

# Touch. Print. Presto!

Make Labels That Make Your Point And Make Them Now.

# GLOBALMARK™

INDUSTRIAL LABEL MAKER

 **BRADY®**

# Introducing the **GLOBE**

Unprecedented Capability and Versatility To Make Labels

Touch, Print, Presto! It's Really That Easy.

Never before has an industrial-grade make-it-yourself printer empowered you to do so much with little more than your index finger. Brady's advanced touch-screen technology, powered by a Microsoft Windows® CE operating system, makes producing professional labels as fast and simple as touch, print... presto! Of course, if you're more comfortable using a keyboard, you can do that, too. It's all about making it easy for you.

## Make Custom Labels On The Spot. It's Really That Fast.

When you need a label, you need it now. Not in a couple of hours or a day, and certainly not a week, as it would be if you had to place a custom order. The safety inspector in the lobby won't wait — why should you? With the GlobalMark™ label maker, just touch, print and get the label you need, on the spot, no waiting. No headaches. No up-charges. No kidding! It's all about making it easy for you.

## When Safety and Security Really Matter, Don't Settle for A Generic Message.

There is no substitute for a specific message that delivers critical directions and information with unmistakable clarity, at the precise point of need:

- Improve Safety
- Enhance Productivity
- Reduce Costly Errors
- Increase Profitability
- Tighten Security
- Satisfaction Guaranteed

## More Materials. More Applications. You Really Can Do More!

With a choice of 15 tapes, including four new Brady materials, think of the budget dollars you'll save by never again having to order custom tags, glow-in-the-dark labels, magnetic and static cling labels. Here's a very short list of ideas just to get you thinking about all the different ways to use GlobalMark™ output in your facility.

- Production and Maintenance
  - Pipe Markers
  - LO/TO Instructions
  - PM Procedures
  - Electrical Circuit ID
- Operations and Safety
  - OSHA and ANSI Warnings
  - Machine Guard Labels
  - Operating Procedures
- Warehouse Services
- Small Volume OEM Labels
- Security Enhancements
  - ID Cards for Employees, Contractors, Visitors and Vehicles
  - Glow-In-The-Dark Markings for Exit Routes
  - Restricted Access
- Front Office Needs
- Much, Much More...

# from Brady.

Labels That Make Your Point And Make Them Now.

Three Models, Three Sets Of Capability –  
You Really Do Have A Choice!

Choose from three GlobalMark™ models that print in either one color, multiple spot colors or blended colors. One model can even cut out images and individual letters. You can also download your logo to the GlobalMark™.

With Brady's optional MarkWare™ Deluxe Facility Identification Software and your computer, you can import and print full color images, including photographs, logos, custom templates and more. The MarkWare™ software contains an extensive library of ready-to-print industrial label, tag and sign templates, easily customized to your specific needs.

## Color & Cut System

- Prints in one color, multiple spot colors and blended colors.
- Unit has a built-in cutter for cutting out images and sign letters.
- With optional MarkWare™ label making software, import and print *full color* logos, artwork, even photographs.
- The MarkWare™ software also enhances your ability to precision-cut intricately detailed images.
- Tape Save feature.

## MultiColor System

- Prints the same color options as the Color & Cut system, including the optional MarkWare™ software enhancements, without the cutter.

## MonoColor System

- Prints one color only on one color tape. It is also capable of using the library of MarkWare™ ready-to-print templates.

## The Best the World Has to Offer. Really, They're That Good.

You won't find industrial-grade materials that last longer than Brady's — better quality and more proven reliability does not exist. It's all about making it easy for you.

GlobalMark™ prints on your choice of 15 high-performance, make-it-yourself Brady materials, including **four new materials** — tag stock, magnetic-back, static cling and metallized polyester. Custom output created on Brady materials will remain legible for years, indoors or outdoors.
