

USER MANUAL

Download from Www.Somanuals.com. All Manuals Search And Download.

Dear user,

welcome to the installation of your **Freecom HD Dock**. Before installing the drive, please read through the following points regarding its compatibility with your system.

Freecom Technologies • Germany www.freecom.com

Contents of the box

Please check the contents of the box; the following items should be included:

- Freecom HD Dock
- USB 2.0 cable
- eSATA cable
- External power supply (DC12V/2A)
- Manual on CD
- Quick Install Guide

Warning!

All rights reserved. The products named in this manual are only used for identification purposes and may be trademarks or registered trademarks of the respective companies. This device was designed for home or office use.

<u>Warning!</u> This device is equipment complying with EN55022 class A. This equipment can cause radio disturbances in a residential area. If this is the case, the user has to take appropriate measures and assume all responsibility and costs for. It may not be used near or with any life-sustaining systems.

Freecom cannot be made liable for any damages, loss of data or damage following thereof -whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or other pecuniary loss) arising out of the use of or inability to use this Freecom product, even if Freecom has been advised of the possibility of such damages.

We reserve the right to upgrade our products in keeping with technological advances.

Trouble shooting	- FAQ	Page	17
------------------	-------	------	----

General information

The following hardware and software requirements must be fulfilled to ensure troublefree operation.

System requirements

In order to use the Freecom HD Dock, following components are needed:

PC:

- Intel Pentium III / AMD Duron 900 MHz or higher
- 256 MB RAM (Vista: 512 MB RAM) or higher
- Available USB 2.0 or USB 1.1 port*

or

Available eSATA port

- · Internet connection for online warranty registration
- Operating system: Windows XP, Windows Vista

Mac:

- PowerPC G3/G4/G5, Mac Book Pro or Intel Mac
- 256 MB RAM or higher
- Available USB 2.0 or USB 1.1 port*

or

Available eSATA port

- · Internet connection for online warranty registration
- Operating system: Mac OS X v10.4 or higher

Environment

Operating temperatur: 5°C - 35°C. Operating humidity: 5-90%, non-condensing

^{*} To achieve optimal performance from the Freecom HD Dock your PC should be equipped with an USB 2.0 port.

Precautionary Measures and General Notes

- Make sure the label side of the hard drive is ahead, and the hard drive connector is downward before it is inserted. Otherwise, the hard drive can not be inserted.
- Do not eject the hard drive while it is working.
- Hold the hard drive with its front edge instead of the PCB at the bottom side.
- Hard drives are precise equipment. Read the user manual attached with the hard drive before using.
- Do not put anything inside the product except 2.5" or 3.5" SATA I/II hard drives.
- Freecom warranty this product against defects of materials and workmanship under normal use, Freecom cannot be made responsible for any damage caused by accident, abuse, misuse etc, nor any hardware/software damage or data loss.

The surface temperature of hard drive may reach 50°C, please mind and be careful, altough it is not hot enough to burn people.

Features

- Works under open space, no dissipating device for hard drive is needed.
- Supports 2.5" & 3.5" SATA I/II hard drive
- Supports USB 2.0 up to 480 Mbps, compatible with USB 1.1 up to 12 Mbps.
- Supports 1.5 Gbit/s or 3.0 Gbit/s SATA HDD
- Supports hot swaps
- Unique hard drive ejection apparatus

Specification

- Interface: USB 2.0/eSATA to SATA
- Speed: 480 Mbps (USB 2.0), 12 Mbps (USB 1.1)
- Material: Plastic/Metal
- Weight: 295 g
- Dimensions: 125 (L) x 80 (W) x 72 (H) mm

Freecom HD Dock

Chapter 1: Start Up the HD Dock

1.1 HDD installation for 2.5" or 3.5"

1. Connect the cable of the power supply to the Freecom HD Dock and the power supply itself to the socket.

2a. **USB:** Connect the USB cable to the USB port on the HD Dock (for data transfer with USB).

or

2b. **eSATA:** Connect the eSATA cable to the eSATA port on the HD Dock (for data transfer with eSATA).

