P-touch

LN0617001

Before using the P-touch, read this instruction leaflet, and then keep it in a handy place for future reference.

With this machine, use only tape cassettes bearing the **200** logo. For a list of the tape cassettes that can be used with this machine, refer to Accessories at the bottom of this page.

The stylish and portable PT-55 allows you to quickly and easily print labels anywhere you go. Simply switch on the P-touch, enter the text, and then print out your label. You can also choose from various character sizes, styles, and framing/background patterns in addition to underlining. In addition, you can specify the length of the label. The text can be printed on either one or two lines and can include special symbols and accented characters. Various tape colours and two tape widths (9 mm and 12 mm) are available for creating personalised labels.

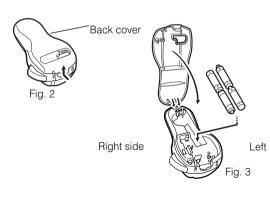

Care and precautions

- Clean the machine using only a soft, dry cloth.
- Use only AAA-size (LR03) alkaline batteries.
- Do not expose the machine or the tape cassettes to high temperatures, high humidity, or excessive dust.
- If you do not intend to use the machine for an extended period of time, remove the batteries.
- Do not touch the tape cutter button while printing.
- Do not touch the cutter blade.
- Do not block the tape exit slot. (Fig. 1)
- Do not put labels in your mouth.
- Do not affix labels to skin.

Installing/replacing batteries

- 1) Remove the back cover by pressing in the rough area at the top end of the machine and pulling off the cover. (Fig. 2)
- 2) If a tape cassette is already installed, remove it. For details on removing the tape cassette, refer to Installing/changing the tape cassette.
- 3) If batteries are already installed, remove them 4) Insert four new AAA-size (LR03) alkaline batteries as shown below. (Fig. 3)
- Be sure that the two batteries on the left side of the P-touch are inserted with their positive poles pointing toward the bottom end of the machine and that the two batteries on the right side of the P-touch are inserted with their positive poles pointing to the top end of the machine. Always replace all four batteries at the same time using brand new ones.
- 5) Insert the tape cassette. For details on inserting the tape cassette, refer
- to Installing/changing the tape cassette. 6) Attach the back cover by inserting the two hooks on the bottom end of the cover into the matching slots on the bottom end of the machine, then pushing down firmly on the cover until it snaps into place.

Installing/changing the tape cassette

- 1) Remove the back cover by pressing in the rough area at the top end of the machine and pulling off the cover.
- 2) If a tape cassette is already installed, remove it by pulling it straight out.
- 3) Make sure that the end of the tape feeds under the tape guides as shown below. (Fig. 4)

If you are installing a new tape cassette, be sure to remove the paper tab.

4) Insert the tape cassette, making sure that it snaps into place.

Make sure that the tape cassette fits properly around the two guides in the cassette compart*ment.* (Fig. 5)

5) Attach the back cover by inserting the two hooks on the bottom end of the cover into the matching slots on the bottom end of the machine, then pushing down firmly on the cover until it snaps into place. (Fia. 6)

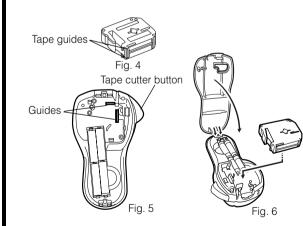

The amount of tape remaining in the cassette is visible through the window in the back of the Ptouch.

When green tape is fed out, the tape cassette is empty.

A CAUTION -

• Be sure to use only the tape cassettes listed in Accessories. The following tape cassettes can NOT be used with the PT-55 (i.e. tapes with a metallic appearance):

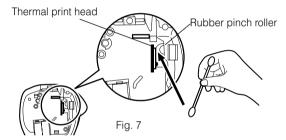

M-531, M-731, M-831, M-931, M-E31, M-521, M-721, M-821, M-921 and M-E21

Cleaning the print head

When dust accumulates on the print head, blank horizontal lines appear through the printed label. If this occurs, clean the print head.

- 1) Turn off the P-touch.
- 2) Remove the back cover by pressing in the rough area at the top end of the machine and pulling off the cover, and then remove the tape cassette.
- 3) Use a dry cotton swab to gently wipe the print head and the rubber pinch roller with an up-and-down motion. (Fig. 7)
- 4) Insert the tape cassette, and then attach the back cover by inserting the two hooks on the bottom end of the cover into the matching slots on the bottom end of the machine, then pushing down firmly on the cover until it snaps into place.
- 5) Turn on the machine, enter some text, and then press (II)
- 6) If blank lines still appear in the printed label, repeat steps 1 through 4 using a cotton swab dipped in isopropyl (rubbing) alcohol.
