and the best privacy.

## INSTALLATION \& SAFETY

This symbol indicates important operating and servicing instructions.
(i)

## Choosing the best location for your DSS2155/DSS2165

When choosing a location for your phone there are a number of appliances the phone should not be near, and areas you should avoid.

Quick Start Guide

## Installing the Base Unit

 (DSS2155/DSS2165)- Plug the telephone cord into the Base Unit, then into the telephone socket on the wall.

Make sure the AC Adaptor remains switched ON at all times.
Use only the Uniden AC Adaptor supplied with this unit.

## Charge Cradle

## (DSS2165 only)

Plug the AC adaptor cord into the Charge Cradle, then plug the AC Adaptor into the wall power point.

Press the battery cover and slide it off.

Connect the battery plug to the socket at the rear of the battery compartment.
Make sure the plug is the right way round.
Press firmly until it clicks into place.

## Quick Start Guide

## Making a Call

Pick up the Handset and press talk to low/off line Dial the phone number OR
Dial the phone number - then press talk
To hang up - press talk
OR
Place the Handset on the base Unit.

## Answering a Call

- Handset on Base Unit:

Remove the Handset from the base and speak (Auto Talk).

- Handset off the Base Unit:

Pick up the Handset, press talk and speak.

- To hang up - press talk again OR

place the Handset on the base unit.

## Setting Up the Answering System

To Turn the Answering System On

- Press ans on/off - the pre-recorded greeting will play and your system is ready to accept calls.

To Record Your Outgoing
Message.

- Press and hold greeting After you hear a short tone, release the key.
- Record your greeting while speaking within
 15 cm of the base.
- When finished, press greeting again.

## Quick Start Guide

## Initial Settings

Ring Time - the number of rings before the Answering System answers the call
Set Ring Time to T/S (= 9 rings)

- Record Time - the length of time a caller may record a message
Set Record Time to 1 minute

## Using the Answering System

To Play Your Message

- Press - new messages play first

## To Repeat a Message

- Press during playback of messages

To Skip a Message

- Press anytime during playback to skip to the next message
The system beeps and begins to play the next message.

## To Delete Messages

Delete one message:

Press (O) during a message.
The system beeps and begins to play the next message.

Delete all messages:
After reviewing all messages - press and hold (0) more than 4 seconds. A tone sounds indicating messages have been deleted.

## WELCOME

Congratulations on your purchase of the Uniden DSS2155/DSS2165 digital cordless telephone. This phone is designed for reliability, long life and outstanding performance utilising the latest in 900 MHz Digital Spread Spectrum Technology.

## COMPANY PHILOSOPHY

To bring outstanding wireless communication products to people's lives throughout the world.

## FEATURES

- 900MHz Digital Spread Spectrum Technology
- Integrated Digital Answering Machine
- Alpha display Caller ID
- Multi Handset (capable of up to 7 handsets)

। 2 way Communication: Handset to Handset, without base
1 3 way Communication: Handset to Base to Outside Caller

- Digital Speakerphone
- Backlit LCD
- Backlit Keypad on the Handset
- POP ID - Caller Name Identification

। 60 Caller ID Memories

- 59 Alpha Memory Dialing

1 Maxi-Sound - Extra Loud Handset Volume Control

- Rocket Dial - One Touch VIP Dial
- One Touch Call Waiting
, Handset Capable
, Date and Time Stamp
Digital Spread Spectrum Technology utilises a digital transmission and a "wider frequency band" compared to a "single narrow band" $30 / 39$ Standard Analogue transmission. The result is a more secure conversation with the clarity of digital sound, extended range and minimal interference from other cordless phones.

Random Code TM digital security automatically selects one of over 16 million codes for the Handset and base. This feature prevents unauthorised calls as a result of your phone being activated by other equipment.

## ACCESSORIES INCLUDED IN YOUR PACKAGE

To get the most from your phone, please read this Owner's Manual thoroughly. Be sure to complete and mail the product consumer support card.

If any of these items are missing or damaged, contact your place of purchase.

