

Application for the Electromagnet:
EM-NH2350 Series

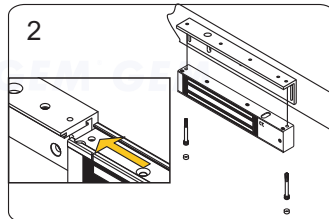

Unit:mm

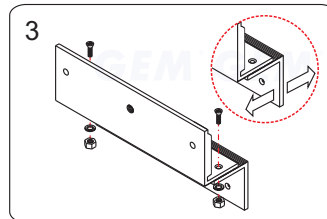

Installation Steps of LZ bracket for In-swinging doors

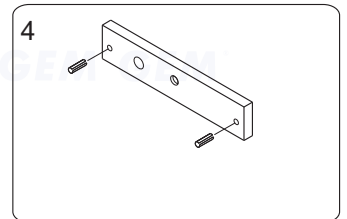

1 Find a mounting location on the door frame for the L bracket. Make sure that the door is still closeable.

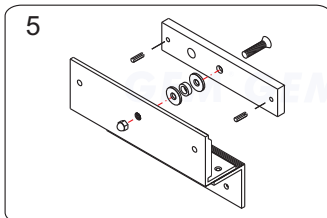

2 Slide the electromagnetic lock to fit with the mounting plate and tighten the electromagnetic lock on the L bracket.

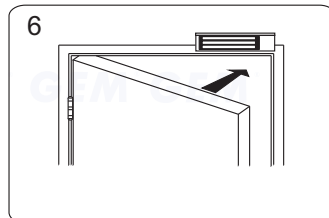

3 Assemble the Z bracket, and make sure that the Z bracket is adjustable.

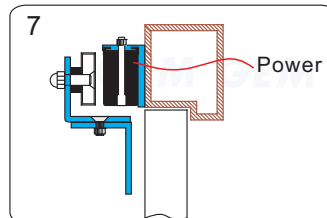

4 Insert the guide pins into the armature plate.

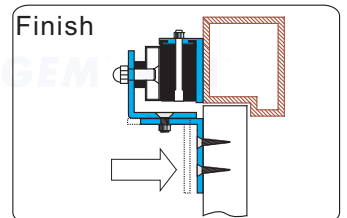

5 Put one rubber washer between armature plate and the Z bracket.

6 Close the door. Measure the correct position by bringing the armature plate close to the contact surface of the electromagnetic lock.

7 Turn on the power of EM-Lock, and let the armature plate bonds to the EM-lock. Adjust the position between the Z bracket and the door frame.

Finish Once the position is correct, use the screws to permanently mount the Z bracket on the door frame. This should be the last step.
