# Windows Vista<sup>™</sup> Installation Guide

Before you can use the machine, you must set up the hardware and install the driver. Please read the 'Quick Setup Guide' and this 'Windows Vista™ Installation Guide' for set up and installation instructions.

## **STEP 1** Setting Up the Machine

Please follow the steps in STEP 1 Setting Up the Machine in the Quick Setup Guide first. Then return to STEP 2 Installing the driver & software in this installation guide.

# STEP 2 Installing the Driver & Software

Please follow the steps in this Windows Vista<sup>™</sup> Installation Guide for driver & software installation instructions.

Keep the 'Quick Setup Guide', 'Windows Vista™ Installation Guide' and the supplied CD-ROM in a convenient place for quick and easy reference at all times.

# Symbols used in this guide

Warning	Note	Quick Setup Guide	Caution
Warnings tell you what to do to prevent possible personal injury.	Notes tell you how you should respond to a situation that may arise or give tips about how the current operation works with other features.	Indicates reference to the Quick Setup Guide.	Cautions specify procedures you must follow or avoid to prevent possible damage to the machine or other objects.

Name of the setup
Improper Setup icons alert you to devices and
operations that are not compatible with the machine.

Computer requirements	

## Before using this manual

This manual is for Windows Vista<sup>™</sup> users only. This installation guide explains how to install the MFL-Pro Suite software and multifunction drivers for Windows Vista<sup>™</sup> and other information about Windows Vista<sup>™</sup>. Before installing the driver and software, please follow the steps in the **Getting Started** section and

**STEP1 Setting Up the Machine** in the Quick Setup Guide. After you complete the initial setup, follow the steps in this guide for installing the MFL-Pro Suite and drivers. You can also find other information about the machine in the Quick Setup Guide.

See the Quick Setup Guide first.

## Supplied CD-ROM for Windows Vista™

You can find the information listed below on the Windows Vista™ CD-ROM.

## 🞯 Install MFL-Pro Suite

You can install the MFL-Pro Suite software and multifunction drivers.

### 🞯 Install Other Drivers or Utilities

You can install additional MFL-Pro Suite software utilities, install without ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE with OCR by NUANCE<sup>™</sup>, install the printer driver only.

## 📄 User's Guide

View the Software User's Guide and Network User's Guide (only available for models with built-in network). The Software User's Guide includes instructions for features available when connected to a computer. (eg. Printing and scanning details)

### On-Line Registration

Register your machine from the Brother Product Registration page.

## Brother Support

View contact information for Brother Customer Service and how to find a Brother Authorized Service Center. View our web site for original/genuine Brother supplies at http://www.brother.com/original/ for Supplies Information.

### **H** Repair MFL-Pro Suite (USB only)

If an error occurred during the installation of the MFL-Pro Suite, use this selection to automatically repair and reinstall the MFL-Pro Suite.

# **STEP 2** Installing the Driver & Software

Follow the instructions on this page for the interface you are going to use. For the latest drivers, documentation, and to find the best solution for your problem, access the Brother Solution Center directly from the CD-ROM / Driver or visit <u>http://solutions.brother.com</u>.

## Windows®

For Network Interface Users ...... 10

## 🚫 Improper Setup

DO NOT connect the interface cable. Connecting the interface cable is done when installing the driver.

### Important

Make sure that you have finished the instructions from STEP 1 Setting Up the Machine in the Quick Setup Guide.

## 🖉 Note

- · Please close any applications running before installing MFL-Pro Suite.
- If your machine has media drives (slots), make sure there are no memory cards in the media drive of the machine.

### Installing the driver and connecting the machine to your computer

1 Unplug the machine from the AC outlet and from your computer, if you already connected an interface cable.

- 2 Turn on your computer. (You must be logged on with Administrator rights.)
- 3 Put the supplied CD-ROM for Windows Vista™ into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

## 4

The CD-ROM main menu will appear. Click Install MFL-Pro Suite.

If this window does not appear, use Windows<sup>®</sup> Explorer to run the start.exe program from the root folder of the Brother CD-ROM.

If the User Account Control screen appears, click Allow.

Don't run ti before.	ne program unless you know where it's from or you've used it

DCP-7020, DCP-8060, DCP-8065DN, MFC-7220, MFC-7225N, MFC-8460N, MFC-8660DN, MFC-8860DN	page 7
MFC-3360C	page 8

## How to connect the machine to your computer

Windows<sup>®</sup> USB For DCP-130C, MFC-240C, MFC-440CN, MFC-5460CN and MFC-5860CN users (The illustrations are based on MFC-5460CN.)

 Lift the scanner cover until it locks securely into the open position.

Connect the USB cable to the USB socket marked with a symbol. You will find the USB socket inside the machine on the right as shown below.

Carefully guide the USB cable into the trench as shown below, following the trench around and toward the back of the machine. Then, connect the cable to your computer.

## 🚫 Improper Setup

- DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub. Brother recommends that you connect the machine directly to your computer.
- Make sure that the cable does not restrict the cover from closing, or an error may occur.
- Make sure you use a USB 2.0 cable that is no longer than 6 feet long (2 meters).
- Lift the scanner cover to release the lock (①).
   Gently push the scanner cover support down (②) and close the scanner cover (③).

