

Ericsson T68

**SyncML
vCard**

**Setting up Ericsson T68 to synchronise with SaveMyContacts
Please ensure your WAP provider has configured your phone for WAP/GPRS access.**

SyncML set up (Step by step guide)

Go to Menu and Select *connect* -

**then go to *Synchronization* - Click *synchronisation*. You should now see (*synchronise*, *server settings* and *sound*. Click *server settings*. You should see six fields. Scroll down to *server user id* and then click
Type in your mobile number in international format i.e. 447766xxxxxxx**

**Go back to *server settings*, scroll down to *server pwd* and then click
Type in your 4 digit pin**

**Go back to *server settings* and scroll down to *server URL*
Type in *www.savemycontacts.com/sync.jsp***

Go back to *server settings* and scroll down to *phonebook path*, then click. You will see three fields under *phonebook path* i.e *path*, *server user ID* and *server pwd*. Only the first one needs filling in. Click on *path* and type in *contacts* i.e

**Path: *contacts*
(Please note this is case sensitive)**

Sending contacts to application

Go to phonebook then click on business cards
Then click on send contact; you will see find
Find contact you want to back up and press Send as SMS
send to application number +44 7781 489444
(we recommend you save this number as a contact . Call it SMC).

Retrieving contacts from application

Compose SMS as in the following example. *smc* is the application name ; *223* is the retrieve command, the third field is your phone number starting with country code. The fourth field is your PIN, the *symbols separate the fields so the application can understand your request, and the # symbol signals the end of the command
.i.e. *smc*223*447766570001*1111#*

We advise that you save command as a text template which you can edit to suit!!!!

The application pauses after sending 10 contacts. To continue, send *smc*224* to application number. every contact retrieved will deduct a unit from your credit. For other commands you can send to the application please see next page.

Command List

- 222 Registration and subsequent topping up**
- 223 retrieve all contacts**
- 224 Confirm continue restore (also *yes can be used)**
- 225 Halt restore**
- 226 Status enquiry credit units contacts etc**
- 227 Change of phone number notification**
- 228 Retrieve specific contact i.e `smc*228*447766570001*1111#john`**