3. Vertically insert the hard drive into the drive slot, make sure the hard drive matches firmly with the connector inside the dock.

4. Switch on the HD Dock.

1

5. Partition and format your hard drive (if required). See chapter 3 for further details.

> PC: Your hard drive appears in "My Computer" and can be used now.

> Mac: Your hard drive appears on the desktop and can be used now.

LED on: HD Dock switched on

LED flashes: Data transfer

Chapter 2: Ejecting the HD from the Dock

1. Switch off the power.

2. Press the button down.

1.2 LED

Chapter 3: Partitioning your HD

3.1 General information

Your hard drive must be partitioned and formatted before it can be used. This chapter describes current limitations of most common file systems and instructions to enable you to adapt your hard drive to your needs.

3.2 File System features

Please refer to the tables below for an overview:

File systems supported by different operating systems

File system Operating system	FAT	FAT32	NTFS	HFS+
Windows XP / Vista	yes	yes	yes	no
Mac OS X	yes	yes	yes (only read)	yes

Maximum size of a partition

File system Operating system	FAT	FAT32	NTFS	HFS+
Windows XP / Vista	4 GB*	32 GB	16 TB	-
Mac OS X 10.1.x	-	128 GB	-	2 TB
Mac OS X 10.2.x	-	128 GB	-	8 TB
Mac OS X 10.3.x	-	(-> 128 GB)	-	16 TB
Mac OS X 10.4.x	-	(-> 128 GB)	-	16 TB
Mac OS X 10.5.x	-	(-> 128 GB)	-	16 TB

* FAT partitions larger than 2 GB can only be administrated by Windows 2000 / XP / Vista.

4. Choose the hard disk which is "unallocated". Ensure that the entire drive is "unallocated".

Download from Www.Somanuals.com. All Manuals Search And Download.

Partitioning your HD

File system Total size of HD	NTFS	FAT32
80 GB	60 GB	20 GB

Example for different partitions with different file systems on one HD

Note: On NTFS formatted hard disks data can only be written under Windows XP / Vista. Under Mac OS X data can only be read.

The example above is a good solution for Windows XP / Vista users who sometimes exchange data with Macs.

For storing the data under Windows XP / Vista both partitions can be used. As the NTFS file system can only be read by Mac data to be used on this operating system must be stored on the FAT32 partition.

Please follow the steps below to adapt your hard drive for your needs.

3.3 Partitioning your hard drive under Windows XP / Vista

3.3.1 Deleting a partition on the hard drive

- 1. Click with the right mouse button on the "My Computer" icon on your desktop.
- 2. Select the option "Manage".
- 3. Select the option "Storage" -> "Disk Management".
- 4. Choose your external hard drive and right-click on the partition.
- 5. Select "Delete Partition" and confirm by clicking on "Yes". The partition will be deleted now.

3.3.2 Creating a partition on the hard drive

The following steps will guide you through the process of creating partitions on your hard drive. After this procedure your hard drive will be ready for use and it will be allocated a drive letter.

- 1. Click with the right mouse button on the "My Computer" icon on your desktop.
- 2. Select the option "Manage".
- 3. Select the option "Storage" -> "Disk Management".

S Computer Management										- 2 2
B Elle Action Yew Window B										×
Conjecter Management (Local) System Tools System Tools Starten Tools Starten Tools Starten Tools Starten Tools Device Management Starten Tools Starten Tools Star	Volume (C) CATENI (D) DATENI (D) DATEN	Partition Basil Partition Basil Partition Basil	FAT32 FAT32 FAT32 FAT32 FAT32	Statu Heathy (System) Heathy Heathy Heathy (Unknown Partition) Heathy (Unknown Partition)	4,09 GB 11,71 GB 11,71 GB 13,81 GB 1016 MB	4,84 G8 7,73 G8 638 MB	15 Pree 12 % 60 % 41 % 55 % 62 % 60 %	Fault Tolerance No No No No No No	Overhead 0% 0% 0% 0% 0% 0%	
	GPDisk 9 Basic 14,32 GB Online	WIN 98 1020 MB F4 Healthy (JJ	if32 known Partos	WIN 2000 4, 59 GE NTFS Healthy (Unknown Partbon)		(28 NTPS by (System)		3,55 GB Unallocated		
	Basic 14,32 GB	1020 MB F#	Azown Partitie	4,89 GB NTFS	4,29 Healt	G8 NTPS			2	
	Basic 14,32,68 Online Opisk 1 Sasic 37,27 (20)	DATEN1 (11,72 GD P	known Partib R() K132	4,89 GB NTFS Healthy (Unknown Partition) DATEN 11,72 G	4,29 Healt	G8 NTPS		Unallocated IMAGE (F:) 13,83 GD PATS	2	

