

MOTOROLA GM328 THE PRACTICAL MOBILE 2-WAY RADIO The practical radio is the simple yet high performing two-way radio solution for professionals who need to stay in contact. Its streamlined features include the essentials to keep users communicating steadily and efficiently – including limited signaling capabilities and two customisable function buttons. Motorola's unique X-Pand[™] audio enhancement and a large frontprojecting speaker ensure clear, crisp sound, even in noisy environments. The practical GM328 radio gives you virtually everything you need to get the job done.

GM328 ACCESSORIES:

OPERATOR FRIENDLY CONTROLS AND FEATURES INCLUDE:

Easy to use

Large control buttons and the multicolored LED indicators provide clear feedback of the radio operating status.

2 Programmable Buttons

Users have the flexibility to dedicate their most frequently used functions to these buttons for instant one-touch access.

Signalling Features

The GM328 offers the following signalling features:

- MDC1200 PTT-ID encode
- MDC1200 Selective Radio Inhibit decode
- DTMF PTT-ID encode

X-PAND^(TM) Audio Technology

Motorola's special voice compression and expansion technology called X-PAND enables crisper, clearer and stronger audio quality, allowing you to keep communicating in any noisy environment.

Switchable RF Power Level

The transmit power level can be adjusted to accommodate the users environment. Thus, minimising the risk of interference with other systems.

Repeater/Talkaround Enable/Disable

Freedom to communicate via a repeater for wide area coverage; or bypass a repeater and talk directly to another unit for easy local unit-to-unit communications.

BUILT TO MEET MILITARY SPECIFICATIONS

The GM328 is a commercial quality radio which has been tested to MIL810 (C,D and E) Military Specification Standards including temperature extremes, solar radiation, rain, humidity, salt fog, dust, vibration and shock. These tests were conducted subject to specific military procedures.

Optional Voice Storage

Through an optional voice storage board, the GM328's capabilities can be expanded to the recording and playing back voice messages or personal memos for up to 120 seconds

Voice Operated Transmission (VOX):

For hands-free operation, activate this option using visor microphones.

Programmable Channel Spacing of 12.5/25kHz Mode

Flexible and easy migration of channel spacing requirements in any situation.

External Alarm

Activates the vehicle horn and/or lights on receipt of an incoming call, so you won't miss a call even when away from your vehicle.

Public Address Mode

This feature allows you to use your radio audio as a public address system simply by adding an external speaker and switch fitted and programmed by your dealer.

Data Capable

A modem can be fitted inside a special expansion head, or external to the radio.

Additional features

- Single priority Scan (channel scan)
- remote mount capable

GENERAL	VHF	UHF
