SAFETY PRECAUTIONS

⚡	**CAUTION** RISK OF ELECTRIC SHOCK DO NOT OPEN	⚠
AVIS	RISQUE DE CHOC ÉLECTRIQUE NE PAS OUVRIR	

WARNING : TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USERSERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

⚡ The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

⚠ The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

CAUTION
• DANGER OF EXPLOSION IF BATTERY IS INCORRECTLY REPLACED. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE.
• TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT OF WALL OUTLET, THEN FULLY INSERT.

⚠ **WARNING :**
• TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE. DO NOT PLACE OBJECTS FILLED WITH LIQUIDS ON OR NEAR THIS UNIT.
• SHOULD ANY TROUBLE OCCUR, DISCONNECT THE AC POWER CORD AND REFER SERVICING TO A QUALIFIED TECHNICIAN.

⚠ **WARNING:** Changes or modifications to this unit not expressly approved by party responsible for compliance could void the user authority to operate unit.

PLACEMENT INFORMATION
• Do not use this unit in places which are extremely hot, cold, dusty or humid.
• Do not restrict the air flow of this unit by placing it somewhere with poor air flow, by covering it with a cloth, by placing it on bedding or carpeting.

SAFETY INFORMATION
• When connecting or disconnecting the AC adapter, grip the plug and not the cord itself. Pulling the cord may damage it and create a hazard.
• When you are not going to use the unit for a long period of time, disconnect the AC adapter.

CONDENSATION INFORMATION
• When left in a heated room where it is warm and damp, water droplets or condensation may form inside the equipment. When there is condensation inside the unit, the unit may not function normally. Let the unit stand for 1-2 hours before turning the power on or gradually heat the room and let the unit dry before use.

RATING PLATE LOCATION
The rating plate is located on the rear of unit.

FCC STATEMENTS
NOTE: This unit has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This unit generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is not guarantee that interference will not occur in a particular installation. If this unit does cause harmful interference to radio or television reception, which can be determined by turning the unit off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the unit and receiver.
- Connect the unit into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IMPORTANT SAFETY INSTRUCTIONS

1) **Read these instructions.**

2) **Keep these instructions.**

3) **Heed all warnings.**

4) **Follow all instructions.**

5) **Do not use this apparatus near water.**

6) **Clean only with dry cloth.**

7) **Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.**

8) **Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus Including amplifiers) that produce heat.**

9) **Do not defect the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.**

10) **Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.**

11) **Only use detachments / accessories specified by the manufacturer.**

12) **Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury form tip-over.**

13) **Unplug this apparatus during lightning storms or when unused for long periods of time.**

14) **Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damages, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.**

ACCESSORIES

Please check and identify the supplied accessories.

☐ AC Adapter... x 1

☐ Remote Control (with Battery).. x 1
# USING THE REMOTE CONTROL

USING THE REMOTE CONTROL
- This remote control is magnetic and can be attached to most refrigerators. Some refrigerator panels are not metallic. In this case, try attaching the magnetic remote control to the side of the refrigerator.
- Point the remote control at the remote sensor located on the unit.
- When there is a strong ambient light source, the performance of the infrared remote sensor may be degraded, causing unreliable operation.
- The recommended effective distance for remote operation is about 16 feet (5 meters).

TO INSTALL BATTERIES
1. Open the battery door.

2. Insert 2 "AAA" batteries.

BATTERY REPLACEMENT
When the batteries become weak, the operating distance of the remote control is greatly reduced and you will need to replace the batteries.

CAUTION: Danger of explosion if battery is incorrectly replace. Replaced only with the same or equivalent type.

NOTES
- Do not place the remote control near magnetic devices.
- If the remote control is not going to be used for a long time, remove the batteries to avoid damage caused by battery leakage corrosion.
- Do not mix old and new batteries, Do not mix ALKALINE, standard (CARBON-ZINC) or rechargeable (NICKEL-CADMIUM) batteries.
- Always remove batteries as soon as they become weak.
- Weak batteries can leak and severely damage the remote control.
- WARNING : Do not dispose of batteries in a fire. Batteries may explode or leak.

   Light Off: The unit is turned ON.
CONNECTIONS

CONNECTING TV ANTENNA

To view television channels correctly, a signal must be received from one of the following sources:

- An indoor or outdoor aerial antenna
- A cable system
- A satellite system

To TV Antenna terminal

To Home Antenna terminal

Cable without a CATV converter

Combination VHF/UHF antenna (ATSC / NTSC signal)

Separate VHF/UHF antenna (ATSC / NTSC signal)

NOTE

For receiving over-the-air TV broadcasts, we recommend that you use an external fixed antenna. Should you require the use of a temporary antenna, please ensure that you purchase an antenna with sufficient ability to receive in weak signal areas. Only when you are in close proximity to a transmitter will a temporary antenna reproduce a signal as strongly as a fixed antenna.

