◆ IMPORTANT SAFETY INSTRUCTIONS

1. Do not store this product at very high temperature.
2. Do not expose the product to fire, moisture or direct sunlight.
3. Do not attempt to disassemble the product on your own.
4. Do not use a supply voltage other than the one as indicated in the instruction manual.
5. Don't cover any ventilation holes provided on the product as this will hamper the normal cooling and working of the product.
6. Please operate the product after completely reading the instruction manual.

◆ ACCESSORIES

◆ KNOW YOUR PRODUCT

◆ POWER BUTTON

Turn On: Press the power button and hold for 2 seconds.

Turn Off: Press the power button and hold for 2 seconds → tap Power off → tap OK.

Reboot: Press the power button and hold for 2 seconds → Tap restart.

Force Off: If device does not respond, press and hold the power button for 5 seconds.

Reset: Press the reset button to force off the device. (Note: The current reset function can't restart but can only be turned off, so you need to press the power button to restart the device after reset).

◆ TOUCH-SCREEN OPERATION

Here are some tips on how to operate the touch screen of the tablet.

Tap: To choose an icon or option, tap it.

Tap & hold: Touch and hold an item on the screen until an action takes place. For example, to open a menu for customizing the Home screen, you can touch an empty area on the home screen until a menu opens.

Move through a list: When you see on the screen a list of items (folders, files, submenus, etc), you can move through a list by moving the finger from up to down (Or left to right) and vice versa.

☆ *When you flick a long list, tap the screen to stop it from scrolling.*

☆ *To move an icon to the Desktop screen, touch & hold the icon, and then release it when it appears on the Desktop screen.*

☆ *Touch, hold and then slide icons to reposition them on the screen.*

☆ *Touch, hold and slide icons onto  to remove them from the Desktop screen.*

◆ USB flash drive

» Insert USB flash drive

Insert your USB flash drive into the device via USB host transfer cable. When ready for use, go to the file browser and switch to the USB folder to view it.

» Remove USB flash drive

Close all applications or documents which have been opened on the USB flash drive. Tap  → **Settings** → **Storage** → **USB storage** → **Unmount this storage device**. When it displays **Mount this device**, you can unplug the USB flash drive.

☆ *Don't insert and remove the USB flash drive repeatedly in a short time, as this may cause damage to the USB flash drive.*

◆ USING MICRO-SD CARD

☆ *The device supports maximum 32GB micro SD card.*

Insert your card into the micro SD slot until it clicks into place. Then it's ready for visiting.

» Remove microSD Card

Close all applications or documents which have been opened on the card. Tap  → **Settings** → **Storage** → **SD card** → **Unmount this storage device**. When it displayed **Mount this device**, press the card lightly; it is partially ejected allowing you to pull the card out.

☆ *Don't insert and remove the USB flash drive repeatedly in a short time, as this may cause damage to the card.*

☆ *We recommend using good quality memory cards to avoid incompatibility.*

◆ GETTING STARTED

» Charge the device

☆ *It is not recommended to use the device while charging.*

Plug the power adapter into an electrical outlet, and then connect to the device to fully charge the battery before use (A full charge takes about 6 hours when the battery's run out).

» Turn the device on

Press the power button and hold for 2 seconds.

» Wi-Fi Network Setup

Since many functions require a Wi-Fi connection, we recommend you to set up your Wi-Fi network firstly.

1. Tap  → **Settings**.

2. Slide **Wi-Fi** switch to turn on.

The device scans automatically and lists all local Wi-Fi Network found. A lock indicates secure Wi-Fi networks that require input of password to connect.

1. Tap the desired network which you want to connect → enter the **Network Password** if applicable → tap **Connect**.

2. Tap  to return to the Desktop screen.

◆ DESKTOP

1. Google search
2. Voice search
3. Add Widgets/Apps shortcuts or setting wallpapers and more
4. Tap to view the applications screen
5. Back
6. Home
7. Recent Apps
8. Menu
9. Shift between Android 4.0 OS and Block chart OS
10. USB connected
11. USB debugging connected
12. Current time
13. Screen capture
14. Volume
15. Battery Status
16. Icons: Touch an icon to open an Apps or folder
17. Widgets: You can use these small Apps directly from the home screen.

Can make many personalized operation through "add" icon , such as, add widgets, application shortcuts, set wallpaper, add bookmarks, email accounts and set up the shortcut.

☆ Tap on any application icon to launch it.

☆ Touch, hold and then slide icons to reposition them on the screen.

☆ Touch, hold and slide icons onto  to remove them from the **Desktop** screen.

