#### We Need To Hear From You! To Establish Your Warranty Period And Provide Access To Technical Support, Send Us Your Product Registration Card Today!

Zebra Technologies Corporation warrants the mechanism, control electronics and power supply, under normal use and service, to be free from defects in material and workmanship for a period of twelve (12) months from the date of purchase by the end user. Zebra Technologies Corporation warrants the print head, under normal use and service, to be free from defects in material and workmanship for a period of ninety (90) days or 30KM of printing (whichever occurs first) from the date of purchase by the end user. Proof of purchase or product registration is required. If proof of purchase or product registration cannot be established, shipment date to the original buyer (dealer or distributor) will be used to establish the warranty period.

Failure to exercise caution to protect the equipment from electrostatic discharge damage, adverse temperature and humidity conditions or physical abuse may void the warranty. Failure to use only Eltron brand approved media may void the warranty. Zebra Technologies Corporation will, at its option, repair or replace the equipment or any parts which are determined to be defective within this warranty period, and which are returned to Zebra Technologies Corporation F.O.B. factory of origin.

The warranty set forth above is exclusive and no other warranty, whether written or oral, is expressed or implied. Zebra Technologies Corporation specifically disclaims the implied warranties of merchantability and fitness for a particular purpose.

#### **RETURN MATERIALS AUTHORIZATION**

Before returning any equipment to Zebra for in warranty or out of warranty repair, contact Repair Administration for a Return Materials Authorization (RMA) number. Repack the equipment in the original packing material and mark the RMA number clearly on the outside. Ship the equipment, freight prepaid, to the address listed below:

> Zebra Eltron Repair Administration, USA 1001 Flynn Road Camarillo, CA. 93012 Phone: +1 (805) 579-1800 FAX: +1 (805) 579-1808

#### SHOCK HAZARD WARNING:

The printer and power supply should never be operated in a location where either one can get wet. Personal injury could result.

#### **MEDIA WARNING:**

Always use high quality Eltron approved labels, tags and transfer ribbons. If adhesive backed labels are used that DO NOT lay flat on the backing liner, the exposed edges may stick to the label guides and rollers inside the printer, causing the label to peel off from the liner and jam the printer. Eltron approved supplies can be ordered from your ELTRON dealer. For the name of a dealer in your area, call the nearest Eltron office (located on the back of this manual).

#### **RELOADING HINT:**

If you should run out of labels while printing, DO NOT turn the power switch OFF (0) while reloading or data loss may result. The printer will automatically a new label roll is loaded.

#### STATIC DISCHARGE:

The discharge of electrostatic energy that accumulates on the surface of the human body or other surfaces can damage or destroy the print head or electronic components used in this device.

**DO NOT TOUCH** the print head or the electronic components under the top cover.

#### THERMAL PRINTING:

The print head becomes hot while printing. To protect from damaging the print head and risk of personal injury, avoid touching the print head. Use only the cleaning pen to perform maintenance.

## 1 Installation and Operation

This section provides information on the installation and operation of the printer.

The printer is a low cost, desktop direct thermal printer. The printer is specifically designed for printing labels, tags or continuous receipts (with or without bar codes) from any DOS<sup>™</sup>, Windows<sup>™</sup> or ASCII-based compatible host.

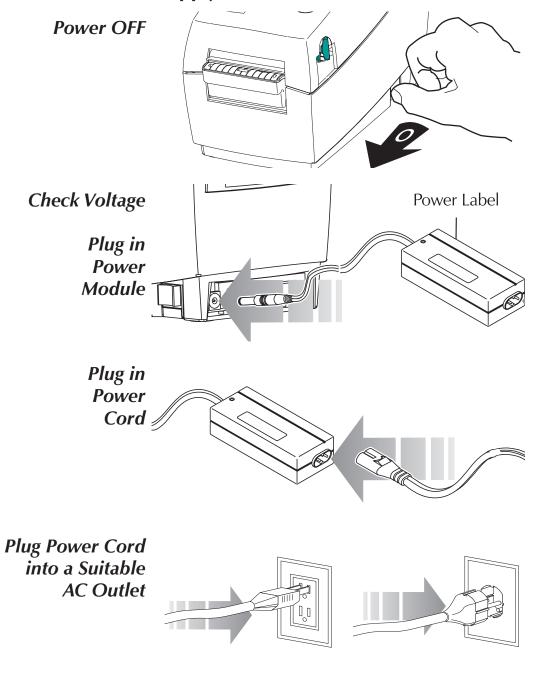

## **Unpacking Your Printer**

*Installation* The following steps will guide you through the installation of the printer and software.

