **ADD**.
2. Find a contact then press **SELECT**.
3. Follow the instructions that are displayed. Voice is automatically saved on the phone. An icon will appear next to a contact name which has a voice command.
4. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH SONY ERICSSON Z600

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press Menu Key . Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**. Choose *Turn ON*, **SELECT**.
2. Continue pressing  to exit.

QUICK ACCESS:

- a. Press *More* key.
- b. Scroll to *Turn On Blue tooth*, **SELECT**.
- c. Continue pressing  to exit.

b. SETTING TO LOW POWER MODE

1. Press Menu Key . Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Scroll to *Handsfree*, **SELECT**. Choose *Car handsfree*, **SELECT**.
3. Choose *Power Save*, **SELECT**.
4. Continue pressing  to exit.

c. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Press Menu Key . Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
4. Scroll to *My Devices*, **SELECT**. *New Device*, **ADD**. The phone will then search the device to be added. After the device is found, press **SELECT**.
5. Enter "0000" as the passkey and press **OK**. If the pairing is successful, the alternating red/blue lights will stop. If pairing is unsuccessful, the steps above may be repeated.
6. Continue pressing  to exit.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon, will appear during the standby mode indicating that the Car Kit is linked with the phone.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit.

1. Just press the multi-function button down once to answer the call. Pressing the button again will hang-up and terminate the call.
2. If you wish to answer a call on the cellular phone, just press **YES** and the call is automatically transferred to the phone. To transfer the call to the Car Kit, Press Menu Key. Scroll to *Transfer Sound* and press **SELECT**. Choose the paired device and press **SELECT**.
3. To terminate the call, press the multi-function button again.

e. MAKING A CALL with the Car Kit on

Normal dialing

1. Enter the contact number and send. Audio can be heard on the Car Kit simultaneously.
2. Press the multi-function button to hang-up and terminate the call.

Voice dialing

Refer to step g and h for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.

2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
 3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
 4. Press the button again to terminate the call.
- f. **AUDIO TRANSFER**
Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.
- g. **ACTIVATING THE VOICE DIALING**
Use your phone when recording for the voice dialing. Before voice dialing, you must first turn on the voice dialing function and record your voice. To turn voice dialing on:
1. Press Menu Key . Scroll to *Settings*, **SELECT**. Scroll to *Voice control*, **SELECT**.
Voice dialing, **SELECT**.
 2. Choose *On*, **SELECT**.

- h. **RECORDING FOR VOICE DIALING**
1. Press Menu Key . Scroll to *Settings* and press **SELECT**. Choose *Voice controls*, **SELECT** then go to *Voice dialing*, **SELECT**. Scroll to *Edit name*, **SELECT**. *New voice*, **ADD**.
 2. Select a contact and press **SELECT**.
 3. Follow the instructions in the display. An icon will appear opposite a contact's name which has a voice command.
 4. Continue pressing  to exit.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH SONY ERICSSON K700i

- a. **ACTIVATING THE BLUETOOTH**
You must activate the Bluetooth feature of your phone to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.
1. Press  to access Main Menu.
 2. Scroll to **Connectivity**, *Select*. **Bluetooth**, *Select*. **Turn On**, *Select*.
 3. Continue pressing  to exit.
- b. **PAIRING TO THE CELLULAR PHONE**
1. Bring the cellular phone at about 20 cm from the Car Kit.
 2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
 3. Press  to access Main Menu. Scroll to **Connectivity**, *Select*. Choose **Bluetooth**, *Select*.
 4. Scroll to **My devices**, *Select*. **New device**, *Add*. The phone will then search for pairable devices to be added.
 5. The searched devices will then be displayed. Choose the device name you want to pair with this phone, then press *Select*.

6. Enter "0000" as the passcode then press **Ok**. If pairing is successful, the alternating red/blue lights (*Bluetooth Indicator*) will stop and will change to plain blinking blue.
7. Your device name is now added under **My devices** tab. Highlight the newly paired device and then press **Connect** to completely establish connection between your mobile phone and your Car Kit.
8. When a statement appeared indicating that your device is connected, continue pressing  to exit.

The Car kit is now linked or paired with the phone. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, ring tone will be heard on the phone and on the Car Kit.

