#### SNC-DH260

E Series mini-dome Full HD (1080p) resolution outdoor vandal-resistant network security camera with IR illumination

The SNC-DH260 is an outdoor vandal-resistant high definition (1080p, supporting H.264 at 30fps) 3 Megapixel mini-dome camera with Optical Day/Night function, IR Illumination, DEPA and ONVIF compliance. It supports dual streaming and triple codec encoding.

Sony's Exmor CMOS sensor provides excellent pictures and event detection for effective evidence gathering.

Sony's E-Series cameras have outstanding picture quality and a range of features at an affordable price.

1-year PrimeSupport is included as standard within the EU, Norway and Switzerland. This gives users access to an expert helpdesk and, in the unlikely event of a failure, will arrange for an advance replacement unit to be delivered within a target time of one working day. An additional 2-years support is also available as an option.

### **Features**

#### DEPA

The SNC-DH260 offers intelligent video analytics, based on the Sony DEPA platform. DEPA is a combined function of the intelligence built in to the camera and rules/filters that determine which images should be recorded or when an alarm should be triggered.

#### EXMOR® and CMOS Sensor®

High resolution CMOS sensor® with low noise characteristics for improved image acquisition. Derived from Sony's broadcast product range, EXMOR® is one of the highest quality image sensors available.

#### Power over Ethernet (PoE) capability

Supporting Power over Ethernet (PoE), the camera can be powered using the same Ethernet cable it uses for data transfer. This feature greatly reduces the physical infrastructure costs and speed of deployment.

# ONVIF (Open Network Video Interface Forum) compliance

The ONVIF (Open Network Video Interface Forum) defines a common protocol for the exchange of information between network video devices including automatic device discovery and video streaming. Allows interoperability between network video devices.

#### Full HD (1920x1080p) resolution

Detailed Full HD progressive images. Progressive acquisition (as opposed to interlace) means that images are more stable to view, contain more information and compress more efficiently - without "interlace artifacts".

## Supports multiple industry standard codecs: H264, MPEG-4 and JPEG with dual streaming capability

This multi-codec camera supports three compression formats: JPEG, the best choice of high-quality still images; MPEG-4, the format that provides clear moving images efficiently over limited-bandwidth networks; and H.264, the alternative for severely limited-bandwidth networks, providing twice the efficiency of MPEG-4. The camera can generate multiple streams simultaneously.

#### **Stream Squared Function**

An incredibly useful function that allows simultaneous streaming of two 4:3 aspect ratio videos in user-selectable SD resolutions. You can select the entire image or a portion of the image from the original view and resize to SD resolution. With this feature the SNC-DH220 can replace two SD cameras installed in the same line of view.

#### **Optical Day/Night**

Optimises sensitivity in day and night conditions. As night falls, an infra-red filter is automatically removed and the camera switches to monochrome. In this mode, the camera can acquire images extremely low light conditions.

#### **IR Illuminators**

Built-in IR (Infrared) illuminators provide assistance to the camera when capturing objects in the dark.

#### Easy Focus/Easy Zoom

Easy Focus/Easy Zoom simplifies installation by making it easy to set up the focus and zoom settings of the camera.

#### **Built-in heater**

Ensures that the camera will operate correctly in cold weather.

#### Analogue Monitor Output

This allows an analogue video monitor to be connected directly to the camera.

## **Technical Specifications**

| Camera                             |   |
|------------------------------------|---|
| Image device                       | 1/2.8 type progressive scan<br>"Exmor" CMOS sensor                      |
| Minimum illumination               | Color: 0.70lx lx, B/W: 0 lx<br>(IR ON) (F1.2/ AGC 42dB /<br>50IRE [IP]) |
| Number of effective pixels (H x V) | Approx. 3.27 Megapixel<br>(2096×1561)                                   |
| Electronic shutter speed           | 1s to 1/10000s  |
| Gain control                       | Auto  |
| Exposure control                   | Auto, EV Compensation,<br>Auto Slow Shutter                             |
| White balance mode                 | Auto (ATW, ATW-PRO),<br>Preset, One-push WB,<br>Manual                  |
| Lens type                          | Built-in Vari-focal lens  |
| Zoom ratio                         | Optical 2.9X  |
| Horizontal viewing angle           | 88.5 degrees to 32.3 degrees  |
| Focal length                       | f=3.1mm to 8.9 mm   |
| F-number                           | F1.2 (Wide), F2.1 (Tele)  |
| Minimum objects<br>distance        | 300 mm  |
