Safety Instructions

Do not attempt to disassemble, repair or alter the equipment yourself. The high-voltage circuitry in the equipment poses significant electrical hazard.
Do not attempt to disassemble, alter or directly solder the battery.
Do not put the battery in a fire, attempt to heat it, uses it in high temperature environment such as next to a fire or inside a car.
Do not put it into water or allow it to get wet.
Do not use batteries that are significantly damaged or deformed.
Turn off the power immediately in the event of irregularity, such as the equipment emitting smoke or a strange smell. Remove the battery as soon as possible, avoiding electric shocks or burns.
Keep the battery and memory card used in this product out of the reach of children to prevent accidental ingestion.
Do not try to format the storage media by PC.

Setting PAVIO in its Base

First, open the door on the bottom of the unit to expose the connector on the PAVIO.

1. **Getting Started**

Connections

See the Quick Setup Card (supplied in owner's package) for connection details and channel setup.

Setting Date and Time

Setting the date and time when you first use the PAVIO and each time you change time zone on trips.

€ Date is displayed in YYYY MM DD.

€ Time is displayed in 24-hour / 12-hour (AM / PM) clock format.

€ Setting is possible from [2004/01/01 00:00] to [2099/12/31/ 23:59]

Turn on the Pavio .

Select <Set up> with / / (or VOLUME) key and then press OK key.

€ The set up menu will be displayed.

Select [Set date / time] with / key and then press key.

€ The set date/time menu will be displayed.

Select [Year], [Month], [Day], or [Time (Hour / Minute/ Format)] with / key and set the numeral with / key.

After the date and time have set, select **End** and press OK key to complete the setting, then return to the set up menu.

Auto Power Off

NOTES: : Factory Default setting does not utilize Auto Power OFF. We recommend leaving this setting untouched.

Auto LCD Off

The LCD monitor of the PAVIO will turn off automatically to conserve the battery.

NOTES: : Factory Default setting does not utilize Auto Power OFF. We recommend leaving this setting untouched.

Formatting the Disk

*****Formatting the disk removes all operating systems as well as the data stored, and is not recommended.**

Formatting the Memory Media

Do not try to format the storage media by PC.

1. Select <Set up> with / / (or VOLUME) key and then press OK key. The set up menu will be displayed.
2. Select [Format disk] with / key, and then press key.
3. Select the memory media (disk) with / key and then press key.

Resetting All Setting (Return to Factory Default)

This function allows you to reset all settings and return them to the factory defaults.

Turn on the PAVIO .

Select <Set up> with / / (or VOLUME) key and then press OK key.

€ The set up menu will be displayed.

Select [Reset all settings] with / key and then press key

€ Message “ Want to reset all settings? “.

Press OK key. .

About Memory Cards

You may use internal and external memory as storage media in this unit. Unit must be off when inserting and removing memory devices.

Internal Memory: Hard Disk

External Memory: 1.Secure Digital Memory (SD) Card Slot.

CompactFlash Memory (CF) Card

Microdrive Slot available

Battery Facts

Status Indicator

€ When the battery symbol is solid the unit is fully charged.

This symbol indicates that the battery needs recharging soon.

Charging the Battery

You can use AC Adapter or USB Cable to recharge the battery.

Using the AC Adapter to Recharge Battery

You can charge the battery using the AC Adapter while PAVIO is turned on or off.

Battery charging is complete when the red LED goes off.

Load the battery into the PAVIO.

Connect the power cord to the AC Adapter.

Connect the AC Adapter cable to DC IN jack of unit.
Connect the other end of the AC Adapter to a wall outlet.
€ The battery will be now recharged through AC Adapter.

IMPORTANT

DO NOT try to remove the battery during recharging (RED LED) until RED LED display goes off.

Using the USB Cable to Recharge the Battery

Pavio must be off when using the USB cable to recharge the battery.

Load the battery into the PAVIO

Turn on the PC.

Connect the USB cable to USB port of the PAVIO.

Connect the other end of the USB cable to the USB port of the PC.

€ The battery will be recharged through USB cable.

IMPORTANT

DO NOT try to Turn on the Pavio when using the USB method to recharge the battery. Wait until charging is complete, and red LED goes off.

How to select disk (memory media)

Because you may use internal memory (Hard Disk) and external memories (SD Card & CF Card) in this PAVIO, so you can select the disk as you like to view files when you have all memories in the PAVIO.

Turn on the Pavio and set to <My movie>, <My picture>, <My music>, <My voice>, or <File manager>.

Press **OK** key.

€ The disk menu and file menu will be displayed

€ The disk menu is highlighted.

⌘ Press / key to select HDD, SD, or CF.

2. **Watching and Recording TV**

To operate TV mode PAVIO must be in the Base.. You must use the AC Adapter as the power source when using PAVIO Base. Because of the built-in TV tuner, it is possible to watch one channel with your PAVIO, while recording another.

Turn on the Pavio .

Select <TV mode> with / / (or VOLUME) key and then press OK key.

€ The TV mode menu will be displayed.

Select [Video input] with / key and then press key.

€ The Video input menu will be displayed.

€ Select [TV in], [AV in], or [S Video] with / key.

Auto Scanning Channels

You can use the PAVIO as a television to watch TV program. This function offers two options: CATV and Antenna. See the Quick Setup Card (supplied in owner's package) for connection details and channel setup.

Timer Recording

NOTES:

€ The PAVIO must be connected to the PAVIO Base.

€ For how to connect the PAVIO Base to DVD (VCD) or TV, please check [Video input] function.

€ The PAVIO must be turned on to stand by.

Turn on the Pavio .

Select <TV mode> with / / (or VOLUME) key and then press OK key.

€ The TV mode menu will be displayed.

Select [Program REC] with / key and then press key.

€ The program time setup menu will be displayed.

Select the item (Year, Month, Day, Start time, End time, Channel, or Frequency) you need to set with / key and set the item with / key.

and return to TV mode menu.

reset.

Choosing the Recording Quality

This PAVIO offers 3 types of recording quality: QVGA (1 Mbs), VGA(2 Mbs), and VGA Fine (4 Mbs).

Turn on the Pavio .

Select <TV mode> with / / (or VOLUME) key and then press OK key.

€ The TV mode menu will be displayed.

Select [Recording quality] with / key and then press key.

€ The recording quality menu will be displayed.

Select a recording quality with / key.

Press OK key to complete the setting and return to the TV mode menu.

How ro Record a TV Program

NOTES:

- € You must use AC Adapter as the power source when recording.

Connecting PAVIO to PAVIO Base

- € Check if the PAVIO has been connected to the PAVIO Base
- € Check if the TV cable has been connected to the PAVIO Base
- € Check if the AC Adapter has been connected to the PAVIO Base

Turn on the PAVIO .

Select <TV mode> with / / (or VOLUME) key and then press OK key.

€ The TV mode menu will be displayed.

Select [Video input] with / and then press key.

€ The Video input menu will be displayed.

Select [TV in] with / key and enter [TV in] mode with OK key.

€ TV program will be played in PAVIO.
