## X-Connect™ Power Supplies 2nd Generation

### X-Connect™ PSU - Patented Technology

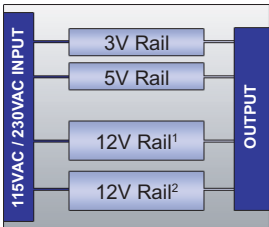

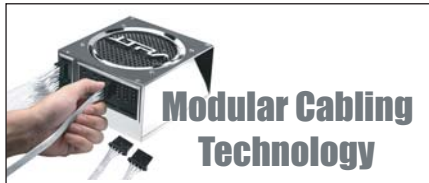

If you're familiar with the 1st Generation X-Connect you know that it's the world's first completely modular design. That means you only have to connect the cables you need. This leaves your system's airflow unimpeded by clunky, chunky air stifling cables. The end result? Airflow that cools and protects your precious components. This next generation, born-to-be-modded power supply goes several steps beyond its award-winning predecessors. The Ultra 550W X-Connect features FlexForce technology, which delivers easy cable routing while remaining hidden within your case. FlexForce's special design promotes 30% better airflow than standard cables. This results in a quantum leap in performance. Specially developed for extreme gaming rigs! This 550-watt X-Connect features Dual Rail Technology. The X-Connect's critical 12V power are divided into two separate rails. This distributes cleaner power to your CPU, offering better stability and greater overclocking potential. You'll get phenomenal system performance with the this 550-watt X-Connect!

#### Features

- SLI™ Certified
- 120mm Fan
- Thermostatically controlled fans for low acoustic noise.
- Dual Rail Technology
- FlexForce Cabling Technology
- Meets ATX v2.2, v1.3 and ATX 12V v2.03 Specifications
- Power Protections:  
Short Circuit, In-rush Current, Thermal Overload, Over-Temperature, Over-Voltage, Over-Current, Under-Voltage

Featuring  
**FLEXFORCE**  
Slim Cable

INCLUDES  
**U V-Ready  
Cables!**

#### What is Dual Rail Technology?

- Better Power Distribution - Dual Rail Technology distributes power to components that require it the most.
- Dedicated CPU Rail - Dedicated 12V Rail for the 2x2 Motherboard Connector
- More power where you need it...

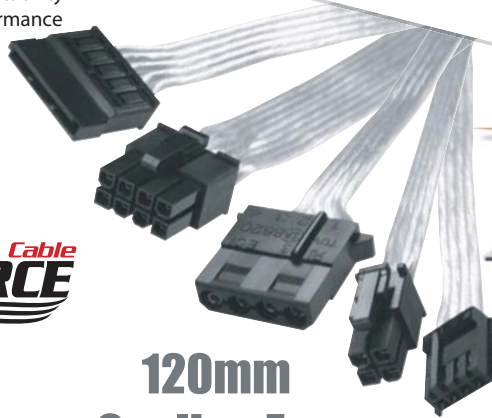

#### 550 Watt ATX Power Supply - Titanium

Model: X2550TI Part #: ULT31851  
UPC#: 022769318516  
Weight: 6 lbs. Dimensions: 8x4x7"

#### 550 Watt ATX Power Supply - Titanium w/ UV Side

Model: X2550TIUV Part #: ULT31852  
UPC#: 022769318523  
Weight: 6 lbs. Dimensions: 8x4x7"

**120mm  
Cooling Fan**

Patented Technology

#### OUTPUT

**550Watt**

Max Output Current	+3.3VDC	+5VDC	+12VDC1	+12VDC2	-12VDC	+5VSB
		25A	30A	17A	18A	0.8A
Max Combined Wattage	160 W		408 W		9.6 W	12.5 W
	528 W				22 W	
550 W						

#### Total Output Power:

550W (Full Load, Nominal Input Voltage)  
Maximum 78% Efficiency

#### Input:

- AC Input Voltage: 115V/230V
- AC Input Frequency: 50-60Hz
- AC Input Currents:  
· 8.8A (RMS) for 115VAC input  
· 5.7A (RMS) for 230VAC input
