ISDN Utility and Diagnostic Program

The ISDN Utility includes helpful programs for the tiny USB ISDN TA128, such as a diagnostic program, an uninstallation program, and an on-line manual.

After Windows installs the driver of your tiny USB ISDN TA128, the ISDN Utility may be installed automatically. If the ISDN Utility is not installed, you may install it from the installation CD.

You are highly recommended to run the diagnostic program to make sure the tiny USB ISDN TA128, its drivers and the ISDN line are all properly installed and connected. Please follow these instructions:

- 1. Open the "<u>Programs</u>" folder on the "Start" menu and click on the "ISDN Utility" program folder.
- 2. Click on the "Diagnostic Program" item to start the program.
- **3.** In the "Own ISDN Number" box, type in the subscriber number of your ISDN line.

4. Press "Loopback Test" to begin the diagnostic procedure. It will make a call from the B1 channel that returns through the B2 channel. The D and B channels will be tested for line integrity.

Diagnostic Progra	m on CAPI 2.0 Version 3.08 (USB)
