When using headphones

Avoid damaging your hearing: do not play your headset at a high volume. Hearing experts advise against continuous extended play. If you experience a ringing in your ears, reduce the volume or discontinue use.

Do not use while operating a motorized vehicle. It may create a traffic hazard and it is illegal in many areas. You should be extremely cautious or temporarily discontinue use in potentially hazardous situations. Even if your headphones are of an "open air" type, do not turn up the volume so high that you cannot hear what is going on around you.

Contents of the box

Before starting to use your Freecom Beatman Flash, please check the box for the following contents.

Freecom Beatman Flash MP3/WMA player

Software CD

Quick Install Guide

Duracell Ultra M3 AAA size battery

Sennheiser headphones

USB cable for connection to PC

Neck-strap

Warranty card

Cover labels

Contact your local Freecom dealer/retailer or the Freecom Support Center for your country (see page 30) if any of the above items are missing from your box. Do not forget to register your Freecom Beatman Flash by visiting www.freecom.com or by filling out the warranty card.

Minimum System Requirements for Digital Audio Manager Software

- Intel Pentium 133 MHz
- 32 MB RAM
- 40 GB free hard drive space
- CD-ROM drive
- Windows 98 SE, ME, 2000 or XP
- Available USB port

Precautionary measures

To ensure that your Freecom Beatman Flash functions properly, please take note of the following precautions. If these are not followed, you may void your warranty and damage the Beatman Flash.

- Do not drop the Freecom Beatman Flash or expose it to other kinds of excessively heavy shocks, as this may result in the unit malfunctioning.
- Do not use the Freecom Beatman Flash when the ambient temperature is below 10°C or above 45°C and in direct sun-light.
- If the Freecom Beatman Flash is moved from a cool environment to a
 warmer environment, please allow it to acclimatize to the ambient
 temperature before operating the device. Failing to do so may lead to
 condensation within the enclosure, which in turn may cause it to
 malfunction.
- Do not place liquids or drinks on the Beatman Flash. When liquids are spilled and get in contact with the electronics within the device enclosure, it will damage the Beatman Flash and will cause it to malfunction.
- Do not use the Beatman Flash in a dusty environment. Dust inside the enclosure may damage the internal electronics and result in a malfunction.
- Opening the Beatman Flash will void the warranty.

CHAPTER 1: Start up - Hardware Installation

1.1 Inserting battery & connecting headphone

- Unlock battery cover by sliding the battery hold switch in the direction shown.
- 2. Slide the battery cover in the direction shown to open the battery cover.
- 3. Insert one AAA-size battery as shown, with the side touching the spring inside the battery cover.

Note: Batteries contain chemical substances. When empty, they should be properly disposed of.

- 4. Slide the battery cover back.
- 5. Lock the battery cover by sliding the lock-switch back.
- 6. Insert the headphone jack into the headphone connector, as shown.

GB USA

1.2 Connecting the Beatman Flash to your PC

- 1. Insert the large USB connector into a USB port (USB 1.1 or 2.0) of your PC
- 2. Insert the small USB connector into the USB connector of the Beatman Flash.

Note: If you connect the USB cable when the Beatman Flash is still playing, it may cause the unit to malfunction. To avoid this, please only connect the USB cable when the Beatman Flash is in Power Off or Pause mode.

CHAPTER 2: Installing the Digital Audio Manager software

Notes: Check <u>www.freecom.com</u> for the latest software-versions and updates.

1. Insert the software CD ("FC Beatman Flash") into your CD-ROM drive.

Click "Digital Audio Manager Software" to continue.

Select destination directory (we advise you to accept the default selection) and click "Next" to continue

GB

USA

4. Cick "Next" to continue

5. Click "Finish" to finish installation. You can access Digital Audio Manager from the Programs menu in the Windows Start menu.

CHAPTER 3: Driver Installation

3.1 Installing Windows 98 SE USB driver

- 1. Make sure the Freecom Beatman Flash is connected to the PC by using the supplied USB connection cable.
- 2. Switch the Freecom Beatman Flash on.
- 3. The "Add New Hardware Wizard" opens and a "USB Device" is found.

Click on "Next".

In the next window select "Search for the best driver for your device. (Recommended)".

GB USA

Click "Browse". Select the CD-ROM drive with the Digital Audio Player software.

Continue by clicking on "Next".

6. Follow the instructions on screen. The necessary files will be installed. Click on "Finish" to complete the installation.

3.2 Installing Windows Me USB driver

- 1. Make sure the Freecom Beatman Flash is connected to the PC by using the supplied USB connection cable.
- 2. Switch the Freecom Beatman Flash on.
- 3. The "Add New Hardware Wizard" opens and a "USB Device" is found.

Click on "Next".

4. The necessary files will be installed. Click on "Finish" to complete the installation.

GB

USA

- 1. Make sure the Freecom Beatman Flash is connected to the PC by using the supplied USB connection cable.
- Switch the Freecom Beatman Flash on.
- 3. The "Add New Hardware Wizard" opens and a "USB Device" is found.