CONNECTING EQUIPMENT WITH VIDEO OUTPUT

To connect to other equipment such as a VCR, camcorder, video game system, cable or satellite box.

Connecting to a VCR / Camcorder / Video Game System, Cable, Satellite System, etc)
Connect the AUDIO / VIDEO cable (not included) as shown:

Make sure you connect the cable from the other equipment (**AUDIO/VIDEO OUT**) to this unit (**AUDIO/VIDEO IN**).

To AUDIO /VIDEO IN jacks

VCR / CAMCORDER / VIDEO GAME SYSTEM / CABLE / SATELLITE SYSTEM, etc.

To AUDIO / VIDEO OUT jacks
NOTE
Please refer to the user manual for the other equipment for more information.

CONNECTIONS

CONNECTING THE AC ADAPTER
This AC adapter operates on AC 100-240V.

1. Connect the AC adapter a wall outlet.
2. Press the ⏻/ON button to turn on the unit.
3. Use the ◄ or ► button to select NO, then press **ENTER** button. (Only apply to the first time POWER ON.)
4. Press the **FUNCTION** button repeatedly to select TV / AV IN mode, then press **ENTER** button.

To AC Wall Outlet

AC Adapter

To DC IN 12V
NOTES
• The included AC adapter is for use with this unit only. Do not use them with other equipment.
• When the AC adapter is plugged in, the unit is not completely disconnected from the main, even when the power is turned off.
• Be sure the AC adapter is disconnected and all functions are off before making connections.
• Make sure that all the components are connected correctly.
• When you are not going to use the unit for a long period of time, disconnect the AC adapter.

INSTALLATION

REMOVING THE BASE STAND
WARNING: The LCD display is very fragile, and must be protected at all times when removing the base stand. Be sure that no hard or sharp objects, or anything that could scratch or damage the LCD display, come in contact with it. Do NOT place pressure on the rear of the unit at anytime because the screen could crack.

1. Disconnect any cables or cords connected to the unit.
2. Remove the rear cover.
3. Lay the unit down on a flat surface, so the back side is facing up, making sure to place a soft cushioned material (such as a pillow or thick piece of foam) beneath the screen.
4. Remove the 4 screws and then remove the BASE STAND from the unit.
MOUNTING ON THE WALL
This unit is VESA-compliant, and is designed to be wall-mounted with a VESA-compliant 1.375" x 2.9375" (35mm x 75mm) mounting kit designed for flat-panel TVs (sold separately). Mount this unit according to the directions included with the mounting kit.
NOTE
Remove the base stand before mounting the unit on the wall.

WALL MOUNTING HOLES : 35 X 75 MM

USING HEADPHONES (NOT INCLUDED)

- Turn down the volume before connecting headphones to the unit, then adjust the volume to your desired level.
- When headphones are connected, no sound will come from the front speakers.

NOTE
Avoid listening to sound at high levels for prolonged periods of time. This may be harmful to you and may cause hearing loss.

Headphones
(1/8" [3.5mm] diameter plug)

SCREEN VIEWING ANGLE ADJUSTMENT

The unit is designed to allow users to have a comfortable viewing angle.

1. Hold the stand firmly.
2. Gently adjust the TV.

CAUTION
Do not force the LCD screen over the maximum viewing angle settings as stated above. Attempting this will result in damage to the unit.
UNIT OPERATION

TURNING THE UNIT ON

When the AC adapter is connected, press the ⏻/ON button to turn it on. Press the **FUNCTION** button to select the desired mode (TV / AV IN).

NOTE
When the unit is not going to be used for a long time, disconnect the AC adapter cord from AC wall outlet.

USING THE TV

**Connect an antenna or CATV cable or Satellite system to the TV antenna terminal before searching TV channels.**

Searching for TV channels automatically
(Only appears to the first time Power ON)
When this unit is connected to an antenna, or a CATV cable or satellite system, it can automatically search for channels with adequate signal strength.

1. Connect the TV antenna.
2. Connect the AC adapter.
3. Press the ⏻ **/ ON** button to turn on the unit.
4. Press the **ENTER** button.
5. Press the ◄ or ► button to select "Air" or "CATV", then press the **ENTER** button to start auto scan.
6. The unit will immediately search all channels for those with adequate signal strength and store those channels with signals in memory. The unit will take a short minutes to finish auto scan and aftter this is completed, the unit will switch to the first channel found.

```
Proceed with auto scan ?

    No          Yes

◄ ►              : SELECT
▲ ▼  "ENTER" : CONFIRM
```

```
Please select Antenna type.

   Air          CATV

◄ ►              : SELECT
▲ ▼  "ENTER" : CONFIRM
```