1. Shortly press the multi-function button once to answer the call.
2. Shortly press the multi-function button once to terminate the call.

d. MAKING A CALL with the Car Kit on

 **Normal dialing**

1. Enter the contact number and press **Call key**. Audio is possible on the phone or on the kit.
At times, when the audio is not on the kit, apply audio transfer (see section e).
2. To terminate or hang-up the call, shortly press the multi-function button.

 **Voice dialing**

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Shortly press the multi-function button once to activate voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the voice name of the person to call.
3. Say the name. The voice name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. Shortly press the hang-up button to terminate the call.

 **Redialing**

Press the multi-function button twice quickly to redial the last number.

e. AUDIO TRANSFER

Audio transfer can be done during an ongoing call.

Car kit initiates transfer from kit to phone: Press twice quickly the multi-function button.

Car kit initiates transfer from phone to kit: Shortly press the multi-function button once.

Note: Using your phone, access  (Menu button) during an ongoing call to transfer sound to the Car Kit or to your phone.

f. REJECTING A CALL

Press the multi-function button twice quickly to reject an incoming call.

g. ACTIVATING THE VOICE DIALING

Before voice dialing, you must first activate the *voice dialing* function of your cell phone and record a voice command for a particular contact.

1. Press  to access Main Menu. Scroll to **Settings**, *Select. Voice control*, *Select. Voice dialing*, *Select. Activate*, *Select.*
2. Continue pressing  to exit.

h. RECORDING FOR VOICE DIALING

Note: Voice dialing entries must be stored in the phone's memory (not on the SIM card!).

1. Press  to access Main Menu. Scroll to **Settings** and press *Select*. Choose **Voice control**, *Select*. **Voice dialing**, *Select*. **Edit names**, *Select*. **New voice**, *Add*. (Contacts list will appear).
2. Choose among the contacts whichever you want to have a voice name/voice tag. When it's highlighted, press **Select**.
3. Follow the instructions that will be displayed on screen.
Note: You may use any word(s) or just say the person's name for a voice tag.
4. When your spoken word(s) is caught up by the phone, it will ask you to listen to your recording and will ask the question, **"Is it ok?"**.
5. As soon as you press **Yes** as reply, your voice command will be saved. Under Voice Commands tab, a callout icon  will appear next to a contact name which has a voice command.
6. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record a voice and make a voice dial in a quiet environment.

USING WITH MOTOROLA E398

a. ACTIVATING THE BLUETOOTH

You must activate the Bluetooth feature of your mobile phone to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

Use your phone when recording for voice dialing.

1. From standby mode, press arrow up or down.

2. Find a contact name to which you want to add a voice tag. Press *Details* button. The phone number will be displayed.
3. Press *Options* button. *Add voice tag*, **SELECT**. Press *Start*, and say the name clearly. *Voice tag saved* is displayed indicating that the voice tag has been saved.
4. In case you wish to change your recorded voice, press *Names, Voice tags*, **SELECT**. Scroll to the name that you want to change the voice tag then press **Options**. *Change*, **SELECT**. Follow the instructions.
5. Continue pressing *Back* button to exit.

Note: Noisy environment could affect voice recognition. Record voice in a quiet environment.

USING WITH NOKIA 8910i

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press *Menu*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. Choose *On*, **SELECT**. An icon will appear on the display on the standby mode.
3. Continue pressing *Back* to exit from *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connectivity	Bluetooth	Select	On	Select
8910i	10	1	1	1	1

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Press *Menu*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT** and scroll to *Search for audio accessories*, **SELECT**. The phone is now searching for Bluetooth devices. **SELECT** the Car Kit. The phone will initiate connection with the Car Kit.

QUICK ACCESS (for step 3):

Press *Menu* followed by the sequence of numbers below.

	Connectivity	Bluetooth	Search for audio accessories
8910i	10	1	2

4. Enter "0000" as the passcode then press **OK**. The phone is now connected with the Car Kit.
5. Continue pressing *Back* to exit from *Menu*.

The Car Kit is paired and ready to use. An icon will be displayed during the standby mode indicating that the Car Kit is linked with the phone.

Note: Once paired, the Car Kit and the phone have simultaneous connection. (Keypad tones can be heard on the Car Kit every time the keypad is pressed).