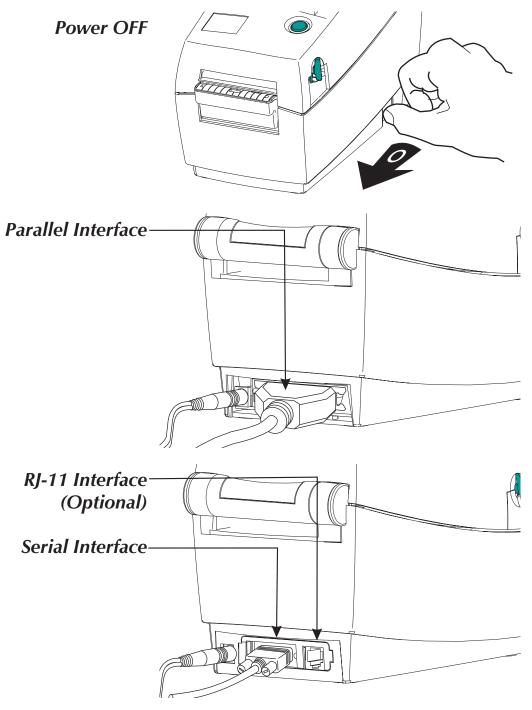

## Step **1** Attach Power Supply To The Printer

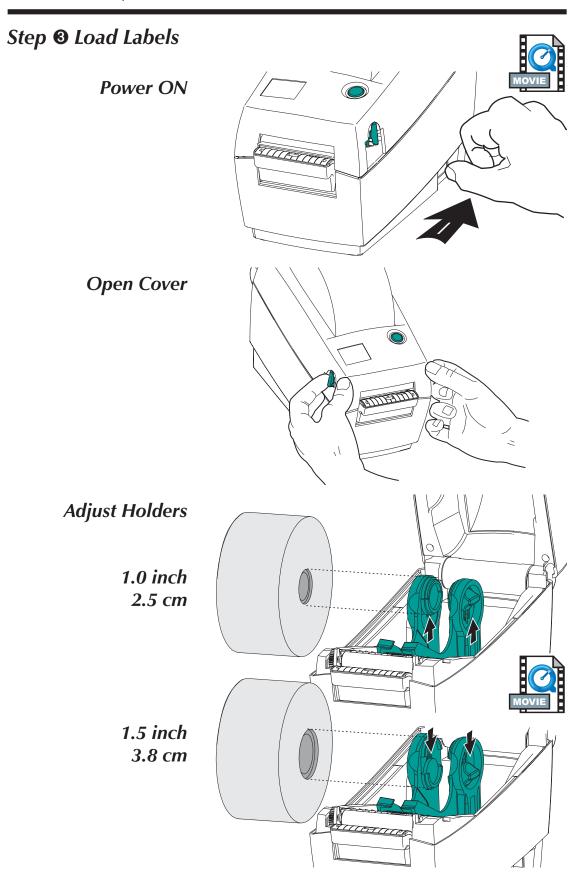

See the SHOCK HAZARD WARNING on page iv.

## Step **2** Attach Interface Cable

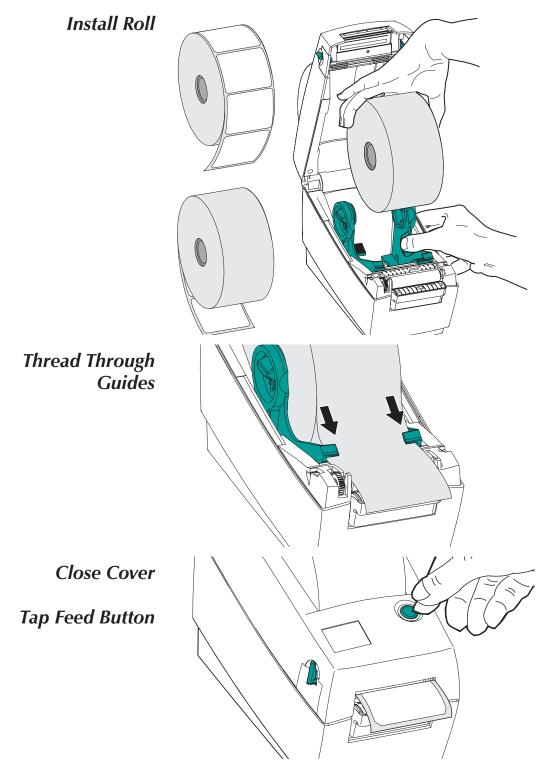

The printer has either a parallel interface or a serial interface (with optional RJ-11 connector).

For additional information on serial cable wiring, refer to Appendix A.

