## THANK YOU FOR PURCHASING YOUR TIMEX® WATCH.

### EXTENDED WARRANTY

**Available in U.S. only.** Extend your warranty for an additional 4 years from date of purchase for \$5. You can pay with AMEX, Discover, Visa or MasterCard by calling 1 800-448-4639 during normal business hours. Payment must be made within 30 days of purchase. Name, address, telephone number, purchase date, and 5-digit model number required. You can also mail a check for \$5 to: Timex Extended Warranty, P.O. Box 1676, Dept. EF, Little Rock, AR 72203.

Please read instructions carefully to understand how to operate your Timex® watch. **Your model may not have all of the features described in this booklet.**

### START WATCH

Remove guard from crown and push in.

For easiest operation, set day and time first, then set date.

### SET DAY AND TIME

Pull Crown out to position C. Turn Crown clockwise or counter-clockwise to advance to correct day and time. Day Hand will advance 1 day at midnight for each complete 24-hour cycle. When done, push Crown back to position A.

**Quick-set Option** (If your watch does **not** have a 24-Hour Hand\*): You can also quick-set Day Hand by pulling Crown out to middle position B and turning clockwise to correct day. When done, push Crown back to position A.

**Note correct time of day (A.M. or P.M.) to ensure date changes at Midnight rather than Noon. (\*see "24-Hour Hand", below)**

### SET DATE

Pull Crown out to middle position B and turn counterclockwise to correct date. When done, push Crown back to position A.

**For months with fewer than 31 days, reset date at month-end.**

### 24-HOUR HAND\*

**24-HOUR HAND** indicates current time on 24-hour scale. When setting watch, this hand can help determine A.M. or P.M. For example, when Hour and Minute hand indicate 10 P.M., 24-Hour hand would indicate "22". At 10 A.M., the 24-hour hand would indicate "10".

**\*24-Hour feature not available on all watch styles**

### BRACELET ADJUSTMENT

#### FOLDOVER CLASP BRACELET

Find spring bar that connects bracelet to clasp. Using a pointed tool (Fig. 1), push spring bar in and gently twist bracelet to disengage. Determine wrist size, then insert spring bar in correct bottom hole (Fig. 2). Push down on spring bar, align with top hole and release to lock in place (Fig. 3).

#### BRACELET LINK REMOVAL

**Removing Links:** Place bracelet upright and insert pointed tool in opening of link. Push pin forcefully in direction of arrow until link is detached (pins are designed to be difficult to remove). Repeat until desired number of links are removed.

**Reassembly:** Rejoin bracelet parts. Push pin back into link in opposite direction of arrow. Press pin down securely into bracelet until it is flush.

#### SOLID LINK BRACELET

**Removing Links:** Using a very small screwdriver, remove screws by turning counterclockwise. Repeat until desired number of links are removed. Do not remove links adjacent to clasp.

**Reassembly:** Rejoin bracelet parts and insert screw in end of opening where it was removed. Turn screw clockwise until tight and flush with bracelet.