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Car Kit.

1. Press *Menu*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**. Scroll to *View paired devices*, **SELECT**.

2. Select the Car Kit and press **OPTIONS**. Scroll to *Request conn. authorisation*, **SELECT**. No, **SELECT**.
3. Continue pressing *Back* to exit from *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connectivity	Bluetooth	View paired devices	Select
8910i	10	1	4	Options

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard on the Car Kit as well as on the phone.

1. Press the multi-function button down once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call but audio will still be heard on the Car Kit.

e. MAKING A CALL with the Car Kit on

☛ Normal dialing

1. Enter the contact number and *Send*. As you dial, audio and keypad tones are simultaneously heard on the Car Kit. No audio on the phone.
2. Press the multi-function button to hang-up and terminate the call.

☛ Voice dialing

Refer to step h for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

☛ Redialing

Press twice quickly the multi-function button to redial the last number.

f. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. REJECTING A CALL

Press twice quickly the multi-function button to reject the incoming call.

h. RECORDING FOR VOICE DIALING

Use your phone when recording voice dialing.

1. From standby mode, press arrow up or down.
2. Find a contact name to which you want to add a voice tag. Press *Details* button. The phone number will be displayed.
3. Press *Options* button. *Add voice tag*, **SELECT**. Press *Start*, and say the name clearly. *Voice tag saved* is displayed indicating that the voice tag has been saved.
4. In case you wish to change your recorded voice, press *Names, Voice tags*, **SELECT**. Scroll to the name that you want to change the voice tag then press **Options**. *Change*, **SELECT**. Follow the instructions.

5. Continue pressing *Back* to exit.

Note: Noisy environment could affect voice recognition. Record voice in a quiet environment.

USING WITH NOKIA 3650

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press *Menu*  button. Scroll to *Connect.*, **OPTIONS**. A list of options will be displayed. Choose *OPEN* then press **SELECT**. Choose *Bluetooth*, **OPTIONS**. Choose *OPEN*, and press **SELECT**.
2. *Bluetooth* **OFF** will be displayed. Press **OPTIONS**. *Change*, **SELECT**. Choose *On*, then press **OK**.
3. Continue pressing *Exit*.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Press *Menu*  button. Scroll to *Connect.*, **OPTIONS**. Choose *Open*, press **SELECT**. *Bluetooth*, **OPTIONS**. *Open*, **SELECT**. Press  button, "*Paired devices*" will be displayed as title. Press **OPTIONS**. *New paired device*, **SELECT**. "*Searching for devices...*" will be displayed. Select the Car Kit and press **SELECT**. "*Waiting for...*" and "*Passcode for...*" will be displayed simultaneously.
4. Enter "0000" as the passcode then press **OK**. "*Waiting for...*" and "*Pairing with...complete*" will be displayed simultaneously.
5. Continue pressing *Exit* to get out of *Menu*.

The Car Kit is paired and ready to use. An icon will be displayed during the standby mode indicating that the Car Kit is linked with the phone.

Note: Once paired, press the multi-function button once to establish simultaneous connection between the Car Kit and phone. (Keypad tones will then be heard on the Car Kit every time the keypad is pressed). If ever the paired device was deleted and turned off, when it is turned back on, there's no need to undergo the same pairing procedure. "*Passcode for...*" will be displayed. Enter the passcode then press **OK**. "*Accept connection request from...*" press **YES** to reconnect.

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Car Kit.

1. Press *Menu*  button. Scroll to *Connect.*, **OPTIONS**. Choose *Open*, press **SELECT**. *Bluetooth*, **OPTIONS**. *Open*, **SELECT**. Press  button. "*Paired devices*" will be displayed as title.
2. Select the Car Kit and press **OPTIONS**. Scroll to *Set as authorised*, **SELECT**. "*Connections will take place without confirmation. Continue?*" press **YES**.
3. Continue pressing *Exit* key to exit the *Menu*. An icon will then appear on the upper right corner.

d. **ANSWERING/RECEIVING A CALL**

When the phone is receiving a call, simultaneous ring tone will be heard on the Car Kit as well as on the phone.

