19 ″LCD TV User's Guide

● Please observe all safety precautions when using this product.
● Please read this manual carefully before using this product.
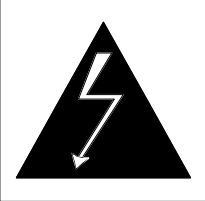

Dear Customers

May we take this opportunity to thank you for purchasing this LCD TV .We strongly recommend that you carefully read the safety and operation instructions before operating your TV. **FOLLOW INSTRUCTIONS AND HEED ALL WARNINGS** on your LCD TV found in this manual.

Safety Information

- **Note:**

  Before connecting the AC power cord to the DC adapter outlet, make sure the voltage designation of the DC adapter corresponds to the local electrical supply. **If you are unsure of your power supply, ask your local power company.**

- **CAUTION:**

CAUTION

RISK OF ELECTRIC SHOCH DO NOT OPEN

TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER. NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This symbol indicates "dangerous voltage" inside the product that presents a risk of electric shock or personal injury.

This symbol indicates important instructions accompanying the product.

- To avoid electric shock, never touch the inside of the LCD TV. Only qualified technicians should open the case of the LCD TV

- **WARNING:**
  - Do not defeat the safety purpose of grounding-type. A grounding type plug has two blades and a third grounding pin. The third pin is provided for your safety. **If the plug does not fit, ask your electrician to replace your obsolete outlet. Do not modify the plug. To do so will void the safety feature.**
  - To reduce the risk of fire or electric shock, and annoying interference, use the recommended accessories only.

Precautions

Please read these precautions before operating this unit.

Power cord protection:

- Never use your LCD TV if the power cord has been damaged. Do not allow anything to rest on the power cord, and keep the cord away from where people can trip over it.
- Be sure to hold the plug, not the cord, when disconnecting the LCD TV from an electric socket.
- Locate your LCD TV near an easily accessible AC outlet.

Placement

- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer; or sold with the apparatus. When a cart is used, use with caution when moving the cart to avoid injury from tip-over. Follow all instructions regarding their use exactly.
- An appliance and a cart combination should be moved with care. quick stops, excessive force, and uneven surfaces may cause the appliance and cart to overturn.
- Avoid placing the LCD TV in areas of direct sunlight, high temperature or high humidity or high levels of dust. The internal parts may be damaged as a result.
- High temperature can cause problems. Don't use your LCD TV in direct sunlight, and keep it away from it – unplug it immediately and contact an authorized dealer or service center.
- Please put the LCD TV in a location with low humidity and a minimum of dust.
- Place the LCD TV on a solid surface and treat it carefully. The screen is made of thin glass with a plastic front surface and can be damaged if dropped, hit or scratched.

Non-use Periods

- Unplug the LCD TV when it is going to be left unused for and extended period of time.

Foreign Object

- Never insert anything metallic into the cabinet openings of the liquid crystal display (LCD) TV; doing so may create the danger of electric shock.

Keep away from water / magnetic fields

- Do not expose the LCD to rain or use it near water (in kitchens, near swimming pools, etc.). If the LCD accidentally got wet, unplug it and contact an authorized dealer immediately.
- Do not clean the front with ketone-type materials (e.g., Acetone), ethyl alcohol, toluene, ethyl acid, methyl, or chloride-as these may damage the panel.
- Keep the unit away from flower vases, tubs, sinks, etc. If liquids are spilled into the unit, serious damage will occur.

Stacking

Openings in the LCD TV cabinet are provided for ventilation. To prevent overheating, these openings should not be blocked or covered. Also, avoid using the LCD TV on a bed, soft, rug, or other soft surface. Doing so may block the ventilation openings in the bottom of the cabinet. If you put the LCD TV in a bookcase or some other enclosed space, be sure to provide adequate ventilation.

Servicing

- If the LCD TV does not operate normally – in particular, if there are any unusual sounds or smells coming from it – unplug it immediately and contact an authorized dealer or service center.
- Unplug your LCD TV from the AC outlet before any service.
- Be sure the service technician uses authorized replacement parts or their equivalents. Unauthorized parts may cause fire, electrical shock, or other hazards.
- Following any service or repair, be sure the service technician performs safety checks to certify that the LCD TV is in safe operating order.

Remote Control

Battery installation

Insert the batteries while observing the correct (+) and (-) polarities.

Service life of batteries

- The batteries normally last for about one year although this depends on how often and for what operations the remote control is used.

- If the remote control unit fails to work even when it is operated near the unit, replace the batteries.

- Use 2 x "AA" type batteries

> **Notes:**
>
> - Do not use rechargeable (NI-Cd) batteries.
>
> - Do not attempt to recharge, short-circuit or disassemble batteries. Never place batteries close to a heat source such as radiators or heaters.
>
> - Dispose of batteries in a responsible manner. Never throw batteries into a fire.
>
> - Do not drop or step on the remote control unit. This may damage the parts or lead to malfunction.
>
> - Do not mix old and new batteries.
>
> - If the remote control unit is not going to be used for long time, always remove the batteries to prevent leakage.

Remote control operation range

Point the remote control no more than about 6m for the remote control sensor and within 60° from the Infrared Receiver

- The operating distance may vary according to the brightness of the room.