If you are using an optional headset, you must still use the handset keypad for phone operations.

Rechargeable Battery DSS2155 (1) DSS2165 (2)

Telephone Cord Adaptor (1) (Australia Only)

Belt Clip DSS2155 (1) DSS2165 (2)

AC Adaptor
DSS2155 (1) DSS2165 (2)

Telephone Cord (1)

Plus - This Owner's Manual Consumer Support Card and other printed materials

## INSTALLING THE BELT CLIP

To attach the belt clip
1 Press the beltclip against the rear of the Handset until it clicks into place.

To remove the belt clip
। Gently pull one side of the beltclip to release.

## HEADSET INSTALLATION

Your phone may be used with an optional headset.
To use this feature, simply plug the headset into the headset jack.

## BATTERY MAINTENANCE

Use only the genuine Uniden Battery supplied with your phone.

Replacement batteries are also available through the Uniden Parts Department.

The built-in memory backup can hold numbers and names stored in the memory even if the battery pack is completely discharged.

## Battery use time (per charge)

From fully charged -

- 7.5 hours continuous use.
- 4 days when the Handset is in the standby mode.
- A full charge will take at least 12 hours if Low Battery is displayed - however the phone will be ready for a short call after one hour.

## When the battery charge becomes low

If the phone is not in use, Low Battery flashes and the keys will not operate. If the phone is in use, Low Battery flashes and the Handset beeps. Complete your conversation as quickly as possible and return the Handset to the base unit for charging.

## Genuine handset batteries

The high quality rechargeable batteries supplied with your phone perform for up to two years or more. In order to enjoy the best performance from your phone, we recommend you replace your batteries every two years with a genuine Uniden Battery.
Simply order a replacement battery from:
Uniden Australia PTY Limited
Service Division
Ph: 1300366895
www.uniden.com.au

## Uniden New Zealand Limited

Service Division
Ph: 08004 UNIDEN (0800 4864 336)
www.uniden.co.nz

## Cleaning the battery contacts

To maintain a good charge, clean the battery contacts on the handset and base unit monthly with a dry cloth or pencil eraser. Do not use any liquids or solvents.

## ADJUSTING THE RINGER AND EARPIECE VOLUME

## Ringer tone and volume

The phone has four ringer tone and volume combinations.
In the standby mode, press $\boldsymbol{\triangle}$ or $\boldsymbol{\nabla}$ on the Handset repeatedly. The display shows the setting.

## Earpiece volume

Pressing $\boldsymbol{\Delta}$ or during a call will change the earpiece volume of the Handset. The telephone will keep this setting for all calls and display the setting for each call.
LOUD $\underset{\sim}{>}$ HIGH $\underset{\square}{>}$

MID $\underset{\sim}{\Rightarrow}$ LOW

## Base Ringer Switch

You can turn the base ringer on or off with the base ringer switch.

## Base Speaker Volume

To control the speaker volume of the base, press $\boldsymbol{\square}$ or as desired.

## MAKING AND RECEIVING CALLS

## Basic phone operation

Only numbers dialed from the Base Unit keypad will be redialed from the Base redial key.
Press redial/P again
4. Press talk and the number will be dialed.
Redial from talk mode

1. Press talk.
2. Press redial/P - the last number dialed recent
will be displayed and redialed.
Redial from the Base Unit
3. To call the last number dialed from the Base Unit, press speaker .
4. Press redial/p - the last number dialed will be redialed.
5. To hang up, press speaker

## TRAVELLING OUT OF RANGE

During a call, noise will increase if you move your handset too far from your base unit. If the range limit of your base unit is exceeded, your call will terminate within 10 seconds.

## KEY LOCK / UNLOCK

When the handset is in the standby mode, press and hold flash/reg for 5 seconds, a beep confirms and the screen displays KEY LOCKED. During the 'Key Locked' condition, the buttons will only operate on an incoming call. To unlock the keys, press and hold flash/reg for 5 seonds again.

