

Model #: CP500HG

UPC: 649532005024

MSRP: \$55.99

The CP500HG Standby Uninterruptible Power Supply (UPS) is perfect power protection for individuals running a stand-alone PC in their home, or office.

It includes PowerPanel PE™ Power Management software which monitors the vitals of the UPS and will safely shutdown your system in case of a power outage. Composite integrated circuitry offers advanced lightning protection and also guards against surges, spikes, sags, brownouts and other power abnormalities.

The patented GreenPower UPS™ technology used in this UPS unit reduces energy-usage and cooling costs associated with UPS power protection. As a result, you can expect to save up to \$11 annually (varies based on usage and regional kilowatt per hour costs) by using GreenPower UPS™ technology.

This rugged unit is equipped with a RJ11 port which protects against surges from phone or network disruptions. The small footprint design is ideal for horizontally or vertically placement, and is even designed for wall-mountability. The unit is also perfect for protecting other electronics such as monitors, printers, scanners, speakers, fax machines, CD/DVD players, and iPods.

- GreenPower UPS™ - GreenPower UPS™ technology reduces UPS energy costs by utilizing high frequency circuitry. This not only reduces utility consumption, but also reduces heat dissipation and system noise.
- Ultra-Quiet UPS - The combination of an advanced ventilation design, high-end system components, and GreenPower UPS™ technology give CyberPower UPS systems the lowest sound emissions in its class. This makes our UPS perfect for desktop applications, audio/video installations, and quiet workstation environments.
- EMI/RFI - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or “humming” that occurs over telephone lines or stereo electronics.
- Widely-spaced Outlets - Widely spaced outlets allow you to conveniently add large transformer-based plugs without compromising the utility of other outlets.
- USB Connectivity - HID compliant USB port enables full integration with built-in power management and auto shutdown features of Windows, Linux and Mac OS X.
- PowerPanel PE™ Smart Management Software – In event of a power outage, PowerPanel PE will not only save your open files and will also “Hibernate” your PC to increase the run-time on the UPS unit. PowerPanel is quickly and easily installed on any Windows-based PC and is designed to utilize minimal system resources. Diagnostic screens give immediate visuals of the UPS’s status, and also include the following features: Silent operation mode, configurable system notifications, automatic self tests, adjustable high/low voltage warnings, event/data logging, and scheduled shutdowns.
- LED Indicators - LED status lights indicate Power-On and wiring faults.
- Audible Alarms - Audible tones identify when the unit is running off battery power, unit overloads and low battery.
- Convenient Mounting – Multiple mounting options: horizontal, vertical, cabinet, and wall.
- Resettable Circuit Breaker - Convenient unit reset switch in case of an overload.
- 3-year Warranty - CyberPower will replace damaged units if within 3 years of purchase date. We stand behind our products and guarantee quality. CyberPower also offers a #1 rated technical support team that will assist you with product, installation, or warranty concerns --- Free of Charge!
- ISO & Safety Certifications - All CyberPower’s manufacturing facilities are ISO-9001 Quality Tested. Our products are also certified by the FCC, cUL, and UL.
- Windows Vista™ compatible - Our Power Management software has been fully tested and is compatible with Windows XP, and Vista.
- Identical Model #'s: CP500SL, CP500HG

Technical Specifications

General	
Model #	CP500HG
UPS Topology	Standby
Energy Saving	GreenPower UPS™ High Efficiency
Input	
Voltage	96 - 140V
Frequency	47 - 63Hz
Plug Type	NEMA 5-15P
Cord Length	6 ft
Output	
VA	500
Watts	300
Automatic Voltage Regulation	No
On Battery Waveform	Simulated Sine Wave
Outlets - Total	8
Outlets - Battery & Surge	4 x NEMA 5-15R
Outlets - Surge-Only	4 x NEMA 5-15R
Transfer Time	4 ms
Battery	
Runtime at Full-Load	2 Minutes
Runtime at Half-Load	8 Minutes
Battery Specification	1 x 12V/4.5Ah
Surge Protection and Filtering	
Surge Suppression	890 Joules
Phone / Ethernet RJ11 / RJ45	1 x RJ11 (One-in/Two-out)
Coax Protection RG6	None
Management & Communications	
Indicators	Power On, Wiring Fault
USB Port	1 x HID Compliant
Serial Port	None
Software	PowerPanel Personal Edition
SNMP / HTTP Remote Monitoring	Not Available
Physical	
Dimensions (WxHxD)	11" x 6.5" x 3.5"
Weight	5 lbs.
Warranty	
Product Warranty	3-year warranty. Free Tech Support.
Connected Equipment Guarantee	Lifetime
CEG Amount	\$100,000