1. Press the multi-function button once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call but audio will still be heard on the Car Kit.

e. **MAKING A CALL with the Car Kit on**

✦ **Normal dialing**

1. Enter the contact number and send. As you dial, audio and the keypad tones can be heard on the Car Kit simultaneously but not on the phone.
2. Press the multi-function button to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, a tone will be heard on the Car Kit indicating that the call has been terminated.

✦ **Voice dialing**

Refer to step h for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the button again to terminate the call.

✦ **Redialing**

Press twice quickly the multi-function button to redial the last number.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. **REJECTING A CALL**

Press the multi-function button twice to reject the incoming call.

h. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press *Menu*  button. Select *Contacts*, **OPTIONS**. *Open*, **SELECT**.
2. Find a contact name. Press  button. (The contact number is the one being displayed.)
3. Press *Options* button. Scroll to *Add Voice tag*, **SELECT**. Instructions appear. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tag*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Continue pressing *Exit* key to get out of *Menu*.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6230

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
2. Select **Blue tooth_{on}** and **On**.
3. Continue pressing **Back** then finally **Exit**.

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive

three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.

3. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
4. Select **Search for audio enhancements**.

The phone now searches for Bluetooth devices to be paired. When the search is complete, it displays the names of the devices found.

5. Choose the device you want to pair with your phone, **Select**.
6. Enter "0000" as the passcode then press **ok**.
7. Continue pressing **Back then finally Exit**.

The Car Kit is paired and ready to use. An icon will be displayed during the standby mode indicating that the Car Kit is linked with the phone.

Notes:

1. *Once paired, keypad tones will be heard on the Car Kit.*
2. *Pairing is done only once. When the Car Kit is turned off, then turned back on, it is automatically connected to the cellphone. That is, when you already activate the phone's Auto Accept Mode. Kindly refer to "section c. AUTO ACCEPT MODE".*
3. *When the paired device is deleted, it can still be viewed as an active device and not yet completely disconnected. Thus, there will still be simultaneous connection between your Car Kit and cell phone even after deleting was done. But when you delete the pairing and at the same time, you disconnect it as an active device (That is, pressing "Disconn."), you totally disconnect the bond.*
4. *If ever the paired device was deleted and bond totally disconnected but you wish to pair it again, you need to undergo the same pairing procedure.*

c. AUTO ACCEPT MODE

The auto accept mode allows the Bluetooth function to be turned on automatically whenever the user starts sending information such as answering or making a call via the Bluetooth Car Kit.

1. Press **Menu** and select **Settings, Connectivity** and **Bluetooth**.
2. Select **Paired devices**. Choose *the name of your device* and press **Options**.
3. Select **Request conn. authorisation**.
4. Select **No**.
5. Continue pressing **Back** then finally **Exit**.

d. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, same ring tone will be heard simultaneously on the Car Kit as well as on the phone.

1. Press the multi-function button once to answer the call.

2. Pressing once again on the multi-function button will terminate the call.

Note: Cell phone buttons can also be used to answer a call but audio will still be heard on the Car Kit.

e. **MAKING A CALL with the Car Kit on**

✦ **Normal dialing**

1. Enter the contact number and press *CALL* key. As you dial, audio and the keypad tones can be heard on the Car Kit, not on the phone.
2. Press the multi-function button to terminate the call.

✦ **Voice dialing**

Refer to step h for the procedure when recording for voice dialing.

1. Press once on the multi-function button to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

✦ **Redialing**

Press twice quickly the multi-function button to redial the last number.

f. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

g. **REJECTING A CALL**

Press the multi-function button twice quickly to reject the incoming call.

h. **RECORDING FOR VOICE DIALING**

Use your phone when recording voice dialing.

1. Press **Menu** and select **Contacts** and **Search**.
2. Choose the name which you want to make a voice dial then press **Details**.
3. Press **Options** and select **Add voice tag**. *Follow the instructions that are displayed.* Your voice will then be saved on the phone after it is played back to you.
4. Continue pressing **Back** then finally **Exit**.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH NOKIA 6650

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press *Menu*. Scroll to *Connectivity*, **SELECT**. *Bluetooth*, **SELECT**.
2. *Bluetooth_{Off}*, **SELECT**. Choose *On*, **SELECT**. An icon will appear on the display on the standby mode.
3. Continue pressing *Back* to exit from *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Connectivity	Bluetooth	Bluetooth _{off}	On	Select

3. Press *Options* button. Scroll to *Add Voice tag*, **SELECT**. Instructions appear. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tag*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Continue pressing *Exit* key to get out of *Menu*.

