## Operation Guide 3249

## About This Manual

- Depending on the model of your watch, display text appears either as dark figures on a light background or light figures on a dark background. All sample displays in this manual are shown using dark figures on a light background.
- Button operations are indicated using the letters shown in the illustration.
Each section of this manual provides you with the mode. Further details and technical information can be found in the "Reference" section.

## General Guide

- Press (©) to change from mode to mode.
- In any mode (except when a setting screen is on the display), press (B) to illuminate the display for about two seconds.
- If you do not perform any operation for a few minutes while a setting screen (with flashing digits) is on the display, the watch exits the setting screen automatically. - If you do not perform any operation for a few minutes in the Alarm Mode, the watch reverts to the normal timekeeping screen automatically.

Alarm Mode Stopwatch Mode
Countdown Timer Mode

Timekeeping

Hour : Minutes Seconds

1. While in the Timekeeping Mode, hold down (A) until the second's digits flash on the display, which indicates the setting screen
2. Press (C) to move the flashing in the sequence shown below.

3. While the seconds setting is selected (flashing), press (D) to reset it to 00. If you press (D) while the seconds setting is in the range of 30 to 59 , the seconds are reset to 00 and 1 is added to the minutes. If the seconds setting is in the range of
Whir the minutes count is unchanged.
While the DST setting is selected (DST on indicator is flashing), press (D) to
toggle it on (On) and off (OF).

- The DST on/off setting you select for the Timekeeping Mode affects the World

Time Mode.

- While the city code setting is selected, use (D) and (B) to scroll through the available codes until the one you want to use as your home time city is displayed
While any other setting is selected (flashing) press $(\mathrm{D}$ to

4. While any other setting is selected (flashing), press (D) to increase it or press (B) to decrease it. Holding down (D) or (B) scrolls at high speed.
5. Press (A) to exit the setting screen.

The day of the week is set in accordance with the date automatically.

- The date can be set within the range of January 1, 2000 to December 31, 2099.

The watch's built-in full automatic calendar makes allowances for different month lengths and leap years automatically. Once you set the date, there should be no reason to change it except after replacement of the watch's battery. "See "Daylight Saving Time (DST) Setting" for details about the DST setting.

## Illumination Precautions

Your watch uses two LEDs to illuminate the display for easy reading in the dark. In any mode (except when the setting screen is on the display), press (B) to turn on illumination for about two seconds.

- Illumination may be hard to see when viewed under direct sunlight.
- Illumination turns off automatically whenever an alarm sounds.
- Frequent use of illumination shortens the battery life.

World Time

Current time in the zone

## Daylight Saving Time (DST) Setting

Daylight Saving Time (summer time) advances the time setting by one hour from Standard Time. Remember that not all countries or even local areas use Daylight Saving Time.

To toggle a city code time between Standard Time and Daylight Saving Time DST indicator 1. In the World Time Mode, use (D) to display the city cod
 (time zone) whose Standard Time/Daylight Saving Time setting you want to change.
2. Hold down $(\AA$ ) for about one second to toggle between

Daylight Saving Time (DST indicator displayed) and Standard Time (DST indicator not displayed).

- The DST indicator will appear on the display whenever you display a city code for which Daylight Saving Time is turned on.
- Note that the DST/Standard Time setting affects only the currently displayed city code. Other city codes are not affected.

## Alarms

- To set a one-time alarm, display one of the screens indicated by an alarm number from - 4 through -5.

2. After you select an alarm, hold down (A) until the hour setting of the alarm time starts to flash, which indicates the setting screen.
3. Press (C) to move the flashing between the hour and minute settings.

## Operation Guide 3249

4. While a setting is flashing, use (D) (+) and (B) $(-)$ to change it

- When setting the alarm time using the 12 -hour format, take care to set the time correctly as a.m. (AM indicator) or p.m. (PM indicator).

5. Press (A) to exit the setting screen.

## Alarm Operation

The alarm sounds at the preset time for about 10 seconds, regardless of the mode the
watch is in.

- To stop the alarm tone after it starts to sound, press any button.
To test the alarm
In the Alarm Mode, hold down (D) to sound the alarm

## To turn an alarm on and off

In the Alarm Mode, use (D) to select an alarm.
. Press (A) to toggle it on (the alarm on indicator displayed) and off (the alarm on indicator not displayed).

