APW WYOTT P.O. Box 1829 Cheyenne, WY 82003 **APW Wyott** takes pride in the design and quality of our products. When used as intended and with proper care and maintenance, you will experience years of reliable operation from this equipment. To ensure best results, it is important that you read and follow the instructions in this manual carefully.

Installation and start-up should be performed by a qualified installer who thoroughly read, understands and follows these instruction.

If you have questions concerning the installation, operation, maintenance or service of this product, write Technical Service Department APW/Wyott Foodservice Equipment Company, P.O. Box 1829, Cheyenne, WY 82003.

SAFETY PRECAUTIONS

Before installing and operating this equipment be sure everyone involved in its operation are fully trained and are aware of all precautions. Accidents and problems can result by a failure to follow fundamental rules and precautions.

The following words and symbols, found in this manual, alert you to hazards to the operator, service personnel or the equipment. The words are defined as follows:

IMMEDIATELY INSPECT FOR SHIPPING DAMAGE

All containers should be examined for damage before and during unloading. The freight carrier has assumed responsibility for its safe transit and delivery. If equipment is received damaged, either apparent or concealed, a claim must be made with the delivering carrier.

A) Apparent damage or loss must be noted on the freight bill at the time of delivery. It must then be signed by the carrier representative (Driver). If this is not done, the carrier may refuse the claim. The carrier can supply the necessary forms.

B) Concealed damage or loss if not apparent until after equipment is uncrated, a request for inspection must be made to the carrier within 15 days. The carrier should arrange an inspection. Be certain to hold all contents and packaging material.

Installation and start-up should be performed by a qualified installer who thoroughly read, understands and follows these instructions.

GENERAL INFORMATION

General Installation

- 1. Always clean equipment thoroughly before first use. (See general cleaning instructions.)
- 2. Check rating label for your model designation & electrical rating.
- 3. For best results, use stainless steel counter tops.
- 4. Attach legs to units, if needed.

General Operation Instructions

- 1. All foodservice equipment should be operated by trained personnel.
- 2. Do not allow your customers to come in contact with any surface labeled "CAUTION HOT".
- 3. Where applicable, never pour cold water Into dry heated units.
- 4. Where applicable, do not cook, warm or hold food directly in liner pans (well) pans. Always use steam table pans/insets, etc.
- 5. NEVER hold food below 140° F.

General Cleaning Instructions

- 1. NEVER clean any electrical unit by Immersing it in water. Turn unit off and allow to cool down before surface cleaning.
- 2. Always clean equipment thoroughly before first use. Clean unit daily. Except where noted on charts: Use warm, soapy water. Mild cleansers & PLASTIC scouring pads may be used to remove baked-on food and water scale on metal units.
- 3. Unplug electrical units before cleaning or servicing. All service should be performed by an APW WYOTT authorized service agency.

General Troubleshooting

Always ask & check:

- 1. Is the unit connected to a live power source.
- 2. Check circuit breaker.
- 3. Is power switch on?
- 4. Check rating label. Are you operating unit on proper voltage?.

If the above checks out and you still have problems, call an APW WYOTT authorized service agency.

Operating

- 1. Clean the dispenser and pump according to the cleaning instructions before using the first time.
- 2. This dispenser is intended for heating food by the double-boiler method. Product purchased in a No.10 size can may be heated in the original can. Be sure to remove the top first. If contents of No.10 can are not to be completely used in a day, the optional stainless container, Part No. 43593-50 is recommended. This container will not rust as the commercial can does.

Putting food directly into the dispenser is not recommended as it might scorch and stick. In addition, the pump suction tube will be about 1 1/8" short of the bottom.

- 3. Put 2 1/2 cups of water into the pot (do not overfill) making certain the spider (16) is in place before putting in either the can or the container of food.
- 4. Plug power cord Into appropriate, grounded outlet.

NOTE: Increase or decrease the temperature as required; the settings are in approximately 12°F increments, a value, which will change slightly with ambient temperature and voltage. If a specific temperature is required, use a product thermometer. After setting, allow 30 minutes for temperature to stabilize. Stirring will speed stabilizing. Remember, thick materials such as cheese or fudge conduct heat poorly.

If the dispenser steams noticeably, the temperature setting should be reduced.

CLEANING THE DISPENSER

- **NOTE:** Refer to the pump Instructions for cleaning the pump.
 - The outer shell of the dispenser is stainless steel. Wipe it 1. with a clean, damp cloth and mild detergent.

Warning: Avoid abrasive cleaners which can damage the stainless steel finish. Do not immerse the heated dispenser in water or damage to the electrical parts or shock hazard could occur.