Note: Record your voice command in a quiet place so that only your voice will be recorded on the phone.

USING WITH PANASONIC X70

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Go to *Menu* by pressing the center button of the 5-way navigation key featured as .
2. Scroll to *Organizer*, **Select**. Scroll to *Connect*, **Select**. *Bluetooth*, **Select**.
3. *On/Off*, **Select**. Choose *On*, **Select**.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below.

	Organizer	Connect	Bluetooth	On
X70	8	9	1	Select

4. Continue pressing  to exit.

b. **PAIRING TO THE CELLULAR PHONE**

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Go to *Menu* by pressing center button of  key. Scroll to *Organizer*, **Select**. Scroll to *Connect*, **Select**. *Bluetooth*, **Select**.
4. Choose *Discover & Pair*, **Select**.

QUICK ACCESS (for steps 3 and 4):

Press *Menu* followed by the sequence of numbers below.

	Organizer	Connect	Bluetooth	Discover & Pair
X70	8	9	1	2

The phone is now searching for pairable devices to be added.

5. Select the device you want to pair with your cell phone, and then press **Pair**.

6. Enter "0000" as the passkey then press **Ok**. If the pairing is successful, the alternating red/blue lights will stop.
7. Continue pressing **↩** to exit.

The unit is now ready to link calls from the phone directly to the Car Kit. An icon appears during the standby mode indicating that the Car Kit is linked with the phone. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, two dissimilar ring tones will be heard on the phone and on the Car Kit.

1. When answering is done on the Car Kit (*that is, pressing the multi-function button once*), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can be heard from the phone (*not on the Car Kit*). But if you wish to hear and transfer the call to the Car Kit, just press once on the Car Kit's multi-function button.
3. To terminate the call, press down once on the multi-function button.

d. MAKING A CALL with the Car Kit on

✦ Normal dialing

1. Using your phone, enter the contact number and press **SEND** key. Audio is heard on the phone and no immediate audio heard on the Car Kit yet. You have to press once on the multi-function button to transfer the audio to the Car Kit.
2. To terminate the call, press down once on the multifunction button.

✦ Voice dialing

Refer to step h and i for the procedure when activating and recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. *Beep* will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cell phone does not recognize the name spoken, the steps above may be repeated.
4. To terminate the call, press down the multifunction button once.

✦ Redialing

Press the multi-function button twice quickly to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing down the multi-function button once or accessing the cell phone's Menu during ongoing calls.

f. REJECTING A CALL

Press the multi-function button twice quickly to reject an incoming call.

g. ACTIVATING THE VOICE DIALING

Use your phone when recording for voice dialing. Before voice dialing, you must first turn on the *Voice Dial* function and record your voice. To turn voice dial on:

1. Go to Menu by pressing **○** key. Scroll to *Contacts List*, **Select**.
2. On the Contacts List, choose *Settings*, **Select**.
3. Choose *Voice Dial*, **Select**. Choose *On* and press **Ok**.
4. Continue pressing **↩** to exit.

h. RECORDING FOR VOICE DIALING

1. Go to Menu by pressing **○** key. Scroll to *Contacts List*, **Select**.
2. On the Contacts List, scroll down to *Voice Dial*, **Select**.

3. Press *Menu*. Choose *Add*, **Select**.
4. On the contact names listed, choose the one you want to make a voice dial.
5. After choosing a contact, press again center button of  key. Choose *Recall*, **Select**. A statement “*Please Record Your Voice!*” appears. Press **Ok**.
6. Follow the instructions on screen. Voice is then saved on the phone. Under Voice Dial list, the name which already has a voice command appears.
7. Continue pressing  to exit.

Note: Noisy environment may affect voice recognition. Record your voice in a quiet environment.

USING WITH Qtek 2020

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your Pocket PC Phone and other Bluetooth devices.