- Turning on a daily alarm ( $-\mathbf{i}$ through -5 ) displays the alarm on indicator on its Alarm Mode screen.
- In all modes, the alarm on indicator is shown for any alarm that is currently turned on.

To turn the Hourly Time Signal on and off

| Hourly time signal on indicator | 1. In the Alarm Mod Signal ( $=$ TE). |
| :---: | :---: |
|  | indicator displayed) and off (the hourly time signal indicator not displayed). |
|  | - The Hourly Time Signal on indicator is shown on the display in all modes while the Hourly Time Signal is turned on. |

Stopwatch

Countdown Timer

one countdown timer can be set within a range of one minute to 24 hours.

- The countdown operation continues even if you exit the Countdown Timer Mode.
- All of the operations in this section are performed in the Countdown Timer Mode, which you enter by pressing ©.
To use the countdown timer
Press (D) while in the Countdown Timer Mode to start the countdown timer.
- When the end of the countdown is reached, the alarm sounds for 10 seconds or until you stop it by pressing any button. The countdown time is reset to its starting value automatically after the alarm stops.
- Press (D) while a countdown operation is in progress to pause it. Press (D) again to resume the countdown.
- To stop a countdown operation completely, first pause it (by pressing (D)), and then press (A). This returns the countdown time to its starting value.
To set the countdown start time

1. In the Countdown Timer Mode, hold down (A) until the hours of the countdown start time start to flash, which indicates the setting screen
2. Press minutes.
3. While a setting is flashing, use (D) $(+)$ or (B) $(-)$ to
change it.

- To set the starting value of the countdown time to 24 hours, set $9: 60$

4. Press (A) to exit the setting screen.

Reference
This section contains more detailed and technical information about watch operation. It also contains important precautions and notes about the various features and functions of this watch.

Button Operation Tone

The button operation tone sounds any time you press one of the watch's buttons. You can turn the button operation ne on or off as desired.
button operation tone, the alarm Hourly Time Signal, and Countdown Timer Mode alarm all operate normally.

To turn the button operation tone on and off In any mode (except when a setting screen is on the display), hold down (C) for about three seconds to toggle the button operation tone on (mute indicator not displayed) and off (mute indicator displayed).

- Holding down (C) to turn the button operation tone on or off also causes the watch's current mode to change
- The mute indicator is displayed in all modes when the button operation tone is turned off.

## Scrolling

The (B) and (D) buttons are used in various modes and setting screens to scroll through data on the display. In most cases, holding down these buttons during a scroll operation scrolls at high speed.

## Initial Screens

When you enter the World Time or Alarm Mode, the data you were viewing when you last exited the mode appears first.

## World Time

- The seconds count of the World Time is synchronized with the seconds count of the Timekeeping Mode.
- The current time in all World Time Mode cities is calculated in accordance with the Greenwich Mean Time (GMT) differential for each city, based on the current Home
The GMT differential is the time difference of the time zone where the city is located - The GMT differential is the tim
- GMT differential is calculated by this watch based on Universal Time Coordinated (UTC) data.

## Specifications

Accuracy at normal temperature: $\pm 30$ seconds a month
Timekeeping: Hour, minutes, seconds, a.m./p.m., day, day of the week, month, year Time system: Switchable between 12-hour and 24 -hour formats
Calendar system: Full auto-calendar pre-programmed from the year 2000 to 2099 Standard time/Daylight saving time
Other: Home City code (can be assigned one of 30 city codes); Daylight Saving Time (summer time)/Standard Time
World Time: 30 cities ( 29 time zones)
Other: Daylight Saving Time/Standard Time
Alarm: 5 Daily Alarms, Hourly Time Signal
Stopwatch
Measuring unit: 1/100 of a second
Measuring capacity: 23 hours, 59 minutes, 59.99 seconds
Functions: Elapsed time split time and two finishes
Countdown Timer
Measuring unit: 1 second
1 minute to 24 hours (1-minute increments and 1-hour increments)
Other: Two LEDs (light-emitting diodes), Button operation tone on/off
Battery: One lithium battery (Type: CR1616)
Battery life
3 years under the following conditions

- 2 seconds of illumination operation per day
- 10 seconds of alarm operation per day

## City Code Table

| $\begin{array}{\|l\|} \hline \text { City } \\ \text { Code } \\ \hline \end{array}$ | City | UTC Offset/ GMT Differential | Other major cities in same time zone |