- 2. Wash the inside of the dispenser with detergent and water, but DO NOT IMMERSE. Rinse well but avoid spraying water in control knob opening or around the lighted display.
- 3. Prepare a sanitizing solution according to the Sanitizing. Guidelines. Place the solution Into the container for about 10 minutes. Pour it out and allow the dispenser to air dry. Do not touch the Inside of the container after sanitizing it.

CLEANING THE PUMP

Clean the pump daily according to the following instructions. Note the way the pump comes apart, so you can reassemble it In reverse order.

- 1. Remove the spout plug (10) with its O-ring (11).
- 2. While holding the pump with lid upright, (as it is on the warmer), unscrew, counterclockwise, the retaining nut (3) and lift out the knob (1), piston rod (2), seal (4), O-ring (5) and spacer (32).
- 3. While still upright, lift off pot cover (19) and thread It over the spout.
- 4. Still upright, remove plug (8) with its O-ring (9).
- Tip the pump body weldment (22) to remove balls (7) and spring (6). 5.
- 6. Exercising care not to nick or scratch any surface, separate the seal and O-rings, (4), (5), (9), and (11), from the mating steel parts.
- 7. Wash all parts thoroughly in detergent and water using the brush provided, rinse in hot water. Wash seal and O-rings separately from metal parts to avoid damage to the soft seal and Oring surfaces. A very small nick can cause a large leak.
- 8. Reassemble the pump and lid using reverse procedure. Be sure to replace the spring tang down.

- 9. Prepare a sanitizing solution and pump It through the pump, dispensing at least 1/2 cup of sanitizer.
- Allow the sanitizer to stand in the pump for about 10 minutes, then drain It from the pump and container. Allow them to air dry.
 CAUTION: Do not touch the Insides of the container or pump with your hands after sanitizing.

SANITIZING GUIDELINES

Sanitize the heated dispenser at least once each day using the following four-step procedure:

- 1. Wash with detergent
- 2. Rinse with warm water
- 3. Sanitize with an approved sanitizer (specifications below)
- 4. Allow to air dry

Some local health departments have a list of approved brand food equipment sanItIzers. That list can help you choose an acceptable sanitizer for this machine. If your health department does not have the list, you may acquire one from the State of Wisconsin, by writing to:

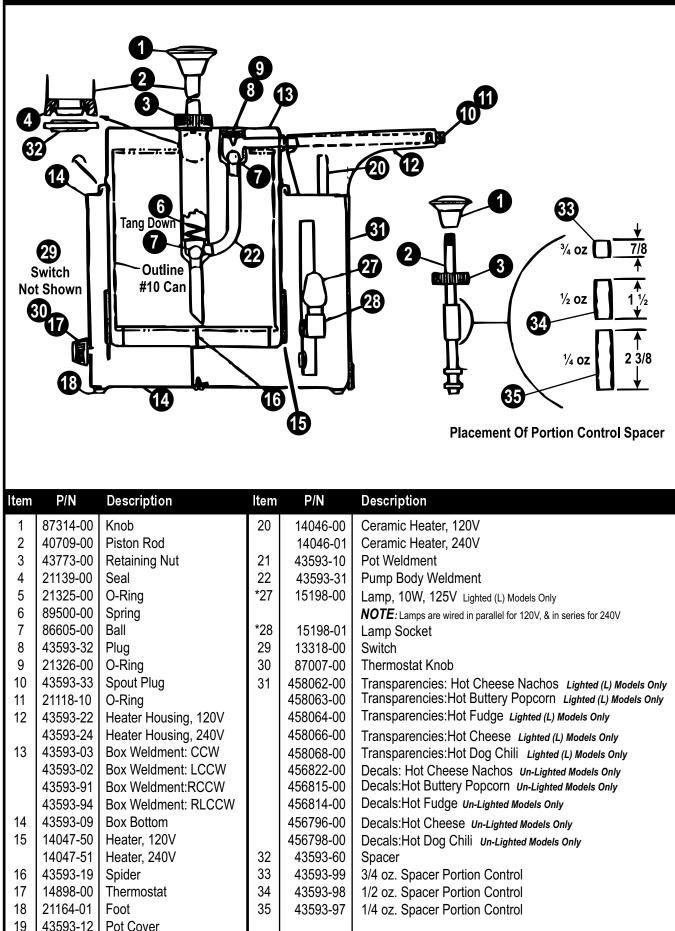

State of Wisconsin Division of Health Dept. of Health and Social Services P.O. Box 309 Madison, WI 53701

When preparing the sanitizing solution, make sure It contains the chemical compound, Quaternary Ammonium ("Quat"). Following the manufacturer's label Instructions, prepare the solution with a minimum concentration of 200 parts per million (PPM).

NOTE: Do not use chlorine-based sanitlzers because they may damage the plastic parts.

