

WIRELESS HEADPHONES

Models CLS721, CLS725, CLS729, CLS747

- Four Wireless Headphones
 - Unlimited number of headphones can be purchased separately
 - 100' wireless reception range from transmitter
 - Noise-reducing earcups lowers ambient noise levels
 - Rugged ABS plastic earcups and headstrap for durability
 - Rechargeable
- Four (color-coded) VHF/FM frequencies allows up to 4 groups of any size to work in the same room simultaneously without distraction or interference from crossover frequencies
- One year warranty for school use - unlike items purchased from consumer electronics stores whose warranties would be voided if used in schools

Four CLS721 headphones shown with CLS721L transmitter and optional cassette player and rack

Ideal for language learning, literacy groups, ELL / ELD applications and library uses, these wireless headphones can expand the number of listening students to full class inclusion. And with all four available system frequencies being able to operate simultaneously in the same room without any interference, four different groups can enjoy wireless learning.
