Important Health Warning About Playing Video Games

Photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

GAME OVERVIEW

Throttle up your ATV and check your fear at the starting line as you compete against fifteen rival riders in unique off-road trick-racing events on 36 different tracks. Leap off snow-capped Italian mountains, jump gaping chasms in New Mexico and ride the rim of active volcanoes in New Zealand on your way to victory. Build your ATV from the ground up to create your own unique quad with handling and performance to suit your riding style. Experience extreme speed, catch massive air and nail spectacular airborne tricks while you leave your competition in the dust. Welcome to Off-Road Trick Racing. Welcome to Pure.

PRE-LOAD

This is how you jump your ATV in Pure. Pull the left stick down and flick it up immediately before a ramp to pre-load your ATV and catch air. You should pre-load off of most ramps to get enough air to pull tricks.

*Note: You can use the power accumulated in the Thrill Bar to boost by hitting the **X** button. However, this will deplete your Thrill Bar meter, so boost wisely!*

THRILL BAR

The Thrill Bar indicates what level of tricks you are able to pull off. There are four levels, each increasing in complexity and the amount of boost they give you. They can be activated by filling the level on the Thrill Bar meter.

A button tricks are the most basic.

As you successfully land tricks, the Thrill Bar begins to fill up. As the bar fills up, more difficult tricks become available, as indicated by the button icons arranged on the Thrill Bar. When the Thrill Bar is empty, only **A** button tricks are available.

As you fill it up (by landing tricks without crashing), you will be able to do **B** button tricks, and eventually **Y** button tricks. Watch out though, if you crash or use boost, your Thrill Bar level will reduce and you can temporarily lose the ability to do the more advanced tricks until you build it back up again.

TRICKS

To pull tricks, you have to get air by pre-load jumping. Once you're in the air, you can pull tricks by holding either the **A**, **B**, or **Y** buttons while pushing the left thumbstick in any one of eight directions – UP, DOWN, LEFT, RIGHT or any of the four diagonals. You can only perform **B** or **Y** button tricks if your Thrill Bar level is high enough at the time. Try pulling trick combos but just make sure you have enough air!

*Note: You can "tweak" tricks by holding **LB** or **RB** while performing a trick.*

BOOST

You earn boost by doing tricks and you can use boost to help you win races. You can use the power accumulated in the Thrill Bar to boost by hitting the **X** button. However, this will deplete your Thrill Bar meter, so boost wisely! Saving up boost is always a good idea.

SPECIAL TRICKS

Each rider has their own signature Special Trick and up to seven further Special Tricks. Some of these extra Special Tricks are available right away and others are unlocked by playing through the World Tour.

Once you've earned a special trick by completely filling your Thrill Bar, it can only be taken away by crashing. Unlike the other trick types, you don't lose your Special Trick when you boost. This means that you can use your entire bar of boost if you need to because you can fill the Bar right back up again if you perform another Special Trick.

GAMEPLAY

PURE WORLD TOUR

Compete in offroad stages across seven locations; Italy, New Mexico, Wyoming, Thailand, New Zealand, Glamis Dunes and Ocotillo Wells. Each stage has races, sprints and freestyle events, so be ready to ride them all. Earn new ATV parts, garage slots, paint jobs, new special tricks and character outfits on your way to becoming the Pure World Champion.

RACES

Pit yourself against up to 15 other riders in an all-out trick-filled race to the finish. Tricks give you boost which will help you to win races.

FREESTYLE

Freestyle races are held on some of the most outrageous outdoor tracks in the world. Earn the highest point total in a session to earn the top spot but keep a close eye on your gas gauge – you could run out! These events are all about trick combos because they yield the biggest scores. A red circle will appear after you land a trick. Pull another trick before the circle disappears and you'll link your scores into a combo.

SPRINT

Sprint races are short and intense. With 15 rival riders and very few jumps, Sprints are crowded and brutally competitive.

ONLINE

PURE features online play for up to 16 players. Race, Freestyle, Sprint and Freeride event types are available in online play. Freeride allows you to hang out with your friends online without time pressure or forced objectives. Your scores and lap times are recorded on extensive online leaderboards

THE GARAGE

GARAGE

In the Garage, build your ride from the ground up. Customize everything from seat to tires and handlebars to shocks. With the huge number of different parts available from real world manufacturers, you can generate more than 65,000 different ATVs.

You can store only two custom ATVs at the start of the game. Unlock more as you play through world tour and experiment with different parts and combinations. Design your ATVs for Sprint, Race or Freestyle. You can even design ATVs for specific tracks. Just

watch how vital statistics for your bike change as you choose each part. You can build your bike part by part or simply 'quick-build' your bike by holding the **X** or **Y** buttons for race or freestyle spec respectively. Remember to revisit your old ATV designs when you unlock new parts.

Note: You can't Quick Build sprint quads.

RIDERS

There are six different riders to choose from, each with different riding styles and a unique Special Trick.

MULTIPLAYER

You can play online with up to 15 other players through Xbox LIVE®.

XBOX LIVE®

Play anyone and everyone, anytime, anywhere on Xbox LIVE®. Build your profile (your gamer card). Chat with your friends. Download content at Xbox LIVE® Marketplace. Send and receive voice and video messages. Get connected and join the revolution.

CONNECTING

Before you can use Xbox LIVE, connect your Xbox 360 console to a high-speed Internet connection and sign up to become an Xbox LIVE member. For more information about connecting, and to determine whether Xbox LIVE is available in your region, go to www.xbox.com/live/countries.

FAMILY SETTINGS

These easy and flexible tools enable parents and caregivers to decide which games young game players can access based on the content rating. For more information, go to www.xbox.com/familysettings.