5. Click with the right mouse button on the "unallocated" area and select the option "New Partition". The "New Partition Wizard" opens. Click on "Next".

6. Select "Primary partition" and click on "Next".

Sel	ect Partition Type There are three types of partitions: primary, extended, and logical.
	Select the partition you want to create:
	Primary partition
	O Extended partition
	O Logical drive
	Description
	A primary partition is a volume you create using free space on a basic disk. Windows and other operating systems can start from a primary partition. You can create up to four primary partitions or three primary partitions and an extended partition.

7. Now you can adjust the size of your partition. Click on "Next" if only one partition is to be created. See next chapter (Creating two or more partitions on the HD under Windows XP / Vista) how to create more than one partition.

Specify Partition Size Choose a partition size that is between the	e maximum and minimum sizes.
Maxium disk space in megabytes (MB): Minimum disk space in MB: Partition size in MB:	19540 8 19540
	<u>⟨B</u> ack <u>N</u> ext> Cancel

8. Assign a drive letter to your hard disk. Normally you can use the default options. Click on "Next".

3

Freecom HD Dock

9. Select the formatting option "Format this partition with the following settings". Choose either "FAT32" or "NTFS", the "Allocation unit size" should remain on "Default". Finally select "Perform a quick format" and click on "Next".

Format Partition To store data on this partition, yo	u must format it first.		
Choose whether you want to form	nat this partition, and if sc	, what settings you want t	o use.
O Do not format this partition			
Egrmat this partition with the second sec	e following settings:		
<u>File</u> system:	FAT32	~	
Allocation unit size:	Default	~	
⊻olume label:	FREECOM HDD		
Perform a quick form	iat		
Enable file and folde	r compression		

10. Click on "Finish" to complete the partitioning of your hard drive. Your hard drive will be formatted now and is ready-to-use afterwards.

Completing the New Partition Wizard You have successfully completed the New Partition Wizard.
You selected the following settings: Partition type: Frinary participant Partition type: Frinary participant Drive letter or part: 1: File system: FA122 Allocation unit size: Default Yolume label: Freecorn HDD Drivek format: Yes To close this wizard, click Finish.
< <u>B</u> ack Finish Cancel

3.3.3 Creating two or more partitions on the HD under Windows XP / Vista

- 1. Repeat the steps from the previous chapter (Creating a partition on the hard drive under Windows XP / Vista) for creating the first partition.
- 2. Click with the right mouse button on the "My Computer" icon on your desktop.
- 3. Select the option "Manage".
- 4. Select the option "Storage" -> "Disk Management".
- 5. Right-click on the unallocated space of your hard drive and select the option "New partition". The "New Partition Wizard" opens. Click on "Next".
- 6. Select "Extended partition" and click on "Next".

Sel	ect Partition Type There are three types of partitions: primary, extended, and logical.
	Select the partition you want to create:
	O Primary partition
	Extended partition
	O Logical drive
	Description
	An extended partition is a portion of a Master Boot Record (MBR) basic disk that can contain logical drives. Use an extended partition if you want to have more than four volumes on your MBR basic disk.
	<back next=""> Cancel</back>

7. Now you can adjust the size of your partition. Enter the size and click on "Next".

ew Partition Wizard							
Specify Partition Size Choose a partition size that is between the maximum and minimum sizes.							
Maxium disk. space in megabytes (MB): Minimum disk space in MB: <u>P</u> artition size in MB:	9539 8 9639 🜩						
	< Back Next> Cancel						

8. Click on "Finish" to create the "Extended partition". The unallocated space now changed to "Free space".

- 10. "Logical drive" is already selected. Click on "Next".
- 11. Specify the partition size and click on "Next".
- 12. Assign a drive letter and click on "Next".
- 13. Select the formatting option "Format this partition with the following settings". Choose either "FAT32" or "NTFS", the "Allocation unit size" should remain on "Default". Finally select "Perform a quick format" and click on "Next".
- 14. Click on "Finish" to complete partitioning. Your partition will be formatted now and is ready-to-use.

