D-VR4

TECHNOLOGY & BENEFITS

VIDEO

- >> **Multi-Drive Recorder** - This DVD recorder is designed to provide the greatest flexibility in recording and playback by supporting DVD-RAM, DVD-R, and DVD-RW recordable disc formats. The right format for every application:
 - DVD-RAM is the most flexible of the recordable disc formats when it comes to recording, editing and playback. Even more, re-record content approximately 100,000 times!
 - DVD-R is a write-once format perfect for sharing treasured video moments with virtually anyone who has a DVD-Video player.
 - DVD-RW* can rewrite content up to 1000 times and playback in a wide variety of computer drives and DVD-Video players
- >> **ColorStream Pro® Component Video Outputs** - These outputs allow the highest quality video signal to be sent from the DVD player to a component video equipped progressive scan TV. When this connection is utilized with today's HD-compatible sets, typical NTSC artifacts-like video noise, dot crawl, and flicker-are virtually eliminated, resulting in a low-noise, highly detailed picture with unequaled color purity.
- >> **Digital Cinema Progressive (3/2 Pulldown)** - Delivers the smoothest, most film-like images to any progressive scan television, such as an HD-compatible one, and ensures maximum resolution.

AUDIO

- >> **WMA & MP3 Playback** - Recordable Compact Discs (CD-R & CD-RW) with music stored in either the Windows Media™ Audio or MP3 file formats can be enjoyed.

CONVENIENCE

- >> **Bi-Direction Dubbing** - A convenient way to transfer content from a VHS tape to DVD or DVD content to VHS. Dubbing from VHS to DVD provides the capability of transferring the entire tape from the unit's front panel or remote control.
- >> **Chase Play** - Chase Play allows the user to begin watching a recording that is already in progress from the beginning while it continues to record to the end.
- >> **Front Panel A/V & S-Video Inputs** - There are composite audio & video inputs, as well as S-Video input on the front panel of the unit for easy camcorder dubbing.

SPECIFICATIONS

DVD	Disc Qty	1
	Disc Play	DVD-Video/CD/CD-R/CD-RW DVD-R/DVD-RAM/DVD-RW*