## CALL WAITING/FLASH

If the Call Waiting tone sounds during a call -
Australia: Press rocket or flash/reg, then (2) to switch between callers.
New Zealand: Press flash/req to switch between callers.

## STORING PHONE NUMBERS AND NAMES

Numbers stored in one handset cannot be accessed from additional handsets.

When storing a number, always include your area code (eg: 02), so name tagging will operate. (refer page 16)

The pause feature is useful for long distance calling, credit card dialing, or sequences that require a pause between digits.

## With the Handset

Memory Dialing allows you to dial a number using just a few key strokes. You can store up to 59 phone numbers in the memory.
Since each step must be completed within 10 seconds, it may be advisable to review these instructions before starting.

1. Press and hold memory until MEMORY STORE is displayed.
2. Press $\boldsymbol{\Delta}$ or $\boldsymbol{\nabla}$ to select the memory location where you would like to store the number.
3. Press select - STORE NAME is displayed. If this screen appears, the selected memory location has a number already stored.
4. Use alpha numeric keys to enter the name. The name cannot exceed 16 characters.
Use \# and * to move the cursor to the next letter - or to create a space. Use delete/page to delete characters as needed.
5. Press select - STORE NUMBER is displayed.
6. Use the number keypad to enter the phone number. It cannot exceed 24 digits. Use redial/p to enter a pause. The

If additional Handsets have been registered to the base, all Handsets will beep when paged.

Pressing talk on the Handset will leave a 2-way conversation between the Handset and the outside caller.
Pressing time/3-way on the Base Unit will leave a 3-way conversation between the Handset and Base Unit and the outside caller.

When you are using the Speaker Phone on the Base Unit, you can not make a 3 -way conversation.

From handset to Base Unit

1. Press delete/page -10 on the Handset (If there is no answer, press delete/page) again to disconnect).
2. At the Base Unit, press page/int' to answer. Speak into the Base Unit microphone.
3. To turn off the intercom, press page/int on the Base Unit or delete/page on the Handset.

## From Handset to an optional Handset

1. Press delete/page $\Rightarrow$ [handset No. (1)-7)] on the Handset.
2. The paged Handset beeps for 20 seconds.
3. Press delete/page key on the paged Handset to talk to each other.
4. To end the intercom, press ddelete/page again.
5. Both Handsets go to standby.

## 2 way radio feature (using an optional handset)

2 way communications between the Handsets using the intercom feature, can be achieved without the base anywhere, anytime.

## 3 WAY CONVERSATION

Between one Handset, the Base Unit and an outside caller; you are able to have a 3 way conversation.
To make a call:

1. While talking on the handset to an outside caller, press time/3-way on the Base Unit. 2. 3-way conversation is activated.

To hang up:

1. Press talk on the Handset.
2. Press time/3-way on the Base Unit.

## INTERCOM

## REGISTRATION

If a Handset is registered at any time as Handset 1 , all other Handsets will need to be registered again from Step 1.

## TIP

If you have additional Handsets, repeat the same process, but at Step 2 select a number from 3-7 to register the next handset.

## TIP

The Registration process needs to be completed within 15 seconds, 5 beep tones will indicate that the time has been exceeded. Please start the process again.

## TIP

After Registration the Handset number is shown on the Display screen either during a call or while the Handset is charging (Fig 4).

The Handset/s supplied with your DSS2155/DSS2165 have already been registered. For additional Handsets it is very important to allocate each Handset a different number to enable functions such as Call Transfer.

## Registration Process

Follow this process for each additional Handset (DSS2105) that needs to be registered to the Main Base or for registering your Main Handset.

1. Remove the Handset from its charger
2. Press flash/reg on the Handset (Fig 1).
3. For Handset DSS2155-Press the number 2 (Fig.2) to register as Handset 2 (Handset numbers 2-7 are available).
For Handset DSS2165 - Press the number 3 to register Handset 3 (Handset numbers 3-7 are available).

Fig 4.

## CALLER ID

Caller ID information may not be displayed immediately.

## NOTE

Private numbers will not be recorded in the Caller ID List.

