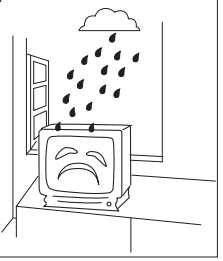
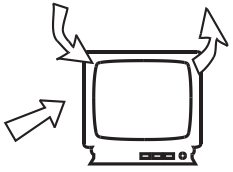
Warning and cautions

1. When you clean the TV set, please pull out the power plug from AC outlet. Don't clean the cabinet and the screen with benzene, petrol and other chemicals.

4. To prevent the TV set from firing and electric shock, don't Make the TV set rain or moisture.

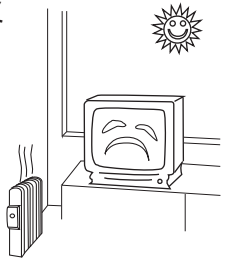


2. In order to prolong the using life of the TV set, please place it on a ventilated place.

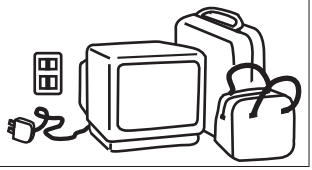


5. Don't open the back cover, otherwise it is possible to damage the components in the TV set and harm you.

3. Don't place the TV set in the sunshine or near heat source.



6. When the TV set isn't going to be used for long time or it is in thunder and lightening, please pull out the plug from AC outlet and the antenna plug from the cover of the TV set.



Explanation on the display tube

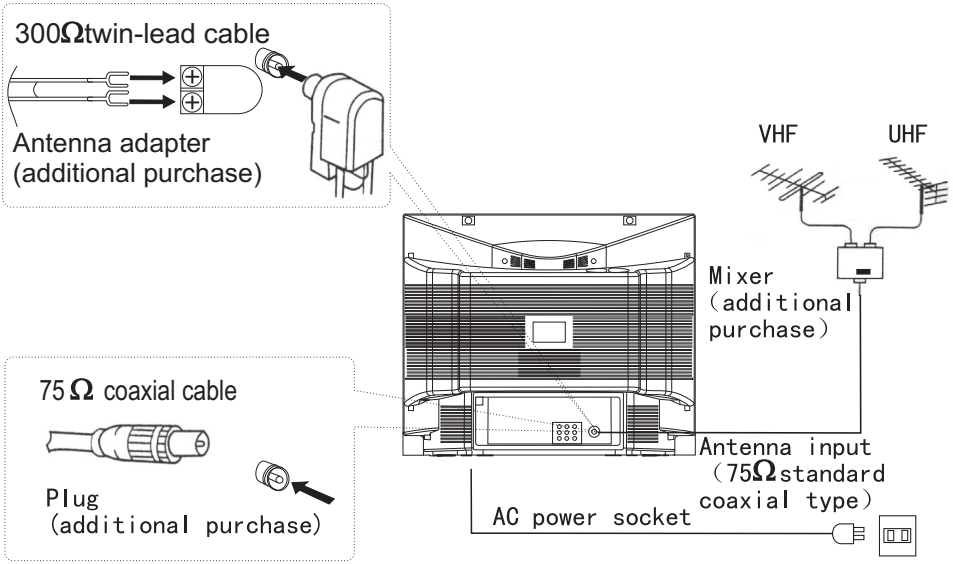
In general, it is not needed to clean the tube surface. However, necessary, it's surface can be cleaned with a dry cotton cloth after cutting off the power. Don't use any cleanser. If using hard cloth, the tube surface will be damaged.

Download from Www.Somanuals.com. All Manuals Search And Download.

Installation

Antenna connection

Generally speaking, to enjoy a clearer picture, we recommend that you use a CATV system or an outdoor antenna .In different places, the suitable antenna type and position are different.



Note：

* It is recommended that you'd better use 75Ωcoaxial cable to remove the disturbance caused by airwave.

* Don't bind antenna cable and power wire together.

Preparation of the remote control unit

Battery installation

Take off the battery compartment cover. Place two AA batteries, make sure that battery polarity matches with the +/- mark inside the battery compartment.

Operation notes for the remote control unit

- Under normal conditions, the life time of batteries is one year.
- If you don't intend to use the unit for a long period or the electricity of the batteries is used up, remove the batteries to prevent batteries acid from leaking into the battery compartment.
- Don't throw your batteries into a fire. Dispose of your batteries with a specified method.
- Avoid the falling and the wetting of the remote control unit.

DVD, VCD and other reproducing equipments

Download from Www.Somanuals.com. All Manuals Search And Download.

Troubleshooting

- If the TV set has breakdown, please check according to the following list.

	Checking
No power supply	• If power line is connected?
No sound	• Whether sound mute is used?
Bad colour/ hue	• Whether the adjustments of contrast, colour and hue are suitable? • If the position of the TV set is changed during its work, the colour shadow may appear. • If this case occurs, please switch off the power supply for TV set and let it cool for about 30 minutes, then switch on the power supply again.
Colour spot Scramble	• If there are disturbances from automobile, motorcycle, electric car, fluorescence lamp, blower etc? • If there are disturbances from the other TV set, PC, game machine and wireless broadcasting station?
Double or triple image	• Whether there is any reflection of broadcasting signal from mountain or building? • Whether the antenna position is changed or not?
Snowy picture	• Whether the antenna connection is disconnected or fallen off? • Whether the antenna position is changed or not?
The remote control do not work	• Whether the batteries in the remote control unit are used up or not? • Whether the installation of the batteries is correct or not? • Whether there is any barrier between the remote control and the infrared receiver? • Whether the infrared receiver is influenced by strong light? • Whether the main power supply is connected?

The cases shown below are not breakdowns:

Snapping sound from the cabinet of the TV set	• The snapping sound is caused by the telescoping of the cabinet due to the temperature changing. It is normal, please use it reassuringly.
Uneven colour sometimes appearing on a part of the screen	• This kind of uneven colour may be caused by bright picture setting. • Even colour can be recovered by decreasing contrast.

Note If the breakdown can't be cleared after you doing by above steps, please get in touch with the local center of service and don't open the back cover yourself.