5 Turn on the machine by connecting the power cord.

The installation of the Brother drivers will automatically start. The installation screens appear one after another. **Please wait, it will take a few seconds for all the screens to appear.** 

## S Improper Setup

DO NOT try to cancel any of the screens during this installation.

6

When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

7 Click Finish to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

## 🖉 Note

After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Diagnostics shows a failure, please follow the on-screen instructions or read the on-line help and FAQs in

Start/All Programs/Brother/XXX-XXXX (where xxx-xxxx is your model name).

The MFL-Pro Suite has been installed completely.

## 🖉 Note

MFL-Pro Suite includes the Printer Driver. Scanner Driver, Brother ControlCenter3, ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort<sup>™</sup> 11SE is a document management application for scanning and viewing documents. For DCP-7020, DCP-8060, DCP-8065DN, MFC-7220, MFC-7225N, MFC-8460N, MFC-8660DN and MFC-8860DN users

## (The illustrations are based on DCP-8060.)

Connect the USB interface cable to your PC, and then connect it to the machine.

The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

### **N** Improper Setup

DO NOT try to cancel any of the screens during this installation.

3 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

## 🖉 Note

4

After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Diagnostics shows a failure, please follow the on-screen instructions or read the on-line help and FAQs in

Start/All Programs/Brother/XXX-XXXX (where xxx-xxxx is your model name).

The MFL-Pro Suite has been installed completely.

### For MFC-3360C users

Connect the USB cable to your computer.

## S Improper Setup

- DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub. Brother recommends that you connect the machine directly to your computer.
- Make sure that the cable does not restrict the cover from closing, or an error may occur.
- Make sure you use a USB 2.0 cable that is no longer than 6 feet long (2 meters).

**3** Turn on the machine by connecting the power cord.

The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

## S Improper Setup

DO NOT try to cancel any of the screens during this installation.

When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

# For MFC-440CN, MFC-5460CN and MFC-5860CN users

### Important

Make sure that you have finished the instructions from STEP 1 Setting Up the Machine in the Quick Setup Guide.

## 🖉 Note

- Please close any applications running before installing MFL-Pro Suite.
- If your machine has media drives (slots), make sure there are no memory cards in the media drive of the machine.

### (The illustrations are based on MFC-5460CN.)

Turn off and unplug the machine from the AC outlet and from your network, if you already connected an interface cable.

- 2
  - Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

Insert the network cable into the LAN socket marked with a R symbol. You will find the LAN socket inside the machine on the left as shown below.

4 Carefully route the network cable through the trench and out the back of the machine. Then, connect the cable to your network.

## 🚫 Improper Setup

Make sure that the cable does not restrict the cover from closing, or an error may occur.

## 🖉 Note

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other. 9

- 5
  - Lift the scanner cover to release the lock (1).
     Gently push the scanner cover support down (2) and close the scanner cover (3).

**6** Turn on the machine by connecting the power cord.

Turn on your computer. You must be logged on with Administrator rights.

Close any applications running before installing the MFL-Pro Suite.

### 🖉 Note

7

Before installation, if you are using personal firewall software, disable it. After the installation, restart your personal firewall software.

Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

The CD-ROM main menu will appear. Click Install MFL-Pro Suite.

If this window does not appear, use Windows<sup>®</sup> Explorer to run the **start.exe** program from the root folder of the Brother CD-ROM.

### Note 🖉

When the **User Account Control** screen appears, click **Allow**.

The MFL-Pro Suite has been installed completely.

## 🖉 Note

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3, ScanSoft™ PaperPort™ 11SE. ScanSoft™ PaperPort™ 11SE is a document management application for scanning and viewing documents.

## **BRAdmin Light utility**

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It can also search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at http://solutions.brother.com.

## 🖉 Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from http://solutions.brother.com.

## Installing the BRAdmin Light configuration utility

## Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

## 🖉 Note

The default password for the print server is 'access'. You can use BRAdmin Light to change this password.

1 Click Install Other Drivers or Utilities on the menu screen.

3 When the User Account Control screen appears, click Allow.

2

3

If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. Because the print server will automatically obtain its IP address.

1 Start BRAdmin Light. It will search for new devices automatically.

Searching for Devices	<b>EXE</b>
Searching network for 6 seconds.	Stop Searching
New Device: 0 (Unconfigured: 1)	

Choose STATIC for the Boot Method. Enter the IP Address, Subnet Mask and Gateway, and then click OK.

Configure BRN_AC	:5952					
General Control	Network

		OK Cancel Help				

The address information will be saved to the machine.

## ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE with OCR by NUANCE<sup>™</sup>

ScanSoft™ PaperPort™ 11SE for Brother is a document management application. You can use PaperPort™ 11SE to view scanned documents.

PaperPort<sup>™</sup> 11SE has a sophisticated, yet easy-to-use filing system that will help you organize your graphics and text documents. It allows you to mix or 'stack' documents of different formats for printing, faxing or filing.

To view the complete ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE User's Guide, choose Help from PaperPort<sup>™</sup> 11SE menu bar and click Getting Started Guide.

When you install MFL-Pro Suite, ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE for Brother is installed automatically. You can access ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE through the **ScanSoft<sup>™</sup> PaperPort<sup>™</sup> 11SE** program group located in **Start/All Programs/ScanSoft PaperPort 11SE** on your PC.