1. Tap . Scroll down to *Settings*. Tap *Connections* tab. Tap *Bluetooth*.
2. Select *On* and tap **ok**.
3. Tap **V** to exit.

b. PAIRING TO THE CELLULAR PHONE

1. Bring your PC phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. **Press the multi-function button once again for a short time, to access headset pairing mode.**
4. Tap . Scroll down to *Settings*. Tap *Connections* tab. Tap *Bluetooth*.
5. Tap *Bonded Devices* tab. Tap *New*.
Your device now searches for Bluetooth devices and displays them in the list.
6. Tap the name of the device that you want to bond with your PC phone, and then tap *Next*.
7. Enter “0000” as the Device PIN and then tap *Next*.
8. Tap *Finish*. (Note: In *Name*, you may or may not edit the name of your bonded device).
9. For the question, “*This Bluetooth device supports headset profile, would you like to set it as your Blue tooth headset?*”, tap *Yes* tab.
10. Tap **ok**, and then **V** to exit.

The unit is now ready to link calls from the PC phone directly to the Car Kit. An icon appears during the standby mode indicating that the Car Kit is linked with the PC phone. If pairing is unsuccessful, the steps above may be repeated.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, two dissimilar ring tones will be heard on the phone and on the Car Kit.

1. When answering is done on the Car Kit (*that is, pressing the multi-function button once*), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can be heard from the phone (*not on the Car Kit*). But if you wish to hear and transfer the call to the Car Kit, just press once on the Car Kit’s multi-function button.
3. To terminate the call, press down the multi-function button once.

d. **MAKING A CALL with the Car Kit on**

Normal dialing

With your Pocket PC Phone, you can make a call using different methods. Please refer to your PC Phone's User Guide.

The most direct method is by using the Phone keypad.

1. Press button to bring up the dialer screen.
2. Tap the number on the keypad, and then tap **Talk** key.

Note: Ongoing call will be heard on the phone and not immediately on the Car Kit. You have to press once on the Car Kit's multi-function button to transfer the sound to the Car Kit.

3. To terminate the call, press down the multifunction button once.

e. **AUDIO TRANSFER**

Audio Transfer can be done by pressing the multi-function button once or accessing on the phone's Bluetooth Headset icon.

USING WITH SHARP GX32

a. **ACTIVATING THE BLUETOOTH**

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press to display Main Menu.
2. Highlight **Settings**, and then press to select.
3. Succeedingly, highlight and select **Connectivity, Bluetooth, Bluetooth On/Off** and **On**.
4. Continue pressing **Back** then finally **Exit**.

The Bluetooth setting is activated. Bluetooth icon is displayed on standby mode screen.

b. **PAIRING TO THE CELLULAR PHONE**

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and at the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Press to display Main Menu.
4. Highlight **Settings**, and then press to select.
5. Succeedingly, highlight and select **Connectivity, Bluetooth** and **Search for Devices**. The phone displays three categories: "Headset", "Car kit", and "All". Choose "Car Kit".
Note: If you select "All", the phone lists devices from all categories.

The phone now searches for Bluetooth devices to be paired. When the search is complete, devices found in the selected category are listed.

6. Highlight the desired device for pairing, and then press to select.
7. Enter "0000" as the passcode then press **ok**.
8. Continue pressing **Back** then finally **Exit**.

The Car Kit is paired and ready to use. Bluetooth icon is displayed during the standby mode.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, two dissimilar tones will be heard on the Car Kit.

1. When answering is done on the Car Kit, (that is, pressing the multi-function button once), the ongoing call can be heard from it.
2. When answering is done on the phone, ongoing call can still be heard on the Car Kit.
3. To terminate the call, press the multi-function button once.

d. MAKING A CALL with the Car Kit on

Normal dialing

1. Using your phone, enter the contact number and press *Send* key. Audio will be heard on the Car Kit. *Note: If at times, when audio is heard on the phone, just press once on the multi-function button to transfer audio to the Car Kit.*
2. To terminate the call, press down the multi-function button once.

Redialing

Press the multi-function button twice quickly to redial the last number.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing down the multi-function button once or accessing the cell phone's menu during ongoing calls.

f. REJECTING A CALL

Press the multi-function button twice quickly to reject an incoming call.

USING WITH SIEMENS S55

a. ACTIVATING THE BLUETOOTH

You must activate your Bluetooth to establish a Bluetooth connection between your mobile phone and other Bluetooth devices.