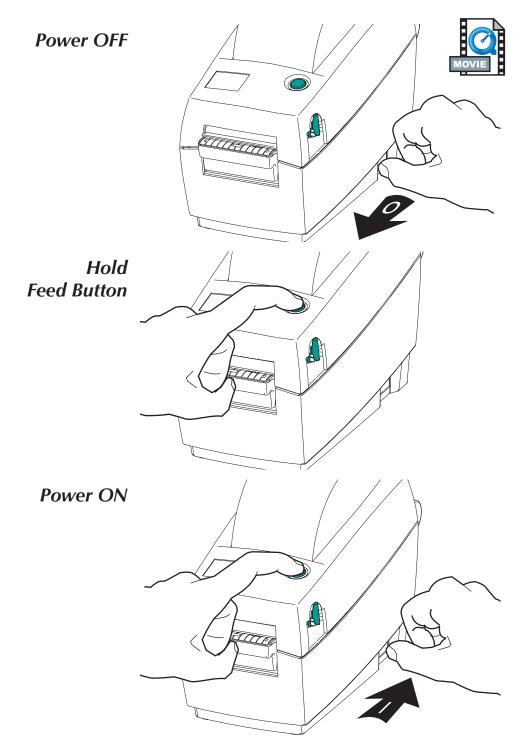

## Load Labels - continued

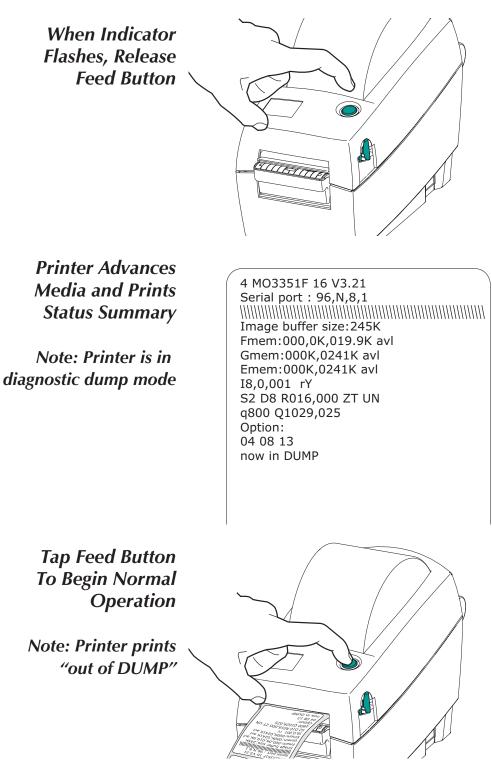

If the indicator remains dark, see Appendix A - Troubleshooting.

## Step <sup>(1)</sup> AutoSense Gap Sensor Adjustment

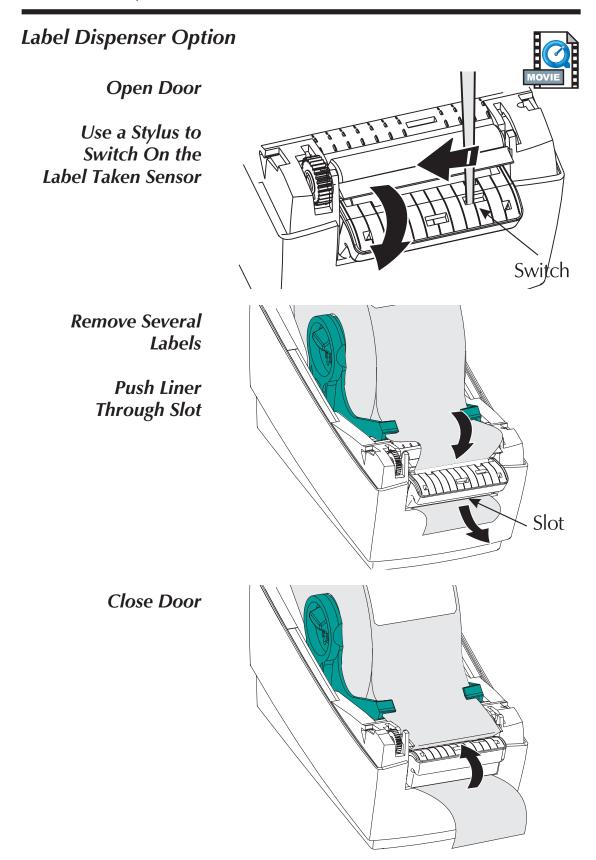

Perform this procedure when loading a new roll. If your printer has the label dispenser option, turn OFF the label taken sensor.

