Handle on the left side, the door swings left to right.

**ZIF36NMLH, Freezer**
Handle on the right side, the door swings right to left.

## Caution

Refrigerators are much heavier at the top than at the bottom – be extra careful when moving.

- To achieve a flush fit, the finished cutout width must be at least 36" wide.

- In a semi-flush installation, the finished cutout must be 35-1/2".

- The electrical and water locations must be located as shown for either type of installation.

# ZIF36NM – GE Monogram 36" Built-In All-Freezer

## 1/4" Accessory Panels:

Factory trim accepts accessory panel kits. Panels are cut to size and ready to install. Kits must be ordered separately.

| Models | White Lexan® | Black Lexan® | Stainless Steel |
|---|---|---|---|
| ZIR36/ZIF36 | ZWWR36 | ZWBR36 | ZWSR36 |

### Door Handles – To match or complement cabinetry!

**ZKHR1** – Provides the necessary framework to install a custom handle of your choice, onto a 1/4" thick custom panel. (Handle not included.)

**ZKHTR1** – Provides the necessary framework to install a custom handle of your choice, onto a 3/4" thick custom panel. (Handle not included.) This kit must be used in combination with ZKTR36LH or ZKTR36RH.

**ZKHRSS1** – Tubular stainless steel handle for 1/4" thick panel installation.

**ZKHTRSS1** – Tubular stainless steel handle for 3/4" thick panel installation. This kit must be used in combination with ZKTR36LH or ZKTR36RH.

### Custom Panels – Match the cabinetry!
**ZKTR36LH for ZIR36NMLH, ZIF36NMLH**
**ZKTR36RH for ZIR36NMRH, ZIF36NMRH**

Provides for the installation of 3/4" thick custom door and grille panels. Use this kit for a trimless appearance. This kit provides a standard handle to fit the 3/4" panel.

### Grille Panel – For Installation height adjustments!

**ZGC2** – Provides 1/4" grille panel frame side pieces for 83-1/2" and 84-1/2" installation heights. The supplied grille panel frame is set for 84".

### Side-by-Side Installation

**ZUG75 Trim Kit** – For side-by-side installation of two trimmed units. This kit provides for the installation of a unified 3/4" grille panel to span the width of two units. This kit contains a trim strip to cover the inside case trim for a finished appearance. This kit must be used in combination with BOTH the ZKTR36LH and ZKTR36RH kits.
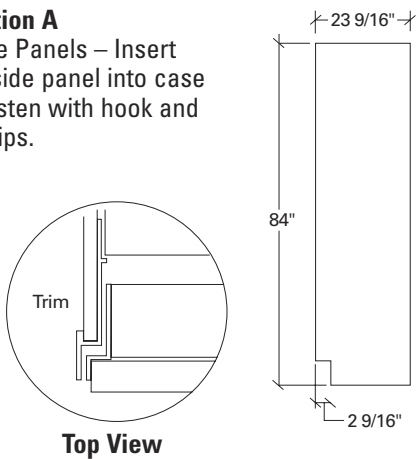

---

- Side panels are required whenever the sides of the product will be exposed and when installed between frameless cabinets.
- Side panels are not required when installed into an enclosure.
- Side panel installation will be determined by the design of the side panel you have previously chosen.
- Side panels must be installed plumb.

- If you choose to use 1/4" side panels, they should be inserted into the case trim as illustrated. Fasten the panels to the product with stick-on hook and loop fastener strips (not provided) before setting in place. See illustration A.
- 1/2" to 3/4" side panels are normally set into place and fastened to adjacent cabinetry or the back wall before rolling the product into the opening. See illustration B.

**Illustration A**

1/4" Side Panels – Insert end of side panel into case trim. Fasten with hook and loop strips.

## Clearances

• Factory set for a 130° door swing. Order WX14X99 adjustable door stop to reduce swing to as little as 90°.

**When Installed into a corner:**

Allow 25" for a full 130° door swing. Allow 15" for pan removal. Allow 4" min. clearance when door swing is adjusted to a 90° opening for pan access, but pan removal is restricted.

When installing an All-Refrigerator and All-Freezer side-by-side, allow 25" for a full 130° door swing, or 15" min. on the hinge sides for pan access.

# ZIF36NM – GE Monogram 36" Built-In All-Freezer
**Design Information**
**Flush or Semi-Flush Enclosure Installation**

### True Flush Installation

**True Flush Installation**
In a flush installation, the freezer doors will align evenly with the front face of adjacent cabinet doors. The freezer blends into the surrounding cabinetry.

0"

Monogram built-in refrigerators and freezers can be installed flush with typical 24-3/4" deep cabinetry.

When installed semi-flush, the case trim will conceal slight gaps around the enclosure. The refrigerator will project forward approximately 3/4" beyond the front face of surrounding cabinetry.

### Semi-Flush Installation

**Semi-Flush Installation**
These freezers can also be installed semi-flush into an enclosure using the minimum cutout width. The case trim creates a frame around the opening.

3/4"

**Side Panel Requirements:**
• Side panels are not required whenever the refrigerator or freezer is installed into an enclosure or between pantry and oven cabinets.
• Side panels are required whenever the sides of the product are exposed.
• Side panel sizes vary depending on the type of installation being made.

**To accomplish an attractive installation, you must**:
1. Determine the need for side panels.
2. Determine side panel thickness.
3. Order matching side panels from the cabinet manufacturer. Be sure to provide the exact dimensions.
