ATTENTION-THIS ELLIPTICAL IS INTENDED FOR RESIDENTIAL USE ONLY
AND IS WARRANTED FOR THAT APPLICATION. ANY OTHER APPLICATION
VOIDS THIS WARRANTY IN ITS ENTIRETY.

TO THE SPIRIT FAMILY!

Thank you for your purchase of this quality elliptical from Spirit Manufacturing, Inc. Your new elliptical was manufactured by one of the leading fitness manufacturers in the world and is backed by one of the most comprehensive warranties available. Through your dealer, Spirit will do all we can to make your ownership experience as pleasant as possible for many years to come. The local dealership where you purchased this elliptical is your administrator for all Spirit warranty and service needs. Their responsibility is to provide you with the technical knowledge and service personnel to make your experience more informed and any difficulties easier to remedy.

Please take a moment at this time to record the name of the dealer, their telephone number, and the date of purchase below to make any future, needed contact easy. We appreciate your support and we will always remember that you are the reason that we are in business. Please complete and mail your registration card today and enjoy your new elliptical.

Yours in Health, Spirit Manufacturing, Inc.

REGISTER YOUR PURCHASE

The self-addressed product registration card must be completed in full and returned to Spirit Manufacturing, Inc or visit www.spiritfitness.com to register online.

Important Safety Instructions

WARNING - Read all instructions before using this appliance.

- Do not operate elliptical on deeply padded, plush or shag carpet. Damage to both carpet and elliptical may result.
- Keep children away from the elliptical. There are obvious pinch points and other caution areas that can cause harm.
- Keep hands away from all moving parts.
- Never operate the elliptical if it has a damaged cord or plug. If the elliptical is not working properly, call your dealer.
- Keep the cord away from heated surfaces.
- Do not operate where aerosol spray products are being used or where oxygen is being administered. Sparks from the motor may ignite a highly gaseous environment.
- Never drop or insert any object into any openings.
- Do not use outdoors.
- To disconnect, turn all controls to the off position, then remove the plug from the outlet.
- Do not attempt to use your elliptical for any purpose other than for the purpose it is intended.
- The pulse sensors are not medical devices. Various factors, including the user's movement, may affect the accuracy of heart rate readings. The pulse sensors are intended only as exercise aids in determining heart rate trends in general.
- Wear proper shoes. High heels, dress shoes, sandals or bare feet are not suitable for use on your elliptical. Quality athletic shoes are recommended to avoid leg fatigue.

SAVE THESE INSTRUCTIONS - THINK SAFETY!

3

Important Electrical Information

WARNING!

- NEVER remove any cover without first disconnecting AC power supply.
- If voltage varies by ten percent (10%) or more, the performance of your elliptical may be affected. **Such conditions are not covered under your warranty.** If you suspect the voltage is low, contact your local power company or a licensed electrician for proper testing.
- **NEVER** expose this elliptical to rain or moisture. This product is **NOT** designed for use outdoors, near a pool or spa, or in any other high humidity environment.

Important Operation Instructions

- **NEVER** operate this elliptical without reading and completely understanding the results of any operational change you request from the computer.
- Understand that changes in resistance do not occur immediately. Set your desired level on the computer console and release the adjustment key. The computer will obey the command gradually.
- NEVER use your elliptical during an electrical storm. Surges may occur in your household power supply that could damage elliptical components.
- Use caution while participating in other activities while using your ZE50; such as watching television, reading, etc. These distractions may cause you to lose balance which may result in serious injury.
- Always hold on to a handrail or hand bar while making control changes.
 Do not use excessive pressure on console control keys. They are precision set to function properly with little finger pressure. Pushing harder is not going to make the unit go faster or slower. If you feel the buttons are not functioning properly with normal pressure, contact your Spirit dealer.

4

Assembly Instructions

ASSEMBLY PACK CHECK LIST

- 5/16" x 1/2" Button Head Socket Screw (12pcs)
- 3/8" x 2" Thumb Head Socket Screw (2pcs)
- M6 x 25 m/m Button Head Socket Screw (8pcs)
- 6 x14 x1T Flat Washer (8pcs)
- Combination M5 Allen Wrench & Screwdriver(1pc)

Assembly

MAIN FRAME ASSEMBLY

- 1. Remove all parts from carton.
- 2. Install Rear Stabilizer onto half circular of Frame Base Plate with 2pcs of 3/8"x2" Round Head Socket Screw.

