

PJD5351

PORTABLE SHORT THROW PROJECTOR

WITH BRILLIANTCOLOR™ TECHNOLOGY

Small budget - big presentations

The powerful PJD5351 sets the stage for a new generation of versatile projectors equipped with BrilliantColor™ technology and an extreme short throw ratio – producing a 50" image at a distance of only 3 feet away. With its short throw lens, the PJD5351 saves space by allowing you to place it at the front of your table and still display large, crisp images. Weighing in at just 5.5 pounds with 2500 ANSI lumens and a 2400:1 contrast ratio (with DCR), it's easy to give multimedia lessons in the classroom or dynamic presentations in the boardroom. Multiple preset presentation modes, an increased 40 degree digital vertical keystone correction and digital zoom ensure the best possible image regardless of location. With up to 4000 hours of lamp life*, low cost replacement lamps, filter-less design and a non-degrading DLP® light engine, the PJD5351 is one of the lowest total cost of ownership projectors in the industry.

Versatile presentations anywhere

- > **Short-throw lens for large, stunning images in small spaces**
The short throw lens enables large images to be projected from short distances in small rooms with short throw distances. A screen size of 50" is possible from just 3 feet
- > **Bright in virtually any setting**
Packs 2,500 ANSI lumens in just 5.5 pounds, and with a high 2400:1 contrast ratio (with DCR), your presentations are guaranteed to be vibrant even in the brightest office environment.
- > **BrilliantColor™ technology**
Latest BrilliantColor™ Technology delivers stunning all-digital clarity with life-like color, sharp graphics and outstanding video. The sophisticated 6-segment color wheel enriches the yellow color performance that is key to accurate and vivid color reproduction.
- > **Eco-mode extends lamp life**
Extend the life of your lamp up to 4000 hours* and reduce noise output.
- > **Off to Go feature**
The direct off feature allows the busy presenter to simply unplug the projector and go without waiting for the usual cool down phase. This feature also protects the lamp from sudden power blackouts.