◆ SCREEN LOCK

Can be set to automatically lock screen or quickly press the power button to manually lock screen. The system provides four lock screen style for users. You can enter **Settings**→**Security**→**Lock Screen** to switch.

Lock screen displays the following:

Slide the screen from bottom to top to unlock the screen.

◆ STATUS AND NOTIFICATION AREA

On the **Desktop** screen, click the icons which are in the status bar to view more status information and events.

◆ APPLICATION MANAGEMENT

» Install Android Applications

☆ *There are many interesting and free Android applications that can be found on the web. For example, you can launch your web browser and do a search for “Android applications”.*

Purchased or free Android applications that you have downloaded to your computer can be installed quickly & easily on your Tablet using the  **File Browser** or **task manager** application.

1. Copy the **.apk** files which you want to install onto an SD card or USB device → insert or connect to your Device.
2. Tap the  **File Browser** application icon.
 1. Tap **SD** or **USB** and locate the folder in which the **.apk** application files were saved.
 2. Tap on a **.apk** file → **Install**.

The application is installed and the application icon is added to the **Applications** screen.

3. Tap **Open** to launch the application now, or tap *Done* to return to the **File Browser** screen.

Download Applications directly from a Website

You can download Android applications directly from websites, and then install them on your device quickly and easily.

» Uninstalling Android Applications

You can also uninstall the Android applications quickly and easily that you have installed.

1. Tap  → **Settings** → **Apps** → **All**.
2. Tap the application you want to uninstall → **Uninstall**.
3. Tap **OK** to confirm the Uninstall.

◆ WEATHER

Tap the  Weather application icon.

General setting

You can set Temperature Unit (°C), Update frequency .

About

View software version number and relevant legal information.

Add city

You can add city to **Weather** and view the city's weather information.

Select city

In the list of cities, click the city to view the weather information. Select the city and tap  to delete the city, tap  refresh the weather information.

You can make the weather displayed on the **Desktop** through adding widget. The way is: tap  → **Widgets** → **Weather Widget**.

◆ CLOCK

Tap the  **Clock** application icon. You can see the time and date.

Alarm

You can use your device as an alarm clock by setting multiple alarms.

Add Alarm

1. Tap the  Clock application icon.
2. Tap  **Set alarm** → **Add alarm**.
3. Set up your alarm as desired.
4. Tap **OK**.

1. Tap **Settings** → **Ethernet**.
2. The device can automatically obtain IP address to connect to the network. You can also choose to manually set the IP address to get connected.

◆ FREQUENTLY ASKED QUESTIONS

Q: What Android OS version is on my Device?

A: 4.0.3

Q: Do I have to charge the battery before use?

A: You should charge the battery for at least 6 hours, but you can use the device while it's charging. Use the included power adapter to charge; this device does not support charging via the USB cable.

Q: Can I use any of my personal email addresses to send/receive email?

A: The device supports POP3 and SMTP accounts. Some free email accounts are not supported on mobile devices. Check with your email provider to see if your account is supported.

Q: Which media cards are compatible with my Device?

A: micro SD cards.

Q: What type of music files can I play on my device?

A: MP2, MP3, WAV, FLAC, APE, AAC, WMA

Q: How do I add music files to my device?

A: Copy the music files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Q: What type of photo files can I view on my device?

A: JPG, JPEG, BMP and PNG.

Q: How do I add photo files to my device?

A: Copy the photo files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Q: What type of video files can I play on my device?

A: Video file formats supported: MPEG1/2/4, H263, H264, VC1, RealVideo, MotionJPEG.. The largest video format is supported 1080P (1920×1080) resolution.

Q: How do I add video files to my device?

A: Copy the video files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

Q: Do I need a Wi-Fi adapter to connect to the Internet?

A: No. The Wi-Fi adapter is built-in to the device.

Note: If inconsistent with the physical specifications, please prevail in kind.

◆ BATTERY MANAGEMENT

The battery is not fully charged when you use the device first time, so it is recommended that you charge the battery for at least 6 hours before you use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by the suggestions as below:

Use your tablet at least once a week.

Charge the battery regularly and fully.

Never leave the battery fully discharged for a long period of time.

Always keep the device and the battery away from heat.

» Charge battery

Plug the power adapter into an electrical outlet, and then connect to the device to fully charge the battery before use (A full charge takes about 6 hours when the battery is run out).

☆ *You cannot charge the battery using the USB cable.*

When fully charged, the battery icon displays as .

A fully discharged battery takes approximately 6 hours to fully charge when the battery is run out, but you can use the device while plugged in if necessary.
