Fact sheet

HP PE4240N 42-inch Plasma Television

Overview

The HP PE4240N 42-inch Plasma Enhanced Definition TV features a bright and high-contrast plasma panel for an unforgettable viewing experience. The new EDTV is less than 4-inches deep and encased in a stylish piano black cabinet for easy integration to any décor and installation.

Highlights

- HP Visual Fidelity technology analyzes every pixel of every image for noise reduction, color enhancement, motion compensation and detail enhancement to deliver a spectacular picture;

- Resolution: 852 x 480;

- Emmy-Award winning DCDi video processing by Faroujda: Acclaimed DCDi algorithm detects low-angle lines and smoothes out staircases and jagged edges – bringing greater realism to sporting events and movies;

- FilmMode Processing with 3.2 and 2.2 pull down accurately reproduces film-originated content from video sources;

- DVI-D with HDCP enables pure digital video connections to set top boxes, DVD players and PCs for pure video signals;

- 3D Y/C Digital Comb Filter reduces flickering and enhances color purity in complex scenes from broadcast and composite signals from a DVD player or VCR;

- Dual Integrated NTSC tuner for Picture-in-Picture and Split Screen Display;

- Sleek, wall-mountable design;

- Universal remote controls additional components, including HP Media Center PCs and HP Living Room PCs.

- Supports two selectable audio enhancements:

    o BBE High Definition Audio restores clarity and presence for better speech intelligibility and musical realism;

    o SRS WOW creates a bigger, enhanced, audio experience by providing three dimensional sound, enhancing musical vocals and creating the perception of deep, rich bass without the need for a subwoofer.
