Base
User Guide
Line Cord
Coiled handset cord

CONNECTING THE PHONE

1. Located on the left side of the phone is a modular jack. Insert one end of the coiled handset cord into this jack (you should hear the coil cord click when properly inserted).
2. Insert the other end of the coiled handset cord into the modular jack on the bottom of the handset.
3. Turn the telephone over and insert one end of the line cord into the jack on the bottom of the telephone.
4. Route the line cord through the cable channel in the base of the phone, and insert the other end into an analog telephone jack.

PLACING A CALL

1. Lift the handset. Listen for dial tone. Dial the desired number.
2. To end the call, hang up by placing the handset back in the cradle.

RECEIVING A CALL

An audible ring and flickering red message waiting light (models AT1102 and AT1202 only) indicate an inbound call. To answer the call, lift the handset and begin your conversation. To end the call hang up the handset.

REDIAL

To redial the last telephone number dialed, lift the handset from the cradle and press the REDIAL key.

INITIATING A NEW CALL

The Teledex iPhone Trimline is equipped with a hook switch on the handset, so it's easy to place a new call without having to return the handset to the base. To make a new call, simply press the large oval button on the keypad, next to the volume keys. This performs the "FLASH" function.

ADJUSTING THE RING VOLUME

Locate the ringer volume control on the back of the telephone. Slide the switch to the desired LOW or HI ring volume.

ADJUSTING THE HANDSET VOLUME

In compliance with the Americans with Disabilities Act, this phone has an adjustable handset volume feature. To adjust, locate the volume UP and DOWN keys on the keypad. Press the desired key to achieve the desired volume level.

MUTE KEY

The phone has a momentary MUTE key on the handset. To mute the handset microphone, press and hold the MUTE key. To resume your conversation, simply release the key.

MESSAGE WAITING INDICATOR

(Models AT1101 and AT1201 only)

The message waiting indicator is located near the top of the phone base. Most telephone systems will turn on this indicator to alert you that there is a message for you. Follow procedures outlined in the guest directory for retrieving messages.

BACKLIT KEYPAD

The phone has a backlit keypad for easy of use in a low-light environment. The backlight is automatically switched on when the handset is removed from the base.

ANALOG DATA PORT

The phone is equipped with a standard RJ-11 analog data port on the right side of the phone. This provides access for a modem or fax machine to be used on the same line.

WALL MOUNTING

The phone can be easily wall-mounted by placing it over any standard wall mounting plate and pressing down.

RMA PROCEDURES

The following procedure should be followed with all Teledex telephone products prior to sending the telephone to the factory for repair. Please perform the tests listed below:

1. Test the phone on a different telephone jack.
2. Test the phone with a different line cord.
3. Test the phone with a different handset cord.
4. For two-line products, please ensure that one of the line buttons is pressed (if both line buttons are in the UP position, the telephone will not operate).

If the steps listed above do not remedy the situation, please visit our website, www.teledex.com, for RMA instructions. From teledex.com, you can process your RMA online and print a shipping label.

REQUIREMENTS OF PART 68 - FCC RULES

This device has been granted a registration number by the Federal Communications Commission, under Part 68 rules and regulations for direct connection to the telephone lines. In order to comply with these FCC rules, the following instructions must be carefully read and applicable portions followed completely:

1. Direct connection to the telephone lines may be made only through the standard modular cord furnished, to the utility installed jack. No connection may be made to party or coin phone lines. On the bottom of the phone is a label that contains among other information, the FCC Registration Number and the Ringer Equivalence number (REN) for this equipment. If requested, this information must be provided to the telephone company. The USOC Jack for this equipment is RJ11C.
2. The telephone company, under certain circumstances, may temporarily discontinue and make changes in facilities and services which may affect the operation of the users' equipment: however, the user shall be given adequate notice in writing to allow the user to maintain uninterrupted service.
3. In certain circumstances, it may be necessary for the telephone company to request information from you concerning the equipment which you have connected to your telephone line. Upon request of the telephone company, provide the FCC registration number and the ringer equivalence number of the equipment which is connected to your line; this information will be found on the device.
4. If any of your telephone equipment is not operating properly, you should immediately remove it from the telephone line. It may cause harm to the telephone network.
5. If the telephone company notes a problem, they may temporarily discontinue service. When practical, they will notify you in advance of disconnection. If advance notice is not feasible, the telephone company must: promptly notify you of such temporary discontinuance; afford the opportunity to correct the condition; inform you of your rights to bring a complaint to the FCC under their rules.
6. Repairs to the device may be made only by the manufacturer or an authorized service agency. This applies at any time during and after warranty. If unauthorized repair is performed, registration, connection to the telephone lines and remainder of warranty period all become null and void.
7. This equipment is hearing aid compatible.
8. This telephone must be connected behind a PBX.