Note: If you select NTFS as file system, the data of your HD Dock can be read only under Mac OS X. There is no possibility to write data.

3.4 Partitioning your HD under Mac OS X

- 1. Open the "Disk Utility". This can be found in "Applications" —> "Utilities".
- 2. Click on the tab "Partition".

00		FUJITSU MHZ22508	BH G1 Med	dia

Here you can setup the partition settings and partition the drive according to your settings (e.g. Mac OS Extended). Detailed information how to use the Disk Utility can be found in the help:

EN

Chapter 4: Trouble shooting - FAQ

If you still have problems getting your Freecom HD Dock to function properly despite having installed it correctly, then please check the following items:

• What can I do when the hard drive does not work and there is cklicking noise arising from it?

It means the power supply is not adequate enough to start the hard drive. Make sure the power plug (power adaptor and cable) is inserted, and connect the USB or eSATA cable to the counterpart ports.

• When I finished the hardware installation following the manual, the external device failed to be detected by the system. Why?

Please check the hard drive, and format it if it is a new one.

If using eSATA to transfer, please check whether your motherboard supports hot swap. If not, connect the Freecom HD Dock to the eSATA port on computer before starting it. 4

WARRANTY (valid in Europe/Turkey only)

We thank you for purchasing this Freecom product and hope you will enjoy using it. In order to avoid unnecessary inconvenience on your part, we suggest reading the quick install guide, instruction manual and any additional electronic and or printed manuals. When problems occur we have a database with Frequently Asked Questions (FAQ) on our Freecom website (www.freecom.com), please check this site before you contact the helpdesk.

Your Guarantee

All Freecom products come with unlimited technical phone and web support. By this Guarantee, Freecom warrants their products to be free from defects in material and workmanship for a period listed below from the date of its original purchase. If during this period of guarantee the product proves defective due to improper materials or workmanship, Freecom will, without charge for labour or parts, at its sole discretion, repair or replace the product or its defective parts upon the terms and conditions set out below.

Conditions

This guarantee will be granted only when the original invoice or sales receipt (indicating the date of purchase, product and serial number) is presented together with the defective product and a Freecom RMA number received from the Freecom Website or given by a Freecom Service Center. Freecom reserves the right to refuse the free-of-charge guarantee services when the date of purchase of the product cannot be proven. This guarantee will not apply if the RMA number is missing, the serial number on the product has been altered, removed or made illegible.

This guarantee covers only the hardware components packaged with the product. This guarantee covers none of the following: (a) any consumable supplied with the product, such as media or batteries; (b) damage to or loss of any software programs, data or removable storage media; (c) any damage resulting from adaptations, changes or adjustments, which may have been made to the product, without the prior written consent of Freecom; (d) attempted repair by any party other than authorized by Freecom and (e) accidents, lightning, water, fire or any other such cause beyond the reasonable control of Freecom.

With respect to all services provided, Freecom is not responsible for any damage to or loss of any programs, data or other information stored on any media or any part of any product serviced. Freecom is not liable for the consequence of business loss in case of system failure. Be sure to exclude all parts not covered by this guarantee prior to returning the product to Freecom. Freecom is not liable for any loss or damage to these items. If during the repair of the product the contents of the hard drive are altered, deleted or in any way modified, Freecom is not liable whatsoever.

Repair parts and replacement products will be provided on an exchange basis and will be either new, equivalent to new or reconditioned. All replaced parts and products become the property of Freecom The period of guarantee for any product or part repaired or replaced in warranty shall be the balance of the original guarantee. Repairs or replacements on product or parts out of warranty carry **6 (six)** months guarantee.
