NINTENDO 3DS

**PLEASE CAREFULLY READ THE NINTENDO 3DS™ OPERATIONS MANUAL BEFORE USING YOUR SYSTEM, GAME CARD OR ACCESSORY. THIS MANUAL CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES.**

### **WARNING - 3D FEATURE ONLY FOR CHILDREN 7 AND OVER**

Viewing of 3D images by children 6 and under may cause vision damage.

Use the Parental Control feature to restrict the display of 3D images for children 6 and under. See the Parental Controls section in the Nintendo 3DS Operations Manual for more information.

### **WARNING - SEIZURES**

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, and this may occur while they are watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch their children play video games. Stop playing and consult a doctor if you or your child has any of the following symptoms:

**Convulsions**  
**Altered vision**

**Eye or muscle twitching**  
**Involuntary movements**

**Loss of awareness**  
**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

### **WARNING - EYESTRAIN AND MOTION SICKNESS**

Playing video games can result in eyestrain after a sustained period of time, and perhaps sooner if using the 3D feature. Playing video games can also result in motion sickness in some players. Follow these instructions to help avoid eyestrain, dizziness, or nausea:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, or every half hour when using the 3D feature, even if you don't think you need it. Each person is different, so take more frequent and longer breaks if you feel discomfort.
- If your eyes become tired or sore while playing, or if you feel dizzy or nauseated, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms, stop playing and see a doctor.

### **WARNING - REPETITIVE MOTION INJURIES**

Playing video games can make your muscles, joints, or skin hurt. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome or skin irritation:

- Avoid excessive play. Parents should monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- When using the stylus, you do not need to grip it tightly or press it hard against the screen. Doing so may cause fatigue or discomfort.
- If your hands, wrists, or arms become tired or sore while playing, or if you feel symptoms such as tingling, numbness, burning or stiffness, stop and rest for several hours before playing again.
- If you continue to have any of the above symptoms or other discomfort during or after play, stop playing and see a doctor.

### **WARNING - BATTERY LEAKAGE**

The Nintendo 3DS contains a rechargeable lithium ion battery pack. Leakage of ingredients contained within the battery pack, or the combustion products of the ingredients, can cause personal injury as well as damage to your Nintendo 3DS. If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water. If liquid leaking from a battery pack comes into contact with your eyes, immediately flush thoroughly with water and see a doctor.

To avoid battery leakage:

- Do not expose battery to excessive physical shock, vibration, or liquids.
- Do not disassemble, attempt to repair, or deform the battery.
- Do not dispose of battery pack in a fire.
- Do not touch the terminals of the battery or cause a short between the terminals with a metal object.
- Do not peel or damage the battery label.

### **WARNING - RADIO FREQUENCY INTERFERENCE**

The Nintendo 3DS can emit radio waves that can affect the operation of nearby electronics, including cardiac pacemakers.

- Do not operate the Nintendo 3DS within 9 inches of a pacemaker while using the wireless feature.
- If you have a pacemaker or other implanted medical device, do not use the wireless feature of the Nintendo 3DS without first consulting your doctor or the manufacturer of your medical device.
- Observe and follow all regulations and rules regarding use of wireless devices in locations such as hospitals, airports, and on board aircraft. Operation in those locations may interfere with or cause malfunctions of equipment, with resulting injuries to persons or damage to property.

The Official Seal is your assurance that this product is licensed or manufactured by Nintendo. Always look for this seal when buying video game systems, accessories, games and related products.

**THIS GAME CARD WILL WORK ONLY WITH THE NINTENDO 3DS™ VIDEO GAME SYSTEM.**

### **NEED HELP PLAYING A GAME?**

For game play assistance, we recommend using your favorite Internet search engine to find tips for the game you are playing. Some helpful words to include in the search, along with the game's title, are: "walk through," "FAQ," "codes," and "tips."

### **IMPORTANT LEGAL INFORMATION**

This Nintendo game is not designed for use with any unauthorized device. Use of any such device will invalidate your Nintendo product warranty. Copying of any Nintendo game is illegal and is strictly prohibited by domestic and international intellectual property laws. "Back-up" or "archival" copies are not authorized and are not necessary to protect your software. Violators will be prosecuted. REV-E

# Starting and Ending a Game

## Starting a Game

Please also be sure to read the Nintendo 3DS Operations Manual.

When the title screen appears, press **START** or **(A)** to bring up the file-selection screen.

## Beginning a New Adventure

Select any file labeled New Game. After entering a name for the main character, select the file in which that name appears to start the game.

## Continuing an Existing Adventure

Choose a previously played file and select Start to begin playing. If you last saved inside a dungeon, you will begin at the dungeon entrance. Otherwise, you will begin at your character's house if he is a child, or at the Temple of Time if he is an adult.

<b>Copy</b>	Copy data from one file to another.
<b>Erase</b>	Erase data from a file.

Press and hold **(A)**, **(B)**, **(X)**, and **(Y)** while the Nintendo 3DS logo is displayed after launching the game to delete all of your save data at once.  
**WARNING: Data cannot be restored once erased.**

## Ending a Game (Saving)

If you push **START**, you will be given the option of saving your progress and/or ending your play session. You can save your progress anywhere and at any time, except for during a few special events.

### Options

- **L-TARGETING** ..... Sets the targeting control scheme. If set to Hold, you will target enemies or other objects only while holding down **L**. If set to Switch, you will continue targeting even after releasing **L**.
- **CAMERA CONTROL** ... Allows you to invert the controls for looking up and down in first-person perspective.
- **MOTION CONTROL** ... Sets whether or not moving the Nintendo 3DS system will change your viewpoint in first-person perspective.

## Game Over

If your life gauge is fully depleted, the game will end. If you choose to continue playing, you will resume play in the area where you had been, or at the entrance to the dungeon you had been exploring.

### If at first you do succeed...

After you successfully complete the game one time, you will have the option of playing a more challenging version of the same story called *The Legend of Zelda: Ocarina of Time 3D Master Quest*. You will be able to select this new option at the title screen.

\* In this booklet, images from the upper and lower screens are indicated as shown above.

\*\* Closing your Nintendo 3DS during play will cause the system to enter Sleep Mode, reducing battery consumption. The Nintendo 3DS will exit Sleep Mode once you open it again.
