

**Forget everything you've ever known about bass audio shakers or other tactile devices.**

Silent Subwoofer™ for Car Audio, by ButtKicker® is in a class of its own.

Based on a **revolutionary patented low frequency transducer** design that is very different than voice coil shakers and other tactile devices; the Silent Subwoofer for Car Audio allows you to **feel powerful bass without excessive volume.**

And, the Silent Subwoofer is **virtually indestructible and maintenance-free.**

Originally **designed as a musically-accurate stage and studio monitoring device by sound professionals and studio engineers** the ButtKicker is **used by over 100 of the world's top touring groups** - Green Day, Shania Twain, Usher, Alanis Morissette, My Chemical Romance, Los Lonely Boys and many, many others.

The ButtKicker family of low frequency transducers are **used around the world by theme parks, home theater professionals and enthusiasts and computer and console gamers.**

Impedance:	2 ohms
Warranty:	One Year
Item Code:	BK-SSW

#### **Silent Subwoofer Car Audio Amplifier**

Dimensions:	13.125" L x 9.625" W x 1.875" H
Weight:	11.5 lbs / 5.2 kgs
Power Output:	Max. 800 watts @ 2 ohm x 1 400 watts @ 4 ohm x 1 RMS power of 200 watts @ 4 ohms
Warranty:	One Year
Item Code:	BKA-800-SSW

**It makes an average factory audio system sound premium. It makes a premium system breathtaking... with or without a subwoofer.**

The Silent Subwoofer™ **transfers the feeling range of low frequency audio directly into the listener's body, rather than through the air as with a traditional loudspeaker.**

The **volume** of the vehicle speaker system can be **dramatically lowered** without sacrificing impact or tone perception.

Because it is **silent outside the vehicle**, the Silent Subwoofer **solves community noise ordinance issues** caused by loud subwoofers.

The Silent Subwoofer is **mounted directly to the vehicle's frame and / or seating structure.**

Because **vehicles are designed to absorb road vibration** the **Silent Subwoofer adds "tactile audio energy"** to the vehicle's frame, enabling the **passengers to feel bass without excessive volume.**

In fact, the Silent Subwoofer **vibrates the overall interior of the vehicle much less than an average subwoofer does.**

**INTRODUCING!**  
**Silent Subwoofer**  
**For Car Audio**

**Less is More...**  
**or is it,**  
**More is Less...**

**Feel what you've been missing...**

*Musical accuracy with superior transient response  
Make an average audio system sound premium  
Achieve optimal audio performance*

*Produce massive bass without noise ordinance complaints  
Minimize door and panel rattles from speakers  
Maximize your vehicle's usable space*

***It's more...***

***extreme***

Maximize overall audio effect - feel and hear your bass like never before.

***intense***

Complement any car audio system by adding tremendous tactile low end. Can be used with or without a subwoofer(s).

***powerful***

Produce the optimal audio performance for any vehicle by combining the Silent Subwoofer with a subwoofer.

***musical***

***...it's less***

***loud***

Add a subwoofer without sacrificing trunk space.

***noisy***

Maximize a vehicle's usable space. The Silent Subwoofer does not require an enclosure and uses much less space than a traditional subwoofer.

***obtrusive***

Doesn't increase the volume in your car, but can be configured to feel just as powerful as an audible subwoofer.

***annoying***

Experience powerful bass without overpowering noise levels.