Do not use lodine-based sanItIzers because they may discolor the plastic parts and disflavor the product.

PARTS LIST & EXPLODED VIEW

APW WYOTT EQUIPMENT LIMITED WARRANTY

APW Wyott Foodservice Equipment Company warrants it's equipment against defects in materials and workmanship, subject to the following conditions:

This warranty applies to the original owner only and is not assignable.

Should any product fail to function in its intended manner under normal use within the limits defined in this warranty, at the option of APW Wyott such product will be repaired or replaced by APW Wyott or its Authorized Service Agency. APW Wyott will only be responsible for charges incurred or service performed by its Authorized Service Agencies. The use of other than APW Wyott Authorized Service Agencies will void this warranty and APW Wyott will not be responsible for such work or any charges associated with same. The closest APW Wyott Authorized Service Agent must be used.

This warranty covers products shipped into the 48 contiguous United States, Hawaii, metropolitan areas of Alaska and Canada. There will be no labor coverage for equipment located on any island not connected by roadway to the mainland.

Warranty coverage on products used outside the 48 contiguous United States, Hawaii, and metropolitan areas of Alaska and Canada may vary. Contact the international APW Wyott distributor, dealer, or service agency for details.

Time Period

One year for parts and one year for labor, effective from the date of purchase by the original owner. The Authorized Service Agency may, at their option, require proof of purchase. Parts replaced under this warranty are warranted for the un-expired portion of the original product warranty only.

Exceptions

*Gas/Electric Cookline: Models GCB, GCRB, GF, GGM, GGT, CHP-H, EF, EG, EHP. Three (3) Year Warranty on all component parts, except switches and thermostats. (2 additional years on parts only. No labor on second orthird year.)
 *Broiler Briquettes, Rock Grates, Cooking Grates, Burner Shields, Fireboxes: 90 Day Material Only. No Labor.
 *Heat Strips: Models FD, FDL, FDD, FDDL. Two (2) Year Warranty on element only. No labor second year.
 *Glass Windows, Doors, Seals, Rubber Seals, Light Bulbs: 90 Day Material Only. No Labor.

In all cases, parts covered by extended warranty will be shipped FOB the factory after the first year.

Portable Carry In Products

Equipment weighing over 70 pounds or permanently installed will be serviced on-site as per the terms of this warranty. Equipment weighing 70 pounds or under, and which is not permanently installed, i.e. with cord and plug, is considered portable and is subject to the following warranty handling limitations. If portable equipment fails to operate in its intended manner on the first day of connection, or use, at APW Wyott's option or its Authorized Service Agency, it will be serviced on site or replaced.

From day two through the conclusion of this warranty period, portable units must be taken to or sent prepaid to the APW Wyott Authorized Service Agency for in-warranty repairs. No mileage or travel charges are allowed on portable units after the first day of use. If the customer wants on-site service, they may receive same by paying the travel and mileage charges. Exceptions to this rule: (1) countertop warmers and cookers, which are covered under the Enhanced Warranty Program, and (2) to asters or rollergrills which have in store service.

Exclusions

The following conditions are not covered by warranty:

*Equipment failure relating to improper installation, improper utility connection or supply and problems due to ventilation.

*Equipment that has not been properly maintained, calibration of controls, adjustments, damage from improper cleaning and water damage to controls.

*Equipment that has not been used in an appropriate manner, or has been subject to misuse or misapplication, neglect, abuse, accident, alteration, negligence, damage during transit, delivery or installation, fire, flood, riot or act of god. *Equipment that has the model number or serial number removed or altered.

If the equipment has been changed, altered, modified or repaired by other than an Authorized Service Agency during or after the warranty period, then the manufacturer shall not be liable for any damages to any person or to any property, which may result from the use of the equipment thereafter.

This warranty does not cover services performed at overtime or premium labor rates. Should service be required at times which normally involve overtime or premium labor rates, the owner shall be charged for the difference between normal service rates and such premium rates. APW Wyott does not assume any liability for extended delays in replacing or repairing any items beyond its control.

In all cases, the use of other than APW Wyott Authorized OEM Replacement Parts will void this warranty.

This equipment is intended for commercial use only. Warranty is void if equipment is installed in other than commercial application.

Water Quality Requirements

Water supply intended for a unit that has in excess of 3.0 grains of hardness per gallon (GPG) must be treated or softened before being used. Water containing over 3.0 GPG will decrease the efficiency and reduce the operation life of the unit.

Note: Product failure caused by liming or sediment buildup is not covered under warranty.

"THE FOREGOING WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSES AND CONSTITUTES THE ENTIRE LIABILITY OF APW WYOTT. IN NO EVENT DOES THE LIMITED WARRANTY EXTEND BEYOND THE TERMS STATED HEREIN."