Click on "Next".

4. In the next window select "Search for a suitable driver for my device (recommended).

Make sure that the checkbox "CD ROM drive" is activated in the next window.

Continue by clicking on "Next".

6. In the next window a massage is shown, that a driver for an USB device is found.

GB

7. The necessary files will be installed. Click on "Finish" to complete the installation.

3.4 Installing Windows XP USB driver

- 1. Make sure the Freecom Beatman Flash is connected to the PC by using the supplied USB connection cable.
- 2. Switch the Freecom Beatman Flash on.
- 3. The "Add New Hardware Wizard" opens and a "USB Device" is found.

4. Click "Continue Anyway".

5. The necessary files will be installed. Click on "Finish" to complete the installation.

GB USA

CHAPTER 4: Every day use

4.1 Starting the program

Please select the "Freecom Digital Audio Manager":

Click "Start" - "Programs" - "Freecom Digital Audio Manager" - "Freecom Digital Audio Manager".

Select the music files you want to transfer and "drag and drop" them to the screen on the right.

3. To transfer / change / remove files or to format the memory, please select the operation menu

4.2 Description of the menus

MENU	SUBMENU	DESCRIPTION
OPERATION	DOWNLOAD SELECTED FILES FROM PC TO PLAYER	Download selected data or files from PC into internal/ external memory (Drag & Drop)
	UPLOAD SELECTED FILES FROM PLAYER TO PC *)	Upload selected data or files from internal/external memory of Player to PC (drag & drop)
	REMOVE SELECTED FILES FROM PLAYER	Delete selected data or files from internal/external memory of Player
	REMOVE ALL FILES	Delete all data or files from internal and/or external memory of Player
	FORMAT	Format all internal/external memory of Player
	FORMAT ALL MEMORIES	Format all selected data or files in internal and/or external memory of Player
	CANCEL OPERATIONS IN QUEUE	Cancel operation of selected DOWNLOAD/UPLOAD/DELETE in queue
	CANCEL ALL OPERATIONS	Cancel all operations of DOWNLOAD/UPLOAD/DELETE in queue
VIEW	MEMORY	Option for viewing selected memory in internal/external memory. You can select and view one of [NAME,STORAGE, SIZE, DATA]
	PC	Option for viewing data in PC. You can select and view one of [BIG ICON, SMALL, ICON, LIST, REPORT]
ABOUT	ABOUT	Information on Digital Audio Manager software

^{*)} Note: When "UPLOAD SELECTED FILES FROM PLAYER TO PC" is selected:

^{1.} MP3 and WMA files can not be uploaded from Player to PC.

^{2.} Voice files will be converted into .wav and stored on the PC.

GB **USA**

4.3 Operating instructions

Power on

- 1. Press the " > " button to turn the power on.
- 2. After Power On, music will start immediately (when autoplay is activated).

Pause / Power off

- 1. Press " ▶ " button during playback to <u>pause</u> the player.
- 2. To turn the power off, press " ▶ " button for more than 2 seconds when the player is in pause mode.

Hold On/Off

The Hold function locks all buttons.

- Slide the hold switch in the direction of the arrow to activate Hold function.
- 2. Slide the hold switch back to de-activate Hold function.

Volume Control

Press Vol. +/- on the left side of the player to adjust the volume. Volume range is 0 (minimum) to 30 (maximum).

GB

Fast Backward & Fast Forward

the song.

Press and hold " >> " button during playback to search fast forward within the song.

Previous / Next Track

- 1. Press " → " button to move the next song.
- 2. Press "∢" button to move the previous song.

Loop repeat

- Press "Rec/A.B" button shortly during playback to mark the beginning of the loop. "A > " will flicker in the display
- Press "Rec/A.B" button shortly again to mark the end of the loop.
 "A ▶ B" will appear in the display and the loop is played repeatedly.
- 3. Press "Rec/A.B" button shortly again to exit the loop.

Deleting Files

Press "Rec/A.B" button for a few seconds during playback to delete the song currently playing.

GB

USA

Intro

- 1. Press " > " button for a few seconds to activate the intro mode: the first 10 seconds of each song will be played in sequence.
- 2. Press " ▶ " again to exit the intro mode.

MODE Setting

- 1. Press " ▶ " button to pause music while playing.
- Press MODE button for a few seconds to enter the MODE menu.
- 3. Scroll through the menu by pressing VOL +/- buttons.
- 2. Change the setting by pressing "≪" or "▶" buttons.
- 3. Press MODE button for a few seconds to exit mode menu.

See table on page 26 for a detailed description of the mode settings.

FEDERAL COMMUNICATIONS COMMISSION - DECLARATION OF CONFORMITY

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules, and RS 210 Regulations (Canada). These limits are designed to provide reasonable protection against harmful interference in a residential area. This equipment generates, uses, and can radiate radio frequency energy and if, not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by running the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that
- to which the receiver is connected.
- Consult the dealer or an experienced radio technician for help.