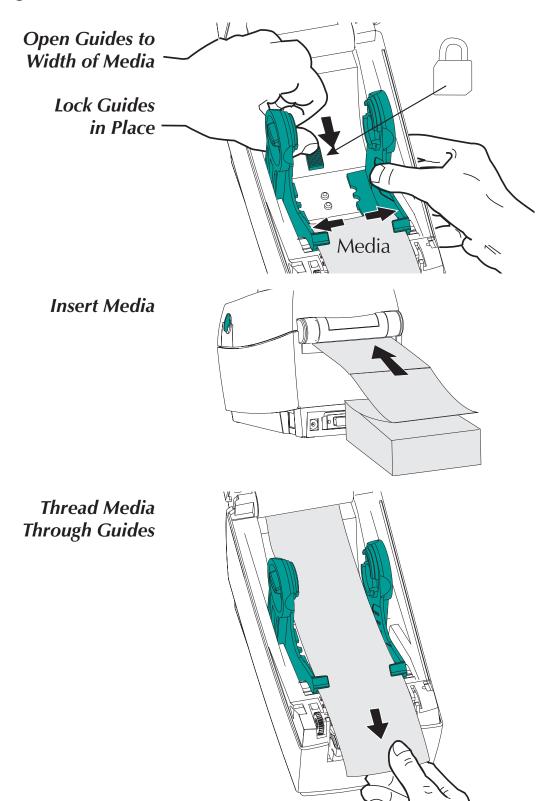

## AutoSense Gap Sensor Adjustment - continued

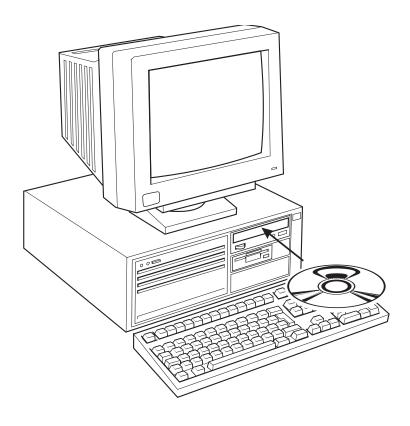

If the indicator remains orange or red, see the troubleshooting steps.

## Using Fan-Fold Media

## Step Install Software

Start your computer and follow the installation instructions on the compact disc (CD).

## Appendix A - Troubleshooting

Problem	Solution or Reason				
	STATUS Indicator				
Does not light when power switch is turned to ON (I) position.	1. Check power connections from A.C. outlet to power supply to printer.				
Lights GREEN, but printer will not print.	<ol> <li>Check interface cable connections from computer to printer.</li> <li>Make sure top cover is locked closed.</li> </ol>				
Blinks GREEN-RED-RED.	1. Operator has paused the printer during a batch job. Tap the FEED button to continue.				
Lights AMBER.	1. Printer has encountered a syntax or command error.				
Blinks RED.	1. The optional cover open sensor is ac- tive. Press top cover to close and lock.				
Lights RED.	<ol> <li>Media is out. Reload a new source of media so printer can continue printing.</li> <li>Power-up failure.</li> </ol>				
Blinks GREEN-AMBER.	1. AutoSense in process. Wait until printer dispenses a status report.				
Lights AMBER-RED.	1. Download in process.				
	Operation				
Printer appears to be working (media is being fed out), but nothing is printed.	<ol> <li>Verify that the labels are the correct type (direct thermal).</li> <li>Check that the roll is loaded with the di- rect thermal side facing up.</li> <li>Clean the print head with cleaning pen.</li> <li>Ensure top cover is locked closed.</li> </ol>				
Printing is faded or poor quality.	<ol> <li>Clean the print head with cleaning pen.</li> <li>Adjust print speed/darkness in software.</li> </ol>				

Appendix A - Troubleshooting

Problem	Solution or Reason	
Prints only partial label or skips a label.	<ol> <li>Perform AutoSense gap sensor adjustment on page 8.</li> <li>Label caught on print head.</li> <li>Print head is not properly latched.</li> <li>Possible software problem. Check the printer memory configuration. Refer to the EPL2 Programming manual.</li> </ol>	
Printing stops and STATUS indicator lights ORANGE or RED.	<ol> <li>Perform AutoSense gap sensor adjustment on page 8.</li> <li>Possible problem with label stock. Use only Eltron approved labels and tags.</li> <li>Possible label jam.</li> <li>Insufficient memory for label size. Check the printer memory configuration.</li> <li>Possible software problem. Refer to the EPL2 Programming manual.</li> </ol>	

Other Support The first troubleshooting reference source is the table on the previous page. Next, contact the dealer where you purchased your printer.