REQUIREMENTS OF PART 15 - FCC RULES

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Move the telephone away from the receiver.
 2. Consult the dealer or an experienced radio/TV technician for help.
- Any changes made by the user not approved by the manufacturer can void the user's authority to operate the telephone.

INDUSTRY OF CANADA REQUIREMENTS

NOTICE: The Industry Canada label identifies certified equipment. This certification means that the equipment meets certain telecommunications network protective operational and safety requirements as prescribed in the appropriate Terminal Equipment Technical Requirements documents. The department does not guarantee the equipment will operate to the users satisfaction. Before installing this equipment, users should ensure that it is permissible to be connected to the facilities of the local telecommunications company. The equipment must also be installed using an acceptable method of connection. The customer should be aware that compliance with the above conditions may not prevent degradation of service in some situations. Repairs to certified equipment should be coordinated by a representative designated by the supplier. Any repairs or alterations made by the user to this equipment, or equipment malfunctions, may give the telecommunications company cause to request the user to disconnect the equipment. Users should ensure for their own protection that the electrical ground connections of the power utility, telephone lines, and internal metallic water pipe systems, if present, are

connected together. This precaution may be particularly important in rural areas.

Caution: Users should not attempt to make such connections themselves, but should contact the appropriate authority or an electrician, as appropriate.

The Ringer Equivalence Number (REN) of this device is Z.

Notice: The Ringer Equivalence Number (REN) assigned to each terminal device provides an indication of the maximum number of terminals allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the Ringer Equivalence Numbers of all the devices does not exceed 5. This telephone connects to the telephone network under the connecting arrangement code CA11A.

IMPORTANT SAFETY INSTRUCTIONS

WHEN USING YOUR TELEPHONE EQUIPMENT, BASIC SAFETY PRECAUTIONS SHOULD ALWAYS BE FOLLOWED TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK AND INJURY TO PERSONS. INCLUDING THE FOLLOWING:

1. READ AND UNDERSTAND ALL INSTRUCTIONS.
2. FOLLOW ALL WARNINGS AND INSTRUCTIONS MARKED ON THE PRODUCT.
3. UNPLUG THE PRODUCT FROM THE WALL OUTLET BEFORE CLEANING. DO NOT USE LIQUID CLEANER OR AEROSOL CLEANERS. USE A DAMP CLOTH FOR CLEANING.
4. DO NOT USE THIS PRODUCT NEAR WATER FOR EXAMPLE NEAR A BATHTUB, WASHBOWL, KITCHEN SINK OR LAUNDRY TUB, IN A WET BASEMENT, OR NEAR A SWIMMING POOL.
5. DO NOT PLACE THIS PRODUCT ON AN UNSTABLE CART, STAND OR TABLE. THE PRODUCT MAY FALL, CAUSING SERIOUS DAMAGE TO THE PRODUCT.
6. SLOTS AND OPENINGS IN THE CASE, IF PRESENT, ARE PROVIDED FOR VENTILATION PURPOSES, TO PROTECT THE PHONE FROM OVERHEATING. THESE OPENINGS MUST NOT BE BLOCKED OR COVERED. THE OPENINGS SHOULD NEVER BE BLOCKED BY PLACING THE PRODUCT ON THE BED, SOFA, RUG OR ANY OTHER SIMILAR SURFACE. THIS PRODUCT SHOULD NEVER BE PLACED NEAR OR OVER A RADIATOR OR HEAT REGISTER. THIS PRODUCT SHOULD NOT BE PLACED IN A BUILT-IN INSTALLATION UNLESS PROPER VENTILATION IS PROVIDED.
7. NEVER PUSH OBJECTS OF ANY KIND INTO THIS PRODUCT THROUGH CABINET SLOTS, AS THEY MAY TOUCH DANGEROUS VOLTAGE POINTS OR SHORT OUT PARTS THAT COULD RESULT IN A RISK OF FIRE OR ELECTRIC SHOCK. NEVER SPILL LIQUID OF ANY KIND ON THE PRODUCT.
8. TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT DISASSEMBLE THIS PRODUCT. INSTEAD, TAKE IT TO A QUALIFIED SERVICE CENTER SERVICE OR REPAIR. OPENING OR REMOVING COVERS MAY EXPOSE YOU TO DANGEROUS VOLTAGES OR OTHER RISKS. INCORRECT REASSEMBLY CAN CAUSE ELECTRIC SHOCK WHEN THE PHONE IS SUBSEQUENTLY USED.
9. AVOID USING A TELEPHONE (OTHER THAN A CORDLESS TYPE) DURING AN ELECTRICAL STORM. THERE MAY BE A REMOTE RISK OF ELECTRIC SHOCK FROM LIGHTNING.
10. DO NOT USE THE TELEPHONE TO REPORT A GAS LEAK IN THE VICINITY OF THE LEAK.
