Installing the stand
1 Remove the stand from the box and place it on a table or bench.
2 Lay the TV on a flat, cushioned surface.
3 Carefully align and insert the base into the stand until the locking mechanism clicks into place.

Installing a wall-mount bracket
1 Carefully place your TV screen face-down on a cushioned, clean surface to protect the screen from damages and scratches.
2 Remove the three screws holding the TV to its stand column, then remove the stand column.
Locating grooves

3 Insert and lock the standoff screws (provided) into into the 4 holes on the back of the TV..
4 Secure the wall-mount bracket to the back of your TV by screwing four M4 screws provided with the bracket into the standoff screws you just installed.

Setting up your remote control
1 While pressing the release button on the battery compartment cover on the back of the remote, lift the cover off the remote.
2 Insert two AAA batteries into the battery compartment. Make sure that the + and − symbols on the batteries align with the + and − symbols in the battery compartment.
3 Replace the cover.
To program your existing universal remote control to work with your new Dynex TV, see the table below for common codes. If you have problems programming your remote or need a different remote control code, visit www.dynexproducts.com for the latest remote control code information.
