Warning and cautions

1 When you clean the TV set, please pull out the power plug from AC outlet. Don't clean the cabinet and the screen with benzene, petrol and other chemicals.

4. Do not place the TV set near rain or moisture as it may cause an electric shock, or the TV set to catch fire. The TV set must only be used in dry in door locations.

2 In order to prolong the using life of the TV set, please place it on a ventilated place.

5. The back cover must only be removed by a registered electrical service person. Removing the back cover may result in electric shock, fire or damage to the TV set.

3 Don't place the TV set in the sunshine or near heat source.

6. If the TV set is not going to be used for a long time, or there is a severe thunder & Lighting storm, it is recommended that the TV set be disconnected from the AC power outlet and the aerial plug removed.

Explanation on the display tube

In general, it is not needed to clean the tube surface. However, necessary, it's surface can be cleaned with a dry cotton cloth after cutting off the power. Don't use any cleanser. If using hard cloth, the tube surface will be damaged.

Installation

Antenna connection

Generally speaking, to enjoy a clearer picture, we recommend that you use a CATV system or an outdoor antenna. In different places, the suitable antenna type and position are different.

Note:

- * It is recommended that you'd better use 75Ω coaxial cable to remove the disturbance caused by airwave.
- * Don't bind antenna cable and power wire together.

Preparation of the remote control unit

Battery installation

Take off the battery compartment cover. Place two AA batteries, make sure that battery polarity matches with the +/- mark inside the battery compartment.

Operation notes for the remote control unit

- Under normal conditions, the life time of batteries is one year.
- If you don't intend to use the unit for a long period or the electricity of the batteries is used up, remove the batteries to prevent batteries acid from leaking into the battery compartment.
- Don't throw your batteries into a fire. Dispose of your batteries with a specified method.
- Avoid the falling and the wetting of the remote control unit.

Switching on/ off the TV set

- In the following, the methods of using power switch and the remote control to switch on/off power supply for the TV set will be explained.

Switching on/ off the TV set

Switching on/ off the TV set

1 Please press down the power switch to switch on AC power supply and the power indicator will light .

2 If the indicator is lighting in red, press button  on the remote control again.

Note:

1 When you don't operate the TV set with the remote control, you can turn on it directly by pressing the P+/- buttons on the TV set.

4
AUTO
BG
144.25MHz

2 If you want to exchange to standing by status, please press down button  on the remote control.

3 If you want to fully switch off the power supply for the TV set, please press down the power switch button on the TV set.

Auto switch-off function

When the "Back" function is ON, if an empty channel is selected or the TV programs are ended for the day, the power will be switched off 5 minutes later automatically. If the "OFF TIME" is ON, it will be switched off according to the presetting time. The auto power off function does not work under video input or when the background is off.

(Note: If the "Off timer" is less than 5 minutes, it will be switched off automatically to the presetting time.)

Watching TV

- You can watch TV program in a presetting channel.

Watching TV program

TUNE

How to select TV program

Select the desired program

1 Using "Program number" buttons

- Directly enter the channel number with the numeric keypad on the remote control.
- To select channel numbers from 10 ~ 99 press [-/-] button and enter the two digit channel number
- To select channel numbers from 100 ~ 218 press [-/-] button twice and enter the 3 digit channel number

2 Using the CH+/- buttons

- Press the CH+ button to select a channel number in number increasing direction.
- Press the CH- button to select a channel number in number decreasing direction.

Select the desired sound

Press the VOL-/+ buttons on the remote or the front of the TV set to adjust the volume level. The range is 0~99. When the volume buttons are pressed the volume level is displayed automatically on the TV screen.

If the colour of some channel is abnormal

Usually this should be set in the Auto position. However if the colours displayed on the screen are incorrect you can manually select the correct colour system. When finish remember to turn it back to auto again so that other programs will still work correctly. Press the TUNE button and the setting menu shown on the right will display on the screen.

TUNING	AUTO

DVD, VCD and other reproducing equipments

Troubleshooting guide

- To assist in location possible faults use help guide below.

BREAKDOWN PHENOMENON		CHECKING
PICTURE	SOUND	
 Picture with snow	 Noise	The aerial direction and connection
 Double or Triple Image	 Normal	This is called ghosting which can be minimized with an outside aerial, and good quality cable and terminations. Altering the aerial direction can also minimize this effect.
 Disturb	 Noise	Electrical interference which can be caused by cars, motorbikes etc, Fluorescent lamps and dirty insulators on overhead power cables.
 Normal	 No sound	Volume Sound mute
 No Picture	 No sound	Ensure that the power supply is connected to the TV set and turned on. Also ensure that the TV set is not in "Listen Mode" or that the brightness and contrast are not turned down.
 No colour	 Normal volume	Adjust colour control
 Scramble	 Normal or Weak Volume	Adjust channel again
 Colour Spot	 Normal volume	Colour Purity fault which can be caused by moving the TV set, placing magnets near the TV screen or turning on/off household appliances such as vacuum cleaners near the TV set. Turn the TV off with the mains power switch for 15 minutes. When the power is turn on again the TV set will automatically degauss the picture. In server cases leave the TV set turned off over night.

Note:

- If the fault can not be repaired using the above guide consult with your local authorized service center.
- The TV set must only be repaired by a qualified registered service person. Never attempt to remove the back cover as the TV set has dangerous voltages in side that may cause a fatality or fire.
- The cabinet may produce the occasional "snapping sound" This is normal and caused by the materials in the cabinet expanding with room temperature changes.
