

# SL4 eLED®

High intensity eLED® dive light

impact resistant rubber-sheathed bezel

incredibly bright high intensity white LED in a prefocused vacuum metalized aluminum reflector

tough ABS o-ring sealed case will not corrode, dent or leak

rotating on/off switch

includes nylon wrist lanyard with rubber sleeve and adjustable lock

## Sunlight SL4 eLED®

The high intensity SL4 eLED® dive light is ideal for minimizing weight for travel due to its high brightness, small size and long burn time.

For years, the SL4 has been the benchmark light for sport and commercial divers. Now, the SL4 eLED® is the next generation with LED technology making it perfect for tropical reef divers, underwater photographers with spotting lights, commercial diver's helmet lights or packing it on an expedition. Its high brightness to size ratio makes it ideal for light weight travel.

Underwater, you can stow it out of the way in your BC pocket for when you go over the wall or peer deep under a ledge. As a back-up, the SL4 provides plenty of illumination to finish your dive. The eLED® circuitry provides relatively constant brightness throughout most of the life of the batteries. As the batteries are nearly depleted the brightness of the LED falls sharply, but does not go out as happens with classical filament lamps. This brightness will persist for several days. Valuable for emergency situations.

The SL4 eLED® operates more efficiently and produces more light when it is cool. Underwater, the SL4 eLED® burns brighter for almost half of the battery life, due to the unique way that heat is conducted away from the LED. The higher brightness consumes a little more power and slightly reduces the battery life.

SL4 eLED® is the brightest in its class and designed to last. The high impact ABS case, rubber protected bezel, solid aluminum reflector and unbreakable LED light source are just a few examples of what makes the SL4 eLED® the best choice in its class.

## Specifications

<b>Brightness</b>	113 lumens (max.)
<b>Lamp</b>	3-5 Watt High Intensity LED
<b>Burn Time</b>	10-12 Peak Hours
<b>Materials</b>	ABS, Polycarbonate
<b>Battery</b>	4 C Alkaline
<b>Size</b>	6.2 x 1.5 x 1.7 Inches
<b>Test Depth</b>	500 Feet Waterproof

## Model Numbers & Part Numbers

<b>80101</b>	SL4 eLED®	Yellow
<b>80102</b>	SL4 eLED®	Blue
<b>80103</b>	SL4 eLED®	Lime
<b>80104</b>	SL4 eLED®	Black
<b>80105</b>	SL4 eLED®	Fluorescent Yellow