You must subscribe to the Caller ID service from your local telephone company to use these features.
When the telephone rings, the Caller ID feature allows you to view the caller's name and phone number on the display before you answer the phone. The handset displays the phone number of the incoming call, the name, time and the number of calls. Additionally, you can dial the displayed number and store the information for memory dialing.

## When the Telephone Rings

When the Caller ID message is received, the display shows the caller's phone number along with the date and time.
The incoming call information is stored in the Caller ID record. If the Caller ID service included the caller's name, the caller's name appears on the display (up to 15 letters).

Some typical Displays:

## ANSWER SYSTEM

You can use your answering system to leave a voice memo message for others who use the phone, or to announce a special message to callers when you're away from your phone.

## Features <br> Digital Tapeless Recording <br> 15 minutes of Recording Time <br> Selective Greeting (Outgoing Message) <br> Remote Message Retrieval and Room Monitor <br> Toll Saver

Digital Tapeless Recording allows you to quickly review, save or delete the messages. You'll never have to worry about a tape wearing out, jamming or resetting improperly. The Integrated answering system is easy and convenient to use, but please read through all of the instructions carefully.

## Setting Up Your Answering System

Turning the answering system on/off:

1. To turn the answering system on, press ans on/oft

The current greeting message will be played.
2. To turn the answering system off, press ans on/off .
"Answering System Off" is announced.

## Setting your greeting:

When you receive a call, the answering system automatically plays either a preset message or your own greeting.

## Preset message:

The following message is pre-recorded -
"Hello, no one is available to take your call. Please leave a message after the tone"

## Recording a personal outgoing message (Greeting):

1. Press and hold greeting until you hear a tone. Start recording your message immediately after you hear the tone end.
2. When you finishing recording your message, press greeting or $\square$. A tone sound and your message play back on the phone. You can record a greeting of up to 30 seconds.

Choosing between the two outgoing messages:

1. Press greeting to play the outgoing message.
2. Press greeting again while the message is playing. This switches between the two options.

## Selecting the message record time:

You can set your answering system to record a message up to one or four minutes long.
One minute option : move the REC TIME switch to 1.
Four minutes option : move the REC TIME switch to 4.

## Announce only feature:

The announce only feature plays an outgoing message, but $\mathrm{i}_{1}$ will not allow the caller to leave a message. Move the REC TIME switch to the ANN position.
The message counter LED displays $\boldsymbol{F}$ when the system is on standby.
Pre-recorded outgoing message for Announce only feature is:
"Hello, no one is available to take your call." (twice)

## Selecting a PIN code:

To play your messages from a remote location, you will need to enter a two digit Personal Identification Number (PIN) code (0)(0)-9)(9). To select a PIN, perform the following steps.

1. On the base, press and hold pin until a tone sounds and the LED displays 00 .
2. To set the first number, press or repeatedly to scroll from 0 to 9 . When the desired number appears in the display, press pin
3. To set the second number, press or $\longrightarrow$ to scroll from 0 to 9 . When the desired number appears in the display, press pin. Then the entered PIN code is announced.

## Selecting Ring Time Switch:

The ring time/toll saver switch allows you to set the number of rings the caller hears before the answering system plays your outgoing message.
You can set the switch to answer after two rings or after four rings. Once the greeting has started, you can stop it when you pick up the call at the handset or base. In the TS (toll saver) position, the answering system picks up after 6 rings if you
 have new messages, and after 9 rings if there are none.
This way, if you call long distance to check your messages, you can hang up after the seventh ring to avoid billing charges.

## Using Your Answering System

## Playing your messages

The base LED shows the number of total messages on the display. If the display is blinking, then there are new messages waiting for you. After you play your new messages you can then play old messages.

1. Press . The system announces the number of new and old messages, then the incoming messages are played.
2. When all new messages have played, a tone is heard. The message counter LED stops flashing to indicate that all of the new messages have been reviewed.
3. After you have reviewed all your messages, you can play your old messages again. Press (D) and follow the instructions above.