■ CONSOLE SUPPORT ASSEMBLY

- 1. Remove the Console Mast Cover then install it into Console Support Tube. Secure the Computer cable to the Twist Tie that is inside Console Support Tube then pull it through the Console Support Tube.
- 2. Install the Console Support Tube onto Receiving Tube of Main Frame and secure it with 6pcs of 5/16"x1/2" Button Head Socket Screw.
- 3. Install the Console Mast Cover into Main Frame. *Please avoid cutting the wires.

CONSOLE ASSEMBLY

- 1. Plug the Computer Cable Tube and Hand Pulse Cable into back of Console.
- 2. Install the Console onto Console Plate with 4pcs of M5x15m/m Button Head Socket

Screw.

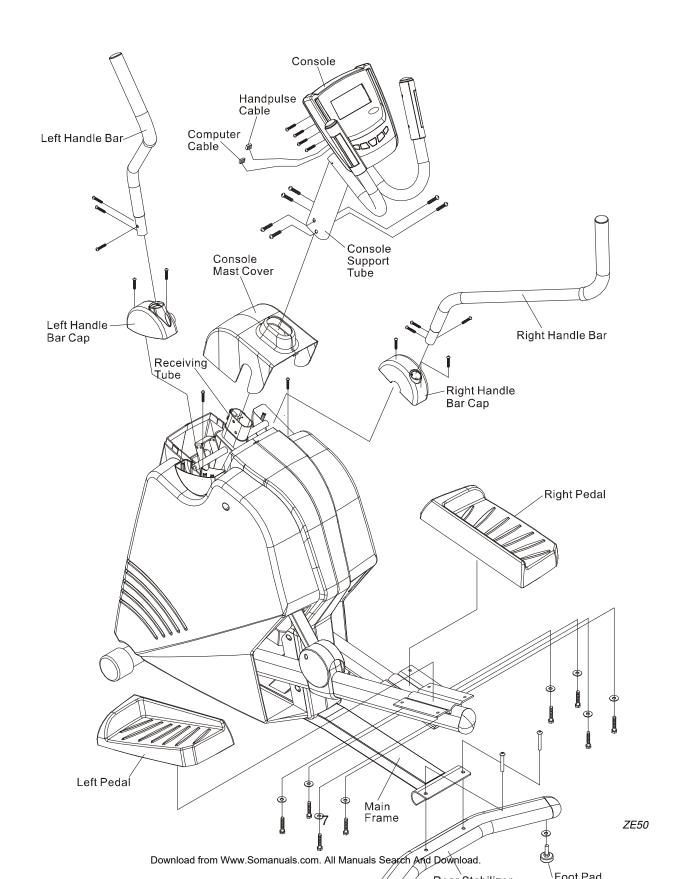

*Please avoid cutting the wires.

■ HANDLE BAR ASSEMBLY

1. Install the Right and Left Handle Bars into Front Linkage (R) and Front Linkage (L) with 6pcs of 5/16"x1/2" Button Head Socket Screw by using Combination M5 Allen Wrench & Screwdriver.

■ PEDAL ASSEMBLY

- 1. Install the Left Pedal onto plate of pedal with 4pcs of M6x25m/m Button Head Socket Screw and 4pcs of 6 x 14 x1T Flat Washers.
- 2. Install the Right Pedal as above.
- PLEASE LOCK DOWN ALL HARDWARE AFTER THE ACCESSORIES HAVE BEEN ASSEMBLED.

Transport

The elliptical is equipped with two transport wheels which are engaged when rear of ZE50 is lifted.

Operation of Your Elliptical

Console

Power up

The ZE50 is supplied with a wall mount power supply. When power is connected to the ZE50, the console will automatically power up. If there is no input to the console for 4 minutes the console will go to stand-by mode. In stand-by mode the console display will turn off. All work out data will be saved in stand-by mode.

When initially powered on the large display will light. The data windows will show zero and the program choices will be blinking in the large window. If the console is in stand-by mode, pressing any key or beginning your exercising will wake the console up.

Starting a program

Quick Start

After the console powers up you may press the Start key to begin, this will initiate the Quick Start mode. In Quick Start the Time will count up from zero and the workload may be

adjusted manually by pressing the Up/Down buttons. Distance and Calories will accrue, starting from zero.

The Calorie window will switch between Calories and Watts every 5 seconds. The Calorie reading shows total Calories burned and is an approximate number. The Watt reading indicates how much work you are doing. If the Watt reading is 100, this means you are doing enough work to light a 100 watt light bulb.

The bottom left data window will switch between RPM and Speed every 5 seconds. RPM is your actual pedal rotation speed, and the Speed readout is in MPH, indicating approximate road speed as if pedaling a bicycle in 7th gear.

The Distance window shows distance traveled, based on pedal speed, in miles. The Pulse window will display your heart rate in beats per minute if you are holding the heart rate hand sensors, or wearing a chest strap transmitter.

Manual

Using the Up/Down keys, highlight the Manual icon at the top of the display and press Mode key. The profile will be blinking and you may use the Up/Down keys to adjust the program work level and then press Mode. The Time window will now be blinking. Use the Up/Down keys to adjust the program Time and then press Mode. The Distance window will now be blinking and you can adjust a target Distance using the Up/Down keys then press Mode. Calories will now be blinking, repeat the same process as above to set, then press Mode. The Watt icon will be blinking. If you choose to set the Watts then the machine will automatically adjust the workload to maintain continuous work. What this means is that if you set the Watt to 100 the machine will try to keep you working at a rate of work that equals 100 Watts (or working at a rate that will keep a 100 Watt light bulb burning). Watts are determined by the amount of work you are doing. On the ZE50 Elliptical this means the speed you are pedaling at combined with the workload of the machine. In Watt mode, if you change your speed the machine will automatically change the workload to maintain the same Watt level. If you pedal faster the workload will decrease and if you pedal slower the workload increases.

After adjusting all the parameters, press Start to begin your workout.

Preset Programs

There are 12 preset programs to choose from. After power up, or reset, press the Up/Down keys to highlight the Program icon. Press the Mode key to enter the program mode. The display will show P1, for two seconds, then change to the P1 program profile. You may keep pressing the Up/Down keys to scroll through the 12 programs. When you see a program you want, press the Mode key to enter. At this point you may press start to begin the program with the default settings or you may customize the program.

To customize the work level, press the Up key. You will see the profile increase in size. When the work level is where you like it press the Mode key (If you do not want to customize the profile, just press the Mode key to bypass).

The Time window will now be blinking. Use the Up and Down keys to adjust the workout time and then press Mode.

The Distance window will now be blinking. Repeat the same process to set the distance to

count down, if desired, and press Mode.

The Calorie window will now be blinking. Repeat the same process then press Mode. The Pulse window will now be blinking. Entering a Pulse number will set an alarm that will beep when your heart rate reaches the programmed number to let you know you have reached your target.

Once you have set the data you may press Start to begin the program. You may also press Start at any time during the programming to begin. Any data that is not programmed at that point will count up from zero.

When the program ends there is a series of audible beeps. You may press Start to restart the program or press Reset to return to the start-up screen.

User Program

This mode allows you to build and save your own custom program.

Press the Up or Down key until the User icon at the top of the display is blinking then press Mode. The first column of the profile will be blinking. Use the Up/Down keys to adjust the work level then press Mode. The second column will now be blinking. Repeat the same process as above and press Mode. Repeat this process until all the columns are adjusted to your liking. All the settings will be saved as a custom program.

Target HR

This program allows you to set a target heart rate and the machine will automatically adjust the work load to safely reach the target and maintain that target.

Use the Up/Down keys to select the Target HR program and press Mode. The display will show a number and the age icon at top will be blinking. Use the Up/Down keys to adjust the age and press Mode. The display will now show a blinking percent number or the letters THR.

You may use the Up/Down keys to choose either 55%, 75%, 90% or THR. The percentage choices will automatically set the target to a percent of your maximum heart rate, based on your age. This is why it is important to adjust the age properly. The console will use a formula to determine the correct percentage: 220 - age = maximum HR. For example a 30 year old persons' Max HR is 190 BPM (220 - 30 = 190 BPM). If the 30 year old wants to work at 75%, their target HR will be 142BPM.

If you want to choose to work at 75% - for example - then use the Up/Down arrows to highlight 75% and press mode. Now the Time window will be blinking and you can program it and other data the same as other programs. If you want to set your own custom Target HR then use the Up/Down arrow to highlight THR and press mode. The Pulse window will now be blinking. Use the Up/Down arrows to set your own Target HR and press Mode to continue.

Recovery

Used to measure how fast your heart rate (HR) recovers from exercise. The faster your HR returns to normal from exercise level, the better aerobic shape you are in. Pressing the recovery button will start a 60 second count down. Hold the hand pulse sensors and do not

exercise during the count down. At the end of the 60 seconds a score will be displayed ranging from F1 to F6 with F1 being the highest score and F6 being the lowest.

FUNCTIONS

TIMF: Count up: accumulates training time from zero to 99:59.

Count down: counts down from preset time to zero.

SPEED/ RPM: Automatically toggles between SPEED and RPM every 6 seconds.

Speed is in miles per hour (or kilometers per hour)

DISTANCE: Count up: accumulates training distance from 0.00 to 99.99 miles.

Count down: counts down from preset distance to zero.

CALORIES: Accumulates calories burned from 0 to 9999. This is an estimated

> number only to be used from workout to workout to compare your progress. Actual calorie burn cannot be measured accurately on any consumer exercise equipment because every individual burns calories

at a different rate.

WATTS: Indicates the amount of work being done in Watts.

PULSE: Displays your current heart rate when you grasp the hand sensors or

wear the chest strap transmitter.

LEVEL: Shown next to the workout profile. Indicates the level of work being done

from 1 to 16.

Manufacturer's Limited Warranty

Effective October 15, 2004 **ELLIPTICAL WARRANTY**

Spirit Manufacturing Inc. warrants all its elliptical parts for a period of 2 years from the date of retail sale, as determined by sale receipt, or eighteen (18) months from the original factory shipping date, whichever comes first. Spirit's responsibilities include providing new or remanufactured parts, at Spirit's option, and technical support to our independent dealers and servicing organizations. In the absence of a dealer or service organization, these warranties will be administered by Spirit directly to a consumer. An extended warranty period applies to the following components:

> Labor 1 Year Frame Weldments Lifetime All Other Components 2 Years

NORMAL RESPONSIBILITIES OF THE CONSUMER

This warranty applies only to products in ordinary household use, and the consumer is responsible for the items listed below:

1. The warranty registration card must be completed and returned to the address listed on the card within 10 days of the original purchase to validate the manufacturer's limited warranty.

2. Proper use of the elliptical in accordance with the instructions provided in this manual

3. Proper installation by an authorized Spirit service company in

local electric codes.

- 4. Proper connection to a grounded power supply of sufficient voltage, replacement of blown fuses, repair of loose connections or defects in house wiring.
- 5. Expenses for making the elliptical accessible for servicing, including any item that was not part of the elliptical at the time it was shipped from the factory.
- 6. Damages to the elliptical finish during shipping, installation or following installation.

EXCLUSIONS

This warranty does not cover the following:

1. CONSEQUENTIAL, COLLATERAL, OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND INCIDENTAL EXPENSES RESULTING FROM ANY BREACH OF THIS WRITTEN OR ANY IMPLIED WARRANTY.

Note: Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

- 2. Service call reimbursement to the consumer. Service call reimbursement to the dealer that does not involve malfunction or defects in workmanship or material, for units that are beyond the warranty period, for units that are beyond the service call reimbursement period, for elliptical not requiring component replacement, or elliptical not in ordinary household use.
- 3. Damages caused by services performed by persons other than authorized Spirit service companies; use of parts other than original Spirit parts; or external causes such as alterations, modifications, abuse, misuse, accident, improper maintenance, inadequate power supply, or acts of God.
- 4. Products with original serial numbers that have been removed or altered.
- 5. Products that have been sold, transferred, bartered, or given to a third party.
- 6. Products that do not have a warranty registration card on file at Spirit Mfg. Spirit reserves the right to request proof of purchase if no warranty record exists for the product.
- 7. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES EXPRESSED OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE.

SERVICE

Keep your bill of sale. Twelve (12) months from the date on the bill of sale or eighteen (18) months from the date of factory shipping as determined by the serial number establishes the warranty period should service be required. If service is performed, it is in your best interest to obtain and keep all receipts. This written warranty gives you specific legal rights. You may also have other rights that vary from state to state. Service under this warranty must be obtained by following these steps, in order:

- 1. Contact your selling authorized Spirit dealer. OR
- 2. Contact your local authorized Spirit service organization.
- 3. If there is a question as to where to obtain service, contact our service department at (870) 935-1107.
- 4. If no local service is available, Spirit will repair or replace the parts, at Spirit's option, within the warranty period at no charge for parts. All transportation costs, both to our factory and upon return to the owner, are the responsibility of the owner. The owner is responsible for adequate packaging upon return to Spirit. Spirit is not responsible for damages in shipping. Make all freight damage claims with the appropriate freight carrier. DO NOT SHIP ANY UNIT TO OUR FACTORY WITHOUT A RETURN AUTHORIZATION NUMBER. All units arriving without a return authorization number will be refused.
- 5. For any further information, or to contact our service department by mail, send your correspondence to:

Spirit Manufacturing, Inc. P.O. Box 2037 Jonesboro, AR 72402-2037

Product features or specifications as described or illustrated are subject to change without notice. All warranties are made by Spirit Manufacturing, Inc. This warranty applies only in the 50 states of the U.S.A. and Canada.
