FEATURES

- High-power output drive stage.
- Adjustable video gain.
- Supports 500 lines of horizontal resolution, which is ideal for most modern TV systems and monitors.
- Design saves space and is easily rackmountable.
- Includes an inline power adapter.
- A built-in clamp circuit eliminates rolling pictures.

OVERVIEW

This composite stereo audio/video distribution amplifier is more than a splitter and more than an amplifier. It expands the RCA output of your AV equipment and enables you to send both audio and video components of 1 RF signal in a high-quality format to up to 12 different monitors.

It provides optimal picture quality and automatic video impedance. A built-in clamp circuit eliminates rolling pictures.