## Repeating a message

1. Press to review the message. The number of stored messages is announced.
2. After a message has played for a few seconds, press to repeat the message.
3. Press $\square$ at any time to stop reviewing messages and return to standby. The message counter LED shows the total number of messages still on the system.

## Skipping a message:

1. Press $\quad$ to review the message. The number messages is announced.
2. Press at anytime to skip to the next
 message.
3. Press at any time to stop reviewing your messages and return to standby.
The message counter LED shows the total number of messages on the system.

## Deleting Messages

## Deleting individual messages:

1. Press $\square$ to review your message.
2. If you decide to delete a message, press $\varnothing$ anytime during the message. The system beeps and immediately goes to the next message.

## Deleting all messages:

Press and hold ( $\varnothing$ while the system is in standby. A tone sounds when all messages are deleted. If there are any messages you have not reviewed, you cannot delete all messages at once. An error tone occurs.

## Voice memo:

The voice memo function allows the user to record a message (up to 10 minutes) on the base.

1. Press and hold voice memo until you hear a tone, the message counter LED blinks.
2. Speak into the microphone.
3. When you have finished, press voice memo
or $\quad$ to stop recording. The system returns to standby.
4. To play voice memo, press $\square$

## Setting the Date and Time

1. Press time/3-way for 2 seconds until a confirmation beep sounds and the current day is announced.
2. Press or to select the required day.
3. Press time/3-way to store the selected day. The current hour is then announced.
4. Press or to select the required hour.
5. Press time/3-way to store the selected hour. The current minute is then announced.
6. Press $\longrightarrow$ or $\longrightarrow$ select the required minute.
7. Press time/3-way to store the selected minute. The current AM/PM setting is then announced.
8. Press or to select the required AM/PM setting.
9. Press time/3-way to store the selected AM/PM setting.

## Checking the Date and Time

Press in Standby mode. The current date and time is announced through the speaker.

## Setting the Time Stamp On/Off

1. Press time/3-way , the current setting is displayed.
2. Press to set OFF.
3. Press $\longrightarrow$ to set ON.
4. Press time/3-way to store the selected ON/OFF setting.

## Remote access away from home:

You can operate your answering system from a remote location using any touch-tone telephone. Use this function to check for recorded messages, play or delete messages, record a new outgoing message - or - monitor sounds in the room.

1. Call your telephone number.
2. While the greeting message is played, press \# and your PIN code within 2 seconds. If the answering system is off, let it ring 10 times. When the tone sounds, press \# and your PIN code within 2 seconds.
3. The answering system announces the number of messages stored in memory. Then the message playback automatically begins.
4. You may continue to listen to your message, or you may select a command from the following chart.

| Command | Function |
| :--- | :--- |
| Press \# then 1 | Repeat a message |
| Press \# then 2 | Play the messages |
| Press \# then 3 | Skip a message |
| Press \# then 4 | Delete a message |
| Press \# then 5 | Stop message playback |
| Press \# then 6 | Answering system ON |
| Press \# then 7 | Voice memo record / stop |
| (up to 4 minutes recording time ) |  |
| Press \# then 8 | Greeting message record / stop |
| Press \# then 9 | Answer system OFF |
| Press \# then \# | Room monitor |

5. After all of your messages have played, or the playback time exceeds 4 minutes, you will hear intermittent beeps indicating that the system is in the command waiting mode. You may enter another command at this time from the chart above.
6. When you finish, hang up to exit the system. The answering system automatically returns to standby.

## Remote room monitor:

You can call your answering system from any touch-tone phone and monitor sound in the room where your base is installed.

1. Call your telephone number.
2. While the greeting message is played, press \# and your PIN code. If the Answering System is off, let it ring 10 times. The tone sounds. Press \# and your PIN code.
3. The answering system announces the number of messages stored in memory. Then the message playback automatically begins.
4. Press \# then (5) to stop the messages.
5. Press \# then * You hear sounds in the room where your phone is installed. After 15 seconds, the answering system returns to the Command Waiting mode.
6. Press \# then * to monitor the room for another 15 seconds. Or select another remote function. Or hang up to exit the system. The answering system automatically returns to standby.