Notes:

- Do not point bright lights at the remote control sensor.

- Do not place objects between the remote control and the infrared receiver

- Do not use this remote control while simultaneously operating the remote control of any other equipment.

Basic DVD Operation

Connect the power supply.

1. Connect the power ,then press the STANDBY button to turn on the unit.

2. Press SOURCE button to select DVD input mode and press RIGHT button to confirm.

3. Press EJECT on the remote control to open the disc tray, then insert a disc correctly.

4. Press the PLAY button to start play. (some discs may play automatically)

When a menu screen appears on the TV screen.

In case of interactive DVDs with control, a menu screen appears on the screen.

Press UP/DOWN/LEFT/RIGHT buttons and press ENTER to select the desired item. Play of the selected item now begins.

For further information, also refer to the jacket or case of the disc you are playing.

After operation

When the unit is not in use, remove the disc and turn off the unit.

Note:

*   When " Ⓢ " appear on the TV screen while a button is pressed, it means that this function is not available on the disc you are playing.

*   Depending on the DVD disc, some operations may be different or restricted. Refer to the jacket or case of the disc you are playing.

Stop Play

Temporarily Stop

Press STOP during playback, the unit records the point where STOP was pressed (resume function).

Press PLAY and play will resume from this point.

Fully Stop

Press STOP twice during playback, or press STOP during temporarily stop mode, the unit will fully stop

Press PLAY and play will from the beginning of the disc..

Note:

*   The resume function may not be available on some DVD disc

Still picture

Press PAUSE during playback. The player will be placed in the pause mode.

To resume normal playback, press PLAY.

Skipping Chapters and Tracks Forward or Back

Skipping forward

Press NEXT▶▶| on the remote control during playback.

*   A chapter (DVD) or a track (CD) is skipped each time the button is pressed.

Skipping back

Press PREV |◀◀ on the remote control during playback.

*   A chapter (DVD) or a track (CD) is skipped each time the button is pressed.

Random playback

Press RANDOM during playback. In random mode, if you press ▶▶|, it may be skip to a random chapter instead of next chapter. Press RANDOM again to return normal playback.

To Scan at Fast Forward or Fast Reverse playback

- You can press ◀◀ or ▶▶ button on the remote control during playback.

   [Screen display]

X2 ◀◀		X2 ▶▶

   The speed of advance (reverse) is relatively slow at first. When the button is pressed again, the speed becomes faster. (Each time the button

   is pressed, the disc will be played forward or backward at double (×2) speed. With each subsequent press, the disc will be played back at ×2,

   ×4, ×8, ×16 or ×32 speed and PLAY. Press PLAY button to return to normal play).

   The speed will be retained even after the button is released.

To return to normal playback, press PLAY, or ENTER on the remote control.

Note:

The DVD player does not play back sound during fast forward or fast reverse playback.

Using a Title Menu

Some movie discs may contain two or more titles. If the disc has a title menu recorded on it, the TITLE button can be used to select the movie

title. (The details of operation differ depending on the disc used.)

- Select a title may not be possible on certain DVD disc.
1.   Press TITLE

   A list of the title on the disc will be displayed.

2.   Press UP/DOWN/LEFT/RIGHT buttons and press ENTER or PLAY, to select desired title.

   The selected title now starts playing.

Using a DVD Menu

Some DVD have unique menu structures called DVD menus. For example, DVD programmed with complex contents provide guide menus, and

those recorded with various languages provide menus for audio and subtitle language. Although the DVD menu's contents and operation differ

from disc to disc, the following explains the basic operation when this feature is used.

1.   Press MENU

   The DVD menu available on the disc will be displayed.

2.   Press UP/DOWN/LEFT/RIGHT buttons and press ENTER or PLAY, to select desired item.

   The selected title now starts playing.

Changing Subtitle Language

It is possible to change the subtitle language. This operation works only with discs on which multiple subtitle languages are recorded.

Press SUBTITLE repeatedly until the desired language is selected.

For your reference:

If the power is reset or the disc is removed, subtitles will appear in the default language set by the DVD player.

Changing Audio Soundtrack Language

It is possible to change the audio soundtrack language of the DVD disc. This operation works only with a DVD when multiple audio

soundtrack languages are recorded.

Press AUDIO repeatedly until the desired audio language is selected.

Viewing from another Angle

Some DVDs may contain scenes which have been shot simultaneously from a number of different angles. For these discs, the same scene can be viewed from each of these different angles using the ANGLE button. (The recorded angles differ depending on the disc used.)

Press ANGLE repeatedly until the desired angle is selected.

For your reference:

This function only works for discs having scenes recorded at different angle.

Repeat Play

Press REPEAT during playback.

Each time this button is pressed, the screen changes as: ☁ CHAPTER, ☁ TITLE, ☁ ALL and normal playback.

Repeat A-B

Repeating sections between two specific points

Press the A-B button on the remote at the point where you wish the repeat play to start. The display will show ☁A. Press A-B button again at the point where you wish the repeat play to finish. The display will show ☁ A B. The A-B segment will now repeat continuously until the☁ A B button is pressed for a third time.

Search a Specific Title, Chapter

You may directly enter a time, title or chapter number to search fast on a disc, the player plays from that point.