1. Press *Menu* button. Scroll to *Setup*, **SELECT**. Choose *Connectivity*, **SELECT**.
2. Scroll to *Bluetooth*, **Change**. The phone is now connecting with the Bluetooth device. An icon will appear on the upper left corner when connected. **OPTIONS** button may also be pressed. Choose *Activate BT*, then **SELECT**.
3. Continue pressing the *On/Off/End Key* to exit from *Menu*.

QUICK ACCESS:

Press *Menu* followed by the sequence of numbers below. Doing this sequence once will either activate or deactivate the Bluetooth depending on your current setting.

Setup	Connectivity	Bluetooth
9	6	4

b. PAIRING TO THE CELLULAR PHONE

1. Bring the cellular phone at about 20 cm from the Car Kit.
2. From the ON state, press the multi-function button for 10 seconds or until a distinctive three-tone sound will be heard and the same time, the Bluetooth indicator LED changes from blinking blue to alternate blinking of red and blue. This indicates that the unit is now ready for pairing.
3. Press *Menu* button. Scroll to *Setup*, **SELECT**. Choose *Connectivity*, **SELECT**. Scroll to *Bluetooth*, **OPTIONS**. Scroll to *Search for...*, press **ACCESS** button. The phone is now searching for devices. When the search is complete, *Devices disc.* is displayed as title. If the device you are looking for is not on the list, repeat the procedure by pressing the **OPTIONS** and **REPEAT** buttons. Then press **SELECT** to add the device. The phone will initiate connection with the Car Kit.

4. *Pls, enter BT pin for..., OK.* Enter "0000" as the BT pin then press **OK**. *Handsfree trusted* will be displayed afterwards indicating that the pairing is completed.
5. Continue pressing the *On/Off/End Key* to exit from *Menu*.
The Car Kit is paired and ready to use. An icon will be displayed during the standby mode indicating that the Car Kit is linked with the phone.

c. ANSWERING/RECEIVING A CALL

When the phone is receiving a call, a ring tone will be heard from the phone.

1. Press the multi-function button once to answer the call.
2. End the call by pressing the button again.

Note: Cell phone buttons can also be used to answer a call. To transfer the call to the Car Kit, press the multi-function button once.

d. MAKING A CALL with the Car Kit on

➤ Normal dialing

1. Enter the contact number and *Send*. To transfer audio on the Car Kit, press the multi-function button once.
2. Press the multi-function button again to hang-up and terminate the call.

Note: If the call is terminated using the cellular phone, a tone will be heard on the Car Kit indicating that the call has been terminated.

➤ Voice dialing

Refer to step g for the procedure when recording for voice dialing.

1. Press the multi-function button once to activate the voice dialing.
2. A beep will then be heard on the Car Kit prompting the user to say the name of the person to call.
3. Say the name. The name will be played back to you. The phone will then place the call automatically. In case the cellular phone does not recognize the name spoken, the steps above may be repeated.
4. Press the multi-function button again to terminate the call.

➤ Redialing

Pressing quickly the multi-function button twice triggers the cell phone to redial the last number. Call is automatically transferred to the Car Kit.

e. AUDIO TRANSFER

Audio Transfer can be done by pressing the multi-function button or accessing the cell phone's menu during ongoing calls.

f. REJECTING THE CALL

Press twice quickly multi-function button to reject the incoming call.

g. RECORDING FOR VOICE DIALING

Use your phone when recording for voice dialing. Record your contact names and numbers in the "Address book" (phone memory).

1. From standby mode, open the *Address book* by pressing the arrow down key  (If Phone book is the one displayed, press  key to switch to Address book.)
2. Select a contact name. **OPTIONS**.
3. Scroll to *Voice dialing*, **SELECT**. *New*, **SELECT**. *Recording for: contact name*, **YES**. Follow the instructions. Your voice is automatically saved on the phone after being played back to you.
4. In case you wish to change your recorded voice, press *Options* button. *Voice tags*, **SELECT**. *Change*, **SELECT**. Instructions appear.
5. Press *On/Off/End key* to exit

Note: Noisy environment may affect voice recognition. Record your voice in a quiet place.