If your phone is not performing to your expectations, please try these simple steps first before calling Uniden customer service -

| PROBLEM | SUGGESTION |
| :--- | :--- |
| No dial tone | $\begin{array}{l}\text { Check that the phone line cord connectors at both ends } \\ \text { are pushed in until they click. }\end{array}$ |
| $\begin{array}{l}\text { Talk flashes } \\ \text { No dial tone }\end{array}$ | Re-register the handset - see page 15. |
| Does not ring | $\begin{array}{l}\text { You may have exceeded the limit of the number of phones } \\ \text { that can be connected to the same line, at the one time. } \\ \text { Disconnect some telephones. }\end{array}$ |
| $\begin{array}{l}\text { No power on the } \\ \text { handset }\end{array}$ | $\begin{array}{l}\text { Check the battery pack plug, inside the battery } \\ \text { compartment of the handset, is fully pushed in. } \\ \text { The Handset rechargable battery pack may need } \\ \text { to be charged. } \\ \text { Check the AC Adaptor is plugged in at both ends and } \\ \text { switched On. }\end{array}$ |
| Does not charge | $\begin{array}{l}\text { Make sure the charging contacts on both the handset and } \\ \text { the base unit are in contact during charging. } \\ \text { The charging contacts may need to be cleaned with a dry } \\ \text { cloth or pencil eraser. } \\ \text { Check the AC Adaptor is plugged in at both ends and } \\ \text { switched On. }\end{array}$ |
| Range is limited | $\begin{array}{l}\text { Calls received, } \\ \text { flutter or fade } \\ \text { Move the base unit so that it is centrally located in your } \\ \text { residence or office and make sure that the base unit is } \\ \text { not located near electrical appliances. }\end{array}$ |
| The Handset rechargable battery pack may need charging. |  |
| You may be out of normal operating range. Move closer |  |
| to the base unit. |  |$\}$

## WARRANTY

## One Year Limited Warranty

Important: Evidence of original purchase is required for warranty service.
Warrantor: Uniden Australia Pty Limited A.B.N. 58001865498
Uniden New Zealand Limited
ELEMENT OF WARRANTY: Uniden warrants to the original retail owner for the duration of this warranty, its DSS2155/DSS2165 (herein after referred to as the Product), to be free from defects in materials and craftsmanship with only the limitations or exclusions set out below. Warranty only available in the original country of sale.

WARRANTY DURATION: This warranty to the original retail owner only, shall terminate and be of no further effect 12 months after the date of original retail sale. This warranty will be deemed invalid if the product is; (A) Damaged or not maintained as reasonable and necessary, (B) Modified, altered or used as part of any conversion kits, subassemblies or any configurations not sold by Uniden, (C) Improperly installed, (D) Repaired by someone other than an authorised Uniden Repair Agent for a defect or malfunction covered by this warranty, (E) Used in conjunction with any equipment or parts or as part of a system not manufactured by Uniden.

PARTS COVERED: This warranty covers for one (1) year, the Base/Charging Unit and Handset only. All accessories (AC Adaptor, battery etc.) are covered for 90 days only.

STATEMENT OF REMEDY: In the event that the product does not conform to this warranty at any time while this warranty is in effect, the warrantor at its discretion, will repair the defect or replace the product and return it to you without charge for parts or service. THIS WARRANTY DOES NOT COVER OR PROVIDE FOR THE REIMBURSEMENT OR PAYMENT OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. THIS GUARANTEE IS IN ADDITION TO AND DOES NOT IN ANY WAY AFFECT YOUR RIGHTS UNDER THE CONSUMER GUARANTEE ACT.

## PROCEDURE FOR OBTAINING PERFORMANCE OR

WARRANTY: In the event that the product does not conform to this warranty, the Product should be shipped or delivered, freight pre-paid, with evidence of original purchase (eg. a copy of the sales docket), to the warrantor at:
