Quick Setup Guide

Please follow the steps to setup your TV:

1 ●●●●●●● **2** ●●●●●●● **3** ●●●●●●● **4**
Checking the Supplied Accessories	Connecting Your TV (See reverse side)	Running Initial Setup	Programming the Remote Control

If your product is not working properly
DO NOT RETURN TO THE STORE.
For service and technical assistance
Call our Customer Information Service Center (Toll Free):
1-800-222-SONY (7669) for US residents.
1-877-899-SONY (7669) for Canadian residents.

Making Video Connections

Your TV includes several types of video inputs. Use the inputs that are available on your components that provide the best video performance, as described in right.

Best Video Performance

|	Connector type
	HDMI (High-Definition Multimedia Interface)
	Component video
	S VIDEO
	Composite video
	RF/Coaxial

Additional Connections

For best audio performance, connect your digital audio components using either digital optical or digital coaxial audio connections. Depending on which components are in your system, you may need to complete additional connections. For example, if you have a satellite receiver, you'll need to connect the satellite antenna. If you have an AV receiver, you'll need to connect speakers.

Note
The connection diagrams shown in the reverse side are recommendations only; other possible solutions may exist. Connections that include an AV receiver can often be very complex, so check your AV receiver's instruction manual for additional details.

Activating CableCARD™ Service

Before you can use CableCARD™ service, you need to insert the CableCARD™ (supplied by your cable provider) and activate the service, as described in right.

KDE-37/42XS955   KDE-50XS955
Note
Inserting the CableCARD™ incorrectly may result in permanent damage to the card and the TV.

4 Programming the Remote Control

The remote control is preset to operate Sony brand video equipment.

Sony Equipment	Programmable Code Number
DVD/VCR	601 (Sony Dream System)
SAT/Cable	801 (Sony Satellite Receiver)

If you have video equipment other than Sony brand that you want to control with the TV's remote control, use the following procedures to program the remote control.

Note
The equipment must have infrared (IR) remote capability in order to be used with this remote control.

Using the code list below, find the three-digit code number for the manufacturer of your equipment. (If more than one code number is listed, use the number listed first.)
1 Press the DVD/VCR (FUNCTION) and RESET buttons simultaneously, or press the SAT/CABLE (FUNCTION) and RESET buttons simultaneously. DVD/VCR and SAT/CABLE buttons flash.

2 Press the function button you want to program.
To program a cable box or a satellite receiver
Press SAT/CABLE (FUNCTION).
To program video equipment
Press DVD/VCR (FUNCTION).

3 Enter the three-digit manufacturer's code number using the 0-9 buttons.

4 Press ENT (enter).

5 To check if the code number works, aim the TV's remote control at the equipment and press DVD/VCR and/or SAT/CABLE (POWER) that corresponds with that equipment. If it responds, the programming is completed. If not, try using the other codes listed for that manufacturer.

Tips
• If more than one code number is listed, try entering them one by one until you come to the correct code for your equipment.
• If you enter a new code number, the code number you previously entered at that setting is erased.

1 Checking the Supplied Accessories

Remote control (RM-Y1004) (1) and size AA batteries (2)
AC power cord (1)

• AC plug holder (1)
• Cable band (1)
• Cable band screw (1)
• AC cord clamp (1)

• Cleaning cloth (1)
• Operating Instructions (1)
• Quick Setup Guide (1)
• Warranty Card (1)

Inserting Batteries into the Remote Control

Insert two size AA batteries (supplied) by matching the ⊕ and ⊖ on the batteries to the diagram inside the remote control's battery compartment.
2 Connecting Your TV

• Review the following chart to determine which diagram to use to connect the components in your system:

For these components	See reverse side
Cable/Antenna — Cable Box **or** Satellite Receiver — VCR — Sony Dream System	A
Cable/Antenna — Cable Box **or** Satellite Receiver — VCR — DVD Player	B
Cable/Antenna — Cable Box **or** Satellite Receiver — VCR — DVD Player — AV Receiver	C
Cable/Antenna — Cable Box **or** Satellite Receiver — VCR — DVD Player — Satellite Receiver	D
Cable/Antenna — Cable Box **or** Satellite Receiver — VCR — DVD Player — AV Receiver — Digital Recorder	E
Cable/Antenna — HD Cable Box — VCR — DVD Player	F

• See the "Cables Required" chart that appears with the diagram to determine which cables you'll need. You may need to purchase extra accessories, such as cables and splitters, depending on the components you plan to connect.
• Turn off and unplug all components before making connections.
• If you are connecting a digital cable box, you'll need a special bi-directional splitter that's compatible with your cable box. Contact your cable provider for details.

3 Running Initial Setup

1 Press POWER to turn on the TV.
The Initial Setup screen appears.

2 Press ♠ or ♦ to select the on-screen display language. Then press ⊕.
The message "Start auto program now?" appears.

3 Press ♠ or ♦ to select "Yes", then press ⊕.

Auto Program automatically creates a list of receivable channels. When finished, the lowest numbered channel is displayed.

To run Auto Program again at a later time
☐ Use the Auto Program feature in the operating instructions.

To add individual digital channels
☐ Use the Digital Channels feature in the operating instructions.

Note
Auto Program may take up to 50 minutes or more to complete.
A progress bar is displayed while the channel list is being created.
